

# TARIFF BILL

Declares it Will, in Connection With Internal Taxes, Produce Enough Revenue.

## PANAMA CANAL ELIMINATED.

Expenses on That Account Are To be Met by the Sale Of Bonds.

In Face of Record Disclosed No Party Can Afford to Place Unnecessary Burdens on Industries.

Washington, April 18.—In opening the debate on the pending tariff bill today, Senator Aldrich, chairman of the committee on finance, assured the senate in most positive terms that the bill reported from the finance committee would produce ample revenue for the government. He suggested that if, by any possibility, these estimates should prove to be incorrect, the duty of Congress would be to "reduce expenditures and make them conform to actual revenue conditions and not to impose new and onerous taxes."

While he did not refer specifically to any proposition to impose an income tax, his statement declaring that ample revenue may be derived from other sources was accepted as direct opposition to all such propositions.

Mr. Aldrich said in part:

"The practical question to which I ask your attention today is, 'Will the bill as reported from the committee on finance produce sufficient revenue when taken in connection with the internal revenue taxes to meet the government expenses without additional taxes?' I answer unhesitatingly that it will."

Mr. Aldrich submitted statements showing the receipts, disbursements, and surplus of the treasury for the fiscal years 1900 to 1911 inclusive. His estimates for the fiscal years 1900 to 1911 inclusive were as follows:

Fiscal Year	Receipts	Disbursements	Surplus
1900	\$65,047,230	\$67,430,680	\$-2,383,450
1901	\$65,000,000	\$67,000,000	\$-2,000,000
1902	\$65,000,000	\$67,000,000	\$-2,000,000
1903	\$65,000,000	\$67,000,000	\$-2,000,000
1904	\$65,000,000	\$67,000,000	\$-2,000,000
1905	\$65,000,000	\$67,000,000	\$-2,000,000
1906	\$65,000,000	\$67,000,000	\$-2,000,000
1907	\$65,000,000	\$67,000,000	\$-2,000,000
1908	\$65,000,000	\$67,000,000	\$-2,000,000
1909	\$65,000,000	\$67,000,000	\$-2,000,000
1910	\$65,000,000	\$67,000,000	\$-2,000,000
1911	\$65,000,000	\$67,000,000	\$-2,000,000

In these statements, both the receipts and disbursements for the Panama canal have been eliminated for obvious reasons," said Mr. Aldrich. "It is the policy of Congress, which I take it, universal approval, that payments for the canal and its construction should not be made from current revenues, but met by the sale of bonds."

"These figures include all receipts and disbursements except those of the justice department and the Panama canal, and the postal deficits are included in all cases in the disbursements. The statement consists of the actual official figures of receipts and disbursements for the years 1900 and 1908, inclusive, and show that in these years the act of 1897, (existing law) produced a surplus of \$128,656,221, an average yearly surplus of \$17,422,469."

## ESTIMATES, HOW REACHED.

Mr. Aldrich explained that he arrived at his estimates from data secured in consultation with treasury experts.

"In making the estimates, we have taken the actual figures for the years 1900 and 1908, inclusive, and estimated those for the intervening years, reaching the result of \$128,656,221, an average yearly surplus of \$17,422,469."

"In making the estimates for the years 1900 and 1908, inclusive, we have taken the actual figures for the years 1900 and 1908, inclusive, and estimated those for the intervening years, reaching the result of \$128,656,221, an average yearly surplus of \$17,422,469."

"In making the estimates for the years 1900 and 1908, inclusive, we have taken the actual figures for the years 1900 and 1908, inclusive, and estimated those for the intervening years, reaching the result of \$128,656,221, an average yearly surplus of \$17,422,469."

## REVENUE UNDER SENATE BILL.

The statement shows that if the senate bill had been in force in 1907, the revenue produced by it would have been \$3,000,000 greater than those collected under the Dingley act, the total being \$332,000,000 under the act of 1897, and \$340,000,000 under the senate bill.

