LOCAL AND OTHER MATTERS.

FROM TUESDAY'S DAILY, AUG. 8.

Brigham Young Academy.—It has been concluded to continue for the present the National Series of Readers at our institution, in consequence of which the Note in our Circular referring to the adoption of another series is hereby revoked.
Provo, August 7, 1882.
KARL G. MAESER.

From the South.—Yesterday Hon. Brigham Young returned from the South, in which direction he went lately from this city to meet his wife Mrs. Catherine Young, his son B. S. Young, and other members of his family, who were on their way home from Arizona, where they had been residing for some time.

Church Authorities.—Yesterday President Joseph F. Smith and President W. Woodruff, Elders E. Snow, F. D. Richards and J. H. Smith, of the Apostles, returned from Cache Valley.

President Taylor, Elder F. M. Lyman and others have gone north to Bear Lake Valley.

To-day Elders E. Snow and J. H. Smith left for Emery County, on a missionary trip through that portion of the Territory.

Distressing Accident.—The Utah Journal says that on Saturday evening last, John Taylor, a boy 12 years old, son of William Taylor, of Brigham City, was going home on a load of hay, when, like many thoughtless boys, he sat too far forward on the load. One wheel went into a chuck hole, the front pitched down, threw the boy on the horses, from which he dropped under their feet. It is thought one of the horses either kicked or trampled on him, or both, and the wagon passed over him. He was picked up, carried home, and has since vomited much blood. His head was cut in three places, his back skinned, but the chief injury is internal. He is dangerously if not fatally injured.

Small-pox on the Oregon Short Line.—The following is an extract from a letter written to Mr. Lambert, Laramie. It is of interest to persons intending to go to Idaho:

AMERICAN FALLS, Idaho,
July 29, 1882.

Mr. Lambert:

I arrived all safe and well. The smallpox is raging here. I am working on a bridge at \$2.85 a day. Stop all from coming out here that you can. It is not safe for anyone to come out here. They try to keep it quiet and not let it get out, but it is wrong and everybody should know it. This is a tough country. There is a killing affair here every day, but the smallpox is the worst of all.—*Laramie Times.*

Death of Edward Martin.—To-day at 1.50 p. m., Edward Martin, of the Fourteenth Ward, departed this life. The deceased was an old citizen, having come to this country many years ago from England. He was a member of the Mormon Battalion, and went through the hardships of the famous Mexican campaign. He was 3rd Corporal of Company C. of that Regiment, and was Second Sergeant at the muster out. In his younger days he was an active and intelligent member of the community, and operated as a missionary several years in Scotland. When he returned he had charge of a company of immigrants who crossed the plains with hand-carts.

Hersford's Acid Phosphate
acts as food for an exhausted brain.
deed sw & w.

FROM WEDNESDAY'S DAILY, AUG. 9.

Returned Home.—President Taylor and party returned from the north this morning. The President was met at Ogden by a number of leading brethren who went up for the purpose, and was accompanied by them to the city.

Deseret Hospital.—The Deseret Hospital is now in excellent working order and facilities for the convenience and comfort of patients are being constantly increased. There are at present nine cases in the institution, some of which are very important. This benevolent institution is deserving of the liberal support of the people.

Little Light.—It now comes to light that last Sunday night three ladies saw the body of a man floating in the distance east and north of Black Rock. They did not know but the person was alive, but considered it singular that he should be in the water alone and so far from shore so late in the evening. They stated that the person was dressed in a blue bathing suit slashed with white, this being the kind of clothing worn by Mr. Farmer when he disappeared. These ladies state that the body was floating face downward when they saw it, as they distinctly saw the back of the head.

It is probable that when the body is discovered it will be found either close to Church Island or near the shore toward the southwest part of Davis County.

Smallpox in the North.—The Ogden Herald of yesterday contains a communication stating that James Rice, second son of Mr. Jas. Rice, of North Ogden, died of smallpox at Bailey's Camp, on the Oregon Short Line R. R., at Arimo, Idaho, on Saturday last. The same correspondent states that there were, on that date, nine cases in the pest house established in that locality.

The same paper says:
We are credibly informed that the dread disease small-pox has already laid two victims into an untimely grave at North Ogden. On Saturday the 5th, Bryan Orton, a married man, father of three children, and Wm. Love, a young man, single, succumbed to the dire affliction. They had contracted the malady while working on the Oregon Short Line. Their remains were interred on the evening of their demise.

An Exceptional Incident.—On Sunday evening, at the commencement of the storm that prevailed over this valley, Mrs. Ince, of Big Cottonwood Ward, observed, immediately after the first thunder clap, that the wheat shocks in the rear and immediate vicinity of the house had ignited and were enveloped in flames. She, with a number of other parties, rushed to the spot and commenced to extinguish the fire. While this way engaged the lightning struck the same spot a second time, scattering the ashes all over the people and giving them a terrible fright. Mrs. Ince being slightly shocked. Fortunately nobody was injured to any extent.

