Perspiration-"sweat" is what the Bible and we common people call it-is a way nature has of driving out of the body refuse that has no business there. We sweat more in summer, because, in the overheated bowels, undigested food ferments more quickly than in winter and produces irritating acids and gases. The bowels, overworked, try to relieve themselves by violent convulsions, causing terrible gripes and colics, and diarrhoeal discharges so acid as to make you sore, and leaving the intestines weak and worn out. Nature assists body-cleaning by sending the filth out through the pores of the skin. It is not safe to stop perspiring altogether but most of the impure matter should be sent out by natural movements of the bowels, and the offensive, ill-smelling, linen-staining sweat done away with. Keep your bowels strong all summer with the pleasant, candy cathartic CASCARETS, that clean the system and don't allow the excrement to be sweated out through the pores. Take a tablet every night, before going to bed. They

work while you sleep and make you feel fine and cool all day. Best for the Bowels. All druggists, Ioc. acc., Soc. Never sold in bulk. The genuine tablet stamped C. C. C. Guaranteed to curs or your money back. Sample and booklet free. Address Sterling Remedy Co., Chicago or New York. 545 ascarets