"This increase of revenue is due to advances in rates on a few articles of luxury, such as wines, spirits, etc. It is also due to the substitution made in the bill in all cases where it was possible, of specific for ad valorem duties. This will prevent undervaluation and consequently increases revenues."

"Other changes will be made affecting the comparative revenues."

"The changes we propose to make in the administrative act include:

- First—New definitions of dutiable value and new methods in the percentage of valuation.
- Second, more efficient collection machinery.
- Third, a provision for the creation of a customs court to insure uniformity of decisions in customs cases.

"The extent of under-valuation previously existing is not known."

## BESTED BROKERS HINDING.

New York, April 18.—Lindsay Russell, receiver for Knott & Spaulding, the defunct consolidated exchange brokerage firm, is authority for the statement that both Knott and Spaulding have been indicted in Brooklyn since the failure. Both dropped suddenly from public view just before the crisis came and the receiver has greatly desired an interview.

dicted under existing law, is variously estimated at from 10 to 25 per cent. of the revenue collection. If any considerable portion of this practice is corrected by the provisions I have alluded to, we can safely add \$5,000,000 to the estimate in 1910, making a total estimate of revenue for 1910, based upon the importation of 1907, \$455,000,000. I have assumed that the importation of 1907 is the proper basis for comparison. We should not lose sight of the fact that these will be approximately 4,000,000 of people more in the United States to be provided for in 1910 than in 1907, and if other conditions remain the same, there will be a natural increase from this cause. The committee believes that the extent of the importation and resulting revenue will be great, or in 1910 than in 1907, because of improved business conditions.

## INCREASED CUSTOMS REVENUE.

"Business activity and the movement for increased importations have already commenced. The customs revenue for the 29 business days from March 1 to April 15, inclusive, as compared with the corresponding days in 1908, \$12,081,082.08, or an average daily increase of \$267,346.50. This increase seems to be progressive, as the report for the last day, which I have, April 18, shows receipts from all sources, \$2,672,071.85, as compared with receipts of \$1,233,321.29 on the corresponding day of last year.

"There is no incentive for these enlarged importations except improved conditions of the country and reduced stocks of imported merchandise. The character of the legislation proposed, as there are practically no rates above the rates imposed by the act of 1897. It must be conceded that the era of prosperity which commenced the first part of the century is likely to continue uninterrupted with the enactment of wise tariff legislation.

"The estimates I have made of increased revenues are most conservative. If the rate of increase which has obtained since the first of March should be applied to the eighth month of the fiscal year, 1910, not covered by the period of improvement in this year, we should then have an increase over the receipts for the present fiscal year—say \$25,000,000 and \$34,461,335, making a total of \$349,461,335 without taking into account the additional sources of revenue provided for in the bill. This would be an increase of revenue of \$10,000,000 and a reduction of expenditures of \$25,000,000, a consequent surplus of \$35,000,000.

## TAKING CARE OF DEFICITS.

"If the statements I have submitted are approximately correct, the independent question arises: 'In what way is the treasury to take care of the deficits indicated for the present and the following fiscal?' 'The treasury has today, including the \$1,681,275.55 which is entitled to receive for reimbursement of canal expenditures, practically \$100,000,000 of available surplus over a necessary working balance. This surplus is likely to be reduced \$10,000,000 by June 30, by additions to the deficiency for the current fiscal year, leaving on that date an available surplus of \$90,000,000. If my estimates for 1910 are accurate, the estimated deficiency of \$15,000,000 in that year would still leave a surplus of \$75,000,000, which would be increased in the subsequent year.

"I have assumed that 'canal bonds' can be sold to an amount which will reimburse the treasury for all payments on account of the canal. Further legislation will, however, be necessary if this bill is to secure that result.

"The comptroller of the treasury has held that \$60,000,000 of the amount paid is not reimbursable under the provisions of the existing law. Existing legislation only authorizes the issue of two per cent bonds which must be sold at not less than par. These could only be purchased by or for the national banks. It will therefore be necessary to authorize the secretary of the treasury to sell bonds of a different class.

