

## NINE INDIANS GO BACK TO WYOMING.

Gov. Chatterton Demanded Immediate Surrender of Redskins Involved in Recent Battle.

### OBJECTED TO GIVING THEM UP.

Commissioner of Indian Affairs and Agent Brennan Demurred, but Finally Handed Over the Bucks.

(Special to the "News.")

Cheyenne, Wyo., Nov. 5.—Gov. Chatterton kept the wires hot last night in correspondence with the commissioner of Indian Affairs and Agent Brennan of the Rosebud agency who is at Newcastle investigating the recent Indian outbreak. The governor demanded the immediate surrender of the nine Sioux bucks held at Edgemont but Brennan said he had investigated the troubles and having found that the killing of the Indians on Lightning Creek was wholly unjustified, the Indians then being en route to their reservation in a peaceful manner, he objected to turning them over to officers of the Converse county. He would take them back to the reservation he said, and would investigate there and if he found they had been guilty of outlawry they would be returned to the state.

Gov. Chatterton would not stand for this and called attention to the case of Race Horse, an Arapaho who was arrested by the civil authorities for killing game out of season. He was convicted in the local courts and the case taken to the United States supreme court where it was held that the Indians could be prosecuted in the same manner as any resident of the state. Brennan was advised by the governor of Wyoming's right in the matter and was informed that he must respect these rights. Governor Chatterton also wired Gov. Herrod of South Dakota and asked that his reputation for the Indians be honored. The circumstances of the case were fully explained. This morning Gov. Herrod honored the regulation and the commissioner of Indian Affairs instructed Indian Agent Brennan to return to the agency.

The nine bucks in charge of Sheriff McDermitt of Converse county were immediately for Wyoming. These prisoners will be prosecuted together with those held at Newcastle and several will be arrested at Rosebud agency.

The open cars have been taken off First street, and double truck closed cars substituted.

Today's local bank clearings amounted to \$47,181.20 as against \$47,947.48 for the corresponding day of last year.

The Independent Telephone company set up a 50 foot pole yesterday afternoon, in the alley north of the Aztec building on First South street. The pole will hold for distribution through the block the wires running up on First South street.

Local coal dealers are looking with some degree of apprehension on the threatened strike in the district which embraces this state, Colorado, Wyoming and New Mexico. The Utah miners walk out coal will grow scarce very quick and prices rise.

Snow and stormy weather are prevailing in the Utah reservation country, which is driving in the government surveyors. The latter will shortly be back in Salt Lake, where the weather is less boisterous, and where they can attend organ concerts.

Another daughter was added to the family circle of Professor and Mrs. McClellan, during the week. The little stranger made her debut on Monday morning, and both herself and mother are doing nicely. Prof. McClellan left for Denver on a hurried run this afternoon. He will return on Sunday morning.

The packing interests are finding business letting up, and will have quiet time of it until spring, as during cold weather farmers, besides other consumers, are able to keep quarters and sides of beef and mutton carcasses without their spoiling and are therefore not dependent on the packing houses.

The family will gather at the residence of her son, George G. Hardy, 428 east Second South at 1:30 p. m., from which they will go direct to the meetinghouse. Interment in city cemetery.

A blue penciled copy of the Oakley Eagle, a weekly Idaho newspaper, has reached the editorial rooms of the Deseret News. Attention is called to the fact that the paper has changed hands and that its new editor and manager is Eugene B. Lewis, a former Salt Lake reporter, who announces in his salutary

that he assumes his onerous function with "some misgivings because many of them are untrodden fields so far as we are concerned, and we look, therefore, to the people of Cassia county, and of Oakley more especially, to assist in guiding our hand." The editorial concludes with these words: "Having given out these hints as to our policy and purpose, it remains for us to say with the famous expression of Peter of old, 'It is good for us to be here.'"

Herrod of South Dakota and asked that his reputation for the Indians be honored. The circumstances of the case were fully explained. This morning Gov. Herrod honored the regulation and the commissioner of Indian Affairs instructed Indian Agent Brennan to return to the agency.

### GAVE \$1,000.

Hon. Heber J. Grant's Gift to the U. of O. Scholarship Fund.

Hon. Heber J. Grant delivered an interesting address at a meeting of the student body of the U. of O. yesterday. And when he departed he left a check with President Kingsbury for \$1,000 as a contribution to the University scholarship fund, of \$1,000. The gift was much appreciated and it is the hope of the university faculty and friends that the example set may cause others to follow in his footsteps.

## Amusements

At the Grand tonight the sensational play of "Sapho" will be presented by Miss Lillian Mason and her company.

The comedy "Are You a Mason?" which has had a long run both in England and this country, opens at the Theater tomorrow night.

