

EDITORIAL CORRESPONDENCE.

PRESIDENT YOUNG'S TRIP SOUTH.

PAYSON, Sept. 18, 1898.

While at Provo yesterday we were strongly pressed by Bro. Daniel Graves to call at his place at the edge of the city and examine his graperies. We did so, and were much gratified at the success he has had in producing grapes. He has a seedling, which he has produced from an Isabella, that has attained an astonishing growth for its age, and is a very prolific bearer. The fruit is musk-flavored and has a larger berry than the Isabella. His California vines are loaded with fruit, some of the clusters being remarkably large, and it is likely that he will be able to gather at least two tons of grapes from them. His vineyard and garden are on land that has been deemed worthless by many, and he tells of this with no little pride when he exhibits his productions. It is certainly encouraging to see such results as he is working out, attending the cultivation of land so unpromising as his was when he took it up. We do not know what the capabilities of our soil are yet, and it is not too much to expect that, before many years elapse, bench land, that is now considered valueless except for grazing purposes, will be covered with fruitful vineyards.

Last night's rain has made the roads quite muddy in places; but all nature looks gay and smiling from its effects. Unlike rain that we usually have at this season of the year it has been warm and has not been followed by that chilling weather which is hurtful to late crops. There is but little change in the temperature of to-day from that of yesterday. The effect upon corn, sugar cane and fruit will be most excellent, and should this pleasant weather continue we will have a heavier crop of corn throughout this county, and Salt Lake and Davis counties, and probably other counties, than we have ever had in this country in any one season. The grasshoppers have injured

THE CROPS

In the settlements of this county; but not nearly so much as might have been expected from their numbers early in the season. The people will have enough wheat to furnish them with bread and to spare, and that which they have we hope they will, after paying their debts, have prudence and care enough to save and store away. This season's experience should not be forgotten, and no man that has any claim upon common sense will be induced to part with his grain and run such another risk as the great majority of the people have this year.

ARRIVAL AT SPRINGVILLE.

Captain Elmer Taylor, at the head of a mounted escort, met us about three miles out of Springville and escorted us to the meeting. The schools with their banners were drawn up to welcome the company, and they made a fine appearance. The meeting was held in the bowerly, being more roomy than the meeting house, which we noticed was being plastered, and when finished will make a fine and convenient building for the purpose for which it is intended.

THE MEETING.

The absence of men in the congregation here was quite perceptible. They are off to the Railroad. Excellent remarks on the topics which have been dwelt on at other places were made here by Presidents B. Young and D. H. Wells, Elder Woodruff and President Joseph Young. The people were evidently interested, for though there was a thunder storm during the meeting and the rain fell very briskly for awhile, the people never flinched nor suffered their attention to be diverted from the remarks of the speakers. The stand was decorated with very superior specimens of fruit, apples, peaches, plums, etc. Bishop Aaron Johnson had prepared dinner, hoping to induce the company to partake; but though some of them might not have objected to dine here was not in the programme, so immediately after the meeting we stepped into our carriages and were whirled away to

SPANISH FORK.

The usual escort met us while we were en route, but I neglected to obtain the commander's name. When we turned into the Main street, the sight which greeted us was an exceedingly pleasant one. Across the street was stretched a cord with banners suspended on it, conspicuous among which were the Stars and Stripes, and in the centre hung the word WELCOME. Under these nearly the entire population of the place, adults and juveniles, were drawn up on each side of the road. As the company passed slowly between them the children sang Sister Eliza R. Snow's song:

In our lovely Deseret, where the Saints of God have met,
There's a multitude of children all around;
They are generous and brave—they have precious souls to save,
They must listen, and obey the gospel sound.

CHORUS.
Hark! hark! hark! 'Tis children's music
Children's voices, O how sweet
When in innocence and love, like the angels
Up above,
They, with happy hearts and cheerful faces
Meet.

That the children may live long, and be beautiful and strong,
Tea and coffee and tobacco they despise,
Drink no liquor and they eat but very little meat,
They are seeking to be great and good and wise.
Chorus.
They should be instructed young, how to watch and guard the tongue,
And their tempers train, and evil passions
They should always be polite and treat every body right,
And in every place be affable and kind.
Chorus.
They must not forget to pray, night and morning, every day,
For the Lord to keep them safe from every ill
And assist them to do right, that with all their mind and might
They may love Him, and may learn to do His will.
Chorus.

