

Local and Other Matters.

FROM SATURDAY'S DAILY, SEPT. 22.

Cans.—Notwithstanding the comparative scarcity of fruit this season, the trade in fruit cans appears to be lively. Mr. David James has sold 9,000 during the last two weeks. He has also, this season, disposed of 3,500 honey cans, and sells from 300 to 400 yeast powder cans every month. The latter sales are made to one firm alone, Haywood Brothers.

Fatal Accident.—Yesterday at noon, Harriet Eliza, daughter of John and Mary Brough, of Nephi, Juab County, aged between five and six years, was riding in a wagon, with her brother, at that place. The oxen became unruly and the lad jumped out of the wagon to stop them. The wheels suddenly collided with the edge of a ditch, when the little girl was thrown out, breaking her neck. The wheels passed over her neck and face. She was killed almost instantly. The little one was a bright, promising girl. We learn those facts from Brother L. A. Bailey.

Turnips—Oats.—This morning we saw a couple of mammoth turnips, of the White Globe sort, from the farm of Mr. J. R. Winder. The larger of the two was measured in our presence, and was only half an inch short of being three feet in circumference.

An eastern gentleman saw them, and was so surprised that he exclaimed, in effect, doubtfully, "Well now you don't mean to say these are actually turnips?" But that's what they were.

From the same farm we saw a specimen of oats, which stood only six feet six inches high, grown in the same field as the turnips.

Deseret Tanning and Manufacturing Association.—At a meeting of the stockholders of this Association, held at the Deseret National Bank, at 11 a. m. to-day, the following gentlemen were elected a board of directors for the ensuing year—

Feramoiz Little, Robert T. Burton, Henry Dinwoodey, William H. Hooper, John Sharp, John R. Winder, and George Romney.

The articles of agreement were read and adopted.

The work on the tannery building is in an advanced condition, the walls being up to the square, and a commencement has been made in putting the roof on.

The Association has now a fair start. It is under the direction of a number of gentlemen whose business qualifications are well known and established. Now is the time, without delay, for those who subscribed for stock to step up and pay for the shares they promised to take; that there may be no lack of funds for all necessary purposes.

We anticipate the tannery being one of the most solid and beneficial manufacturing establishments in Utah. It is an absolute necessity.

Home Manufacture.—In order to obtain some idea of the progress of home manufactures, and the extent to which their producers are patronized we have made some inquiries in relation to the subject of Mr. John Clark, of Z. C. M. I., by whose courtesy we are enabled to note a few articles on the grocery and hardware side of the house.

Wrapping paper, of which they purchase all they can get; washboards, 125 doz. in six months; cheese, from Brigham City, Bear Lake and other places, the supply of which, from the place first named, is unequal to the demand; molasses, honey, vinegar, clothes lines, garden lines, chalk lines, neat foot oil, canned fruits, plastering hair, keep none of the imported now; tinware, about \$1,000 worth of the latter purchased each month; castings, grates, &c.; brooms, the trade in the imported article but limited; yeast powder, ink, glue, candy, saddle trees, sausage grinders, much superior to imported; cable chains, rings, hinges, pinners, picks and other hardware articles, made principally by Devy & Son, of Alpine City; hobbles, halters, wool-sacks, whips, shoe, scrub, stove, hat, paint and other brushes; cinches and many other articles.

If a list of the home manufactured goods bought and sold in the various other departments of Z. C. M. I., were enumerated, the list would be quite a formidable one, although perhaps not near so large as it should be; yet it is gratifying to know that progress is being made in the steady, although it may be the slow progress of material development.

We are gratified also to observe an increasing inclination on the part of the community to purchase goods that are made at home in preference to those imported. Prejudice against the former is gradually fading, with the march of improvement in Utah manufactures. Many of the articles named in the foregoing are not only equal and some even superior to importations in the same line, but are sold at prices that, to say the least, are no higher, and are therefore deserving of preference from every point of view.

