Already the currency has appreci-ated to about par with sliver. He wondered that silver is not now pouring out. When this took place, hus theory was, that the country could absorb from two to three hundred millions of it. This would prove a great benefit in several ways. It would supply the market for a number of years, for the produce of our mines is now becoming quite a drug, and he believed that silver once more in circulation greenbacks would never be at a discount for silver. All fluctuations from that point would ie in appreciation of value of our paper money. As to legislation, the cresident said he had thought mued positive authority to re-issue forty-our millions, a free banking his annual message, he should recommend positive authority to re-issue forty-our millions, a free banking his annual message, he should recommend positive authority to re-issue forty-our millions, a free banking his annual message, he should recommend positive authority to re-issue forty-our millions, a free banking his annual message, he should recommend positive authority to re-issue forty-our millions, a free banking his annual message.
