AMERICAN.

The President's Advice.

WASHINGTON, 7.—There are so few democratic senators here that the preliminary conference will probably be deferred until to-morrow morning. Morland and Garland are quoted as being willing to give the republicans the presiding officer, the democrats keeping the secretary and sergeant-at-arms. The republicans would unanimously accept such a position. The majority of the democrats insist that, to fail to take the presiding officer, would disgust the rank and file of the party, and be an admission that their representatives were unwilling to take power when it fell to them.

Arthur told a democratic senator this morning, that it would be wise in their party to yield the presidency of the Senate to the republicans.

Howgate.

Captain Howgate was brought into the criminal court this morning, in obedience to a writ of *habeas corpus*. District Attorney Corkhill stated that the government would be satisfied with $10,000 additional bail, but council for defense said it would be impossible for their client to obtain the amount. The court stated it would further consider the matter and fix the amount definitely this afternoon or to-morrow.

Dog On It.

NEW YORK, 7.—Joaquin Miller writes in reply to McKee Rankin's claim to have written "The Danites" and paid the poet Miller for the use of his name. He says: The books which have borne my name were executed by patient toil. They have elicited from reviewers many severe criticisms. I have been charged, and perhaps justly, with many faults and follies, but the charge of want of originality is not one of them. In the ten thousand pages of comment upon me and my work, I have yet to find the accusation that I received the honor and the pay for a task performed by another. When, therefore, a man like McKee Rankin makes a charge of this kind, I feel myself in the position of one who, when about to sit down to his boiled joint, finds that a dog has stolen it, has munched it out of palatable shape, rolled it in the mire, and claiming proprietorship. The exact result of such an incident is, that morally the joint is the man's, but actually when he comes to look at it he does not own it nor desire to engage in a canine fight to prove that he ever did.

Wrangling.

The *Herald's* Ottawa special says: After diligent search, I am unable to find any authority for the claim of the Dominion papers that Capt. Hooper invaded Dominion territory when he took possession of Wrangle Island. During the session of 1878, the Dominion Senate joined the Commons in an address to the Queen, asking that the boundaries of the Dominion and its possessions be more clearly defined. The address particularly asked that the 141st meridian should be the western limits of its possessions. The imperial order, which was made in accordance with this request contained no reference to Wrangle Island.

The *Sun* says it may seem very fine to Captain Hooper to change the name of Wrangle Island for Wrangle Land is much the better of the two. Perhaps he would attach less importance to the remaining Wrangle Land, if he had been successful in finding even a remote vestige of the *Jeannette* voyage which was what he went for.

A Worthy List.

The New York *Sun* says: The republican nominations possess elements of strength and the ticket is likely to receive as full a vote as is usually cast by the republicans in an off year. If the democrats intend to beat it, they must present a very worthy list of candidates.

Peabody's Trustees.

The trustees of the Peabody fund met to-day and approved the reports of the committees and adjourned till next October. Anthony Drexel, of Philadelphia, accepted the place in the board vacated by the death of Geo. W. Riggs.

The Senate.

The *Commercial Bulletin's* Washington special says: The session of the Senate next week will have no executive business brought before it other than the filling of a few existing vacancies.

Failures.

Dun, Wilson & Co's mercantile agency reports 110 failures throughout the country during the past seven days, against 108 last week. The Pacific coast reports 11.

Yorktown.

The French delegates to Yorktown left this morning for West Point. They passed through 23rd Street, accompanied by the French military company.

Buried Alive.

SAN FRANCISCO, 7.—A dispatch from the Upper Lake air shaft of the hoisting works at the Sulphur Bank quicksilver mine, caved in about 4 o'clock this evening. There were four white men and two Chinamen in the 210 level, who were shut in without any chance to get air. All the miners are at work to get them out.

The Border War.

