MINING, BUSINESS AND STOCKS

SUSAN DUSTER MINE AT PIOCHE

Big Body of High Grade Silver-Lead Ore Opened on Three Hundred-Foot Level.

OWNED BY OHIO-KENTUCKY.

While Information Was Not Unexpected, Nevertheless the News Has Been Received With Much Satisfaction.

Late advices from Pioche are to the effect that some important developments have been made on the 300-foot level of the Susan Duster mine of the Ohio Kentucky Mining company and in camp the impression prevails that the Susan Duster will develope into a proposition as important to the general welfare of Pioche as the Raymond & Ely mine has been in the past. The last report received from the superintendent of the Ohlo Kencucky company came yesterday in the shape of a telefram containing the information that

fram containing the information that the whole face of the 300 Susan Duster level is in ore carrying high grade values in lead and silver.

While this news has not been entirely unexpected, nevertheless, the report has been received with no small amount of satisfaction by those about the offices of the company in the Dooly block.

As soon as the railroad is completed into Ploche, the Ohio Kentucky company will be in excellent shape to inaugurate regular ore shipments.

ON MINING EXCHANGE.

Little Business for the Brokers to do These Days-Forenoon Transactions.

There was not much life displayed by the mining stock market today. With few exceptions, what trading was done during the forenoon, came from the Tintic list, from Blossom sold down to 60 cents. Sioux Consolidated feil to 42, but recovered slightly. Grand Central did business at \$4.45; while Victor Consolidated came out at 14½ cents. Some Seven Troughs was transferred.

Little was done with the unlisted. However, sales of Ely Witch were recorded at 75 cents, Ohio Kentucky at \$3.45; Mason Valley at \$1.67½ and Copper Glance at 14.

The closing quotations and sales were:

UTAH CONSOLIDATED.

Boston Comment Which is of Considerable Local Interest.

Boston Comment Which is of Considerable Local Interest.

The Boston Commercial of last Saturday devotes considerable space to Utah Consolidated and the editor, George L. Walker, says some interesting things about the story printed in the Boston News Bureau to the effect that the Utah Con. ore bodies had been cut off by a fault at the 800 level and thrown up the hill 1,200 feet into Yampa territory.

"The action of the market indicated," says Mr. Walker, "that careful preparation had been made in advance for the effect the story would have on Utah Consolidated stock. The affair recalled to the minds of brokers and others the similar story, published in the same news service when Utah was selling around \$41. It was then declared that the same winze had encountered the ore and found it very lean. Lawson attacked Utah at the same time, through the issue of "tissues," etc., and some believed that there was a secret understanding between them. The former onslaught carried the price of Utah down to \$39, and it afterwards advanced to \$79.

"It is interesting and suggestive that the latest story, from the source referred to, declares there is no ore at all at the point where the former story admitted its existence, but declared it lean or low grade.

"A newspaper publisher is excusable if he occasionally, through unavoidable error, prints something that is misleading; but when he disregards well known facts, such conduct must be regarded as malicious. In Utah's report for 1904, Manager R. H. Channing, a gentleman whose integrity has never been questioned, said:
"An inclined winze was sunk in the

report for 1994. Manager R. H. Channing, a gentleman whose integrity has never been questioned, said:

"'An inclined winze was sunk in the foot wall of "M" ore body from No. 8 to No. 8½ level, 50 feet below. At this level a station has been cut, and a crosscut north is now being driven with the intention of developing the ore on this level before sinking to No. 9 level is resumed. This crosscut is at present 20 feet in ore, showing satisfactory values."

if present 20 feet in ore, showing satisfactory values.

"Here is a definite statement from Utah Consolidated's management that the ore was not only found at the 800 level, but also 50 feet below, and also that it showed satisfactory values.

level, but also 50 feet below, and also that it showed satisfactory values. This winze story was news three or four years ago. The winze was allowed to fill with water in 1805, and exploratory work was turned in other directions. In his report for 1905, Manager Channing said:

"Exploration work was confined to the upper levels for although the lowest workings in all the ore shoots are in ore, and by sinking additional ore reserves could be put in sight, it was considered better policy to first thoroughly explore the upper portion of the mine, both from the standpoint of good mining and to aviod constant pumping and hoisting expense.