### BUSINESS NOTES.

Henrietta D. Ellerbeck has transferred to William F. Armstrong, for \$3,000, 32x10 rods of ground in lot 3, block 40, plat D, located on the southeast corner of Third and B streets.

The West Mountain Lime and Stone company of this city filed articles of incorporation in the county clerk's office today. Its capital stock is \$25,000, divided into shares of the par value of 25 cents each. J. B. Torrance is president; J. H. Raleigh, vice president; R. W. Madsen, secretary and treasurer.

S. H. Lewis, master in chancery of the United States circuit court for Utah, has transferred all of the Shawmut Mining company's property at Bingham to Warren Poole, C. A. Hardy and E. F. Barnes for a consideration of \$9,100. The property sold is the Cuba and seven other lode claims and the Shawmut mill.

### DRAPER PEACHES.

A lot of peaches have been received by city marketmen from Draper, so that the fruit is again within the local reach, and is selling at three pounds for two bits or \$1 per box. Red peppers and egg plant are out of the market, so are Concord grapes. Silver and German prunes are selling at 15 cents per basket. Utah eggs are bringing 35 cents, against 30 for eastern hen fruit; and about every market in town is loaded with eastern eggs.

### RANGES BEST IN FIFTEEN YEARS.

The ranges in southern Utah and northern Arizona are reported to be the finest in 15 years, on account of the rains of last summer and during the first week in October. But the cattle markets are reported as very unsatisfactory, lower, in fact, than for the last 12 years. The occasion of this is that stockmen borrow money in the east, and when the lenders are pushed by the banks they are forced to sell cattle at forced prices, at times, and the packing houses manage to make money.

### NO ROCK SPRINGS COAL.

Rock Springs coal has been scarce in this market for some time and now it has disappeared altogether. The explanation is that the coal is being marketed east where better prices obtain and the chances are that within a year, Salt Lake City will have to become a delivery point for Rock Springs. However, there is plenty of Cumberland to be had, which is the next grade and the local yards have easily a 30 days' supply on hand.

## HAMMOND EXPERTS AT UNITED STATES.

President Robert D. Evans Explains Mystery of Their Presence in the Diggings.

### APPARENTLY NO DEAL ON.

Examination for Benefit of Stockholders—Mr. Hammond's Report Would Carry Much Weight With It.

Robert D. Evans, president of the United States Mining company, who arrived from the east last night, declared today that the examination being made of the United States properties by John Hays Hammond and his corps of experts, which has been in progress for several weeks past, has no significance further than that it was the wish of himself and others to have Mr. Hammond report on them.

An opinion from such a competent engineer as Mr. Hammond, whose reputation is world wide, carries much weight with it. The expression from Mr. Evans tends to clear up the mystery of the visit of the Hammond staff to the diggings.

Mr. Hammond will accompany Mr. Evans to California in a few days where the former has acquired extensive placer, near Oroville.

promises for weeks to come. Meanwhile applicants for these places must remain on the anxious seat.

### COUNCIL PRESIDENCY.

Two Other Members, Black and Hewlett, Aspirants for Place.

Two other council members are aspirants for the position of president of the body. They are Mr. Black of the Fifth and Mr. Hewlett of the First. Both have friends who will urge their selection. Both have had experience and both have the respect of their confreres. But whether one of them is to be chosen or whether the responsibility will fall upon Mr. Barnes of the Third, Mr. Wile of the Fourth or Mr. Davis of the Fifth will not be determined until the members-elect get together and settle the question for themselves.

### BURBIDGE AND DEAN.

Face of the Returns Show Latter's Election Over Former.

There were no new developments today in the neck-and-neck race for councilman in the Second precinct, between Burbidge, (D.), and Dean, (R.). The face of the returns shows that the latter has a clear lead. The former by six votes, a fact that Mr. Burbidge frankly admits. If there is any change from these figures it will take the official canvass which the council will make, to determine. While a change may occur it is hardly likely that there will be any overturning of results and the canvass of the three Republicans can count on the support of the other of the Democratic nominees, who was close to the goal of success was Mr. Barker, who came within 10 votes of the coveted mark.

### JUNTA ISSUES A MANIFESTO.

Panama, Colombia, Nov. 5.—The revolutionary junta last night issued a manifesto addressed to the citizens of the republic of Panama, saying that the inhabitants of the isthmus had done what was inevitable in view of a situation which was becoming graver daily. It was pointed out that notwithstanding the grievances inflicted on the isthmians by their Colombian brethren the former had suffered with resignation for the sake of harmony and the union, and in view of the fact that no reparation was possible hopes could not be entertained of an improvement in the situation and the isthmus ultimately making effective progress under Colombian rule. Under the late system of the isthmus the inhabitants of the isthmus had been governed with the narrow mindedness which in days gone by had been applied to American colonies by the powers of Europe.

