**WINDY DOGS IN COATS**—Pinto and quarts of filthy catarrhal discharges. Where does it come from? The mucous membrane, lining the chambers of the nose, and its little glands are diseased, so that they draw from the blood its liquid, and exposure to the air changes it into corruption. This life-liquid was to build up the system, but it is extracted and the system is weakened by the loss. No cure, gain flesh and strength by using Dr. Pierce's Golden Medical Discovery, which also acts directly upon these glands, correcting them, applying Dr. Sage's Catarrh Remedy with Dr. Pierce's Nasal Douche, the only method of restoring the upper cavities where the discharge accumulates and comes from.

# LOCAL AND OTHER MATTERS.

**THEMOMETER** 56 degrees F. in the shade, at 1 P. M. to-day. Fine day.

**Beautiful.**—The weather is now as beautiful and "springy" as could well be desired.

**Firemen, Attention!**—The members of Wasatch Fire Engine Company are requested to assemble at their engine house on Friday evening at 7 o'clock, to participate in a brigade drill. **FRED. J. MAY,** Foreman.

**New Co-operative Store.**—The people of South Cottonwood Ward have determined upon opening a branch co-operative store, on the State Road, in connection with the one already running in the more eastern part of the ward. Bishop Joseph Rawlings was in town to-day, purchasing a stock of goods for the new branch store.

**For Switzerland.**—Elders J. U. Stucki and J. J. Walser, both of Bear Lake Valley, left this City this morning for Switzerland, to which country they have been called to go on missions. Elder Stucki goes to succeed Elder Huber as president of the Swiss and Italian mission.

**Runaway.**—This afternoon a horse with harness on dashed down East Temple Street and thence round the corner eastward along First South Street. Then followed a horseman tearing along, with hair streaming in the breeze, in pursuit. When last seen he was still keeping up the stern chase, which is proverbially a long one.

**Petty Stealing.**—A good deal of insignificant stealing is being done around this City just now. Yesterday a fellow actually walked off with a white wash brush belonging to a painter who was at work at a house in Little's Row. The party who took it is known and should return it to the owner and thus avoid disagreeable consequences.

**Temporary Suspension.**—Carson and Burzo have suspended the working of all of their furnaces, at West Jordan, for the purpose of making still further improvements at their works, among which are the fitting up of a new forty-horse power steam engine, new blowers, blast pipes, etc. As soon as these matters are completed the furnaces will be in full blast again. These gentlemen are doing a large and profitable business.

**Utah Affairs.**—The Pledge Record is of the opinion, respecting affairs in Utah, that "the best thing that could be done would be to make a fresh start. With just laws, impartially administered, the community would feel confidence and security to an extent that has not been experienced, and these senseless bickerings would entirely disappear."

Yes, "just laws, impartially administered," is what we contend for all the time. As to "senseless bickerings," we take no stock in them at any price.

**Fugitive.**—One of a group of young men, standing at the Z. C. M. L. corner yesterday evening, observed a little dog at his feet, and for want of something better to do, kicked it. The act was soon repeated, for scarcely had the first howl of the injured canine resounded in his ears than a sonorous voice inquired why the kick had been inflicted. The answer not being satisfactory, the owner of voice and dog proceeded to inflict condign punishment. The young fellow, after receiving a pretty hard blow on the mouth, thought discretion the better part of valor, and fled. In speaking of the matter afterwards he said, "Who would have thought there was so much strength in the old man?" This man is not so old as he looks. "Love me, love my dog."

**The British Mission.**—By the *Millennium Star* we learn that a district meeting was held at Wymondham, Norfolk, Sunday, March 30. Present on the stand—Frank L. J. Harrell, Elders Robert W. Heyborne, Chester Call and John H. Burrows.

A Priesthood meeting was held in the morning. The Wymondham Branch was reported by Elder Wheeler, Hingham Branch by Elder Gibbs, and Norwich Branch by Elder Nichols. Presd. Heyborne and Elder Call also reported the condition of the Branches in other parts of the Conference. The reports of all these brethren were very satisfactory, it being stated that an improvement was visible on the part of the Saints.

Meetings were held in the afternoon and evening, and the congregations were addressed by Pres. Harrell and Elders R. W. Heyborne, Chester Call and J. H. Burrows.

This district meeting, which was the first of the kind held in that part of the country for several years past, was well attended by the Saints from the surrounding Branches, and they expressed themselves greatly pleased and satisfied with the occasion.