"Bonds redeemable at the pleasure of the government after a few years could undoubtedly be sold at a rate not exceeding three per cent."

"Stating that he was aware that the accomplishment of the \$35,000,000 reduction in expenditures he had suggested for 1911, in his estimates would be surrounded with great difficulty, Mr. Aldrich said the rapidly increasing expenditures of the past three years was a source of anxiety if not alarming.

## INCREASED EXPENDITURES.

"Simultaneously with the reduction in receipts of \$60,000,000 from 1907 to 1909, we have had an increase in expenditures of \$120,000,000," he said. "It is but fair to say that the appropriations for the year 1908, were made the country had not been overtaken by the panic of 1907.

"But a different condition existed when the appropriations for the year 1910 were made. The fact that the appropriations were less than the estimates does not relieve Congress from responsibility for the expenditures and extravagance. No excuse whatever can be found for similar legislation in the future.

## REDUCING EXPENDITURES.

"In the work of necessary reduction in expenditure and in reform in methods of appropriation to the senate, the committee on public expenditures is ready to take into consideration long before the appropriation bills are received from the house, the estimates and needs of the various departments and report their recommendations to the senate, in order that responsibility for future extravagance may be clearly fixed. I am myself satisfied that last year's appropriations made last year could have been reduced at least \$50,000,000 without impairing the efficiency of the public service.

# TWO MILLION-DOLLAR HOTEL FOR UPPER MAIN

## Syndicate of Prominent Salt Lake Business Men Proposes to Purchase Old Deseret News Corner And Erect a 10 or 15-Story Skyscraper With 200 Feet Frontage on Main and South Temple Streets.

If the present plans are consummated as discussed at a meeting of prominent business men which is being held in the Deseret National Bank this afternoon, Salt Lake City will have another skyscraper hotel which is to be from either 10 to 15 stories in height and which will cost, with the site, in the neighborhood of \$2,000,000.

Representative business men of Salt Lake approached the Trustee in Trust of the Church of Jesus Christ of Latter-day Saints this morning, with the object in view of purchasing the site, the old Deseret News corner, on the northeast corner of Main and South Temple streets and which faces the Temple block.

This afternoon those interested are meeting at the Deseret National bank to talk over the proposition and make arrangements for the purchase of the site which will be 200 feet by 200 feet. Those gentlemen, seen before the meeting, expressed themselves as being optimistic that the deal would go through.

If the transfer of this valuable site is accomplished there will be no difficulty encountered regarding the pushing of work on the building, for the stock, it is understood, is being rapidly subscribed for by prominent bankers and business men of this city.

Just how big the building is to be will be determined within a few days. As the proposition is at present outlined the structure will be not less than 10 stories in height and may be 15. The ground floor is to be devoted to stores, hotel entrances and courtyard and rotunda. The upper floors will be utilized for a first class hotel, to accommodate tourists and business and mining men.

The site has long been recognized as an ideal one and the best in the city for the location of such a structure, situated as it is at the head of Main street and close to all the historic attractions of Salt Lake City. From the upper windows of the proposed hotel the stranger can look over the green lawns of the Temple block and further west the waters of Great Salt Lake glimmer in the sunlight. South and west extends the business section of the city, with the smelters of Murray in the distance. North lies Capitol Hill, Ensign peak and Hot Springs lake, with stately South Temple street stretching out to the east towards Ft. Douglas and the snow-capped Wasatch range. No better site for a big modern structure could be selected is the sentiment of the projectors of this \$2,000,000 scheme for the upbuilding of Greater Salt Lake.

The committee which wanted on the Trustee in Trust this morning was comprised of Former Governor Jno. C. Cutler, W. S. McCormick, William W. Riter, L. S. Hills, Chas. S. Burton, Heber J. Grant, George Romney, Thomas G. Webber, Thomas R. Cutler and Senator W. N. Williams.