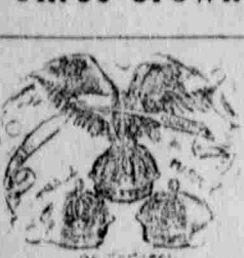

The manifesto then refers to the fact that the isthmus of Panama paid Colombia large sums in customs duties, adding that while the junta did not wish in this exposition of facts which would be handed down to posterity to be regarded as being moved by a mercenary spirit, nevertheless it was but just to point out that in spite of the large sums of money collected from the isthmus for fiscal purposes the latter had not received the benefit of even a bridge over any of its rivers; the construction of a single road between the two parts of the isthmus; the erection of any public buildings; the establishment of a single college, nor any other step tending to advance the industries or the intellectual development of Panama, as not even the most infinitesimal part of the large sums collected had been applied towards benefiting Panama in any shape or form.

The failure of the Hay-Herran canal treaty to meet with approval of the congress to Bogota is then touched upon. It is pointed out that only a few public men were opposed to the treaty and that their opposition was due to the fact that it was alleged that Panama would be the only part of the country which would receive direct benefits from the building of an inter-oceanic canal. The manifesto then continues:

the responsibilities which the present state of affairs means but we have profound faith in the good sense and patriotism of the isthmians and we believe that they possess sufficient energy to open the way by their labor, to a happy future, without worry or danger.

"The separation of the isthmus from Colombia was accomplished without any feeling of hatred or any sentiment of joy. Just as a son withdraws from the paternal roof, the isthmian people, taking their chosen path have separated themselves from Colombia. They did it with grief but they complied with their supreme, inevitable duty, that of looking to their own future, of attending to their own preservation and of working out their own welfare."

"We therefore now beg, to form one of the free nations of the world. We consider Colombia as being a sister nation, with which we shall be in sympathy whenever circumstances may require it, and for whose prosperity we have the most fervent and sincere hope."

### Agent Brennan's Report.

Washington, Nov. 5.—The commissioner of Indian affairs today received the following telegram concerning the Indian situation from Agent Brennan of the Pine Ridge agency, dated yesterday, at Hot Springs, S. D.:

"A sheriff and posse from Wyoming treated nine Indians and their families near Edgemont, S. D., last night. They are supposed to have been engaged in the fight Saturday. Tried to have them released pending investigation, officers insist on taking them to Douglas, Wyoming, for hearing. Mob violence threatened. The governor should be telegraphed at once to use all means to protect the Indians now under arrest. The United States attorney should be ordered to Douglas to see that justice is done the Indians under arrest. In my opinion the killing of the six Indians reported was totally unjustified."

In accordance with this recommendation the secretary of the interior has requested the governor of Wyoming to protect the Indians under arrest. It also has been decided to send special Agent McNichol to the scene of the recent conflict to make inquiry concerning it.

### THE BRISTOW REPORT IN THE POSTAL SCANDALS INVESTIGATION.

The report of Joseph L. Bristow, fourth assistant postmaster general, to President Roosevelt has caused a good deal of sensation in official circles in Washington because it sustains most of the Tulloch charges, criticizes the administration of the Washington city post office, recommends that the position of superintendent of rural free delivery formerly held by Mr. Machen be abolished, suggests sweeping changes in the conduct of the department, gives Postmaster General Henry C. Payne credit for setting the investigation on foot and fails to give a word of commendation to First Assistant Postmaster General Wynne. The illustration shows Mr. Bristow conferring with Postmaster General Payne in the latter's private office.

### William O'Brien Will Resign.

London, Nov. 5.—William O'Brien (Irish Nationalist), has decided to resign his seat in parliament and as a member of the governing body of the United Irish league.

In a letter to Father O'Flynn, president of the Cork branch of the United Irish league, announcing his decision, O'Brien complains that efforts are made in many quarters to "browbeat the policy recommended by the national directory for the purpose of extracting the largest possible benefit for the Irish tenantry under the new land act."

The says in this connection that he himself has been pursued by many interests "with a ferocity and a hatred beyond that incurred by any Irishman of this generation," when he finds that the policy which the Irish party, the national directory, the national convention and the representative of the Irish people have approved is covered with a "policy of Ireland, and when he finds that this policy is shared by public men, including his own colleagues of the Irish party, the limit of endurance has been reached and after deliberation he has determined to resign without delay from parliament and from the governing body of the United Irish league, and to leave the state to whatever alternative policy