"Here is a positive statement from Manager Channing that the ore reserves in the mine do go to depth, and that additional reserves could be created by sinking. Nobody will doubt the accuracy of his statement. Yet, two or three years after the developments referred to were made and the facts concerning them given officially to stockholders, there comes this "specially prepared news story which disresards the facts and presents statements and rumors to fit the occanion."

Risque has not advised is not to build a new see company has just made on the purchase price of nelter site. Former Manding, who knew the mine logy of the district better see elese, planned to etxend trough the mountains and consolidated's ore bodies low present workings. Of would have made such a atton unless he kenw to a certainty that the ore th.

went to depth.

The existence of a fault between the Utah Consolidated and Yampa mines has been known for years. The claim in which the Yampa is working, however, is only 260 feet wide, and Utah Consolidated owns properties completely surrounding it. It owns more of the Yampa's vein than the Yampa company itself.

"The fault in question probably cuts the big limestone belt which carries Utah's ore, several hundred, and perhaps thousands of feet below its tannel level. The ore is probably thrown up the hill some distance; but Utah Consolidated owns the apex, and all judicial precedents serve to demonstrate that the company will have the right to follow its ore regardless of faults,"

J. S. COMPANY IN OLD MEXICO

Has Gone Into That Country to Stay, Said Traffic Manager Geo. W. Heintz Today.

ABSURD DISPATCH.

Story That American Smelting Com pany Had Forced Competitor From Southern Field Denied.

One of the local morning papers contained a special dispatch from the City of Mexico to the effect that the United States Smelting, Refining and Mining company had been forced to retire from the smelting business in the republic of Mexico through its ompetitor, the American Smelting and Refining company, having gained control of all the fluxing ores obtainable in that country. Local mining able in that country. Local miningmen who know something about the properties and operation of the United States company declare that no such condition as that indicated in the dispatch exists; that it is simply ridiculous for anyone to suppose that the American or any other smelting company has a monopoly on all of the fluxing ores produced in that vast mineral regions contained that vast mineral regions contained in the country to the south. The dispatch was read with considerable interest by Traffic Manager George W. Heintz and when asked if he had mything to say reagrding the matter veryiled.

replied:

"I do not know who instigated the dispatch from Mexico, but whomsoever authorized it must be getting frightened at the aggression of the United States Smelting, Refining and Mining company in the republic of Mexico. The United States company is in Mexico to stay. It already has 18 working mines and two new and thoroughly equipped mills at Pachuca and Real del Monte and the erection of one or more smelters is merely a question of time."

The United States company is a big concern. It has already spent millions of dollars in Mexico and, as Mr. Heintz says, has undoubtedly gone there to stay.

The ownership of the Real del Monte mine in Mexico is one of the very valuable assets of the United States company and the last annual report, of the company shows that over \$1,000,000 has been expended on development and equipment on this property alone; which certainly does not look like the field will be given up to the American Smelting and Refining company entirety. I do not know who instigated the

Smelting and Re-

in to the American Smelling and fining company entirely.

The story printed in the morning paper reads:

"The United States Smelling, Re-"The United States Smeiting, Refining and Mining company, which has been attempting for more than a year to gain a foothold in Mexico, has at last been forced to retire from the country on account of the competition of the American Smeiting and Refining company. The first mentioned concern acquired a concession to erect a large smeiting plant at Jiminez, Mexico, and as a preliminary step it undertook to purchase mines that would furnish the proposed smelter with fluxing ore. It was soon found that the American Smelting and Refining company was in control of all the fluxing ores in Mexico, and that it had absolute control of the smelting situation. It owns or controls all of the smelters in this country with the exception of a few small plants which are run in connection plants which are run in connection with independent mining properties."

MR. KADISH HERE.

Construction of Tintic Smelter and Enreka Ry. Progressing Nicely.

Bela Kadish, manager of the Utah Bela Kadish, manager of the Utah Smelting company operating at Ogden, is in the city today on a brief business trip and to a "News" representative during the day stated that the plant near the Junction City is running steadily up to about its capacity. Ores are coming to it from all points of the compass and Bingham is contributing a good part of this tonnage.

The excavations for the plant to he erected by the Tintle Smelting company in the Tintle mining district are almost completed, Mr. Kadish states, and some material for the states, and some material for the buildings has begun to arrive. The grading and construction of the Eureka railway, which will consect the principal mines of the Tintic dis-trict with the smelter, is progressing very satisfactorily.