This incident appears to develop something "new under the sun," a universal theory having heretofore existed to the effect that the electric fluid would never strike the same spot twice.

From the Atlantic and Pacific R. R.—This morning we were pleased to receive a call from Mr. B. S. Young, who arrived yesterday from Arizona, where he has been rail-roading for about a year and eight months. A portion of the time he was in the direct employment of Hon. John W. Young, and for a considerable period he and several of his brothers took and operated sub-contracts for grading the line and hauling ties.

We learn from Mr. Young that the Atlantic and Pacific road is now built to within about five miles of Flagstaff, the first and principal station in the San Francisco Mountains. He describes the country in those mountains as indescribably beautiful, being heavily timbered and largely covered with grass. It will never become an agricultural district, but is admirably adapted for stock ranches.

Life along the railroad is described as exceedingly rough. There are many characters in the locality who

hold life cheaply, and affairs are frequently disturbed by acts of violence. Mr. Young and party started for home, by teams, on the 19th of July. Two or three days previous to that date a sub-contractor named Stone addressed a slighting remark to a loafer at Flagstaff, when the latter immediately drew his revolver and shot Stone five times, killing him on the spot. The party who did the shooting immediately left the place with a companion, and a number of citizens started in pursuit for the purpose of visiting summary vengeance upon the murderer.

ANOTHER GUN ACCIDENT.

ARTHUR SANT HAS A HOLE SHOT THROUGH HIS HAND.

On Saturday, August 5th, Arthur Sant, aged 17 years, son of John Sant, junr., of Clifton, Idaho, met with a very severe accident. While at a shooting match at Treasurertown, about eight miles from Clifton, he was brushing the dust from the muzzle of a Browning rifle, when it was prematurely discharged. The bullet entered near the centre of the right hand and came out at the back near the wrist, tearing a ghastly hole in the member about two and a half inches in diameter.

The unfortunate lad was conveyed to his home by his uncle, George Sant, and Dr. House, of Oxford, was summoned and dressed the wound. At last accounts the patient was progressing favorably.

FROM THURSDAY'S DAILY, AUG. 10

Telegrams For Pleasant Valley.—Telegrams for Clear Creek and coal mine on line of Pleasant Valley (now the D. and R. G.) can now be forwarded from the Deseret Telegraph Company's office, Main Street.

The Olympics Ahead.—At the base ball contest at Ogden yesterday, the Olympic Club of Salt Lake, were victorious over the Athletic Club of Ogden, the score being 14 for the Salt Lakers and 5 for the Ogdenites.

Convalescent.—Miss Flora Harvey, the victim of the accident at Pleasant Grove, on the 24th, is moving around again by the aid of a stick. It will be remembered that Miss H. was struck with a skyrocket, which prematurely exploded.

Preparing for Winter.—The troops at Fort Thornburg, near Ashley's Fork, are busily engaged making preparations for the erection of new winter quarters. They are turning out about 4,000 adobes a day and have many times that amount on hand. They have a lime kiln in full blast turning out large quantities of lime.

Missionaries in Pennsylvania.—Elder E. Howell wrote from Hyde Park, Pa., on August 8th:

"Elders Duke and Ormond made us a brief visit a few days ago. They were well and had been laboring in the southern portion of the State. They had baptized one, and favorably impressed others. They had traveled about some 500 miles."

Dangerously Ill.—We understand that Brother Alexander Bullock is lying dangerously ill, at his home in Pleasant Grove, Utah Co. His condition is such as to cause his relatives the deepest anxiety. He is troubled with an affection of the bowels. At last accounts there was but little hopes of his recovery unless a change ensued soon.

United.—To-day, August 10, in this city, Franklin E. Seal and Miss Mary E. Bills, both of South Jordan Ward, were united in marriage. The bridegroom is an exemplary young man who came from England a few years since. The bride is a daughter of Bishop Bills. The happy couple have our best wishes and congratulations.

No Damage.—Last evening the fire alarm was rung, and many pairs of eyes were strained in eagerness to observe huge columns of smoke and fierce tongues of living flame, but nothing in that line was visible. The cause of the alarm was simply the accidental igniting

of a small quantity of alcohol on the floor of Z. C. M. I. drug store cellar. There was no damage.

Hymeneal.—We take pleasure in chronicling the fact that this day Mr. Franklin A. Wilcox and Miss Anna A. Jenkins, daughter of Thomas Jenkins, Esq., were united in the bonds of matrimony, Apostle F. D. Richards performing the ceremony. We join with the host of friends of the happy pair in extending our hearty congratulations and good wishes.

