AMERICAN.

WIRED FROM WASHINGTON.

The Commission Preparing Their Report.

CHICAGO, 25.—*Times'* Washington special says: The Utah Commissioners are here preparing their report to the President, and ex-Senator Ramsey, Judge Carlton and Mr. Godfrey had an interview of some length with the Secretary of the Interior to day. The first session of the full Commission will be held tomorrow. The three members named had a conference after leaving Secretary Teller as to the matters to be discussed in the report; they do not give any particulars as to what they will recommend, but in a general way they claim that while the Edmunds bill has not accomplished all that was hoped, it has accomplished something, and is in fact the first piece of anti-polygamous legislation that has done that. There are several points in regard to which their experience has led them to think that the law may be made more efficient, and they will recommend supplementary legislation. Judge Carlton says that while statistics on the subject of plural marriages can not be obtained, the result of careful inquiry by him, both in Salt Lake City and the farming regions, satisfies him that polygamy is decreasing. Four-fifths of the male Mormons, he says, are not, and never have been in polygamy. About a thousand officials of all kinds have been elected under the supervision of the commissioners, and while nearly all of them are Mormons, not one is or has been in polygamy. Monogamous Mormons, however, believe fully in polygamy, and he has not very strong hopes that the monogamous legislature recently elected will enact any law hostile to plural marriage. The register of one settlement appointed by the Commission told him that the only anti-Mormon votes cast at the last election were cast by himself and wife, and the Mormons cast about 500; but while plural marriages used to be very common in this solidly Mormon community, he was confident that not a case of the kind had occurred for a year, and he attributed this to the fear of the Edmunds law. The judge found no evidences of disloyalty to the government except in so far as the Mormons were determined to obey what they said was the voice of God rather than the commands of men, but they would never resort to resistance. The Judge did not believe that martial law would avail or that any good results would follow from the employment of troops.

Distorted Statement.

CINCINNATI, O., 25.—The attention of General Rosecrans was called to the article published this morning containing extracts from an interview with him, printed yesterday in the Washington *Republican*, in which he is severe upon the conduct of General Wood at the battle of Chickamauga, and in which he talks of the relations between himself and Gen. Garfield. He has sent to the *Commercial Gazette*, for publication to-morrow, this card:

The statements in your paper to-day under the caption of "Rebellion Reminiscences," are so distorted, jumbled and contrary to what I have always thought, known and stated, that nothing short of a disavowal of the whole thing will do justice to history.

Signed, W. S. ROSECRANS.

General Rosecrans, in conversation, expressed regret at the publication, especially at a time of reunion where he and General Wood are in attendance.

Depravity and Disaster.

SAN FRANCISCO, 25.—A new Chinese defrauding dodge has just been discovered. Several packages containing between 3,000 and 4,000 unstamped letters, brought over on the *Tokio* from Hong Kong by self-appointed Chinese mail agents, were seized to-day by the postal authorities. It was remarked that the Chinese correspondence was decreasing. A watch was set, resulting in the above discovery.

Denver, 25.—William Cleeland, Switchman at the Kansas Pacific yard, was crushed to death between two cars this morning.

One of the Mexicans implicated in the murder of four men at Danie, near Gardner, a few nights ago, was overtaken by a band of armed citizens last night. A rope was placed around his neck, the other end made fast to the horn of a saddle and the horse was then frightened into a run, dragging the poor culprit over rocks and stumps until life was extinct. When captured he stated that he, with his companions, had been hired to commit the murder.

Chicago, 25.—During the storm to-day, the canvas covering the rink fell, and Woodside, one of the riders in the day bicycle contest, was injured, but will be able to reappear and the race will be started again to-morrow.

Galveston, Texas, 25.—*News* Coleman special: A mass meeting of citizens last night considered the question of fence cutting. Both sides were represented. It was agreed that cutting be suspended for 15 days, in order to canvass the sentiment of the country. It was also stipulated that no more large pastures be enclosed till after the special session of the Legislature in January.

Tombstone, Ariz., 25. — W. H. Stewart, who has returned here from Swisshelm Mountains, says the Apaches have been routed by the Mexican troops, with great slaughter. Troops had been stationed to prevent the retreat of the savages into the Sierra Madres. The Indians then turned off and fled toward Arizona, closely followed by the Mexicans, who overtook them at the extreme end of the Swisshelms, where a running fight ensued. The Mexican commander stated that if his troops had not been completely worn out by fighting and forced marches, he would have driven the red devils on to the San Carlos Reservation himself. Stewart says a large body of the routed Indians passed his ranch. They were poorly clad, and fully one-third without guns.

