

SMELTING PLANT

Concessions Salt Lake Must Have to Secure It.

RAILWAYS ASKED FOR THEM.

Reasonable and Indiscriminative Rates Necessary.

MUST HAVE CHEAP FEES.

A Pointed and Business-like Letter to the Traffic Managers of the Railways.

As heretofore published in these columns, a committee was appointed at the meeting held at the Knutford by a number of prominent business men on Monday afternoon last, to wait upon and consult with the railroad companies with a view to securing concessions from them in the matter of better freight rates, which would be of material aid in the establishment of the prospective copper smelting and refining plant here. The committee has written the following expressive letter in which they set forth plainly their complaints to the traffic managers of the railroads:

To the Traffic Manager of the Union Pacific Railroad Company; to the President and Directors of the Pacific Railway Company; to the Traffic Managers of the Rio Grande Western Railway Company.

Gentlemen.—The owners and officers of a number of manufacturing interests in copper production, have just visited Salt Lake City in a tour of observation and inspection, to decide upon the location of a copper smelting and refining plant from the mass or rich ores of the Rocky mountains copper mines. The plant proposed is to be located at the accomodation of the members of the Chamber of Commerce and the president of the Business Men's Association called a large meeting of the business men of Salt Lake City to meet the gentlemen from Colorado at the parlor of the Knutford Hotel, on the afternoon of January 25, and to determine upon the location of Salt Lake City as the location of such large reduction works. At that meeting it appeared that, in order to secure the location of such a plant in Salt Lake City three determinations must be made.

First—That Salt Lake City is centrally located for the accommodation of the traffic and transportation required for the movement of copper and a number of goods in health to smelters was conceded. The location, in the center of a fertile and productive country, offering reasonable cost for the wharves and auxiliary works of the table, were conceded.

The largest population centered at one point within the area of the mountains, distant, and largely scattered because of its attractions as a home, gave promise of plenty of stable, reliable and dependable customers.

All the conditions of the first items were therefore favorable.

Second—A reasonable price of fuel must be secured, satisfactory assurance of the way given.

Third—Reasonable and indiscriminative freight rates must be secured.

The most active and energetic members of the Chamber of Commerce of southern Utah and of Nevada, must be gathered to Salt Lake City to be consulted, and the products determined upon.

With the above, the association of comparative freight rates in existence showed plainly that no matter how favorable the other and above-mentioned factors, the plant could not be operated at Salt Lake

City, unless an favorable freight rates as were granted to other similarly situated points in the West.

Second—A reasonable price of fuel must be secured, satisfactory assurance of the way given.

Third—Reasonable and indiscriminative freight rates must be secured.

The committee has therefore to ask:

First—That the traffic manager be taken from Utah to the standard rates same basis per ton as from Montana, which is situated on the same route.

Second—That such rates be made on copper matte and rich copper ores from reduction works in Montana, Idaho, Utah and Nevada, so that the traffic manager will equal the rate charged on matte from point of origin to the smelter, in other words, that the matte may be sent to Salt Lake City while dirt and other refuse material taken from it, provided your aggregate revenue is not less than, and your aggregate cost not more than, greater revenue is largely decreased. To further illustrate the above proposition, we will assume that the rate on copper matte from Butte to Salt Lake City is \$1.00 per ton, \$1.00 per mile, and that aggregate disease \$0.00 miles per rate per ton per mile, therefore, \$1.00 divided by \$0.00 equals \$1.00 per ton.

Above proposition is also agreed to, with Matt from Butte to Salt Lake City \$1.00 per ton, disease \$0.00 miles, rate per ton per mile, 1 cent. Matte carries \$0 per cent copper, or 10 per cent disease, so that \$1.00 minus \$0.00 equals \$1.00, and \$1.00 divided by .01 equals \$100, as remaining portion of rate on each ton of matte from Butte to the smelter.

