#### Sheriff Abbott Believes He Arrested One Last Night.

#### [SPECIAL TO THE "NEWS."]

Kaysville, Jan. 30 .- Sheriff Abbott last night arrested what he believed to be a woman fire bug. He himself swore to the complaint, the specific charge being arson. The accused is Mrs. Ella Curtis Garlick, a sister of the Curtis beys now in the State prison for rob-bery in Salt Lake county. She is the wife of a soldier of the Sixteenth infan-try, who participated in the battle at San Juan hill.

It will be remebered that on Novem-ber 23 last, the saloon of Swan & Company at Kaysville was set on fire. Sus-picion rested on Mrs. Garlick at the time, but she was not arrested until last night. She was taken before Jus-tice Galley today and pleaded not guilty.

The suspicion was caused to rest upon Mrs. Garlick by some expressions which she made on last Friday during a fracas which she had with her husband. During the row she brandished a gun and would in all probability have shot her husband had she not been disarmed in time,

Lehl, Utah, Jan. 30 .- Mr. Charles N. Cox, manager of the Colorado Beet Sugar company, arrived here this morning. He comes with the object of securing a number of farmers from Utah sugar beet growing district, to go to Grand Junction and aid the farmers there in raising beets for the Colorado factory.

The Colorado Beet Sugar company has had a representative here in the person of Mr. Joseph Russon during the past month to work up this question, and up to this date sixteen familles have agreed to move there early in the spring. The proposition offered by the Colorado Sugar company is as follows. They will either sell the land to the settlers at a reasonable figure, ranging from \$35 to \$40 per acre, taking a certain persentage of the beets raised

each year until the land is paid for; or they will rent it to the farmers at a very low rate providing the farmers will agree to put 75 per cent of the land

into beets. The attorneys for the board of edu-Mr. Cox states that they have an unlimited amount of good land and an abundance of water there but lack the proper class of farmers to work the He states also that the beets raised last season averaged 15 2-10 per cent sugar with S2 per cent purity, which is a wonderful showing for the first season, but on account of the lack of experienced farmers the crop did not meet their full expectations. Mr. Cox further states that he would like a large colony to go and settle there and that the company will, furnish them every facility and give them land in one locality where they can all live together and name their own settlement.

elections in its investigation of the charges against Senator Clark of that State. Mr. Geiger said he had been the Republican candidate for the Senate from Flathead county. He was asked whether he had not said in his speech accepting the nomination that his vote could not be purchased for a Democrat for the Senate. He replied that it was his intention to convey the idea that he could not be "handled." He had said that if he sold out he hoped his constituents would take him out and hang him, "and I still feel that way," he said. He had not said that he would not vote for any Democrat, but it had been

his intention to prevent a deadlock. He had also said that there were other matters more important to come before the legislature than the election of some rich man for United States senator

Upon being questionend concerning his financial condition when he was nominated, he said it was "just moder-ate." He had been in the hotel bustness and had sold out; he could not re-member just how much he received, but after much questioning said he thought the amount was about \$250. He had also received \$200 from his mother's estate and had borrowed \$300 for the campaign.

After he was given his seat he had voted twice for Leonard for senator and then for W. A. Clark. Mr. Geiger hesitated considerably over a question as to what money he had deposited in the First National bank at Kalispel during or since the sifting of the legis-lature, but admitted that in May last he had bought a draft for \$2,500, paying currence, for it. Ho had afterwards currency for it. He had afterwards in August, opened an account at that bank, depositing \$890 in currency in the name of "John H. Geiger, agent." Since that time he had made other deposits and had borrowed from the bank \$2,300, He had got the \$2,500 first deposited from several sources, including \$500 or for his service and mileage in the legislature. "Some of it I got at poker and the

faro bank," he said, and added: "I don't remember whether I won any at poker--my experience was about even; but at faro I did."

'Did you win \$2,000 at faro?" 'It was some short of \$2,000, but at

Helena and Butte together I think I quit about \$1,500 or \$1,800 ahead." You were a State senator; did you not know it was a misdemeanor to play

fare Well, I was about as conscientious in that matter as some other Montana officials."

Continuing this explanation he said he had never made any great winning at one time, never more than \$180, but that he had been uniformly lucky and had played often. He had also gotten had played often. He had also gotten \$100 in money for mining stock sold to Spokane parties. "How do you explain the fact that

you had so much better luck at faro after you entered the legislature than before?" asked Senator Chandler of Mr. Geiger "Why, Senator," was the reply, "I