**District Court.**—District Court opened this morning, J. B. McKim, C. J., presiding. **Ludwig Christensen, C. C. Goodwin, Daniel F. Toomey, George Samson, Alexander Henderson, Samuel Dye and Stephen Davis** were admitted to citizenship, by naturalization.

Three cases in which L. N. Colburn was plaintiff and Henry Aldman was one of the defendants, two in judgment and one in chancery, were dismissed by consent of counsel.

**South Ann Cook vs. P. Young, et al.** In this case a motion yesterday to quash the execution was overruled, and an appeal was taken. To-day defendant's counsel asked the Court to say, for the benefit of the executive officer of the Court, that the appeal stays proceedings.

The regular business having been disposed of, the Mayor recommended the Council to take some measure that would insure correct weights in the coal trade.

The matter was referred to a committee, with instructions to investigate the subject and report to the Council.

on the execution. This point was being argued when our reporter left the Court.

**Fugitive.**—Yesterday evening George L. Lloyd, an old jailbird, presented a check, for a sum in the vicinity of a hundred dollars, on the First National Bank of Salt Lake City, to Mr. Forsythe, at his office, Exchange Buildings, and asked him to cash it for him. The check purported to be signed by the military paymaster of Camp Douglas. Mr. Forsythe scrutinized somewhat, at first, to accept of it, but, after asking Lloyd some questions, he was afterwards led to suppose the paper to be genuine, and he paid him \$92 for it. On presenting it at the bank on which it purported to have been drawn, Mr. Forsythe discovered, this morning, that it was a forgery. Up till this afternoon Lloyd had not been arrested.

**Mining Interests.**—Yesterday afternoon we were called upon by Prof. R. O. Thompson, mining editor of the St. Louis "Railway Register and Mining Journal." He is here in the interests of that paper, and while he remains, he will occupy himself in examining the mines, tunnels and furnaces in the Territory, with a view to giving publication to correct statements concerning them. By this means it is probable that capitalists in St. Louis and other parts of Missouri will be led to invest here. Prof. Thompson is making extensive collections of specimens of ore from all the mines in the west to place in the St. Louis Exchange. In order to exhibit the mineral wealth of Utah he wishes not only to obtain specimens of ore, but of bullion, lead, slag, flux, &c., from all the furnaces. The Mining Exchange has now over 15,000 on exhibition, 3,000 of which are from Colorado, and but very few are from Utah. Prof. Thompson is stopping at the Great Western Hotel.

**Theatre.**—A fairly numerous audience assembled at the Theatre last night, on the occasion of the benefit to Miss Carrie Cogswell. Mr. Sawtelle's new play was loudly applauded, especially by the upper circles. There is abundance of stirring and exciting business in it, as might be expected in a tale of the West, which caused a lively feeling all over the house.

Miss Lizette Davis sang the ballad, "Marry for Love," and received an encore.

In consequence of the indisposition of Mr. Croble the farce of "Paddy's Mischief" was substituted for "Sketches in India."

This evening the great historical drama of "Lucretia Borgia," will be presented, with the following cast of the principal characters—Miss Walters as "Lucretia Borgia," Mrs. Croble as "Princess Negroni," Mr. Sawtelle as "Gennaro," Mr. Croble as "Jeppe," Mr. Thorne as "Gubetta," Mr. Forster as "Orsini," and Mr. Rea as "D'Este."

The performance will conclude with the farce of "The Fool of the Family," in which Messrs. Croble and Thorne, and Messdames Croble and Belle Douglas will appear and make fun.

On Thursday evening, "Caught in the Snare" and "Pocahontas." On Friday evening, for the benefit of Mr. J. H. Vinson, an original sensation drama, by W. Sherwood Johnson, Esq.

**City Council.**—Council met last evening, Mayor Wells presiding. Resolution of L. Pratt and others, asking the Council to repair a certain portion of North Temple Street, near petitioners' residences, was referred to committee on streets and alleys.

Petition of H. Walters and thirteen others, relating to the opening of certain streets near Agricultural Park, was referred to the same committee.

Petition of R. W. McAllister asking to be permitted to deposit building material on a portion of the street and sidewalk in front of his residence, was granted.

The committee to whom was referred the petition of Amos Fielding, relating to the digging of a ditch through the south-western portion of the 5th Ward, for draining purposes, recommended that the ditch be dug, and that the Council appropriate the sum of forty dollars for the purpose. Adopted.