SIX MILLION DOLLAR CORPORATION TODAY.

The Silver King Coalition Mines company of Carson City, Nev., which is the consolidation of the Silver King company of Carson City, Nev., which is the consolidation of the Silver King and several other large producers in Park City, filed a copy of its articles of incorporation with the secretary of state today. The capital stock of the company is \$6,250,000, divided into shares of the par value of \$5 each. The fee paid to the state for filing the copy of the articles amounted to \$1,570, which is one of the largest fees paid by any corporation this year.

The stock of the new company is fully subscribed and the subscription stock is placed as follows: Mary Judge, 93,000 shares: David Keith, 164,677; Thomas Kearns, 167,314; W. V. Rice, 41,335; W. S. McCornick, 50,750; James Ivers, 20,000; J. S. Bransford, 119,500; W. Mont Ferry, 145,405; Thomas Kearns, trustoe, 438,019,

According to the articles the company takes over the property of the Silver King Mining company, the Kearns-Keith Mining company, Baltimore-St. Louis Mining company, all located in the Park City district, Summit county. The copy of the articles was filed by President David Keith and Secy. F. J. Westcott, the agent for the company in Utah.

AFTER MORE GROUND.

Silver King Wants More Territory in Thaynes Canyon.

Thay wes Canyon.

It is understood, and it comes from pretty good authority, says the Fark Record, that the big King company is not yet satisfied with its immense holdings in this camp and is negotiating for the purchase of further Thaynes canyon properties. Chief among those desired it seems, is the D. & M. ground owned by Mossrs. Duffy and Mara, who for a number of years operated it and succeeded in making a very good showing, several shipments of high grade ore having been made from the mine. Some time ago Messrs. Duffy and Mara entered into negotiation with W. H. schmidlapp, a capitalist of Cincinnati, for the sale of the ground and not long afterward it was reported that

the deal had been formally closed, and that the castern purities would commence at once the development of the ground. Buch, however, was not the case, the deal having fallen through, and nothing new had been done with it until quite recently, when the King people decided that it would be a valuable acquisition for them. More definite information concerning the transaction will very probably be released in the near future. The ground is situated on the mountainside just back of the Comstock property, and is considered among the nost promising of the many Tmaynes canyon prospects. canyon prospects

POLLOCK'S COPPER LETTER.

The Boston market opened quiet and featureless and with trading but slightly more active than yesterday. Calumet and Hecla recorded a further gain of five points to 789, making a 25 point advance during the past few days. Around noon a number of buying orders appeared in Trinity, accompanied by the rumors that Lawson had returned and was about to inauguarte a sharp bull move in the stock. The price rapidly gained over three points, selling at about 23. The balance of the list, both coppers and miscellaneous were quiet and without special features. The market continued dull until close.

CONCENTRATES

John H. McChrystal has gone to Ne-vada to look after some mining inter-

Broker W. H. Havenor expects to leave for Nevada soon and will make a roundup of several of the principal min-

William H. Tibbals, the broker, expects to leave for Europe in August, where he will join his wife and daughter, who will return home with him. Ore shipments are about to be inaugurated from the property of the Ne-vada Fairview Mining comptny at Fairview, Nevada.

C. A. Walker has returned from a trip to the Dugway mining district where he has become interested in the Belcher group of mining claims.

The ore and bullion settlements re ported late yesterday by McCornick & Co. were: Crude ore and concentrates, \$26,000; base bullion, \$53,000.

The mill of the Keith-Kearns Min-The mill of the Keith-Kearns Mining company at Park City is being dismantled preparatory to the removal of the machinery over to the property of the Silver King Coalition Mines company. In the meantime the preliminary steps towards the increasing of the capacity of the Silver King mill are being taken.

At a meeting held yesterday by the newly elected board of directors of the Golden Sunbeam Mines company of Custer, Ida., organized as follows: C. E. Gable, president and manager; J. R. Rush, vice president; O. K. Lewis, secretary and treasurer. These, together with C. N. Strevell, Mrs. C. E. Gable, F. W. Rossberg, George B. Huffman, Lemuel S. Brock and E. S. Chaplin, constitute the board of directors.

