.....New Yorkers have begun their Centennial Fourth.

.....The Conference Committees compromise on the Post Office appropriations bill.

EDITORIAL NOTES.

——The Montana *New North West* says of Wigginton's Election Bill for the Territories—"Congress is trying its hand on the territorial election laws. Male citizens, twenty one years of age and upward, and neither bigamists nor polygamists when they offer to vote are entitled to suffrage, and all ballots are to be enclosed in envelopes of uniform size and color, to be furnished by the Secretary of the Territory. If this bill passes it will let out Mormons, women and persons who have declared their intention to become citizens. The bill has been reported favorably to the House. It is a kind of impracticable measure and not of much good even if it passes."

——The New Orleans *Republican* says, "Until all men master the art of living without working, there will be complaints of hard times." That may be. But the trouble hereabout is that everybody can't do it, and so many can.

——St. Louis is now termed the hottest of created places, so far as human experience goes. It was pretty warm during the convention.

——Baltimore sends "dog commissioners" into the streets, who give poisoned meat to every dog they see. As a result, dead and dying dogs are seen in nearly every street of that city. Nine commissioners report 2,079 curs slaughtered by them in a week. Four other "commissioners" were to be heard from.

——It is proposed to organize all the liquor dealers of New York State into one body to take part in the political canvass.

——The Rockville (Md.) *Advocate* boasts that there is not one prisoner in Montgomery County jail, and thinks that it is due to either Moody and Sankeyism or to greatly watered whiskey.

——The Los Angelos *Republican* says, "A man named Bailey, who was bitten by a tarantula a year ago, was taken with violent convulsions the other day, and it required the united exertions of two gentlemen to hold him. The convulsions continued at intervals, though between the spasms he was conscious and talked sensibly."

——The thermometer at various places in California for June 28, at 2 p. m., is thus recorded, according to the S. F. *Chronicle*—"Truckee, 88 deg.; Summit, 73; Colfax, 100; Rocklin, 105; Auburn, 96; Red Bluff, 102; Marysville, 99; Wheatland, 103; Lincoln, 103; Redding, 103; Emigrant Gap, 86; Tehama, 100; Nord, 98; Chico 101; Nelson, 101; Stockton 89; Midway 98; Oakland Wharf, 70; Lathrop, 96; Galt, 91; Sacramento, 92.

——Lamp-post patriot, at 1 a. m. —"'Rah for Hale and Wheezer!" "'Rah for Tildrieks and Henden!" responded a neighboring hail fellow.

TEN DAYS MORE GRACE.

ACCORDING to the dispatches in todays NEWS the Senate and House last night both passed the House bill to continue the unexpended balances in the treasury to provide temporarily for the expenses of the Government for as long as might be necessary, but not to exceed ten days of the new fiscal year. It is to be hoped that the balances are ample to serve the purpose for as long as they may be needed. There is no doubt that the President would promptly sign the bill, for evidently he was as anxious, and naturally so, as anybody else to have the appropriations made in time to save trouble and very great annoyance and mortification. Meantime it now rests with the two Houses to adjust their differences on these points as speedily as possible and have the needed appropriations regularly made for the present fiscal year. It is a serious matter and should be dealt with in a spirit consistent with its importance to the country, rather than in a narrow partisan spirit, for it ought to be that the party which does best for the interests of the whole Union should be the dominant party, whichever it may be, and therefore the wisest politics should be those which look most fully after the best interests of the country.

Ten days does not give a great deal of time to consider and act upon the appropriation bills, because there will be two Sundays in ten days, and Congress will want to have a few days holiday in which to do justice to the Centennial Fourth. The House has already resolved to adjourn from to-day (Saturday, July 1st,) till the 6th, which will take half of the ten days, there remaining then but five, less than a week. So that unless Congress shall be industrious and the two Houses conciliatory, a few days' more grace and another pull at the expended balances, or some equivalent measure of relief, will be necessitated. However, the ten days already provided for will carry the country over the centennial, and enable it to take a fair start on its second hundred years.

The latest news is that the President has signed the ten days bill.

THE PRESIDENTIAL SALARY.

There has not been much said in Congress very lately about the presidential salary, but there is no doubt the House will hang to the idea of reducing it to the old figure, and the Senate may agree to that, but the President, having once vetoed that proposition, in all probability would do so again, if it should come before him in any such shape. If Congress cannot pass such a measure over his veto, there is little probability of its becoming law. However, if the reduction to the old figures cannot be brought about, some reduction may be made. If Congress is in earnest in its economic professions, it will still have to economise no further than it can, and if the presidential salary cannot be reduced to $25,000, it may be to $40,000, or $35,000, or possibly to $30,000.