## BREAKING GROUND THIS MORNING FOR ELEVEN-STORY NEWHOUSE HOTEL.

A large crowd of interested spectators was on the ground at the corner of Main and Fourth South streets at 5 o'clock this morning, to witness the breaking of ground for the 11-story Newhouse hotel. Several teams with plows and scrapers began the work, which is to end only when the finished structure is ready to receive guests as the most modern and best equipped hostelry of western America. Most of the work done this morning consisted of removing trees and other obstructions from the site of the building, and the starting of the trench and trap for hauling out the earth from the excavated part.

John Holt, who did the excavating work for the Commercial club structure, has the contract, and his foreman, R. W. Cook, had charge of the actual work of excavation which commenced on the ground this morning.

While the plans for the basement floor have not yet been put in the hands of the contractor, work is being pushed in removing the earth from the center of the site, preliminary to the final touches to be placed on the excavation when the plans are finished. As now contemplated, the excavation will extend 100 feet along Main street and 100 feet down Fourth South street, but these figures may be extended in either direction when the plans have been worked into shape. Forty teams will be put to work within a day or two. The excavation will be made to a depth of from eight to 10 feet, and it will require six weeks, according to the estimate of the contractor, to complete the work.

Samuel Newhouse, who had planned to be present when the ground was broken, was called to New York last night, and was unable to witness the beginning of the work on the new hotel.

# MOB STORMED JAIL, LYNCHED FOUR MEN

Overpowered Sheriff, Worked Rapidly and Quietly, Daylight Only Disclosing Crime.

Ada, Okla., April 18.—At 2 o'clock this morning a mob of 200 men stormed the county jail here and after overpowering the sheriff lynched four white men. The lynched men are J. B. Miller of Fort Worth, Texas, charged with the murder of A. A. Bobbitt, a wealthy cattleman of this section, and E. E. Brown, Jesse West and Joseph Allen, alleged accomplices.

The mob worked rapidly and quietly, nothing being known of the lynching until daylight. The victims of the mob were taken to a barn within a short distance of the jail.

"Bring a rope," the leader shouted and one by one the men were hanged. The mob effected an entrance to the jail by tearing down a high fence which enclosed it. As soon as all of the members of the vigilance party were inside the enclosure the leader pounded on the jail door. "Sheriff, we are in a hurry," he called to the officer inside. "You might as well go home," he said. "You might as well go home," he said. "You might as well go home," he said.

## CLAUDE T. BARNES NAMED.

Salt Lake Receives Appointment as Biologist in Government Service.

Word has just been received from Wells W. Cooke of the bureau of biological survey at Washington, notifying Claude T. Barnes of this city of his appointment as biologist for this region. The appointment entails special responsibility in the collecting of data and bird migration and on other open questions of ornithology and entomology. Mr. Barnes is an associate in the American Ornithologists union, the greatest scientific bird society, and is considered well fitted to give the service required.

# DEFENDS ROB THEORY OF WOMAN'S CREATION

Chicago, April 18.—In defiance of the higher criticism, Rev. Frederick K. Hopkins, Congregational minister, in defense of the Biblical account of man's origin, declared at length in Adams' place today. "They tell us the Bible begins with a joke, that it is ridiculous to suppose that man was made as Genesis describes. They do not care to argue that point, further than to remark that no one except the author of the first book in the Bible has ever given an satisfactory explanation of the beginning of things from a scientific standpoint."

"Before we discuss a book which contains what some think is such a ridiculous story, let us stop long enough to ask if after all the mere invention of the story does not make the book worth while?"

"Who today after he has had a jolly good laugh, will rise and explain how it ever occurred to anybody to provide for the continuation of human life on this planet by establishing the family relation? Could anything be more perfect than just to say 'I will make a human mate for him,' and the thing was done?"

"Is it a huge joke that lies at the bottom of the marriage relations and the home? Are the words of the most beautiful of ceremonies but an echo of an ancient and childish fable?"

# INSANITY DEFENSE OF CAPT. P. C. HAINS, JR.

His Counsel Will Attempt to Show Stories of Friendship of Wife for Annis Unbalanced His Mind.

