It has been established and maintained mainly by the Church and for the benefit of the Latter-day Saints. It has not been established to make money, but to furnish proper recreation for the people, especially the young peo-ple. He thought that, in view of the fact that this resort had been estab-lished for the Saints, to secure the young people against the temptations that exist all around them, it should receive our patronage, as well as that of all temperance loving people.

Elder John Henry Smith endorsed the remarks of the previous speakers. Said he believed that we had reached a stage in our history when a more united endeavor on our part is necessary to the preservation of our young people.

The speaker referred to the existence of the curfew law in this city, and the violations of its provisions. There to this matter. Elder Smith spoke strongly against these and similar evis and urged the parents to look after their children and not permit them to run about at will.

With reference to recreation, the speaker said that was essential to every well regulated community. The diffi-culty is to keep it within proper bounds. It should be so conducted as to be a benefit to us both morally and physical ly and not a training school of wicked-

The Contreatment of the Filipinos. The Con-stitution, he contended, nowhere pro-vided for a colonial system. He said: "This new policy of colonization is trying to masquerade in the borrowed garments of Democracy. It has labeled itself 'expansion,' but the disguise is transparent. The new policy is not ex-pansion. Expansion is the natural and healthful growth of an organism. The imperialistic process of enlargement is by the extraneous grafting of alien and unsympathetic tissue between which and the parent life there can never be

"For," said he, "if our municipali-ties, our villages, our towns and cities are governed in accordance with the principles of the Declaration of Independence, all our government will be beneficially affected, even up to the highest. The true unit of governmen is the municipality. Let these be no special privileges there and soon there will be no special privileges at all." It was with this feeling, said Mr Johnson, that he had entered into the

The plutocracy of Cleveland, which, like plutocracy everywhere, stands pat for special privileges for a few and equal rights for none, has been beaten at come nearing and is on the defensive at some points and is on the defensive at all points."

Mr. Johnson said there could be no local government of the people by the people and for the people, so long as legislatures are controlled by political bosses and for corporations.
