epublicans Get All the Chairmanships-Police Officer Dillon's Death Referred to.

At a special meeting of the City ouncil held last evening President ickle named the members of the enty-one standing committees. Bere doing so the chairman made a few marks in the course of which he said found the duty of appointing the mmittees a somewhat disagreeable sk. He had consulted with prominent embers of both the great political rties respecting the matter and the nsensus of opinion was that the comittees should be made up of those imprising the party in power. The te of last November had elected a epublican Mayor and a Republican ouncil. It was natural to presume hat the heads of departments to be et named by the city's chief executive ould be all Republicans. That being he case wisdom and economy sugested the naming of committees that ould work in harmony with these deardments. In making up the list of mmittees he had endeavored to be ariments. air and impartial. A number of the ommittees, it was true, were of minor mportance, and while he could have tiven the chairmanship of such to nembers representing the minority, he resonally felt it would have been an nsult had he done so. After carefully onsidering the matter he concluded to ive the chairmanship of the less imortant committees to the majority lso. President Buckle then announced

People who have suffered for months or years from the pain and inconveni-ence of that common disorder, plles, ence of that common disorder, piles, will look with skepticism upon the claims of the makers of the new discov-ery for the cure of all forms of piles, known as the Pyramid Pile Cure; nevertheless the extraordinary cures performed by this remedy are such as to warrant the investigation of any suf-ferer As a core in point the follow.

ferer. As a case in point the follow-ing letter speaks for itself. Mr. Henry Thomas of sub-station No. 3 Hosack Ave., Columbus, Ohio, writes

as follows: "Gentlemen:--"I want you to use my name if it will be of any use to you. I was so bad with the piles that I lost work on that account. N thing did me any good. I read in Cincinnati of the many cures of piles by the Pyramid Pile Cure and I went to a drug store and asked for it. The druggist told that he had something else that he thought was better, but I told him that I want-ed to try athe Pyramid first.

The first box helped me so much that I tried another and then to complete the cure used two more boxes, making four in all. I am now completely cured Have not a trace of piles and I had suffered for years with the worst form of protruding piles. I suffered death from piles, but I

found the Pyramld Pile Cure to be just as as represented. I have recommended it to several of of my friends and am thankful to be able to write and tell you what good the remedy has done for Physicians recommend the Pyramid

Pile Cure because it contains no oplum, cocaine, or mineral poison of any kind. and because it is so safe and pleasant to use, being painless and applied at night. The patient is cured in a sur-prisingly short time with no inconvenence whatever.

Pyramid Pile Cure is sold by drug-gists at 50 cents per package, and if there is any constipation it is well to use the Pyramid Pills at the same time with the Pile Cure, as constipation is very often the cause of piles and the pills effectually remove the costive condition. Price of pills is 25 cents per package

new business has yet been done. No new tendency in manufacture or in trading appears and less change than was anticipated in money markets. "There is nothing unsound in business of the great industries, but an extensive revision of prices may disappoint extreme expectations. Two ways of stimulating business are adopted. The Iron Age notices 'transactions of magnitude in foundry iron, which in-dicate that some sellers are willing to make concessions to the trade of good

customers. "But the Steel and Wire company has advanced prices of wire nails, barbed and smooth wire 25 cents. Bessemer pig is not higher than it was six weaks ago, and steel plates have declined from \$3.10 to \$2.25 at Philadelphia, bars at

Pittsburg from \$2.25 to \$2.15, and sheets from \$3.15 to \$2.80, while the structural and rail-producers have held but re-fused to advance prices. Some new business is reported, but not enough as yet

to indicate the tendency. "In tin, after a fall from 33 to 25 cents, the prices rose to 25.25c in London, and in copper 161/2 cents is quoted

### GOT AN ENORMOUS FEE. Executors of Pullman Estate Rake in

\$425,000. Chicago, Jan. 5 .- Robert T. Lincoln and Norman B. Ream, executors of the estate of George M. Pullman, were today allotted as compensation for their services the sum of \$425,000. The order was entered by Judge Batten in the probate court.

This is said to be the largest amount In fees ever allowed executors of any estate handled by the probate court here. The compensation was agreed upon with the approval of Mrs. Harriet Sanger Pullman, the widow, Mrs Frank O. Lowden and the other residuary legatees before the order of the court was asked.

Another order was made fixing the widow's allowance at \$20,000. Under ordinary circumstances this award would not probably have been over half this sum. But Mrs. Pullman, through her counsel, moved the court for the assignment named, and was joined in the request by her daughters, Mrs. Florence Pullman Lowden and Mrs. Harriet Pullman Carolan, who represented that it was the purpose of their mother to apply the whole amount of the widow's award in the erection of a monument in Graceland cemetery to the memory of her late husband. It was declared in the petition that the two daughters desired to participate in the erection of the monument and sented that it was the purpose of their

the erection of the monument, and therefore joined in the motion that the award be fixed at the amount named. The final accounting of the executors

in the Pullman estate is expected to be made next week. It is said that the estate, which was listed at about \$8,900,-000 when the will was probated, will the now figure up to nearly \$14,000,000. British Columbia News.

### OFFICER DILLON'S DEATH.

Chlef of Police Hilton sent in a communication notifying the Council of Police Officer Dan Dillon's death. It ad as follows:

"I very much regret having to report to you the death of one of our most efficient officers, Mr. Dan Dillon, who died Thursday evening at 11:30 o'clock pneumonia; after only a few days' lliness. Mr. Dillon has been connected with the department the past seven ears, and in all this time he has attended strictly to his duty, and the department will miss his services very Owing to this fact, and that he uch. has left a widow and family who we ependent on him for support, I think only proper that the city contribute o paying his funeral expenses and doc-Therefore, I recommend that or bills. he sum of \$350 be placed on the appro-riation list to the Mayor's contingent and, that his honor, the Mayor, may

Chief Hilton also submitted a draft resolutions deploring the sad affair ad suggesting that they be adopted y the Council.