Flushing, N. Y., April 18.—Insanity both at the time of the killing of William E. Annis and since is expected to be the chief point in the defense in the trial beginning today of Capt. Peter C. Hains, Jr., charged with the murder of Annis on the floor of the Bayside Yacht club on Aug. 15 last. Counsel for defense announced they would attempt to prove that Capt. Hains' mind was unbalanced by the stories of the friendship of Mrs. Hains for Annis. Whether or not Mrs. Claudia L. Hains, wife of the defendant, would be called as a witness for the prosecution is not certain and much is depended upon that. Five witnesses were summoned for the defense.

The selection of a jury began before Justice Harrelson in the supreme court at the opening of court. Capt. Hains was brought out from the Queens county jail at Long Island City. He looked pale and worn and wore a heavy dark beard. Dist. Atty. Dewitt said before court opened that the prosecution would have about 25 witnesses and that the defense would have about 10. He retained three alternates to a last any testimony of insanity which the defense might introduce. The district attorney said he had no formal promise from Mrs. Claudia Hains, the defendant's wife, that she would testify for the people, but said that she had left Boston and probably would be accessible if wanted. Mr. Dewitt is assisted in the prosecution by John H. Hays, former assistant district attorney of Queens county, and George A. Gregg, former district attorney.

John F. McIntyre of New York; Eugene N. Young and Daniel O'Reilly, who was an associate counsel for Harry Thaw, appeared for the defense.

The first 12 talesmen examined were excused.

Dist. Atty. Dewitt's examination of the talesmen was brief.

Lawyer Young for the defense, examined each man at length. It appeared from his line of questioning that the defense intended to plead insanity for the prisoner.

Capt. Hains sat in court flanked by his lawyers. Maj. Hains, his brother, and John Hays, his father, sat at the table with him. The prisoner maintained a stolid indifference to the proceedings.

## A HUGE CANDLE.

Biggest One Ever Made to Burn in Memory of Petrosino.

New York, April 18.—The largest candle ever manufactured is destined to burn four years and seven months in memory of Joseph Petrosino, the New York detective who was assassinated while on a secret mission to Italy. It was finished the day Petrosino's body reached America and was sent to the cathedral in Mott street where the funeral took place a few days later and where it was designed that the great candle should burn continuously in memory of the slain officer.

But threats to dynamite the church if the candle was kept there were resisted and it was hurriedly returned to the firm which made it. It now awaits the disposal of the widow who is making arrangements to have it sent to her husband's birth place in Italy and there burned.

The candle is 9 feet high and 3 feet 6 inches in circumference. It weighs 18 pounds and is almost completely covered with 14 carat gold leaf. Its base is a secret mission to Italy. It was finished the day Petrosino's body reached America and was sent to the cathedral in Mott street where the funeral took place a few days later and where it was designed that the great candle should burn continuously in memory of the slain officer.

# TALKING WITH PEOPLE OF MARS

Prof. William Henry Pickering, Harvard's Astronomer, Thinks It Quite Feasible Matter.

Boston, April 18.—If mankind cares enough about it to put out about \$10,000,000 there is no very good reason why the human race should not be able to talk with Mars—and that so soon as next July—according to Prof. William Henry Pickering, Harvard university's celebrated astronomer.

Communication with the Martians will be made possible, Prof. Pickering declares, by adopting his method of flashing messages when Mars approaches the earth to within 25,000,000 miles, or about five millions nearer than ever before.

Prof. Pickering's plan contemplates the use of a series of mirrors reflecting a single light reflecting surface turned toward Mars and occupying more than a quarter of a mile of surface.

"Supposing," he says, "with such a signal in operation we began a series of flashes, cutting off the sun's rays for an instant and then throwing on the reflection again, repeating this at regular intervals, forwarding, say, the telegraphic code of dots and dashes."

"I have no doubt, that, providing there were intelligent people on Mars the light would at once attract attention and would lead eventually to an answering signal. If we received such an answer it would be a comparative easy matter to establish a code and transmit messages."

