

JUNCTION CITY NEWS.

In Trouble Through Taking a Young Woman's Jewelry.

Freight Traffic Demoralized.

A Break Down on The City Tramway.

Death of a Railroad Conductor.

(Copy Standard).

The county officials elect have all received their certificates of election and several have filed the required bond.

The trustees of the Elson, Hooper & Blumville irrigation companies yesterday filed their bonds with the county clerk.

The city tramway was not working yesterday on account of the breakdown of one of the locomotives. Operations will be resumed tomorrow.

The bell of the Christian church will give a Christmas dinner in some form on Thursday, Friday and Saturday of this week.

The body of John Holmquist, the unknown felon who was killed in a barroom on Friday, still lies at the morgue awaiting the arrival of the one who lives at Nampa, Idaho.

Donny Marshall, father of yesterday's boy, J. P. Jones, is in the preliminary trial at Salt Lake to await trial at the next term. Jones' bonds were placed at the extremely low sum of \$500 and the amount could not be raised by him.

The Union Pacific and the Southern Pacific freight platforms and houses are being equipped with are and incandescent lights. The improvement will be complete by the end of the month.

The sheep men are moving their flocks over the desert for the winter. Yesterday's large herds were seen on the desert. It is reported, however, that the water for the sheep is not sufficient.

Freight traffic on the Union Pacific was demoralized yesterday on account of the breakdown of one of the locomotives. Operations will be resumed tomorrow.

The sewer for two houses has been found to be broken down. The water from the house is running down the street. The city engineer is at work on it.

J. P. Spauld, yesterday received a death certificate for the death in Turin, Italy, of J. S. McCall, a former resident of Junction City. The deceased was a prominent Old Fellow and Mason and member of Wasmuth Division, G. O. C.

Yesterday was regular law and machinery to the Fourth district court and consequently no jury cases were tried. The case of the owner of the building was against Manager Brown for damages and possession of the building was over until Wednesday morning, when it will be called for trial.

Miss Millon, a former Miss Grande Western, yesterday running out of Junction City, but later of the Idaho division of the Union Pacific, died yesterday in the railroad hospital at a hospital of pneumonia. Wasmuth Division, G. O. C. will hold a body this morning at 12:05 o'clock for the funeral.

The gas well which, engine house, but well and all the necessary buildings were completed last night and everything is now in readiness for the machinery which is expected to arrive in about three weeks, having been delayed in shipment. Mr. Stephens does not expect to start his life before the middle of January.

The officers, newly elected, of the Junction City association held their first meeting with County Clerk Lefebvre yesterday. They are L. M. Jensen, president; Lars Hansen, Evan Jensen, Albert H. Garner, directors; Amos Allen, treasurer; Lars Peterson, secretary; and Wm. G. Myers, deputy secretary.

Deputy Sheriff Emmett returned yesterday from Huntsville where he arrested Edward Capps on a charge of burglary and larceny and threatened to kill T. M. Ferrin. During the past few weeks Capps has been making himself generally obnoxious to the residents of Huntsville and is accused of having destroyed considerable personal property which belonged to Ferrin. He took the county jail yesterday and will be held until his arraignment.

As a result of offering in pledge someone else's property five months ago last night in the city jail where he will remain until tomorrow morning and then be arraigned before Judge Fitzgerald, charged with obtaining money under false pretenses. Moore has for some time past been employed as a waiter at the European hotel and during his stay there became acquainted with Florence Selma, a socialite. Several days ago while at work, she gave her watch and ring, which she valued at \$80, into the care of Moore. Being rather hard up for cash, the latter pledged the watch and ring. Later he told Miss Selma that she had done and was assured, so she claimed, that it was "all right." It seems, however, that such was not the case, as Florence went to the Commissioner's office and obtained a warrant for Moore's arrest. Moore's attorney, after being compelled to give up the watch and ring, swore out a complaint, charging Moore with obtaining money under false pretenses and the case is now in court.

Miss Elmer-Well, I maintain that women can do anything that men can.

Mr. Garrison-Oh, no. The suggestion of your business is one woman can do no more.

Miss Elmer-Now, she can do anything but as good as an underwear as a man.

Mr. Garrison-Just imagine an unmarried woman getting up before a crowd and exclaiming, "Now, gentlemen, all I want is an underwear!"

Mr. Garrison-Well, I maintain that women can do anything that men can.

Miss Elmer-Now, she can do anything but as good as an underwear as a man.

SEE DIARRHEA.

A Prominent Deseret Expressman Offers a Reward for a Cure.

See diarrhea often occurs, particularly in the winter, in the confinement of the mother apartment. It is what is called an infantile colic, and is caused by the mother's diet.

If the baby is in the mother's arms, the temperature of the mother is always 98 degrees. I would try cooling the mother. On the other hand, if the temperature is 99 degrees, or higher, I would try warming it up to the temperature of the mother, or a little higher. When the temperature of a mother is just right, it may be known by the condition of the baby.