THE MEETING.

The large meeting house was soon crowded with people, and a very spirited time was enjoyed in addressing them. The speakers were: Elders George Q. Cannon, John Van Cott, Joseph W. Young and President B. Young. From the meeting we were invited to the hall which is used for social purposes, where we were seated at a beautifully-supplied table. The food was abundant, in great variety, well-cooked and of excellent quality, and those who waited upon us vied with each other in making us feel at home. While we were partaking of the repast the choir, under the direction of Bro. Wm. Jones, sang glees and other pieces, and Bro. Joseph Randall favored us with a song "The Laughing, Fat Man." Under the direction of Bishop A. K. Thurber, Spanish Fork is likely to become a thriving, flourishing place.

(Special to the Deseret Evening News.)

By Telegraph.

GENERAL.

New Orleans.—Judge Cooley, in a contested election case, dismissed it, holding that where the election had been ordered by a military commander, by virtue of Congressional authority, the decision of the military commander in respect to the election, was not subject to the revising power of the courts.

Gen. Longstreet, yesterday, visited the Legislature, and was invited to a seat within the bar. A recess was taken to receive him.

St. Louis.—The Sullivan lodge, Perfection, gave a banquet to-night, to the members of the 33d Degree of the northern and southern jurisdiction; Albert Pike, Sovereign Grand Commander of the southern jurisdiction and a number of other high officers were present. The General Grand Chapter of the Royal Arch, to-day, elected James M. Austin, of New York, General Grand High Priest; Robert S. Bruno, of South Carolina, deputy; Wm. H. Hacker, of Ind., General Grand King; Isaac S. Titus, of California, General Grand Captain of the Host; John D. Caldwell, of Ohio, General Grand Secretary.

The following were elected officers of the grand encampment of Knights Templars of the United States: W. S. Gardner, of Mass., Grand Master; J. R. Fellow, of Louisiana, deputy; Kent Jarvis, of Ohio, Grand Generalissimo; Geo. W. Bell, of Mo., Grand Captain General; John D. Caldwell, of Ohio, Grand Recorder; John Arizel, of Tenn., Grand Senior Warden; Wm. A. Munger, of Kansas, Grand Junior Warden.

Many Knights Templars left to-day.

New York, 18.—The Working Women's Association organized yesterday, Mrs. Anna Tollett, as President. The object of the Society is to endeavor, by organizing similar to men's trades unions to regulate women's wages and obtain higher rates.

Washington.—The commissioners appointed by the government, arranged to-day the schedule prices of rice and of the different sizes which have been prescribed for the use of distillers. The price of the smallest rice is two hundred dollars; the metre of No. 2 capacity, three gallons per minute, \$900; the largest size capacity, 15 gallon per minute, \$1,000; other sizes are proportionate.

Commissioner Rollins has issued a circular requiring distillers to procure and attach these metres, a failure in which will make it the duty of the collector to close the distillery, and to institute proceedings for its condemnation, and the enforcement of the penalties required by law. Distillers of apples, peaches and grapes exclusively are not to be required to attach these metres to their distilleries.

New York.—Some anxiety is felt for the safety of the steamer *Northern Light*, which left here August 22, for Bremen, and has not been heard from since. All vessels arriving report damage at sea from the cyclone on the 6th.

Several families had a narrow escape from burning to death this morning in Brooklyn, many escaping in their night clothes. A policeman rescued a child at the peril of his life, being burned in the operation.

Nine English cricketers played a game of base ball with nine Americans to-day; the score was 36 for the English and 10 for the Americans.

Boston, 18.—John Quincy Adams accepts the Democratic nomination as Governor of Massachusetts, he objects, however, to the financial plan of the Democratic Convention and avows himself a Jackson Democrat, and a believer in hard money.

New York.—A fire on Fulton Avenue Brooklyn, to-day, destroyed seven dwellings, and eight stores with the tenements over them; 30 families were rendered homeless. Total loss \$150,000. Heavy frosts occurred last night at Hartford, Providence, Springfield and many places in Maine.

Rochester.—Over 2000 dollars' worth of property have been burglarized from dwellings in this city during the past week; no arrests.