Robertson moved that the sum of \$350 e placed on the appropriation list to over funeral expenses and an additonal \$50 in payment of the deceased officer's salary for the month of Janu-ry. Hartenstien seconded the motion, Speaking to the question Robertson and Dan Dillon became sick while on auty. It could be truly said of him that he died in the harness, at his post and the least the city could do under the circumstances was to make the appropriation. The motion carried by unanimous vote.

On motion of Robertson the resolutions were referred to the committee on olice and prison, with instructions them up in proper form and forard the same to the family of deeased.

Council then adjourned until 7:30 on Tuesday evening.

## BUSINESS IS SOUND.

#### Extensive Revision of Prices May Disappoint Expectations.

New York, Jan. 5 .- R. G. Dunn & Co.'s Weekly Review of Trade tomorrow will say: "Failures in 1899 were 9.392 in num\_ ber, with liabilities of \$123,132,679. The last days of the year added a few to the number, and some millions to the known liabilities of firms and banks which failed close to the end, so that commercial defaults reached \$90,879.889. commercial defaults reached 199,879,869, of which \$39,132,154 were in manufactur-ing, \$48,924,771 in trading, and \$11,162,-954 in brokerage, promoting and other commercial liabilities. "Most people in business have been

so occupied with their accounts and the settlements of the past year that little

instead of 181/2 cents a month ago. The disposition to ask higher prices is seen in boots and shoes, 20 cents advance being asked in some, for which 171/2 cents was asked and paid in November. The yielding in hides at Chicago, in spite of short receipts, because warm weather has checked killing by farmers, has reached .6 per cent in the past month. "Cotton goods are at the highest quotations of last year, with good demand, thugh cotton has declined a little. But the goods were at no time ad-

vanced quite in proportion to the material, and are in that sense cheaper now than a year ago. "Woolen goods are also much lower

with respect to wool than a year ago, and some further advance has been expected. Wool is strongly held, though prices of a month ago cannot be obtained.

"Cotton does not rise further, because receipts from plantations have somewhat increased, and accounts of large stocks at many small towns have attracted attention. Southern mills which can easily supply the mselves with large stocks from the surrounding country without passing the cotton through any market or drawing it until it is wanted, many have done so for their protection against the publicly an-nounced combination last fall to raise These mills consumed last year prices. 1,400,000 bales, but are reckoned as having taken for this year's crop only 491,-

"Wheat still moves very sluggishly with small change in prices. In six months of the crop year, about 90,000,000 bushels, flour included, have been exported, against 123,000,000 bushels last year. Atlantic exports have now fallen to only 2,690,926 bushels for the week, against 5,214,420 last year, and Pacific exports were 531,225 bushels, against

614,833 last year. The price is practical-ly unchanged, as also for corn, of which .923,195 bushels have been exported for he week, against 3,572,412 last year.

"Failures for the week have been 273 in the United States, against 243 last week, and 19 in Canada, against 24 last week.

## To Fortify Port Orchard.

Seattle, Wash., Jan. 5 .- News of the intention of the government to proceed immediately to fortify the entrance to Port Orchard, across the Sound from this city, where is located the navy yard and one of the finest dry docks in the United States, was received here today. Construction work will be com-menced not later than February 1st. The report is confirmed by Captain Harry Taylor, engineer in charge of all coast defense work on the Sound. Ground for the fortifications on the headlands overlooking the narrows was condemned by the government several months ago.

#### Mrs. May-Wright Sewall.

Chicago, Jan. 6 .- Mrs. May Wright Sewall, of Indianapolis, president of the International Council of Women, who has been appointed by President Mc-Kinley as a delegate to the congresses of the Paris exposition, reached Chicago last night, called here by duties con-nected with the National Council of Women, of which she was president un-

til recently. When questioned about her plans for work at the exposition, she said: "I shall leave for Paris in June and shall participate in the work of the education congress, the literary congress and the organization congress. Afterward I may go to St. Peterburg, to which city

I have been invited by some of the prominent Russian women." #### For a National Park.

St. Paul, Minn., Jan. 6 .- Gen. C. C. Andrews has prepared a bill to bring about an agreement with the Chippe-wa Indians for obtaining certain reservations for the proposed Northern Minnesota National Park, at the headwaters of the Mississippi river. The territory proposed to be taken com-prises 611,592 acres of land and 214,470 acres of water, the Cass lake, Chippewa, lake and Lake Winnebagos Leech reservation.

Under the act of Congress of January 14, 1889, the Indians ceded the reservation to the United States, with the understanding that the reservation would be surveyed, that the "Pine lands," thereon should be established and offered for sale to the highest bidder in forty acre tracts, and that all other lands except such as might allotted to individual Indians should be regarded as agricultural lands and sold to actual settlers, the proceeds of all sales to be paid into the treasury of the United States to the credit of the Indians. If the reservations shall be perpetually held as a national park, it is expected that the forests thereon will be managed on forestry principles

sum to be paid for the land. SAN DOMINGO MUST PAY.

#### Will Have to Settle Debts to French and to Others.

New York, Jan. 6 .- A special to the Herald from Washington says:

If the French government attempts forcibly to compel the payment of the Boisemare-Caccavelli claim by levying upon the revenues of Santo Domingo, the matter is likely to become an object of concern to two or three powers, in-cluding the United States.

The syndicate which finances the island has Belgian, Dutch, French and English as well as American stockholders, and it is to be presumed that their several governments will anxiously watch over their citizens' interests. The United States recently formally recognized the Jiminez government,