British Mission.—We clip the following from the *Millennial Star* of September 10—

"The following Presidents of Conferences and traveling Elders have been released to return home with the next company, sailing Sept. 19th—Hamilton G. Park, Glasgow; Thos. A. Wheeler, Birmingham; James Mellor, Liverpool; W. W. Taylor, Leeds; James McFarland, Newcastle and Durham; John Parry, Bristol; Samuel Leigh, Welsh Conference; and J. C. Sandberg and K. H. Brown, of the Scandinavian Mission."

The following changes have been made:

Elder A. F. McDonald, sen., is appointed to preside over the Glasgow Conference.

Elder Royal B. Young is appointed to preside over the Newcastle and Durham Conference.

Elder C. D. Evans is appointed to preside over the Leeds Conference.

Elder Thos. Barratt is appointed to preside over the Liverpool Conference.

Elder G. Atkin is appointed to preside over the Birmingham Conference.

Elder J. H. Parry is appointed to preside over the Welsh Conference.

Elder Daniel Jacobs is appointed to preside over the Bristol Conference.

Elder John R. Young is released from the Welsh Conference, to labor under the direction of President Jacobs.

Elder Lorus Pratt is appointed to labor in the Birmingham Conference.

Elder J. W. Taylor is released from the Welsh, and appointed to labor in the Newcastle and Durham Conference.

"We were well pleased to greet our old friends and associates, Elders A. W. Carlson and B. H. Schettler, who arrived in Liverpool on the 8th inst., per S. S. Wisconsin, after a very pleasant trip of eleven days duration, including one day lost by the breakage of machinery. They are in good health, and speak highly of the Guion & Co. officers and accommodation. The brethren were unaware of the death of President Young until their arrival in Queenstown, and then could scarcely believe it, as when they left he had been in better health than usual. We give them hearty welcome, and know they will do well on their respective missions, the one (Brother Carlson) going to Sweden, and Brother Schettler to Holland."

Situation Wanted.—The father of a thirteen-year-old girl, whose mother is deceased, is desirous to find some family willing to provide a home for her, in consideration for labor she may be able to perform. Apply to H. J. G., at this office.

Returning Missionaries.—The following Elders leave New York, to-night, for this city: Hamilton G. Park, Thos. A. Wheeler, James Mellor, W. W. Taylor, James McFarland, John Parry, Samuel Leigh, J. C. Sandberg, K. H. Brown and Woolley.

FROM MONDAY'S DAILY, OCT. 1.

Appointment.—Gideon Legrioux has been appointed postmaster at Clover Flat, Piute County.

Tabernacle Meeting.—Yesterday afternoon the congregation was addressed by Elder Joseph F. Smith, recently returned from Europe. Elder George Q. Cannon made a few concluding remarks.

From St. George.—We were pleased to receive a call to-day from our old friend, President John D. T. McAllister, of the St. George Stake, who looks as robust and healthy as ever.

The Temple.—Brother Truman O. Angel has a number of very fine steel plate engravings of the Temple, as that structure will appear when completed. They can be had of Brother C. J. Thomas at \$1.50 each.

Arrested.—On Saturday O. P. Rockwell was arrested by the U. S. Marshal and placed in the penitentiary, he having been indicted by the grand jury for the alleged murder of some parties on the Sevier, twenty years ago.

At Conference Time.—The Theatre will be open on Friday, Saturday, and Monday next, for the benefit of Conference visitors, Friday night, "Under One Flag;" Saturday night, "The Two Orphans;" Monday night, a big special bill yet to be announced.

Dispute Settled.—The dispute among interested Ogden business men in relation to the location of the post office in that city is now settled. It has been removed to a fine new brick building, adjoining Guthrie & Co's bank, on Fourth Street. The premises and location are both desirable.

Bountiful.—Elder Judson Tolman left Bountiful on Wednesday morning last, to fill a mission to Maine, and on Saturday morning Elder P. G. Sessions and Wm. Atkinson of the same place left for the east, the former going to Maine and the latter to St. Johns, New Brunswick. Elder Tolman will join them at Omaha.

Served Him Right.—On Saturday an old man named Antoine King, a foreigner, was before Justice Pyper charged with indecent conduct towards a girl. The offense was proved and the accused was fined \$50 and he was also sentenced to imprisonment for thirty days.

