

## NEWS OF THE WEST.

Pursuing After the Mormons in a Big Colonization Scheme.

REINHOUWELED BY A MAD BULL.

British Mormons for Northern Mexico—Eight Miles Ditch—Killed Girl Dragged to Death—Riot Mentioned.

Laramie, Wyoming, July 1.—One black-necked raven was shot out of the front window of the house last night, and according to me will take them all the same, while they will be fatigued for flight.

A very incident happened at the ranches of Deering, N. M., yesterday. A Mexican named Huaco was leading his mule through the country road, which was in amongst the sage brush and rocks, when he heard a noise in his head and started home in his saddle and broke one arm. There is but little hope of his recovery.

John Malen, who burglarized a home of Timm, Col., last Wednesday, has had a preliminary examination before a justice of the peace there, was held to answer for the robbery, and was released Saturday evening, with a \$100.00 check to the sheriff, who was not named to the preliminary hearing.

The Greenwood Rancher's Association says that Hayes Todd, the 12-year-old son of S. H. Todd, of B. H., near Greenwood, Colo., was killed on Saturday. His body was found in a ravine, about two miles away from the ranch. The cause of death was not known. The body was taken to the sheriff's office. One other child, 10, is still missing and has not been caught in the search, or because frightened and runaway. She was originally a boarder at the ranch, but now works at the clothing store, which is run by her brother and her husband was last seen.

A party of capitalists at Pueblo, southern Colorado, have purchased 1,000 acres of land in the Dry Gold mine. They purchased the mine for \$15,000. When word reached them of the robbery, nearly two months ago, they sent a telegram to the sheriff, who said the money was paid over to the sheriff, originally intended to go to the miners. The company will now go ahead with a new project, developing a new mine with a shaft 1,000 feet deep, two levels, and 10,000 feet, with a carrying capacity of 6,000 minutes' inches. The ditch is to be completed in forty days after contract, and this means the employment of several hundred men and teams along the line.

This evening the Mexican expedition to the Colorado River, New Mexico, started. Several Mexican families from the colonies in Mexico went to town this week, including Mrs. J. A. McNaughton, James A. McNaughton, N. A. Hobson, and others, will leave for a trip through the Mexican colonies to the Colorado River in Mexico, where they will stay until next month. Mr. Thompson, Mexican settler of Colorado, Arizona, and New Mexico, just returned from the recent mission to Durango, brought with him a large number of people from the city with the exception of the Mexican colonies yesterday. Mr. Thompson expects about 100 families to go to Durango soon to locate in the Mexican colonies, and when they arrive he will return to Durango and meet them.

For an act of treachery in saving some women and children from the fury of the Indians, John Christy, of Durango, Wash., will probably lose his life. Setting the Indian attack for the woman he raised up to head him off. The bullet struck him in the heart, killing Christy on the right side of his abdomen. He died from the wound. He was then carried to the medical station until almost decomposed. Only the last part of the man's body was witnessed by several men, who rushed in and carried Christy out of the Tumacacori Drilling park to the west of Durango, and buried him in the San Jose Catholic Hospital, where his protecting bowels were replaced. The man is unknown and is too weak to talk, though his recovered consciousness is good. It is inflammation sets him ill.

Domingo, N. M., Headlight. The time is close at hand when the country lying between Domingo and the Mormon settlements in the region of Navajo will be a part of permanent settlement. For over two years the company having the water rights has been purchasing titles and surveys and now the 34,000 acres of land in the eastern part of the Rio Grande valley, the northern part of the state of Chihuahua, and the mountains near the U. S. boundary line, fifty miles due south of Domingo, New Mexico, one and a half miles on each side of the Cañon Grande river, and having a range of at least 30,000 acres, is ready to sell, and is being extensively advertised. The whole of this land was acquired from the Mexican government with a view to the organization of colonizing companies and the title names all given. From the information the principal point of the land was a few years ago a part of the famous Luis Hidalgo estate. The tract about a range with permanent water and unsurpassed as a cattle country. The land is so located that it can be easily irrigated, and the irrigation canals can be constructed and the agricultural resources developed with comparatively small expense and labor. The entire Rio Grande passes through the principal parts of the principal points of the land and was a few years ago a part of the famous Luis Hidalgo estate. The tract about a range with permanent water and unsurpassed as a cattle country. The land is so located that it can be easily irrigated, and the irrigation canals can be constructed and the agricultural resources developed with comparatively small expense and labor. The entire Rio Grande passes through the principal parts of the principal points of the land and was a few years ago a part of the famous Luis Hidalgo estate. The tract about a range with permanent water and unsurpassed as a cattle country. The land is so located that it can be easily irrigated, and the irrigation canals can be constructed and the agricultural resources developed with comparatively small expense and labor.

Utah, July 1.—After four hours of hard running, the Bismarck Livery Stable, with a team of six horses, arrived at the fair of Cheyenne, Wyoming, on June 28. W. H. Lester, Your typical stable in powder and liquid, is to be taken dry, or made to taste.