Chicago, Ill.—Eddy, Harvey & Co., wholesale dealers in hats, caps and furs, made a voluntary assignment to-day. Liabilities are estimated at about $200,000. No estimate of assets is obtainable as yet. The debts are due chiefly in New York. The immediate cause of the failure is understood to be the maturing of paper in that city which the firm is unable to meet. Contributory causes, dull trade and sharp competition. There are no preference creditors. The firm is one of the oldest and best known in their line of business, and was highly rated by the commercial agencies. They were in straightened circumstances a year ago, but took in special partners with $150,000 capital, and added the boot and shoe department. The failure, therefore, was unlooked for.

Train Robbers Balked of their Prey

WALNUT RIDGE, Ark., 25. — An attempt was made to rob the north bound express train on the Iron Mountain road last night about ten o'clock, between Okean and Deplaine 15 miles north of this place. Fortunately, the express train was late and the local freight was running on the time of the express. The local was signalled by lanterns, and when it stopped, was boarded by a party with masks and heavily armed. After a few questions, they found they had stopped the wrong train and passed into the woods with many an oath.

FOREIGN.

General Items.

PESTH, 25.—There was a shock of earthquake on Wednesday at midnight, at Agram, and several shocks in western Corenin, which shook houses and shattered windows.

Berlin, 25.—It is reported that German exports to the United States are rapidly declining in number and value.

Madrid, 25.—It is reported that Castellar and his republican supporters resolved to maintain a friendly attitude towards the new government if it fulfilled its promises, especially to restore universal suffrage.

Paris, 25.—Later advices state that only four men were killed in the Lecrenzot accident. It was caused by workmen letting molten lead into the place where the four men were at work.

London, 25.—A Hong Kong correspondent says: It is difficult to estimate the exact military position at Tonquin. Two months ago the Chinese force on the Yunnan frontier numbered 9,000, all armed with modern weapons; at Baeninh were 5,000 Chinese troops. It is very probable that the French will soon succeed in driving the Chinese from Tonquin, but the real conflict will only commence when the frontier has been reached. Tonquin will then be another Acheen, but on an immensely larger scale. The only apparent solution of the difficulty is a compromise or a French advance on Pekin.

St. Petersburg, 25.—The latest Nihilist proclamation being extensively circulated demands that the Czar summon the representatives of the Russian people, and asks for full amnesty, freedom of the press, freedom of speech and the right to hold public meetings as the only means of preventing a revolution. Pitiless vengeance is threatened if the demands of the Nihilists are disregarded.

Constantinople, 25.—Many inhabitants of Smyrna are fleeing on account of the fear of further earthquakes. The government has a sufficient quantity of lumber on hand to construct 3,000 sheds for the shelter of those rendered homeless by the catastrophe. Editors of local papers here have formed a committee for the aid of sufferers. Slight shocks are still occurring at long intervals, but doing no damage.

Virulent Smallpox.

Prague, 25.—Owing to the virulence of smallpox in Seichob suburbs, a double cordon has been established to prevent the spread of the disease.

Cholera Continues.

Alexandria, 25.—Nine additional deaths have occurred here from cholera, mostly Europeans.

BRIEF TELEGRAMS.

Boston, 25.—It is reported that J. S. Grinnell, State Senator from Greenfield, is nominated for Lieutenant Governor by the democratic State committee.

Ottawa, 25.—The corporation of Ottawa presented an address to the Marquis of Lansdown this afternoon, extending a hearty welcome to himself and the Marchioness, extolling his high office and abilities, and expressing unchanging loyalty to the Queen and respect for the Governor General as her representative, and as a member of an ancient and noble family. His Excellency made an able response.

Cincinnati, 25.—The closing session of the Army of the Cumberland consisted of a banquet to-night in the Music Hall. Chairs in the auditorium were removed and nine long tables parallel with the length of the building and another running across in front of the stage afforded room for a thousand persons. About 600 sat down to the banquet. The dress circle seats were occupied mainly by ladies accompanying members or friends of resident members. The band on the stage furnished music. Gen. Rosecrans presided. Toasts and responses were the order of the evening. Members express much satisfaction at the success of this reunion.

