living, worry, or whatever it may be. Then the nerves must be given special nourishment and the blood must be kept pure and rich. This is the mission of Dr. Williams' Pink Pills and this is why the pills have been used with such great success in nervous trouble that did not yield to ordinary methods of treatment. These pills are a tonic for both men and women but are especially adapted for girls and women of all ages, and give just the aid required to bring back health and strength to the nervous and exhausted as is shown by the experience of Mez R P. Taylor of Obligation Kernet of Mrs. R. P. Taylor, of Oakland, Kans.

"I am glad to recommend Dr. Wil-liams' Pink Pills to weak and nervous women, because they build and tone up the whole system and give lasting bene-fit. Some years ago I had nervous de-bility and seemed to be on the verge of a collapse. I was all broken down. My a collapse. I was all broken down. My heart beat so fast at times that it would frighten me. I had smothering sensa-tions and felt as though I was going to faint. These spells came on me fre-quently. My stomach was affected. I did not enjoy my meals but had to force the food down. I often had severe ner-wons head aches which wade me discr yous headaches which made me dizzy. I was greatly reduced in weight.

She savs:

"The doctors pronounced my troubly weakness and nervous debility. He would help me for a while and I would think I was getting better but as soon as I quit taking his medicine I would become as bad as ever. I had been sick for over two years, before I decided to try Dr. Williams' Pink Pills. A few boxes proved to me that the pills were helping me and I used them until en-tirely cured. I occasionally take the pills now as a tonic and always find Immediate relief. Dr. Williams' Pink Pills contain the

elements necessary to make new blood and, as the nerves get their nourishment from the blood, have been found invalu-able in a wide range of diseases of the blood and nerves, such as theumatism, after-effects of the grip and fevers, neuralgia, nervous debility. St. Vitus' dance and even partial paralysis and

otor ataxia. Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price. 50 cents per box; six boxes for \$2.50, by the Dr. Williams Medicine Co. Schenectady, N. Y.

in welcoming the explorer. A HURRY UP CALL.

still to make two observations and the tee was very broken here. But my spirits were high and I shouted like a boy. The Eakimos looked at one an-other, surprised at my galety. They did not share my joy. "I felt that I ought to be there. I made my last observation and found that I was standing on the pole. "My feelings-well. I was too tired really to feel any sensation. I planted the Stars and Stripes in the ice field and my heart grew warm when I saw it wave in the wind. "How does the north pole look?" was naked.

CONTINUOUS DANCING AT SALT-

tensen's orchestra and Heid's Band

"How does the north pole look?" was asked. "Well, said Dr. Cook, smiling, 'it amounts to the size of a 25-cent plece. There is nothing to see but ice, ice; no water, only ice. There were more holes here than at the 87th degree, which shows there is a movement and drift here; but this and other observa-tions I made afterwards-when I got more settled. I stopped two days at the pole and I assure you it was not casy to say good-bye to the spot. "As I was slitting at the pole. I could not help smiling at the pole. I could not help smiling at the pole who expedition a humbug. I was sure the people would say that I had bought my two witnesses and that my noiebook with my daily observations had been minufactured on board this ship. "The only thing I can put up against

BEESWAX FROM UGANDA.

Washington, Sept. 4.-Beeswax is estined to become one of the staphsports of the Uganda Consul Arthur farrels of Zanghas declares that the natives of liganda are becoming en-thusiastic in the domestication of bees for the production of wax. This is one of the few products that can be ex-parted at any profit from the land of the Nile.