Horse Thieves.—On Friday a couple of horse thieves escaped from custody in Juab County. One of them was arrested by B. F. Brown, at Silver Reef, and taken to St. George. On Saturday night the other was followed by officers up Clara Creek, about twenty miles from St. George and, refusing to surrender, he was brought to a halt by a shot in the thigh. The wound is not necessarily fatal.

Something New.—Messrs. Calder & Careless have something new, in the form of a piano of comparatively small dimensions. It is an instrument deserving the appellation of *Mulum in Parvo*. It is called the Model Piano. Considering its proportions the quality and volume of its tone are very remarkable. Its production places an instrument of that class within the reach of many who would be unable to procure one of a larger size and price. The Model ranges from \$215 upwards.

JOSEPH E. TAYLOR, Sexton.

Vegetables.—Brother James Paskett brought to our office to-day specimens of vegetables raised on his farm at Henneferville, Summit County. The quality of the different articles is unquestionably good. A cabbage weighs 16 pounds, and the onions measure each 16 inches in circumference. The samples of the genuine English sort of Swede turnip are very large and fine. Among the lot was a packet of English horse beans, larger and plumper than the average "Old Country" article. These products were raised on the Weber, where Summer frosts are frequent.

"Harper's."—We have "Harper's Weekly" for October 6th. It has wood engraving likenesses of the Twelve Apostles. As a whole they are about the best portraits of the kind we have seen, a few of them only being somewhat indifferent.

The likenesses are accompanied by very fair, brief biographical sketches of the Apostles, with the exception of two which are mere caricatures and evidently conceived in malice and untruth.

For sale at Dwyer's, who is getting on an extra supply of the number, to fill the expected demand.

Man Killed.—The following is a special to the NEWS:

BEAVER, Sept. 30.

Editors Deseret News:

Last night, about nine o'clock, J. B. Francis shot and killed Wm. H. Chinn. Francis mistook Chinn for another man. The ball entered the left cheek, about half an inch from the corner of the mouth, ranged backwards and downwards and lodged somewhere in the upper part of the body. Chinn ran partly across the road and fell on a pile of rocks where he lay till this morning. No noise was made and no excitement manifested, except by Francis, and no one really believed that any killing had been done; hence no search was made. An inquest was held to-day. Francis is in custody.

Dreadful Accident.—Last Thursday evening two little boys were at play in the house of Sheriff Allison, of Coalville, Summit County, one of them being son of the latter. The name of the other was William Anderton. They managed to get a pistol down from where it was hanging in the room, when the weapon was accidentally discharged, the bullet entering the breast of the Anderton boy, inflicting a wound from which he shortly afterwards expired.

The other little fellow, son of Sheriff Allison, said his playfellow was handling the pistol and dropped it on the floor, causing it to dis-

charge, with the before stated result.

At the time of the accident the mother of the boy Anderton was in an adjoining room, conversing with Mrs. Allison.

Bad Accident.—About eleven o'clock to-day a team, attached to a partially loaded wagon, was frightened and ran away. In crossing the street car track near the Federal Court House, the wagon bounced violently, throwing the driver a distance of about twelve feet upon the street. The wagon was turned upside down and badly smashed. One of the horses was very severely injured in one leg, so much so as to render it doubtful about its ever being of much use in future. Worst of all the teamster, a young Dane, named Johan K. Stauds, had his thigh very badly injured, the break extending up the bone from a few inches above the knee to near the hip joint. He was carried into the Wasatch drug store, and from there we understand he was conveyed to St. Mark's Hospital.

The unfortunate young man was in the employ of P. R. Neilson, of Draperville, from which place he had brought the team.

Louis Kossuth favors an alliance between Austria and Hungary in favor of Turkey. They'd better not do it. Turkey is holding its own and has put its beak pretty deep into "Ursa Major's" corpus. An alliance to help Turkey would cause another in aid of Russia, and thus put new life into the dying campaign. Let 'em alone. The Czar will cool off by the time he has spent an inactive winter, gazing at the uncrossed Balkans and the beautiful Blue Danube to be recrossed.
