

# FLUORINE FRAGMENTS.

City Creek is enjoying a big boom. Seven days' general meeting tonight.

Brother Charles W. Nibley is down from Logan.

This morning, in the Police Court, Wesley Herrin pleaded guilty to a charge of assault and was fined \$10.

The Wheelman for May is received, brim full of interesting articles, illustrations and notes of passing events.

The Utah Central express train from the south was unavoidably delayed about an hour and a half yesterday.

"Generous to a fault" may be said of the majority of men—at least they are generous enough to their own faults.

The present thaw will create a superabundance of surface water, and cause the canyon dwellers to look out for new floods.

Fears were entertained by some during March that Jupiter Pluvius had forgotten us. If this weather continues those fears will probably subside.

Ex-Judge Louis Jones, a venerable old judge of New York, has placed over his desk a card in his own handwriting, bearing these two excellent mottoes:

It is claimed that a free use of parsnips as feed for milch cows has contributed largely to making the superior milk and butter qualities of the Chagall Islands cows.

"I'm in favor of women voting if they want to," said a political orator. "I'd like to see the man who'd make us vote if we didn't want to," exclaimed a female auditor.

The drunken row in which an Italian had his ear bitten off was settled last evening, by Justice Sprague, who fined the offender the biting \$25, and another who took part in the assault \$10.

From about noon yesterday till a late hour last night a plentiful rain poured down, which finally turned to snow, with which the ground was covered to a depth of over a couple of inches this morning.

"Always treat your enemy in such a way as to leave him room to become your friend," and "Always treat your friend in such a way that should he become your enemy, it would be out of his power to harm you."

Yesterday's issue of the Ogden Herald was the concluding number of volume two of that lively periodical, which is found on the right side of every important question. It is in a sound condition and we desire to see it continue to prosper and live long.

Yesterday morning, nine Maori (Australian aborigines) passed through Ogden, for the East. The Ogden Herald states that they were in charge of R. A. Cunningham, an agent of P. T. R. Cunningham, to whose museum they go direct, for exhibition purposes.

A grave and majestic looking eagle has been observed several times during the last few days, perched upon the pinnacle of the east tower of the Temple. He (or she) sits there awhile and then flies away, to return again at pleasure.—Logan Journal.

An exchange suggests that when horses eat their oats too rapidly the evil may be checked by placing some clean cobblestones in the box. The horse will thus be compelled to pick his oats slowly, masticate them more thoroughly and they will do him much more good than if hurriedly eaten in the ordinary way.

The Tombstone Epitaph of recent date said: "The Tombstone rangers will take the field to-day. It is by no means probable that the rangers mediate an attack upon the agency, but it is only to be regretted that their forces are strong enough to do so, and clean out the soldiers and kill every Indian in it." Murders sentiments these.

"One Day in Utah, a Literary French Nobleman's Views on the 'Mormon' Question," from "A Travels Les Etats Unis," of the Vicomte d'Hausenville," translated and published by Leo Hefelf, of the Ogden Herald. It is an unusually interesting pamphlet, bearing on the Mormon question in a manner that is quite novel. We recommend it as a little work well worthy of perusal by Saint and sinner. It can be had of J. H. Parry.

Glendale is excited just now over the results of a little April fool joke. Dr. Crocker Stevens, Byrne and Williams were summoned with much legal dignity to sit upon a jury and a case was tried before them. The federal character of which they knew nothing of until the verdict was rendered. They now claim in the courts \$1,000 damages against J. C. Keppeler, E. R. Alward, Judge Thomas et al., alleging unfair restraint of liberty.—Butte Miner.

## LOCAL AND OTHER MATTERS.

Smallpox in Bear Lake.—The Bear Lake Democrat says:

We are sorry to report that the smallpox has made its appearance in this valley; it was to be feared that we might escape the epidemic, but we understand it has broken out in the family of Jos. M. Phelps, of Montpelier, also in other families in that settlement. We learn that the citizens and authorities of that place are trying to control the disease by quarantining the infected, and it is to be hoped they may be able to prevent the further spreading of the contagion.

Another Number.—Number 9 of the Juvenile Instructor is out. Its contents are:

St. Paul's Cathedral, (illustrated) by G. R. Sowing and Reaping, by W. J. History of the Church; Topics of the Times, by the Editor; Gambling; Chapter for the Little Ones; Editorial Thoughts; The Hudson River, (illustrated); Forces of Civilization in the Nineteenth Century, by J. E. W.; A German Funeral, by Jacques; Desert St. Union Meeting; The "Mormon" Missionaries Farewell, music by A. C. S.