While Eczema, Acns, Tetter, Salt Rheum, etc., are troubles which affect the akin, their source is far deeper than the outside cuticie. These affections are caused by irritating humons, or uratic acid in the blood. Such impurities inflame and irritate the delicate net-work of fibrous tissue which lies just beneath the surface of the outer skin, and the inflammatory discharge thus produced is forced out through the pores and glands, and is continually kept up while the blood remains infected. This exudation causes the form-ation of scales and crusts so often seen in Eczema, and when they are scratched off the fiesh is left raw and more susceptible to other infection. It can very readily be seen then that to produce a cure the circulation must be purified and cleansed. This S. S. S. will do. It goes down to the very bottom, removes all humors and impurities, neutralizes the excessive acid of the system and in this way removes the cause of disease. Local applications can only soothe the irritation and assist in keeping the skin clean; the nover produce a cure because such treatment does not reach the blood 5.5.8 restores to the thin, acrid blood all its lost properties, makes i pure and rich and enables it to nourish the skin and keep it soft, smooth and healthy. Book on Skin Diseases and any medical advice free to all who write.

The Exceptional

Equipment

of the California Fig Syrup Co. and the scientific attainments of its chemists have rendered possible the production of Syrup of Figs and Elixir of Senna, in all of its excellence, by obtaining the pure medieinal principles of plants known to act most beneficially and combining them most skillfully, in the right proportions, with its wholesome and refreshing Syrup of California Figs.

As there is only one genuine Syrup of Figs and Elixir of Senna and as the genuine is manufactured by an original method known to the California Fig Syrup Co. only, it is always necessary to buy the genuine to get its beneficial effects.

A knowledge of the above facts enables one to decline imitations or to return them if upon viewing the package, the full name of the California Fig Syrup Co. is not found printed on the front thereof

voice "I followed him to the cabin. His face was tanned from exposure. His face was tanned from exposure. His fooked the picturs of splendid beatth. Only when he smilled, one noticed the loas of two teeth. 'A fight with a polar bras did that,' he said. 'You can tell the world,' the explorer continued. 'That I am in better condition than at any time, and look forward with an appelle to the festivities that are promised me. My dinner has been poor these last few years, and I shall have to make up for it.' DAY OF DISCOVERY. DAY OF DISCOVERY.

THE RETURN JOURNEY. "Describing the return journey, Dr. Cook said:

Cook said: "Fortune now smilled. We did 20 miles per day until we reached the ominous eighty-seventh degree. Then I felt the ice moving eastward, carry-ing us with it. A terrible fog swept around us and kept us for three weeks. We got no farther than the eightyfourth degree. Then began a heavy walk toward Heibergsland and another three weeks of fog. When that cleared I saw we had drifted southwest to Ringnesland, where we found open wa-

tingnesiano, where we found open wa-ter and tower-high screw ice, which stopped our way eastward. "We now bigan to suffer hunger. Our provisions were becoming exhaust-ed and we were unable to find depots ed and we were unable to find depots. We entered Ringmeeland and on June 20 found the first animals of our re-turn-bear and neal. We shot a bear. - 'And now our goal was the whal-ers at Lancaster sound. We followed the drift ice to the south eight miles a day, but were stopped by pack lee in Wellington channel, which was im-passable either by beat or sledge. Hers was lots of gaine, but we did not dare shoot it. We had only taken a hun-dred builets to the pole and now only 15 were loft. We went into Jones sound after walrus and bear and found open, clear water. We met polar wolves, with which some of our degs made friends and ran away. - 'We spent day and night in an open

"We spent day and night in an open boat 10 miles from shore. This lasted for two months, while storms often for two months, while storms often raged over our heads. At last we got ashore again, but we had no fuel and were obliged to eat uncooked food. Next may we found fuel and what a feast we had. But we suffered much hunger during this period. One hight a bear came and stole our food. We had many other action of the second stored of the second of the second second stored of the second of the second second second second second second of the second sec rights with musk os, which attacked us Our heat weapon against them was the

The correspondent's story quotes Dr

The correspondent's story quotes Dr. Cook as saying in conclusion: ""Say that the day we reached our provision stores at Etah was a greater day than April 21. I long to get back to civilization, to move among my fel-tow men: I long to press my wife to my heart. I am the happiest man ly-ing Tell the whole world I thank God I am back.""