When we cannot have what we should like, we should take what we can get. A reduction of the presidential salary to $35,000 or $40,000 would be an important step, it would be a good beginning. There could be no very serious objection to such reduction, and however averse President Grant might be to approving a great reduction, he could hardly strongly oppose a moderate reduction like that, considering the general hardness of the times, the duration of that hardness, and the prospects of a not very swift return to good times.

By Telegraph.

PER WESTERN UNION TEL. LINE.

TO-DAY'S DISPATCHES.

CONGRESSIONAL.

SENATE.

WASHINGTON, 1.—Bogy, from the committee on private land claims, reported favorably on the Senate bill to confirm to the city of San Jose, Cala., the title to certain land; passed.

Sherman reported back the House joint resolution for the issue of silver coin, and recommended that the Senate non-concur in the House amendments to the Senate amendments, and asked for a committee of conference; so ordered.

Mitchell called up the resolution in regard to the compensation of Pinchback, the late contestant from Louisiana. A discussion ensued, pending which, the morning hour expired, and Windom called up the unfinished business, being the sundry civil appropriation bill.

Conference committees unable to agree on Indian appropriation bill.

HOUSE.

Conference committees unable to agree on legislative appropriation bill.

EASTERN.

Great Preparations for the Centennial Fourth.

NEW YORK, 1.—The weather continues warm and delightful. Great preparations are making for the Fourth. Brooklyn and Jersey City, as well as this town, are rapidly getting into celebrating condition. Flags, banners, and streamers are in position in every direction. The entire streets are given up to the display of bunting, and many magnificent decorations are already made and more to follow. Engine houses, police offices, and city buildings, as well as hundreds of private residences are, appropriately and profusely dressed out.

Another Indian Fight.

The *Herald's* Omaha dispatch, received at the department headquarters to-day from Fort Laramie, says the report from Red Cloud Indians coming in, brings news of another fight with the northern Indians; the troops engaged were not Crook's, and that an entire village was deserted.

Prostrated by Heat.

Several more persons were prostrated by the heat yesterday, and in one or two cases the result was fatal.

The Centennial Fourth Begun.

The gold and stock and other exchanges and numerous business houses having resolved to close from three o'clock to-day till Wednesday, when that hour arrived the Centennial Fourth celebration was begun by the screaming of factory whistles, the pealing of Trinity chimes, and the ringing of bells. The evening newspapers will issue but one early edition on Monday and none on Tuesday. The city is already enveloped in flags and bunting, Broadway and Bowery presenting a magnificent spectacle.

Appeal to Ministers of the Gospel, Etc.

WASHINGTON, 1.—The officers of the Washington National Monument Society publish an appeal to ministers of the gospel and Sabbath school superintendents to take up a collection to-morrow, or on some convenient day thereafter, for a benefit to the monument fund, and request that contributions be sent to J. B. H. Smith, Treasurer at Washington.

Statement of Public Debt.

The public debt statement shows a reduction of $38,813.97; coin balance $736,255 84; currency $130,004,141; coin certificates $28,681,400; special deposits $8,284.006; outstanding legal tenders $369,772,284; total reduction for the fiscal year ending this day was $29,249,481, leaving a debt, less cash in the Treasury, of $2,099, 439,344.

Very Remarkable Condition of Affairs.

A very remarkable condition of affairs exists at the Treasury Department to-day. There is no Secretary, Treasurer, nor Assistant Treasurer, and the cash room has been closed. No drafts have been paid since noon. Cameron, it is found, cannot legally assume the duties of Secretary, the ten days in which an acting Secretary may be in charge having expired, for the reason that Conant, since the resignation of Bristow ten days ago, has been filling all the duties of the office, and the law provides no further for an acting appointment. Wyman has his bonds in every respect regular and complete, except that they require the approval of the Secretary of the Treasury. As there is no such officer he cannot qualify Gilfillan, the newly appointed Assistant Secretary has not yet received his commission, so just at this hour there is no officer in the department under whose authority any moneys can be expended. The first comptroller to-day decided that the law would not permit Cameron to act. As Secretary New has not yet turned over the moneys of the government to his successor, he has assumed the responsibility of paying the warrants that were issued yesterday. Against all other payments, however, the cash roll is closed, and business, for the time being, is practically suspended. Cameron, Judge Taft, and Assistant Secretary Taft have been in consultation with the President to-day, and it is believed the difficulty will be fully adjusted in an hour or two, as it is thought Morrill will either qualify as Secretary to-day or that a new nomination will be sent to the Senate without delay.