A decree of condemnation by stipula A decree of condemnation by stipula-tion was entered by Judge Lewis today In the case of the Boston Consolidated Mining company against Amanda E. Clark. The stipulation provides that plaintiff shall pay defendant \$500 as damages for the taking of the ground and in the construction of its spur track should any ore be uncovered the com-pany agrees to carefully sort it and place it in a convenient place where the place it in a convenient place where the defendant may get it and ship it. The right of way condemned is over the Copper Mining company claim located

BILLIE BURKE A GOOD ACTRESS

London, June 18 .- Miss Billie Burke proved herself a capital actress and was warmly applicated as Madame Polacca in the revival tonight of Bernard's "Miss Ponderbury's Past." at the vaudeville theater. The cust includ-ed Charles Hawtrey.

FEW TRANSACTIONS IN STOCK MARKET

Announcement of More Gold Exports Caused a Rather Short Lived Selling Movement.

GENERAL LIST NEGLECTED.

Fluctuations Insignificant, the Undertone Being Heavy-Buying and Selling Orders Had Little Effect.

New York, June 19 .- Only a handful of stocks were dealt in during the first few minutes of trading today, Reading absorbing the bulk of the meager transactions. That stock advanced half and Northwest-

ern fell %. A brief selling movement began with the announcement of further gold exports. Reading. Union Pacific, Smelting and United States Steel preferred were driven down & and Amalgamated Copper 3s. The losses were largely recovered before 11

down \$\frac{1}{2}\$ and Amalgamated Copper \$\ceil_3\$. The josses were largely recovered before it of clock.

The general list was neglected, the business centering in a half dozen stocks.

The market fell into protound neglect at about last night's level of prices. Fluctuations were insignificant, but the undertone was heavy?

Bonds were dull and heavy.

The tone of the market became weaker and a few of the favorite stocks sold lower than in the forenoon, American Express advanced \$\text{9}\$ points and \$U\$. S. Express 5\frac{1}{2}\$.

Speculative operations practically ceased, the few buying and selling orders that were in the market making no impression whatever on prices. American Locomotive fell \$2\text{6}\$ and General Electric 1. Chicago Great Western preferred \$A\$ was bid up 1\frac{1}{2}\$.

The market closed dull and irregular. Reading hardened 1\frac{1}{2}\$ over last night. Great Northern Ore Certificates closed down 1\frac{1}{2}\$. Northern Pacific rose \$\frac{1}{2}\$.

medium, 17421; fine, 14616.

BOSTON.

Boston, June 18.—Recent large sales in imported fine wools have increased the volume of business in the local market, although trading along domestic lines continues quiet. There have been some arrivals of spring Texas stock, but the Arizona new wool is about all taken.

Recent heavy sales in one-fourth blood fleeces have exhausted the stock of fleece wools and dealers are awaiting the arrival of the new clip for quotations. Ore gons are bringing 275c; luaho wools are moving freely at 18639s, for clothing and 19021c for staple. Wyoming clips are selling at 19621c and there continues to be considerable business in Montana, 19622c. There are but few local quotations and business in fine grades is stagmant. There have been a few transfers in territory wool. The new Texas has been selling at 25c to 24c for a few lots. Quotations:

PRODUCE.

CHICAGO.

CHICAGO.

Chicago, June 19.—The wheat market opened active today and with easier prices. Cables were reported lower. Within a short time after the opening, however, the market raillied on a good demand by commission houses. Many of the reports from Kansas declared that the yield peracre in that state will be very small. September opened % to ½ lower at 55% to 55%, sold at 55% and then advanced to 54%. The corn market opened easier in sympathy with wheat, but later became firm because of light offerings. September opened % 45% lower at 55% 4055% and sold at 55% 4055%.

The oats market was strong on a good general demand which was based upon reports of damage by green bugs in Illinois and Indiana. September opened unchanged to ½ higher at 36% 367 and sold at 57%.

ed to ½ higher at 204,050 and sold at 37%.

Provisions were quiet and prices were firm because of a 3-cent advance in the price of live hogs. September pork one end 2075; higher at 16.12½ to 16.15. Lard was up a sindle at 8.50 and ribs were unchanged at 8.52.

Cash: Wheat—No. 2 red. 92,053; No. 3 hard, 84,93; No. 1 northern, 1.02,1.03; No. 2 do., 98,11.02; No. 2 spring, 34,41.01.
