the Tintic ores.

tricity; they will be able to hoist and operate their plants, shops and mills – in short they will be as modern and up-to-date as any mines in the country.

SPLENDID SHOWING.

No district in this state or in the country is showing up more splendidly than the Beaver district. New finds are being made every day and some of the coming big mines of the west are located there. The Cactus or New-house mine in proving up the country and exposing the immense mineral deand exposing the innuense mineral de-posits beneath barren ground has en-couraged dozens of other companies to get to depths and in every instance a mine is being opened up. There was just one handlcap; that was the unreliability of railroad facilities and coal supply. With both in bad shape power was shut off and mines had to lle idle until things cleared up. In furnishing the plant with a big capacity the company is providing power enough to sup-ply all mines and peoperties. The mine owners are jubilant and are watching eagerly the progress of the project. 50.

The Tintle Mine Operators' associa-tion is meeting in this city today. Among the Items under consideration is the old rate matter which has been brought up at nearly every meeting. The mine owners and operators are dissatisfied with present rates and sys-tems of levying rates upon ores shipped by them from the camp to the smalt-ers, and are trying to get the rail-roads to consider a scheme to be de-volved by them and threshed out by both partles. Numerous conferences have been held but they have resulted in nothing, but the mine owners are still hopeful. The railroads levy their rates upon the assay values of ore car-ried. The mines want to have the from the ore. For instance, a \$40 ore may go only helf or buck of the

John A. Kirby,

Ely, Nev., May 14.--W. H. Lang and M. B. O'Farrell, who came here from Goldfield a few days ago with Tex Richard today closed a deal for the purchase of \$215,000 worth of Ely stocks. The stocks purchased are the United Ely, Ely Calumet, Richard Ely, Boston Ely, Ely National. Dolly Var-den, Ely Giroux Extension, Salt Lake Ely, Ely Nevada Copper, and the West-ern Ely extension. This is the largest sale ever made This is the largest sale ever made This is the largest sale ever made in this county and ranks well up in the records of the state. The party came cross-country from Goldfield in an automobile, making the 247 miles across the desert in 11 hours which is considered remarkable. NEVADA-UTAH MEETING. Eastern Officials Expected Here Today

To Close Important Deal. Nevada-Utah officials from the east

Nevada-Utah officials from the east are expected to arrive in this city to-day to complete the deal involving an option of the Pioche Consolidated. This deal is one of the important things planned for Pioche. It has been as-serted that Thomas W. Lawson is to be placed in charge of the Nevada-Utah's affairs. The meeting in this city will be of great importance as it will probably bring to light many in-teresting affairs connected with the Nevada-Utah.

the Talisman is a big thing. A car of ore is leaving the property every week the work for 22 days, and he is highly encouraged. He has the right to be the month's record running up as high as six cars per month some months. The receipts from these cars snow aandsome profits but the management is pegging ahead in good shape to get the bigger things. In addition to producing several hundred tons of good silver, lead and

Commonwealth and Burning Moscow Are Opening Large Bodies of

Good Stuff.

The past few days has seen a big

change in the Beaver district and the next few days will see the change grow

bigger and better each day. The district is coming to the front in leaps.

P. J. Donahue of the Talisman returned

home today from that property in Bea-

ver and brought with him news of

continually improving conditions in his

property and new finds in surrouding

properties. While preferring to say

littl about the Tallisman just at the

present time, he admitted the mine

looks better to him than he had hoped

for, even, although perfectly confident

copper ore every month, the mine is yielding 10 tons of zinc ore per day. This stuff is being obtained by developnent work being carried on for other purposes, but as it goes 50 per cent who and as zinc is worth 15 cents, the rock is worth while and contributes materially to the earnings of the mine. STRIKES ON ALL SIDES.

Whiel Mr. Donahue was too busy ex-

amining the Talisman and mapping out a campaign of development while in camp to think of much else, he heard camp to think of much else, he heard hothing but good reports from other properties. The Cedar, lying next to the Talisman and one of the older proper-ties, is erecting buildings to accomodate a steam holsting plant. The Cedar is shipping two or more cars of ore every month and is anxious to get its plant in commission to permit shipping be-ing done on the scale the showing in the mine will justify. The shaft of the Commonwealth is reported to be in ore, the whole bottom being in copper sulphides. The Progressive has eight the mine will justify. The shaft of the Commonwealth is reported to be in ore, the whole bottom being in copper salphides. The Progressive has eight inches of \$1,000 rock. A sample of this stuff is all green and heavy. The Burning Moscow is opening a big body of good ore also.

INCREASE IS POSSIBLE.

Condition of Nevada Hills Makes Raise In Dividends Also Probable, In answer to direct inquiry from the

In answer to direct inquiry from the Goldfield News an official of the Nevada Hills Mining company stated Tuesday that the regu-lar quarterly dividend of that company would be paid in June; he stated that there was no question about a dividend of 10 cents per share and that it may be larger than this. It is known that the treasury of the company is in the most flattering con-dition, while there is sufficient ore sacked at the mine to make several distributions of 10 cents per share. An idea of the immense amount of sacked ore on hand can be had from the state-ment that 15 freight teams visited the mine Thursday, and after they had departed with their loaded wagons, no perceptible impression had been made leparted with their loaded wagons, no perceptible impression had been made on the great stacks. No, 5 tunnel is now driving for a point immediately below the gold strike made several weeks ago in No. 4 tunnel, and the two will be connected by a winze at that point. The product of this winze will unquestionably be sensational in character. that point. character.

TINTIC MERGER IS A GO.

Black Jack and Star Con. Are Now One Big Property.

The postponed meeting of the Star onsolidated stockholders was held esterday afternoon, and as was ex-ected the merger of that property with he Black Jack as outlined some weeks too went through without a dis-enting vote. The proposition was ubmitted by the Black Jack company -ith "Uncle" Jesse Knight at its head. The Black Jack amended its articles of
