# MAMMOTH ORE IN.

### Two Hundred Tons Reported in Today's Market.

The Mammoth Mining company has about 200 tons of ore in today's market. It is high grade stuff and will go a long ways towards filing up the vacancy in the treasury to be left after the withdrawal of the \$20.000 July dividend, which is payable next Friday. Secre-tary Wilkinson is busy making out checks today.

# Activity of Bingham Stocks.

Activity of Bingham Stocks. An eastern broker has advised his Sait Lake correspondent thus: "It looks to me as though there is some big deal brewing among the Bingham stocks, Utah acted as though it was quickly going to cross \$40, but Williston began supplying stock which kept it down. Altogether Williston yesterday sold 4,200 shares, and yet the stock only lost \$4 of a point. Just before the close yesterday Hornblower sold 3,000 shares of Bingham, foreing the price down to \$23, but it quickly recovered to \$24, the previous night's close. This was a mysterious movement. Brokers who wanted to buy stock around \$23 could not get a share." not get a share.

# E. & F. ORE FOUND.

### Important Developments Made in Pioche Property Recently.

Joseph S. Free, who has been in charge of the E. & F. mine at Pioche during the past eight months, came in

miles east of Martinez. ng field work at Park City during the

LIKES THE SHEBA.

## Fred Butler Returns from an Inspection Trip to Nevada Mine.

Fred Butler, the well known mine superintendent, has returned from a trip of inspection to the Sheba mine in Humboldt county, Nevada, While there Humbold county, Nevada, while there he formed a very good opinion of that portion of the neighboring state and had no hesitancy in saying that he was agreeably surprised at the prop-erty of the Sheba company, which, he is confident will develop into a big mine. Is confident will develop into a big mine, He expressed himself as having taken a particular liking to the Mammoth group, a part of the Sheba holdings. "I would not be surprised," said Mr. Butler, "to see the Mammoth make one of the largest producing mines in Nevada. It is certainly a big prop-erty."

while Mr. Butler was at the mine, Judge Bartch, the president of the Sheba company, came in and was still there when he left.

Mr. Butler says the management of the Sheba has a campaign of develop-ment mapped out along systematic lines.

CONCENTRATES.

Two cars of Tonopah ores reached the samplers today.

Word came from Alta during the day that Contractor Shea is pushing the construction of the Columbus Consoli-dated mill for all he is worth and has begun raising the framework. Manager Jacobson, who was in communication with the mine during the day was in-formed that Mr. Shea expects to have the building under cover within two weeks. By the first of September, the big plant will be ready to go into com-mission. When it gets to running it will not take the Columbus long to reach the dividend paying period. The Utah mine has another car en route from t hat Fish Springs property. A. Van Patten, the Ogden mining op-erator, was in the city for a few hours yesterday.

The Uncle Sam Consolidated mine of Tintic has four cars of ore in the market today

Ed F. Freudenthal, the new super-intendent of the Majestic Copper mines at Milford will leave for Beaver county this evening. neets in Portland, Oregon, from Aug. P. J. Donahue departed for California

today to examine a mining proposition for eastern clients.

H. W. Sherman looked over conditions at the Union Gas & Pipe Line com-pany's well near Centerville today. Judge Marioneaux Refused to Hear Fur-

Managing Director Henry Catrow of the Ohio Copper company is inspecting the Bingham properties of that corpora-tion today. Nephi, July 13.—The attorneys for the receiver of the Majestic Copper Mining and Smelting company appear-ed in Judge Marioneaux's court here today and asked that the order previ-

. It is expected that the Gen. Custer mill will commence grinding ore on or about the 20th of this month.-Custer today and asked that the order previ-ously made referring the case to the federal court be revoked, and that he hear further proceedings in the case. The judge claimed that inasmuch as he had granted the order referring the case to the federal court, his jurisdic-tion in the matter had ceased. He therefore refused to grant the request of the attorneys. Prospector.

The ore and bullion settlements re-ported late yesterday were, as follows: Crude ore and concentrates, \$5,200; base bullion, \$39,700.

Another case disposed of before Judge Marloneaux was that of Edward Fimer vs George McCune and others. The plaintiff was given judgment for unrestricted water rights in the Se-vier river on Mr. McCune's ranch, also \$450 damages. Capt. O. A. Tibbey, the Butte min-ing expert, has arrived in the city on his way home from a professional trip to Old Mexico.

The management of the Victor Con-solidated drew down the proceeds yes-terday from a car lot of ore, the con-trols showing 12:5 per cent copper, 5.5 ounces silver.

NEW CATALOGUE OF CHURCH WORKS. The wagon road which is being built The wagon road which is being built by the Lost Packer company into the Loon Creek district will open up one of the richest gold copper camps in Idaho, and perhaps in the west. The amelter returns for the summer's ship-ment of 1993 from the Lost Packer was Just issued. Send to Deseret News Book Store, Salt Lake City, Utah, for, a free copy. Special ferms to dealers, agents and canvassers.

ment of 1903 from the Lost Packer was over \$%2 ounces gold and 15 per cent copper per ton and with a depth of 230 feetfeet on the ledge they have over \$600,000 worth of \$25 ore in sight. The shipment of ore from the Lost Packer up to the present has more than paid all cost of development' and this with a transportation charge of about \$70 per ton for packing, wagon, and rail-read,—Custer Prospector. sity of than which has been conduct-ing field work at Park City during the past six weeks under the direction of Prof. W. E. Wilson, returned to the city last evening. While in camp the students surveyed the underground workings of the Guincy mine, also the surface mining claims of the Little Bell Mining company. The members of the class, which consists of Chief Engineer Meyers, Secy. Chambers, Commissery Crandal, Cahoon, Wade, Olsen, Wade Johnson, Erickson, Chris-tensen, Pack, Graves, Luce and Lati-mer. The students were required to make plats of their surface surveys and maps of their underground work. Considerable railroad surveying was done, but the difficult task came when the students were told to prepare com-petition and patent notes of their min-eral surveys. Kansas City, July 13.—Cattle—Receipts, 1.000; market steady. several days and some of the students accompanied him while making some geological investigations. Chicago, July 13.—Notwithstanding greatly improved weather conditions in the southwest, sentiment in the wheat pit today was extremely builish. A sharp advance at Liverpool brought out an ac-tive demand from shorts and commission houses, resulting in an advance of about a cent in both the July and September options. The opening on September was off a shade to 3674, higher at 864 to 8648. After touching se the price rose rapidly to 864. Binneapolis, Duluth and Chicago reported receipts of 230 cars against 189 a year ago. The Columbus Consolidated Mill Will be

Dr. J. E. Talmage, R. H. Channing and Tony Jacobson have been appoint-ed by the board of county commission-ers as delegates from Salt Lake county to the American Mining congress, which
