

HEAR ELECTRICAL WORKERS' PLAINT

Committee of City Council Listens To Tale of Woe of Striking Linemen.

WORKED TWO DAYS FOR \$1.50.

This in Attempting to Replace Laborer Comment of Councilman Black

The members of the Electrical Workers' union who appeared before the city council committee last night found their action in representing M. O'Connor as a taskmaster of the meanest sort a boomerang. They represented that two electrical workers who were out of work had applied to O'Connor, Kennedy's contractor, and asked for work. They were told to go to work on a contract, the electrician's representatives said, and were offered 15 cents a foot to dig the sewer trench. After working two days they had earned about \$1.50 each. The councilman next inquired: "How much could those men have earned working at their trade?" Inquired Tom Black, the member of the council from the Fifth ward.

"Well, I think they had better quit striking and go to work and earn a living wage," was Black's last shot and the advocates of union labor who were before the council protesting against O'Connor were completely shut off. When the council saw that the men who had laid down their tools and who had quit their work to go on strike were the men complaining, it lost sympathy with them entirely.

WHAT BLACK THINKS. "Well, I think they had better quit striking and go to work and earn a living wage," was Black's last shot and the advocates of union labor who were before the council protesting against O'Connor were completely shut off.

COMMENDS CONTRACTOR. The work of Mr. O'Connor is to be commended, and nothing too good may be said for him. Nearly all his work is being done by white men and as many heads of families as he can employ are now at work," declared Capt. M. M. Woods, a field worker for the charity association.