New York, 19.—Dr. Gold, of Dublin, arrived in this city on Thursday last, from the Arctic regions. He gives some interesting particulars in relation to Hall's Arctic expedition. Captain Hall has ascertained the circumstances of the death of the last two survivors of Sir John Franklin's party—Captain Crozier and the steward of one of the vessels. They died in 1864, near Southampton Island. Captain Crozier's watch and other relics are in Mr. Hall's possession. He was to start in February or March last, with an armed party of natives and Europeans to secure some

records left by Franklin among the men of King William's Land.

The Working Women's Association have appointed Mrs. N. K. Putnam delegate to the National Union, to assemble in this city on Monday next.

St. Louis.—Two thousand and eleven buildings are in process of erection, or just finished in this city, at a cost of \$15,000,000. Only 236 of these are wood. About a hundred citizens of St. Louis, embracing and representing nearly every branch of business, left this afternoon for Omaha and the end of the Union Pacific Railroad; their object is to examine the country, to develop its resources, and to endeavor to bring the trade of that region to St. Louis.

The next triennial convocation of the Knights Templars will be held at Baltimore.

Cairo.—A steamer passed here yesterday, with 175 men and horses of the Fifth Regular Cavalry, bound for Omaha.

Chicago.—Washington specials say that Speaker Colfax and Senator Wade have arrived; both expect a quorum by Monday evening. They agree in the opinion that all the members of the two Houses should consider it their duty to be present; they think that no legislation should be attempted now, but that the time for re-assembling should be fixed for the 15th of October. General Schenck has received dispatches from a large number of members, asking if they shall come, all of which have been answered in the affirmative.

St. Louis, 19.—The *Republican* has a letter from Walnut Springs, Arkansas, Sept. 8, relating that on the previous Sunday, at the conclusion of the religious services the people were assailed and five persons were shot, three of whom died. The shooting is said to have been done by Radicals, as the parties shot are all Democrats.

New York.—A special from Metz, France, says that an official investigation into the explosion of the cartridge factory, yesterday, shows 46 killed and 110 badly wounded.

New Orleans.—The Senate has finally passed the negro equality bill, which prohibits distinctions being made in any place of public resort, or on any public conveyance, on account of race or color, under a penalty of fine and imprisonment.

St. Louis.—A Pond City, Kansas, letter says that the recent Indian outbreak was a preconcerted and well matured plan on the part of the Indians, and that a mere raid by a strolling party. The letter says a simultaneous attack was made on all advanced settlements east and west, for 1,000 miles in extent. A party of scouts discovered the place where a large war council had been recently held. The letter charges those interested in the contracts, with an attempt to screen the Indians.

A. H. Morehead has sued Dr. Cornelius Boyle, formerly of this city, charging him with imprisoning Mrs. Morehead three years, and thus preventing her return to society and the care of her husband; damages claimed, \$55,000. Boyle avers that, as Provost Marshal of Virginia, in the Confederate Service, by order of General Beauregard, he prevented her crossing the line.

Louisville, 20.—Last Thursday Marshal Merriweather, with fifty Federal soldiers under the command of Lieutenant Drury, left Louisville to protect the Marshal and deputies in the execution of processes in Nelson and Larue counties. The soldiers went in the company of Marshal Merriweather and accepted the invitation of Mr. Howard, a resident in that vicinity to his house to supper. While at table, three armed men entered and dragged Merriweather toward a wood, threatening to make short work of him; Howard, however, succeeded in getting the Marshal away from the party, when the Marshal made several arrests and served a number of processes and returned to Louisville. There is, doubtless, a regular organization of 200 300 men in these counties to prevent the execution of any process from the Federal courts.

New York.—John Sefton, the well known comedian, died suddenly yesterday.

FOREIGN.

New York, 18.—An La Chapelle letters mention that this city, in Rhinish Prussia, is fully armed and prepared to sustain a siege; the garrison numbers 120,000. Rhinish Prussia is alive with troops; forty thousand men are ready to lay siege to Luxembourg, and fortify themselves there should a telegram from Berlin order them to do so.

Florence.—La Nation says the Italian Ministry have not asked the withdrawal of the French troops from Rome.

