Do not imagine, reader, that I am joking. Here is the story in a few words:—This equestrian statue was erected during the restoration of the Bourbon dynasty, at which time the counter-revolution was in full blast. Revolutionary ideas, being prosecuted and condemned, being prosecuted and condemned, sought a refuge everywhere. The sought a refuge everywhere The royalist police pursued with anifolical works and pamphlets of the Republic were threatened with merciless destuction.

A number of patriots, deeply affected by this persecution, met and hatched a very singular plot. nothing was easier than to buy the workmen's co-operation, and cause them to hide in the inside of the brass horse, a complete collection of revolutionary publications. These statues are set up by piecemeal, the head being placed in pestion last of all. This constituted a ready hiding place which would elude the most subtle searches. A call to the patriots was made; a vast quantity of suspected documents was collected, and this crimital library was capfuedly buried in the inside of the royal steed.

This is by no means a literary joke, but a perfectly authentic uncedute, which was related by an eye-witness of the operation, to a reporter of Le Temps, a daily paper of Parls, and lately made known to the great delight of the French to the great delight of the French

Ogden Junction, Aug. 31-We are glad to see that Me Dan Wood is again convalescent. He is able to be out. Mr. and Mrs. Critchelow, of Og-den city, were thrown from their wagen an Sunday evening, and severely injured; the cause of the secident was the frightening of the horses they were driving with a

portion thereof? La Belle France contry expressed by the Governor down it have performed to prove the country of that State in a telegram to President from the control of the State in the titute that the Coages are the aggreed of the State in the true of the State in the true of glossiness and disagreeable oders.
Added to a foot-bath it entirely absorbs all noxious smell, so often arising from the feet in warm weather, and nothing is better for cleaning the hair from dandruff

For cleaning hair and nail brushes

it is equally good. Put a teaspoonful of ammonia into one pint of water and shake the brushes through the water. When they look white rinse them in water and look white rinse them in water and put them in the sunshine, or in a warm place, to dry. The dirtiest brushes will come out of this bath white and clean. For medical purposes it is unrivaled; for the headache it is a desirable stimulant; a frequent inhaling of its pungent odors will often remove catarrhal colds. There is no better remedy for heartburn and dyspepsia, and the aromatic spirits of ammonia is especially prepared for these troubles. Ten drops of it in a wine glass are often a great relief. The spirits of ammonia can be taken in the same way, but it is not as palatable.

[But don't let the children get at it, and be sure to be particularly careful over it when neat, or some thing will get burnt.-ED. NEWS.]