More Reservoirs.—The enterprising citizens of Spanish Fork, feeling the necessity of an increased water supply for their farms and gardens, have set themselves to work constructing a reservoir near the eastern limits of the town, on the bench. This reservoir is partially natural and partially artificial, and will hold in reserve water from Spanish Fork River. Its dimensions are about 30 rods wide by 100 long, and will hold about 16 feet of water in depth.

There is an ancient reservoir in contemplation, 25 miles up the canyon, which, if completed as designed, will hold 15,000,000 cubic feet of water.—Biquiter.

Arrested on a Charge of Polygamy.—The following complaint was made before United States Commissioner McKay yesterday:

TERRITORY OF UTAH, County of Salt Lake, ss.: To William McKay, Esq., one of the Commissioners of the Supreme Court of said Territory: Frederick A. Hanson of Salt Lake City, in the County of Salt Lake, of the people of the United States in said Territory, on oath complains that Ole F. Due of Salt Lake City, County of Salt Lake, in said Territory, on the 15th day of August, in the year of our Lord one thousand eight hundred and eighty-two, at Salt Lake City, in the county of Salt Lake and Territory aforesaid, unlawfully and feloniously did marry and take to wife her said plaintiff, he the said Ole F. Due at the time last aforesaid having a lawful wife then living other than the said complainant, to wit: one Christina Due, from whom the said Ole F. Due had never been divorced, and who had not been absent from him, the said Ole F. Due, the five years next previous to said marriage to said complainant, and that by reason of the premises said Ole F. Due became and is guilty of the crime of bigamy against the peace of the people of the United States in said Territory, and contrary to the form of the statute in such case made and provided, wherefore complainant prays that a warrant may issue for the arrest and said Ole F. Due and that he be dealt with according to law.

(Signed) FREDERICK A. HANSON, Complainant.

Subscribed and sworn to before me this first day of May, A. D. 1883.

WILLIAM MCKAY, Commissioner Supreme Court, Territory of Utah.

A warrant being placed in the hands of Deputy U. S. Marshal Sprague, Due was arrested by that officer and the hearing set for two o'clock in the afternoon. At half past two the accused, by his attorney, waived an examination and his bonds to answer to the grand jury in September next, were placed at \$2,500. Several witnesses were also held in sureties to appear when required.

Miss Thomas' Lecture.—Notwithstanding the unfavorable state of the weather, the 15th Ward Meeting-house was nicely filled last night with an audience that highly appreciated the interesting and instructive lecture given by Miss Thomas, on "Elocution." The lady, on entering the building, finding the house not sufficiently ventilated, took occasion to treat her subject physiologically, and at once commenced to illustrate, so that all could understand, the deleterious effects of breathing foul air. Continuing this division of the subject, she applied it to the infant, showing how the little innocent was affected, both before and after birth, either favorably or otherwise. Following it to childhood, to boyhood and to manhood, explaining in a clear, yet simple manner, how the science of elocution might be applied to aid in the development of the human frame. The lecturer gave some very striking illustrations of the abuses that were continually being heaped upon the child everywhere in consequence of the ignorance of teachers, both in the proper development of the body (especially that of lung-power) and in preserving that most beautiful endowment of the Creator, the naturalness of the human voice.

During the evening were rendered vocal music, under the direction of Brother Griggs, and readings by Miss Thomas, consisting of two of her own selection, and two by request, namely: "O, My Father," by Miss E. R. Snow, and "My Own," by Mrs. Hannah T. King.

We are pleased to state that Miss Thomas' health is gradually improving, and that the time of her stay here, which will be two months longer, will be occupied in teaching the beautiful science of elocution.

Exclusively Wholesale.—We take pleasure in referring to the advertisement of Messrs. Wm. Jennings & Sons, wholesale merchants. Their establishment, the Eagle Emporium, has been the scene of unusual animation lately, and the bustle is not yet over. Numerous changes have lately been made, necessitated by the transformation to an exclusively wholesale business.

Large quantities of bulk goods have been and are being arranged on the ground floor, while the heavier stocks are kept in the second story. The office, which is now in the upper part of the building, will shortly be removed, for greater convenience, to the lower floor, midway between the dry goods and grocery and hardware departments. Every preparation is nearly completed to do a wholesale trade on a mammoth scale.
