DEATH OF MISS SADIE COOK.

Tragic Death of William Ward Cause Of Universal Regret-Damage And Other Suits.

Ogden, March 30 .- A meeting for springs this summerthe boosting of the state militia was held last evening at the Weber club parlors. It was largely attended and considerable enthusiasm was awakened in the movement. William Glasmona was chairman of the meeting. There were present as representatives of the militia Gen, E. A. Wedgewood, Col. C. G. Plummer, and Judge Advocate A. B. Irvine, who expressed pleasure in the interest taken by the Weber club and the citizens of Ogden in the movement and explained the purthe movement and explained the pit-poses of the organization, its benefits too the young men who join in in-creasing in them a greater love for their country, and it has a tendency to make them better and more useful clitzens. Many of those present ex-pressed an interest in the movement and piedged their hearty support in every Way.

Resolutions were unanimously adoptd, expressing a patriotic interest in the militia, a desire to increase the molliment, also to have the watges of all members increased at least 5 of all members increased at least a per cent by their employers, and full pay while out on encampment. That a monthly fee of \$1 be paid by all members to create a fund for the pur-chase of medals to be given for dril-work, marksmanship and deportment. It was decided to hold another meet-ing next Tuesday evening at the Arm-ory building commencing at 8 oclock ing next Tuesday evening at the Arm-ory building commencing at 8 o'clock, to which the public is invited. An exhibition of the work being done by the boys will be given. A commit-tee composed of F. J. Kiesel, J. F. Young, L. L. Reynolds, C. A. Graves and Albert Scowergft was appointed to boost the cause in every way pos-sible. If last evening's meeting can be taken as an indication, then the militia in Ogden is going to be a militia in Ogden is going to be a great success, providing the enthusi-asm can be continued.

DEATH OF WILLIAM SANDERS.

DEATH OF WILLIAM SANDERS, William J, Sanders, son of Orson and Rose Sanders, died yesterday at 7 p. m. He has been sick for two and a half years, and for 11 months he has been unable to move a limb or assist himself in any way. He was 19 years old last January. About five years ago while playing on the school grounds he fell and fractured a bone in his leg just above the knee. This allment, though lasting, was almost restored to its normal condition when he received another fall. This time he was skating on the ice. Since then he has been an Invalid, until death came as a relief, and yet with many regrets. egrets. William Sanders at one time was one

of the promising youths of this com-munity. He had completed the Eighth grade of the public schools and was fingrade of the public schools and was in-ishing his second year at the Latter-day Saints business college, where he received the fatal fall. After this he became so ill that he was obliged to re-main at home. He was quick to learn; had a wonderful memory. INDEPENDENT SUBURBAN RY. On Wednesday evening last a meet-ing was held in Attorney D. W. Mof-fat's office, at which were present the members of the Murray B. & P. asso-clation and a committee from the Jor-dan C. & P. association. The purpose of the meeting was the discussion of street car service for the southern part of the county. As there seems to be no disposition on the part of existing commanies to consider the probabilion over solver solvers of freight bound for the coast are in those yards, while on the eastern division, between Sparks and Ogden, more than 2,000 cars are filling every blind siding and switching track that can possibly be brought into use. For the last week it has been impossi-ble to move freight west of Sparks on account of the washouts. no disposition on the part of existing companies to consider the proposition of extending the line south from Mur-ray, the opinion of those present was that some action should be taken by the citizens themselves. Municipal and public ownership were among the pre-vailing ideas. The matter will receive careful consideration during the next two weeks, and another meeting has been set for April 17, to convene at Sandy. Word has been received from San Francisco that no freight for Navada points will be received until the conges-tion is relieved, which will not be until the road over the Truckee and Ameri-can rivers is safe for freight trains. The public is not the only sufferer through the tying up of the freight traffic. Numerous carloads of livestock are among the delayed trains, and the railroad comparing the consolid to for Sandy. and strength, it is necessary that this vital fluid be kept free from germs,

tified against disease and health is assured; but any humor or impurity acts injuriously on the system and affects the general health, or culminates in some special blood disease. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased

condition as a result of too much acid, or the presence of some irritating

humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, etc., are all deep-seated blood diseases that continue to grow worse as long as the impurity or poison remains in the circulation. Some persons are born with an hereditary taint in the blood and we see the effect manifested in various

ways. The skin has a pallid, waxy appearance, the eyes are weak, glands in the neck often enlarged and usually the body is not fully developed or strong, because it has always been fed on weak, impute blood. In all blood troubles S. S. S. has proved itself a perfect remedy. It goes down into the

circulation and removes all poisons, humors, waste or foreign matter, and makes this stream of life pure and health-sustaining. Nothing reaches inherited blood troubles like S. S. S.; it removes every particle of taint, purifies and strengthens the weak, deteriorated blood, supplies it with the

healthful properties it needs and establishes the foundation for good health.