Chicago, 25.—*Times*, Fargo, Dak: A company of leading citizens have filed mining claims to 200 acres on the townsite of Lisbon, and subscribed $50,000 to work it. In all that region nothing but gold discoveries are talked about.

San Francisco, 25.—James McClatchy, editor and part proprietor of the Sacramento *Bee*, died at Paraiso Springs this afternoon. Deceased was a California pioneer, well known throughout the whole coast.

Halifax, N. S., 25.—Owing to the precautions ordered by Admiral Somerell, in Halifax, in respect to H. M. ships in this port, the Commander of the division deemed it advisable to take similar precautions at Charlottetown, in regard to H. M. ship *Griffin*. Boats approaching the ship will be hailed; if no answer is returned after the third hail they will be fired upon.

Washington, 25. — McFarland, Commissioner of the General Land Office, is gradually reducing the number of land offices as opportunity arises.

The Commissioner of Pensions has prepared for District Attorney Corkhill a large amount of documentary evidence collected by agents of the pension office in relation to the swindling operations of pension claim agents. Gen. Dudley will detail a special examiner to assist the District Attorney in his investigation. A number of dishonest pension agents have already been suspended from practice before the Pension Bureau.

The Treasury Department to-day purchased 425,000 ounces of silver for delivery at the Philadelphia, New Orleans and San Francisco mints.

The Naval Advisory Board has recommended the construction of seven new naval vessels.

San Francisco, 25.—The United States survey steamer *Hassler* arrived this morning from Alaska, where she has been engaged in surveying the coast. The work was commenced at Fort Tongas, the extreme Southern boundary of the Territory, and carried north a distance of fifty miles to Tongas Narrows. A survey was also made of Nichol Pass, connecting Tongas Narrows with Duke of Clarence Strait. A fine harbor was discovered near the southern end of the channel; it was named Port Chester, after Commander Chester, hydrographic inspector. The *Hassler* is the first vessel to pass through Nichol Pass.

Kansas City, 25.—This afternoon the railroad switchmen began to quit work, and before night most of them had gone out. The Missouri Pacific and Wabash men were the first to quit. Strikers making the rounds persuaded most of the others to leave. The passenger train left as usual, but nothing is being done in the freight yards, the few remaining being afraid to work at night. The officials preserve a firm front, refuse to grant the advance, and maintain that if the police are sufficient to prevent intimidation, they can go on in a day or two and obviate a block. The men ask that switchmen helpers be paid $65 a month instead of $2 a day; the foremen to receive $70 a month, the working month to exclude Sunday.

THE ENCHANTED ISLE.

AN EXCURSION TO THE LONELY HOME OF ROBINSON CRUSOE.

Talcahuano, Chili.—I had been in Chili over a month when, one day, strolling down among the shipping, I gained the information that a steamer of the South American company was going to make an excursion to Juan Fernandez, better known as the island of Robinson Crusoe. The island is distant from the harbor of Valparaiso less than 300 miles, where a condor might easily fly between breakfast and dinner. The time given for the excursion was to be ten days, allowing 48 hours for going and coming thus giving abundance of time for visiting the lone island.

When after sailing over the calm waters of the Pacific the remote island arose from the sea, the sight was a glad one.

The sun was bathing the beautiful island with a flood of golden light as we neared its picturesque harbor. In little boats we went ashore and landed in the primitive manner of running the boat aground and pulling the boat up on the shore. The books tell you it was on this lovely island, that in 1704 the celebrated English navigator Dampier, landed his coxswain, Alexander Selkirk, with whom he had quarreled, and left him alone in this uninhabited spot, with a small quantity of provisions and tools. Here he lived four years, till he was picked up by a passing ship and brought back to Europe. It was from the notes he made during his solitary residence that Daniel Defoe composed his incomparable work of Robinson Crusoe. That which always seemed but a dreamy romance was now before you. The scenes where all the wild and wondrous experiences were described were just at hand, and you wander on, as it were, but just aroused from a fanciful dream. Perchance it was on this sandy beach along which you wander, that Crusoe first discovered the footprints of his good man Friday.