The air of any room is always warm at the top, where any mother, producing material is in the room, and for this reason I always put the strongest medicine in the bottom. Very often, when in the bottom, the mother's condition is such as to cause the baby to be in the bottom of the mother's arms.

I have found by years of experience that if a strong colic increases, it may be cured by setting it on the collar, bottom, and that a small colic which is in a state of disturbance can be cured, to become as well as death, by making it from the bottom of the collar up to the top, also closing most of the ventilation from the baby leaving the small colic will cause it to become quiet, and removing a whole lot from an uneasy strong colic will cause them to quiet down and clear company together for the rest of the winter. But all this should be attended to when the baby is in the bottom of the mother's arms, and in the bottom of the mother's arms, and in the bottom of the mother's arms.

It is in spite of all this prevention, some of them begin to cry the first day. I will say that, after trying all these things, I know let them alone, for I consider it a waste of time to fuss with them. If the mother does not agree, I can try giving them a light in a warm room. Fix a box to set on top of the baby, the same having a glass top, or, should a warm day occur, carry the baby out for a light, but after all this has been done the baby will generally be dead before June if they have the diarrhea, last enough to spot their clothes and the inside of the baby during midwinter or earlier.

One thing which is always against this feeding with single columns of food, which have become diseased, is that by doctoring there the disturbance required is apt to get other columns diseased, and cause them to become diseased, while otherwise they would have been quiet. The winter, quiet and all right. A change of food is sometimes beneficial; but, as I said before, the greatest success comes by letting them alone after placing them in the collar, preventing the temperature of the collar can be controlled so it shall not go above 98 or lower than 97 degrees F.

A strong Root Pill.

In the accompanying card is shown an arrangement made by a Maryland farmer to form a room under a straw rick in which to store turnips and potatoes. Concerning this novel rick the inventor writes as follows in the Philadelphia Press Journal.

I have kept with great satisfaction turnips and potatoes, and think it answers as well as a root cellar. I know it is far better than the kilns, as the contents are accessible at all times.

The gas well which, engine house, but well and all the necessary buildings were completed last night and everything is now in readiness for the machinery which is expected to arrive in about three weeks, having been delayed in shipment. Mr. Stephens does not expect to start his life before the middle of January.

CAST IRON FOR SALE.

From 100 lbs. per ton, and all other scrap metal, at the highest price paid for the same.

WATER TO LOAN.

WATCHES AND JEWELRY.

WHY THE DESERET NEWS SHOULD BE SUBSCRIBED FOR IN PREFERENCE TO ANY OTHER PAPER.

1.-It is the organ of the Church of Jesus Christ of Latter-day Saints, and the authorized medium through which the views, wishes and instructions of the Church authorities are expressed and given to the Saints.

2.-It may always be relied upon as advocating or defending the rights of every question proper for public journals to treat upon.

3.-It is devoted to the interests of the Latter-day Saints, and has, from its inception, valiantly defended their rights and advocated the principles to which they believe; and every Latter-day Saint should therefore feel under obligations to do his part in helping to sustain it.

4.-It is not published for speculation, and never has been, but for the good which it is capable of accomplishing, the profits, if any, there be derived from it, being devoted to extending its sphere of usefulness and benefiting the community.

5.-It is doing its utmost to establish home industries, among which are paper making and type-founding, stereotyping and electrotyping, - industries necessary to the development and independence of the community, but which, during their infancy (which in this Territory they have not yet passed), can only be carried on at a preliminary loss.

6.-There is no danger of any subscription to the News leading to get what he subscribes for through fellows of the business and a suspension of the publication - a result in the case of hundreds of newspaper ventures every year.

7.-It is printed in readable type, so that even the aged can peruse it without difficulty or labor in their perusal.

8.-It is free from objectionable advertisements, so that no parent need fear that his children will have their minds corrupted from having access to it; in fact, it retires thousands of dollars worth of the best paying advertisements annually, because it is devoted to the moral and spiritual interests of its readers instead of to getting gain at their expense.

9.-It is not regulated by public opinion nor the hope of gaining subscribers or advertisements. It advocates that which is right and condemns that which is wrong, regardless of results, financial or otherwise.

10.-It never manipulates its readers by placing off columns of self-praise for news items.

11.-The News practices no deception and resorts to no subterfuges to induce people to subscribe; but on the contrary, prefers to stand on its own merits, as the people's newspaper, with a promise only to do its utmost to give its patrons the full value of their money - a promise which it has endeavored to faithfully keep in the past.

12.-In conclusion, if a Latter-day Saint can afford to subscribe for only one newspaper, that paper should be the Deseret News; and if more than one, the News should invariably be the first.

Subscription Rates: A Year, \$2.00; Six Months, \$1.00; Three Months, \$0.50; Single Copies, \$0.10.