Accident at Butte.—The Miner states that a serious accident occurred in the Star West Mine, at Butte, on Tuesday morning, about 9 o'clock. A miner named Evan Lewis, while attempting to force half a stick of giant powder into a hole between the 300 and 200 levels, exploded the powder and was severely burned on the right side of his face and head; also the left side of his head, but not so badly. The flying rock cut a severe gash on his right hand. The left eye is thought to be injured, though the right one was not hurt.

One of the Pioneers.—We learn from "W. W. J." that on Monday, Aug. 7th, William Greenwood, Esq., of American Fork, completed his sixtieth year. In honor of the event he was made the recipient of a surprise party, which was an exceedingly enjoyable affair. In addition to the consumption of excellent viands, the time was spent in making speeches, L. E. Harrington and Justice Hindley being among the speakers, and in otherwise pleasant ways. Brother Greenwood is one of the pioneers of Utah, having come to this region over thirty-five years ago.

Danger in Thunder Storms.—The electrical storms that have recently visited this section have been quite general throughout the West. It is becoming notable that during the prevalence of each thunder-storm of late the lightning almost invariably strikes somewhere, rendering those atmospheric and electrical disturbances more dangerous apparently than formerly. A Denver paper describes a rather remarkable escape of five children during a storm, at West Denver, last Friday.

"Just while the storm was at its highest a bolt struck the barn of City Engineer Kellogg, in the rear of his residence, No. 316 South Tenth Street. A horse belonging to Mr. Kellogg was instantly killed. Strange to say, five little children were playing about the animal at the time and none of them were hurt. They felt the shock but were ignorant of the terrible danger they had undergone until it was afterwards explained to them.

Mr. Kellogg and his friends can only look upon the escape of the children as being little less than providential.

Change of Management.—On Monday last a change was made in the management of the Union Pacific R. R. and branches.

The office of general superintendent has been abolished, the road being divided into three divisions. Mr. J. T. Nichols of Omaha, is general superintendent of the eastern division, extending from Omaha to Cheyenne, including the St. Joe. and Denver Short Line with their branches.

The superintendent of the western divisions extending from Cheyenne to Ogden, including the Utah & Northern and Oregon Short Line, will be Mr. R. Law.

Superintendent Egbert will have charge of the Colorado division, which includes the Denver Pacific, Colorado Central and the South Park.

Colonel Fisher will become superintendent of the new Denver and New Orleans road.

The Laramie division will commence at Cheyenne instead of at Laramie, as heretofore.

The Kansas division will remain the same.

A new time card will go into effect on Sunday.

Fearful Accident to a Child.—Between six and seven o'clock, on Tuesday night, a terrible accident happened, which resulted in the loss of the right leg of a child—a little girl about three years old, belonging

to Mr. William White, who lives on Fifth Street.

On hearing of the affair a Herald reporter hurried to the residence of Mr. White and there he saw an appalling sight. Seated on a chair in the rear of the house was the father with his child upon his knees. The little one was writhing in agony, from the effects of a fearful gash which had been cut in the right leg. The wound was about six inches wide; the bones were broken and splintered.

On inquiring for the cause of the catastrophe, the reporter learned that the child, with some others, had been playing in the coal-yard, corner of Fifth and Franklin Streets. They put the little one on one of the flat coal cars from which she fell to the ground, and a very heavy end gate of the car fell at the same time and came down upon the leg of the child, breaking and mangling her limb in the fearful manner above stated.

Dr. A. S. Condon was summoned; the patient was conveyed on a litter to his office, where on examination it was found that amputation was absolutely necessary to save the child's life. Drs. J. D. Carnahan and H. J. Powers were called to assist in the operation. The patient was put under the influence of chloroform, administered by Dr. Powers, and Dr. Condon, assisted by Dr. Carnahan, amputated the limb just below the knee.—*Ogden Herald.*

A HALF DOLLAR TRIAL.

Mr. Ernest King, editor of the Fall River (Mass.) Sun, thus discourses upon the merits of St. Jacobs Oil: "Suffering with rheumatic pains I was Didymus as to remedies. I read of St. Jacobs Oil and said here goes for a half dollar trial. I bought a bottle and before it was half used the screw-wrench pains had gone and troubled me no longer."

Col. C. W. Herbert, of the Forest Park Restaurant, St. Louis, Mo., was entirely cured of rheumatism by St. Jacobs Oil, says the St. Louis Post Dispatch.

SPARKLING EYES.

Rosy cheeks and clear complexion only accompany good health. Parker's Ginger Tonic better than anything, makes pure, rich blood and brings health, joyous spirits, strength and beauty. Ladies try it. Bazaar.

SPRING WAGONS.

I have on the way to arrive in a few days, another lot of those celebrated Mitchell Four Spring Wagons. Call and see them.

L. B. MATTISON.

ROYAL

BAKING POWDER
Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders.
Sold only in cans. ROYAL BAKING POWDER CO., 105 Wall Street, New York.