Report of committee on streets and alleys, to whom was referred the petition of A. M. Mosser and others, asking the Council to improve the sidewalk and lay plank crossings across the streets from the Danmar News office to the depot, was favorable to the prayer of the petitioners, and it was decided to make the improvements recommended.

The committee on license, to whom was referred the subject of reducing the license of butchers and dealers in fresh meats, reported an ordinance reducing their license from one hundred to fifty dollars per annum. Adopted.

Report of Alderman Clinton stated that seventy cases had been tried during the month ending March 31; the total amount of cash collected on fines was \$217.15, and the total amount of labor fine was \$492.00.

A communication from H. J. Faust was read. It set forth that, as the City did not appear to be able to purchase material for and have constructed the water-works, he proposed to act for the City in obtaining a loan of the necessary amount from parties in the East, providing that, if he should be successful in the loan, at an interest not exceeding twelve per cent. per annum, the Council would pay the expenses of his trip, and if unsuccessful he would bear his own, as he contemplated going East soon.

Referred to committee on water works.

investigate the subject and report to the Council. This point was being argued when our reporter left the Court.

## Correspondence.

**Shocking R. R. Accident.**  
OGDEN CITY, April 7, 1874.  
**Editor Deseret News:**

About eleven o'clock this morning, Friday, fourteen yards of aged, named Israel Weston, son of Simon Weston, went down to the depot to collect coal. While there one of the U. T. Company's engines came along, when the boy attempted to jump on the "cowcatcher" while the engine was in motion, with the intention of taking a ride. In this attempt he was unsuccessful, and fell from the engine passed over him and the body of the boy is most fearfully mangled. Both legs are broken in two places at the thighs and near the feet. The bones are badly crushed and protrude at considerable length through the flesh. The right arm near the shoulder is also terribly mangled, through which also the bones protrude. The bowels are very much bruised and discolored, but not cut. He is a fearful sight to see, and a melancholy example of such rashness as he attempted.

The boy was promptly taken home, and Dr. Brown was immediately called in to assist the surgeon. The doctor informs me that there is no hope, and that nothing can be done to save the life of the unfortunate child. He believes that death will ensue within twenty hours after the occurrence of the accident. He could amputate the right arm, but this would not help the sufferer; and, as he fully believes the wounds are fatal, he advised the afflicted parents to let the child die with his limbs on. This is what the boy most earnestly desired.

The father, Mr. Simon Weston, with his family, lived in this city with the last company of emigrants last fall, from Leicester, England. He has been working since that time at his trade as a cooper, but he is at present in indifferent circumstances. As soon as the sad event was known his shopmates commenced a subscription among themselves to assist the sickly fellow-workman in his distress, which is very timely and will be appreciated.

### TO-DAY'S DISPATCHES.

#### CONGRESSIONAL.

##### SENATE.

**Women's Aid for Indians.**  
WASHINGTON, 8. — Oglesby presented a memorial asking the appointment of a delegation, partly women, to visit, and devise means of improving the condition of the Indians; referred.

##### EASTERN.

**Providence, R. I.**—The bankruptcy proceedings against the Sprague Manufacturing Company were discontinued this morning.

**\$30,000 Fire.**  
WORCESTER, Mass., 8. — The Episcopal church was burned last night; loss \$30,000.

**Fatally Shot—The "Europe."**  
NEW YORK, 8. — Early this morning, Dooney Harris, the well-known "Europe" steamer, was shot in the forenoon, Amity Street, and South Fifth avenue, with Wm. Clough, son of Professor Clough, and was probably fatally shot; Clough escaped.

The steamship *Europe*, which foundered at sea, on the voyage from Havre to this port, was one of the finest ships in the French Trans-Atlantic Company's fleet, and was considered to be a worthy and well found in every respect. She was lengthened last year at New York, and was altered from a side-wheel to a propeller. She was commanded by Captain Lemaire, an able and experienced officer who has been in the employ of the company a number of years.

She was valued at one and a quarter million, and was insured in French companies for about two-thirds of her value. The cargo was very valuable, being chiefly silks, wines and other goods. The agents think the value of the cargo was not less than one million, which is probably insured. The Greeks, with her rescued passengers, is expected to be towed to the harbor. The necessity of abandoning the steamer arose from the choking of the pumps; the origin of the disaster is not well known.

##### MURDER AND SUICIDE.

**SAN FRANCISCO, 8.**—Another murder and suicide occurred to-day; a man named Macey shot another, named Calhoun, through the head, and then shot himself in the stomach. The cause of the act is not known.

##### FOREIGN.