From Butte to Salt Lake City \$1.00 per ton, \$1.00 per mile, and aggregate disease \$0.00 miles per rate per ton per mile, therefore, \$1.00 divided by \$0.00 equals \$1.00 per ton per mile.

The same goes to you, to your company, and to the railroads, and to the railroads for material hauled will, we believe, assist us much in securing this important industry.

The above compensation, as well as the rate, are not to exceed the standard rates, or to be carried out to the further demand, but are used to illustrate our request, and will serve to give you an idea of what we mean, and will assist you in your equitable plan as far as possible.

The following Sun Country directors have been summoned: H. S. Bassett, J. C. Eustis, W. S. Halloway, C. Graham, C. W. Smith, Theodore Sundstrom, George T. Peay, Stephen Howland and W. J. Silver.

They are requested to marry—Martin Shaver, Jr. and Sarah J. Hall of Price, and Horace S. McCallum,

of Price and Leslie Cunningham, of American Fork.

Judge Blackman has sent to the Knutford a boy from America, who is the sole representative of his father, who testified that said son could nothing with him.

Joe Wilcox of Alpine drank a fair quantity of whisky yesterday and it was carried in by the Provo cop. It is the first case of intoxication in the proconsul for several weeks, ours is increasing at amazingly rapidity.

There are now enrolled at the Brigham Young Academy 100 students and 1000 scholars in the Territory.

Benny McCullough of Alpine is very sick.

When the eight now at the Ensign Institute in Salt Lake shall have settled their disputes, the total number of graduates from American Fork will be seven.

Mr. L. E. Hubbard.

At Amherst, Mass., Jan. 25.—I do my best to make every day a happy day, and I have found it does not cost me a cent to do my best.

It costs me a cent, though, to keep my house clean, and my house is perfectly good. I have a series of plates shown below.

It costs me a cent to sleep well. I sleep well, and I have found it does not cost me a cent to do my best.

It costs me a cent, though, to keep my house clean, and my house is perfectly good.

It costs me a cent to eat well, and I have found it does not cost me a cent to do my best.

It costs me a cent to wash well, and I have found it does not cost me a cent to do my best.

It costs me a cent to go to bed well, and I have found it does not cost me a cent to do my best.

It costs me a cent to get up well, and I have found it does not cost me a cent to do my best.

It costs me a cent to go to work well, and I have found it does not cost me a cent to do my best.

It costs me a cent to go to school well, and I have found it does not cost me a cent to do my best.

It costs me a cent to go to church well, and I have found it does not cost me a cent to do my best.

It costs me a cent to go to bed well, and I have found it does not cost me a cent to do my best.

It costs me a cent to go to work well, and I have found it does not cost me a cent to do my best.

It costs me a cent to go to school well, and I have found it does not cost me a cent to do my best.

It costs me a cent to go to church well, and I have found it does not cost me a cent to do my best.

It costs me a cent to go to bed well, and I have found it does not cost me a cent to do my best.

It costs me a cent to go to work well, and I have found it does not cost me a cent to do my best.

It costs me a cent to go to school well, and I have found it does not cost me a cent to do my best.

It costs me a cent to go to church well, and I have found it does not cost me a cent to do my best.

It costs me a cent to go to bed well, and I have found it does not cost me a cent to do my best.

It costs me a cent to go to work well, and I have found it does not cost me a cent to do my best.

It costs me a cent to go to school well, and I have found it does not cost me a cent to do my best.

It costs me a cent to go to church well, and I have found it does not cost me a cent to do my best.

It costs me a cent to go to bed well, and I have found it does not cost me a cent to do my best.

It costs me a cent to go to work well, and I have found it does not cost me a cent to do my best.

It costs me a cent to go to school well, and I have found it does not cost me a cent to do my best.

It costs me a cent to go to church well, and I have found it does not cost me a cent to do my best.

It costs me a cent to go to bed well, and I have found it does not cost me a cent to do my best.