TUCSON, 7.—General Wilcox and staff arrived here last night. Bernard telegraphs from Soldiers' Hole *via* Tombstone, 8 a. m., that the rain softened the trail badly, and he cannot move without losing animals. He will move to-day. The Indians are in the southern end of Chihuahua. It looks as if the Indians will get over the Mexican line. It can hardly be possible the Mexican Government will object to our following these murderers in their territory. I will not cross the line with any disrespect to their government, but with the intention of punishing the murderers and robbers, and to enable me to do this I will co-operate with any Mexican troops that will assist, but will not turn back until I have the Indians or are ordered to do so by proper authority. The Mexican Consul, at Tucson, has telegraphed to Chihuahua and sent a courier to different points on the line to have the Mexican troops co-operate with our forces.

A dispatch to the *Citizen* from San Carlos, New Mexico, from subagent Hoag, says: Eighteen of George's band have come in and surrendered. Major Wilhalm has started to Camp Thomas with them. George is reported to be in concealment near there with four men. This verifies the wisdom of Sanchez's advice, who said that if everything was kept quiet, the hostiles would all come into the agency, and he promised to point out the guilty ones.

A Wilcox dispatch says: News from San Carlos says Chief George left the sub-agency last night with about 15 men. A report just received says five Indians were killed within two miles of Binson to day.

A man just in from the direction of Bowie reports seeing Indians in that vicinity. Troops are to be ordered in pursuit.

Free Thinkers.

DETROIT, 7.—The State greenback camp meeting commenced at Jackson to-day. It continues to-morrow and Sunday, the last day being devoted to a sort of Free Thinker's Convention.

Frost.

RALEIGH, N. C., 7.—The tobacco crops of this section are reported to be badly injured by the first frost last night.

FOREIGN.

Military Review.

PARIS, 7.—Morton, American minister, in presenting to General Favre, Minister of War, the American officers who attended the autumn manœuvers, expressed gratitude for the welcome given them by the French army. Gen. Schofield congratulated Gen. Favre upon the excellent manœuvers and good condition of the troops. He said he had been much struck by their order and discipline. Gen. Favre begged Morton and the American officers to be interpreters to the American government and people.

Panama's Sympathy.

PANAMA, 7.—In memory of the death of President Garfield, the President of the Island of Panama issued a decree, deploring the death and ordering the national flag to be displayed at half-mast at the place for eight days.

Extinguished.

LIVERPOOL, 7.—The fire in the Exchange building to-day was extinguished after burning cotton samples and some office furniture.

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long, as AYER'S CHERRY PECTORAL.

It has been known to the public almost forty years, by a long continued series of unparalleled cures, that have won for it a confidence in its virtues, never equalled by any other medicine. It still retains the most effectual power to subdue, by its timely use, that complaint, which, if neglected, or unskillfully treated, so frequently results in consumption, and hurries its victims to an untimely grave. Every year it is proving its power to cure many cases of Pulmonary Disease, which had baffled the skill of the best physicians, and resisted all other remedies, and which, but for its counteracting influence, would have proved fatal. Its early use will prevent the development of the most dangerous symptoms of the disease, and its occasional use will protect the system from the debilitating effects of changes of climate, and the exposures incident to our changeful seasons.

PERFECTION BAKING POWDER.

We respectfully call the attention of the Public to the following Analysis:

Laboratory of the Health Department, Chicago, Aug. 5, 1881.

OSCAR DE WOLF, Commissioner of Health.

Dear Sir:—I have made a very careful and elaborate chemical analysis of twenty-seven samples of baking powders received from the hands of Mr. Mould, your clerk, and have the honor to report the following table of figures:

	Soluble Ash.	Insoluble Ash.	Total Ash.
PERFECTION,	29.06	0.00	29.06
DR. PRICE'S CREAM,	28.19	0.12	28.31
ROYAL,	28.29	0.12	28.41

A known and weighed quantity of baking powder was incinerated in a silver crucible until only a grey residue was left. This is the total ash. It was chemically removed by a glass vessel and acted upon by hydrochloric acid and distilled water at the boiling point; what dissolved in that menstruum has been called soluble ash, and that which did not, insoluble ash.

I have the honor to be, Sir, yours very respectfully, H. E. G. PATON, Chemist of the Health Department.

We have always claimed that the Perfection is the highest grade of baking powder that can be produced from cream tartar and soda. Respectfully,