The island is about seven Spanish leagues in circumference, or a trifle over twenty English miles. It belongs to Chili, and for a number of years the government used it as a place for transporting convicts, till one night all the prisoners arose in their power, killed their keepers, and taking the only boats on the island, sailed away and never were heard of more. Of late years the government has leased the island to one man, who pays something like $2,000 a year for its use. This man has a small colony of workmen whom he employs in cutting timber, drying fish and goat skins, and sending them every few months in large quantities to the markets of Valparaiso. There are to be found in the waters about the island lobsters of a peculiar kind and enormous in size. Some of these measure from two to four feet in length. Every variety of fish in the greatest abundance seem to swarm about the lone island. It is a great resort for whalers, who put in here for a few days to supply themselves with fresh water, and with fish, poultry and game, which they obtain at marvellously low prices from the sovereign ruler of the island. Many years ago two lone, lorn goats were brought to the island, and their families of children have increased so rapidly that to-day thousands and tens of thousands of these are to be found in every part of the island. Large numbers of them are shot each year, and their dried skins sold in Valparaiso, are a source of large income to the lessees of the island.

It was necessary to live on board the ship, but each day there were excursions to distant parts, where new beauties, new surprises, and new wonders revealed themselves. The whole island is fertile, with wooded hills and valleys, wherein are streams of pure and living water. One day, I remember well, when the sun had all its dampers open and was pouring out a furious heat, so intense that our collars had lost all their dignity and the ladies' bangs looked as straight as an Indian maiden's tawny locks, we came within a wooded glen were suddenly a spring of living water burst from out the mossy rock. It was pure, clear as crystal, and of icy coldness. I did not I never knew water of so fine a brand. It was more refreshing than the choicest wine. There are no roads, no paths, but you pick your way along by nature's courses. Now you turn sharply and find yourself again within a deep glen where it would be no surprise to see nymph or giant leste forth. Here a stately tree filled with ripening fruit spreads its broad branches over the smaller trees and, close beneath it, ferns of wonderful beauty spring up, for where the land is musical with running streams and great trees fling their shadows and hang darkly over brooks whose sparkling waters give birth to soft vapors, these ferns love to spring forth, perchance to doubly reflect their beauty in some mirroring pool. It was a pretty spot which sets you thinking Childe Harold's Temple on the bank of Clitinnus. "A mirror and a bath for beauty's youngest daughter."

BULLETS IN THE BRAIN.

The post mortem examination on the body of Chris. Burkhardt, who shot himself three times with suicidal intent a week ago yesterday, and who died at the Cincinnati City Hospital Saturday night, developed that he lingered the seven days with two bullets in his brain, says the *Enquirer* of that city. The first shattered the frontal bone and landed in the brain in a shattered and flattened condition. The second one passed through the roof of the mouth and found lodgment in the brain.

Another similar and quite remarkable case was that of Gus Klaus, the handsome young fellow who, on the morning of January 25th last was found in his room at the Crawford House with two bullet wounds in his forehead. Clotted blood, quite dry, covered his face, and it was evident that he had shot himself many hours before. Death was apparently the matter of a very short time, and Klaus was removed to the hospital. Both wounds admitted the probe, and from them the brain substance oozed, showing plainly where the bullets were located. The young man lay on his back for weeks in an unconscious state, and there was no hope for his recovery. Finally he began to recover consciousness, and could understand all that was said to him, but he could not speak. His tongue was paralyzed. Neither could he write, for his arms and hands were paralyzed. Only a short time ago Klaus was released from the hospital, but he could not speak, or use his arms or hands.—*Boston Globe.*

There is no mistake, St. Jacobs Oil never fails as a pain-banisher.

DO NOT STORM THE SYSTEM, WITH VIOLENT CATHARTICS THAT RACK AND WEAKEN THE UNFORTUNATE INVALID, BUT TONE THE STOMACH, RELIEVE THE BOWELS, REGULATE THE LIVER, AND REFRESH THE NERVES WITH TARRENT'S EFFERVESCENT SELTZER APERIENT WHEN THE FIRST SYMPTOMS OF ILLNESS APPEAR. A MORE DELIGHTFUL EFFERVESCENT DRAUGHT IS NOT TO BE FOUND, AND A MORE POTENT REMEDY FOR DYSPEPSIA, BILLIOUSNESS, CONSTIPATION, NERVOUS HEADACHE, COLIC AND GENERAL DEBILITY, DOES NOT EXIST. SOLD BY ALL DRUGGISTS. oct 15 w m w

ESTRAY NOTICE.