"It will be recalled that this communication is something of the subject of 'Interstellar'—Metropolitan news column in the Boston Herald—when it was discovered that more than \$200,000 had been paid to Mr. Quetzalcoatl in securing the organization of all the astronomical societies in the world and delegations to Albany and that it was also disclosed that in 1907 \$50,000 had been paid by Mr. Quetzalcoatl in securing a position of a Mr. J. J. Quetzalcoatl in the Boston Herald—when it was discovered that more than \$200,000 had been paid to Mr. Quetzalcoatl in securing the organization of all the astronomical societies in the world and delegations to Albany and that it was also disclosed that in 1907 \$50,000 had been paid by Mr. Quetzalcoatl in securing a position of a Mr. J. J. Quetzalcoatl in the Boston Herald—when it was discovered that more than \$200,000 had been paid to Mr. Quetzalcoatl in securing the organization of all the astronomical societies in the world and delegations to Albany and that it was also disclosed that in 1907 \$50,000 had been paid by Mr. Quetzalcoatl in securing a position of a Mr. J. J. Quetzalcoatl in the Boston Herald—when it was discovered that more than \$200,000 had been paid to Mr. Quetzalcoatl in securing the organization of all the astronomical societies in the world and delegations to Albany and that it was also disclosed that in 1907 \$50,000 had been paid by Mr. Quetzalcoatl in securing a position of a Mr. J. J. Quetzalcoatl in the Boston Herald—when it was discovered that more than \$200,000 had been paid to Mr. Quetzalcoatl in securing the organization of all the astronomical societies in the world and delegations to Albany and that it was also disclosed that in 1907 \$50,000 had been paid by Mr. Quetzalcoatl in securing a position of a Mr. J. J. Quetzalcoatl in the Boston Herald—when it was discovered that more than \$200,000 had been paid to Mr. Quetzalcoatl in securing the organization of all the astronomical societies in the world and delegations to Albany and that it was also disclosed that in 1907 \$50,000 had been paid by Mr. Quetzalcoatl in securing a position of a Mr. J. J. Quetzalcoatl in the Boston Herald—when it was discovered that more than \$200,000 had been paid to Mr. Quetzalcoatl in securing the organization of all the astronomical societies in the world and delegations to Albany and that it was also disclosed that in 1907 \$50,000 had been paid by Mr. Quetzalcoatl in securing a position of a Mr. J. J. Quetzalcoatl in the Boston Herald—when it was discovered that more than \$200,000 had been paid to Mr. Quetzalcoatl in securing the organization of all the astronomical societies in the world and delegations to Albany and that it was also disclosed that in 1907 \$50,000 had been paid by Mr. Quetzalcoatl in securing a position of a Mr. J. J. Quetzalcoatl in the Boston Herald—when it was discovered that more than \$200,000 had been paid to Mr. Quetzalcoatl in securing the organization of all the astronomical societies in the world and delegations to Albany and that it was also disclosed that in 1907 \$50,000 had been paid by Mr. Quetzalcoatl in securing a position of a Mr. J. J. Quetzalcoatl in the Boston Herald—when it was discovered that more than \$200,000 had been paid to Mr. Quetzalcoatl in securing the organization of all the astronomical societies in the world and delegations to Albany and that it was also disclosed that in 1907 \$50,000 had been paid by Mr. Quetzalcoatl in securing a position of a Mr. J. J. Quetzalcoatl in the Boston Herald—when it was discovered that more than \$200,000 had been paid to Mr. Quetzalcoatl in securing the organization of all the astronomical societies in the world and delegations to Albany and that it was also disclosed that in 1907 \$50,000 had been paid by Mr. Quetzalcoatl in securing a position of a Mr. J. J. Quetzalcoatl in the Boston Herald—when it was discovered that more than \$200,000 had been paid to Mr. Quetzalcoatl in securing the organization of all the astronomical societies in the world and delegations to Albany and that it was also disclosed that in 1907 \$50,000 had been paid by Mr. Quetzalcoatl in securing a position of a Mr. J.