The Issue of Silver Coin.

The Senate finance committee voted to recommend that the Senate now concur in the joint resolution for the issue of silver coin. These amendments provide for the issue of $20,000,000 and for the renewal of the old silver dollar, with unlimited legal tender power.

Signed the Bills.

The President to-day signed the act to provide temporarily for the expenditure of the government, also the naval appropriation bill.

Conference Committee Agree on the P. O. Appropriations.

The Committee of Conference on post office appropriations bill has agreed upon the report. They compromise on the rates of compensation to postmasters. Pay for railroad transportation is reduced ten per cent. below present rate, and a commission is provided to take this subject into consideration and report at the next session. Third class mail matter, transient newspapers, magazines, pamphlets, books, and all printed matter except circulars, to pay one cent for every two ounces.

Shot Her Husband.

TRENTON, N. J., 1.—Orrin A. House, the noted divorce lawyer, quarreled with his stepson at their residence near here last evening. The wife interfered to save the boy, when House beat and kicked her, threatening to shoot the boy if he interfered. Mrs. House broke away, and getting a revolver, shot her husband dead, as he was, as she supposed, about to shoot the boy.

Races.

LONG BRANCH, 1.—The races today began with fair weather and a fast track race for trial purse, one mile, was won by Metal, Leander second, Spendthrift third, Milton last. Time 1.47.

The second race was for a purse of $500, all ages, mile heats. The first heat was won by Neco; James A. Second, Egypt third. Time 1.45½.

FOREIGN.

GREAT BRITAN.

Action Deferred—Co-operation—Special Hospital Train, etc.

LONDON, 1.—A Vienna dispatch says, notwithstanding Prince Mila 's departure for the front, immediate action seems to be deferred, as dispatches were sent on Thursday to the Servian agent at Constantinople containing important communications for the Porte. From this it would seem that Servia will, after all, try negotiation before appealing to arms. The above intelligence is confirmatory of previous reports that Servia had sent its ultimatum to Turkey.

Seven thousand Montenegroes will co-operate with the insurgents in Herzegovina.

A special hospital train, equipped by the Empress of Russia, has arrived in Montenegro. Russian sympathizers have also contributed six months provisions for the army and the people of Montenegro. Servia has received a loan of twelve million francs and donations amounting to 50,000 ducats.

Walking Match—Challenge Accepted.

Vaughan accepts the challenge of O'Leary for a twenty-four hours walking match, but declines the six days match, he never having had an opportunity to test his capabilities to that extent. He prefers to walk in England.

Bullion to Bank.

The amount of bullion gone into the bank of England on balance today is £43,000. American securities inactive.

Failure.

It is reported that a well known firm of steel manufacturers at Sheffield has failed. Liabilities $165,000.

AUSTRIA.

What Prince Milan Says.

VIENNA, 1.—Prince Milan in his proclamation says, Turkey has provoked war by not satisfying Bosnia, and by threatening Servia. We enter Bosnia in the cause of humanity and nationality, and to re-establish peace without offending Turkey's integrity. The proclamation mentions Austria thankfully for her efforts to protect Christians.

GERMANY.

Will Remain Neutral—Von Arnim Closely Watched.

BERLIN, 1.—The Prince of Montenegro has solemnly engaged to remain neutral in the Servian and Turkish troubles.

Count Von Arnim has arrived at Carlsbad. He is closely watched by Prussian detectives.

The Mormon Propaganda.

The Mormon question still presents itself as one of the problems which our civilization must solve. The Mormons are not dispirited, and their faith is not a mere reminiscence of long past ages, but a living, moving energy. They are full of hope as of fanaticism, and all the talk about their abandonment of the great Salt Lake Valley is sheer nonsense. They have sent abroad missionaries to England, France, Germany, Sweden, the Sandwich Islands, Australia, New Zealand and the States of the Union, and those missionaries report unusual success, and their converts are beginning to arrive in the Mormon "promised land" by the hundreds. This does not look as if Mormonism had fallen into decay, and that they were ready to abandon the fine city with its splendid buildings to find a refuge in Mexico or any where else. The followers of the Prophet Joseph went to Utah when it was a wilderness; they endured hardships, conquered the waste places, reared a city, and there they mean to stay or perish as martyrs to their faith. If other evidence of the disposition of the Mormons to stay was wanting it is to be found in the fact that they have entered almost every available acre of tillable soil in the valley, and they refuse to sell any portion of the real estate of which they are possessed to Gentiles. From this it does not appear the Mormons are contemplating flight from the border of the Salt Sea and the banks of the Jordan.—*St. Louis Republican.*

ARRIVALS.
