Forrestal Activity on the Stock Exchange - The Manufacturers Trust - Marine and North Mountain Exchanges.

Non. A. W. McCune, a well-known name in the world today, came down from the Northwest this morning after an examination of the Payne mine in British Columbia, a property that is said to be yielding the owners \$100,000 monthly out of each of the 100,000 shares of stock in the mine.

McCune left for the northwest about a week ago in company with Mr. Forrestal, a European capitalist, and a gentleman who is said to be a resident of the Northwest in good mining properties. They have taken their party back through British Columbia, where they saw some very wonderful things, principally of the white metal variety. The prospect is said to have been investigated with the aid of a geological party, and it is said to be a very rich one, and it is said to be a very rich one, and it is said to be a very rich one.

The Payne is just as big a mine as any of the mines in the world, and it is said to be a very rich one, and it is said to be a very rich one, and it is said to be a very rich one.