SIXTY-THIRD YEAR.

Announcement Extraordinary!

Great Reduction in Price.

"THE SATURDAY EVENING POST"

$2.00 a Year for Single Copy;

— OR —

$1.00 A YEAR IN CLUBS OF 10.

Now is the Time to Raise Clubs for the Coming Year.

We are determined to get a very large list of new subscribers, and in order to do so we will receive subscriptions at ONE DOLLAR A YEAR, IN CLUBS OF TEN!

And, as an inducement to each of our subscribers to send a club, we will give a gratis copy for every club of 10 at $1 00 each. Remember, we will not send a copy for less than $2.00; and in order to get the reduced rate, one must send at least ten subscriptions. We cannot send a less number for less than $2.00 each.

Think of it! 10 *copies of* THE POST *one year, with one extra for sending the Club, making* 11 *copies, for* $10.00.

As to THE POST, there are but few in this country, or any other country, who are not familiar with it. Established in 1821, it is the oldest paper of its kind in America, and for more than half a century it has been recognized as the Leading Literary and Family Journal in the United States. For the coming year we have secured the best writers of this country and Europe, in Prose and Verse, Fact and Fiction.

A record of over sixty years of continuous publication proves it worth and popularity. THE POST has never missed an issue. Its fiction is of the highest order—the best original Stories, Sketches and Narratives of the day. It is perfectly free from the degrading and polluting trash which characterizes many other so-called literary and family papers. It gives more for the money, and of a better class, than any other publication in the world. Each volume contains, in addition to its well-edited departments, twenty-five first class Serials, by the best living authors, and upwards of five hundred Short Stories. Every number is replete with useful information and Amusement, comprising Tales, Adventures, Sketches, Biography, Anecdotes, Statistics, Facts, Recipes, Hints, Cautions, Poetry, Science, Art, Philosophy, Manners, Customs, Proverbs, Problems, Experiments, Personals, News, Wit and Humor, Historical Essays, Remarkable Events, New Inventions, Curious Ceremonies, Recent Discoveries, and a complete report of all the latest Fashions, as well as all the novelties in Needlework, and fullest and freshest information relating to all matters of personal and home adornment, and domestic matters. To the people everywhere it will prove one of the best, most instructive, reliable and moral papers that has ever entered their homes.

We trust those who design making up clubs will be in the field as early as possible. Our prices to club subscribers by the reduced rate are so low that if the matter is properly explained, very few who desire a first-class literary paper will hesitate to subscribe at once, and thank the getter-up of the club for bringing the paper to their notice. Remember, the getter-up of a club of 10 gets a free copy of the paper an entire year.

SCROFULA

and all scrofulous diseases, Sores, Erysipelas, Eczema, Blotches, Ringworm, Tumors, Carbuncles, Boils, and Eruptions of the Skin, are the direct result of an impure state of the blood.

To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence. It frees the system from all foul humors, enriches and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete master of all scrofulous diseases.

A Recent Cure of Scrofulous Sores.

"Some months ago I was troubled with scrofulous sores (ulcers) on my legs. The limbs were badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy I tried failed, until I used AYER'S SARSAPARILLA, of which I have now taken three bottles, with the result that the sores are healed, and my general health greatly improved. I feel very grateful for the good your medicine has done me.

Yours respectfully, MRS. ANN O'BRIAN."
148 Sullivan St., New York, June 24, 1882.

All persons interested are invited to call on Mrs. O'Brian; also upon the Rev. Z. F. Wilds of 78 East 54th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of Ayer's Sarsaparilla, not only in the cure of this lady, but in his own case and many others within his knowledge.

The well-known *writer on the Boston Herald*, B. W. BALL, of *Rochester, N.H.*, writes, June 7, 1882:

"Having suffered severely for some years with Eczema, and having failed to find relief from other remedies, I have made use, during the past three months, of AYER'S SARSAPARILLA, which has effected a *complete cure*. I consider it a magnificent remedy for all blood diseases."

Ayer's Sarsaparilla

stimulates and regulates the action of the digestive and assimilative organs, renews and strengthens the vital forces, and speedily cures Rheumatism, Neuralgia, Rheumatic Gout, Catarrh, General Debility, and all diseases arising from an impoverished or corrupted condition of the blood, and a weakened vitality.

It is incomparably the cheapest blood medicine, on account of its concentrated strength, and great power over disease.