London.—Sir John Young, the present Governor of New South Wales, has been appointed Governor-General of Canada.

Metz.—A terrible explosion took place at a cartridge factory in this city, to-day; thirty persons were killed outright and eighty badly injured; the building was torn to pieces.

Madrid.—The Emperor and Empress with the Prince Imperial, to-day, made a visit to Queen Isabella, of Spain, at St. Sebastian.

Florence.—Cardinal Reischach has been tried by the civil court at Reiti, and sentenced to pay a fine of five hundred francs, for attempting to take possession of the see of Sabina, by order of the Pope, without the authority of the King of Italy.

Shanghai, Aug. 15.—The United States ship *Monocacy* is here, and the *Ashuela* at Chipo, all well. The Chintang coal mines, near Pekin, which have been in force for the past eight years. The Shanghai mountains have been satisfactorily prospected for gold by an old Californian.

Vice Admiral Sergio de Lousa, successor to the Porte de Horta, dismissed for complicity in the coolie trade, has arrived at Hong Kong, and has been installed into the command of the Portuguese squadron. A fire at Hong Kong August 13th, destroyed property valued at thirty thousand dollars. The Board of Foreign Affairs at Pekin has addressed a dispatch to foreign Consuls, requesting that they forbid their respective subjects going to the Chee Foo mines, for fear that they will cause trouble with the natives; the Consuls have complied with the request and promised to use their power to compel obedience. An earthquake had been felt at Hunkow.

Yokohama, Aug. 29.—The uncle of the present Mikado has been appointed Mikado by the northern Princes, which has caused a great panic among the southerners. The Mikado has been requested to resign, and will probably comply.

The Prince of Mito, father of the ex-Tycoon, is dead; his younger son is now in Paris; he succeeded to the title. The ex-Tycoon has gone to the Territory of Prince Alder. All newspapers are prohibited. Yeddo and Yokohama are again guarded by foreigners; an attack is daily expected.

L. H. Grinnel, late acting Lieutenant of the United States navy, has been appointed overseer of the Japanese navy under the southern government.

Toronto.—A public meeting assembled here, last night, to hear F. C. Capreole's report of his recent visit to England, in connection with the Huron Ship Canal scheme. Mr. C. said that his mission to England was a great success, prominent engineers endorsed the scheme, and Mr. Wieth, an eminent contractor, had already undertaken the work, under the same basis as the United States' contractors. All that is now necessary to secure support from English capitalists is a grant of ten million acres of land by the Canadian Government.

In a squall at Aspinwall, on the 8th, the American brig, *Rolling Wave*, was struck by lightning and suffered some damage.

A violent hurricane passed over Tobago, on the 9th, accompanied by a whirlwind, which uprooted trees, destroyed houses, and did much damage to shipping.

The steamship *Rahari*, from Australasia, Aug. 24, arrived at Aspinwall on the 5th. Extraordinary discoveries of gold had been made at Ophir, in New South Wales, and there was a great rush to the new diggings.

A difficulty had arisen between the Colonial Government and the American consul at Sydney, concerning some contract.

DESERET UNIVERSITY

The Classes of

The Commercial Department

Will be Re-sumed

On the 12th of OCTOBER, 1898.

To make this Institution THOROUGHLY PRACTICAL, the Lower Rooms of the COUNCIL HOUSE have been fitted up as a

COMMERCIAL BAZAAR.

And will be furnished with a Large and Complete Stock of

Foreign and Domestic STATIONERY,

SCHOOL FURNISHINGS,

SCHOOL BOOKS,

GLOBES, MAPS,

And a Great Variety of

FANCY GOODS

Which will be offered for sale to the Public at such LOW PRICES as will command READY SALES.

Students will be first instructed in the theory and practice of Book-keeping, Penmanship, Arithmetic, and "Actual Business," as taught in Business Colleges; and after a satisfactory examination, will be assigned a place of business in the Commercial Bazaar. Here the feigned Transactions of the College give way to real business. The Student becomes a Merchant in fact. His dealings are no longer with his fellow-students—they are with the Public. He now has an opportunity of becoming acquainted with all the details of business as transacted in First Class Commercial Houses. Students who enrolled last term, and who intend continuing their studies, will please inform me immediately. For Terms, etc., apply to

D. O. CALDER, Principal.
