

## LOCAL AND OTHER MATTERS.

FROM TUESDAY'S DAILY, JUNE 10.

**EXPECTED HOME.**—Brother Willard Young (son of President B. Young), a West Point cadet, is expected in this city, on a visit to his home and friends, in about one week from now.

**CONCERT.**—The Fourteenth Ward Choir Concert, at the Assembly Rooms, last night was a pleasant affair. Those who took part in the exercises acquitted themselves very creditably.

**DEPARTED.**—It will be seen by an obituary notice, in another column, that John Daily Campbell, son of Mr. Robert Campbell, City Recorder, died yesterday, at the early age of eighteen years, lacking a few days. He is spoken of as having been an intelligent and promising youth.

**CASE OF SUNSTROKE.**—The other day, while a young man, named Meik, son of Dr. Meik, was at work, on the street railroad, he was sunstruck, and has been seriously ill ever since. He made an attempt to leave the house this morning, but was compelled to return almost immediately, and he is now in a complete state of prostration.

**ANOTHER CASE OF LYE POISONING.**—W. G. Galbraith's son, aged twenty months, got hold of a can of concentrated lye while its mother's back was turned, last Tuesday, at 4 p.m., at Kaysville, and drank a portion of the contents. Medical aid was procured as soon as possible, but without avail; the poor little fellow died on Wednesday at 11 a.m. The parents were greatly afflicted over the sad occurrence. Too great caution cannot be exercised with such dangerous compounds.—*Ogden Junction, June 6th.*

**SHOULD BE LOOKED TO.**—There are some bad rumors afloat regarding a brewery a few miles from this city, where, it is stated, numbers of people flock on Sundays for the purpose of drinking and carousing. Some disgraceful disturbances are said to have occurred there last Sunday, two instances being reported of members of the tender sex demolishing their parasols over the heads of two individuals of the other gender, in attempts to batter the craniums on which the attacks were made.

**NEW STORE.**—The brick-work of a new co-operative store at Bountiful is nearly finished. It is close to the one in which business is now being done, on the west side of the meeting house square. It is a two story building, with capacious basement, and measures 50 by 27 feet. The Bountiful co-operative store is one of the best conducted of the Branch institutions in the Territory, and is under the superintendence of Brother William Thurgood.

**SCHOOL MEETING.**—In the 10th Ward School District, last night, a meeting was held, to elect three trustees for one year. Notice of the meeting had previously been legally given. Wm. Fuller was called to the chair, and James Woods was appointed secretary of the meeting. A nominating committee was chosen, who nominated Wm. Fuller, James Woods and Robert Miller, who were unanimously elected.

After the school business was disposed of, another meeting convened, when a universal determination was evinced to go ahead and finish the new meeting house.

**ACCIDENT.**—This afternoon, at one o'clock, Mrs. Driver of this city and Mrs. Dunbar, wife of one of the proprietors of the Salt Lake Herald, were seriously injured by being thrown out of a carriage. They were being driven up the bench when the horses became restless, and as they came around a curve were thrown out of the carriage on account of the quick turn of the horses. Mrs. Driver was badly hurt in the back and shoulders. Mrs. Dunbar, who held a child in her arms, was clinging to her babe and when she fell it was found that she had her left collar bone broken. The sufferers were taken to the residence of Mrs. Driver, where they were attended to with great care.—*Ogden Junction, June 9th.*

We understand that Mr. and Mrs. Dunbar arrived by the train last night, when the collar bone of the latter was set by Dr. J. M. Benedict.

**THE WEBER.**—Bro. Geo. H. Peterson, of Coalville, called yesterday. He reports crops looking well in that country, no grasshoppers nor signs of any, a large breadth of small grain in, up and looking fine, grass and stock looking the same, everything bidding fair for a large crop, two and four legged animals all healthy. High water and prospects of higher, as the hot weather is fetching down the snow apace. Unless care is extended, some bridges on the Weber and portions of the road in Parley's Canyon are bound to go with the stream. Roads good now. The R. R. to the coal beds has for some time been up to the Wasatch (Mitchell or Nebeker) mine. By the middle of this week it is expected to reach Robinson's first bed, and Crismon's and Robinson's second bed the middle of the week after.

Bro. Peterson informs us that he has commenced the business of wagon making, not mending merely, and those already turned out are favorably reported on, by old wagon users, in comparison with the imported article. Success to home manufacture.

**BEAUTIFUL SANDSTONE.**—The following was handed in this morning:

"Editor Deseret News: "JUNE 10, 1873.

"Please receive specimens of a jaspery sandstone, from the West Mountains, discovered many years since, by Mr. Thomas Fenton, of this city, and now located with a view to recording, &c. The mineral is abundant, is found in large boulders of sandstone and conglomerate, that have been metamorphosed by heat, and converted into a banded quartzite of great beauty. It has a cleavage apparently at right angles to the original layers of the sandstone, which is colored by metallic oxides. I shall be pleased to give any information respecting this rock, with regard to its probable use.

Yours Very Respectfully,  
"JOSEPH BARFOOT,  
"Museum."

The specimens alluded to in the foregoing are of the most beautiful sandstone we have ever seen, being, as stated by Professor Barfoot, "jaspery." The veins running through it are of several colors, being purplish, cream-colored and whitish. The stone is said to be very abundant. A building composed of it would certainly look very handsome.

**FROM AFRICA.**—We had a call yesterday, from Elder Eli Wiggill, of the 10th Ward, who returned about two weeks ago from the Cape of Good Hope, having left this City Dec. 12th, 1869, to go on a visit to the Cape to see his relations.

While in Africa he paid a visit to the diamond fields, which are still vigorously worked. Some of the claims, especially one called the "New Rush," are very rich. Shafts one hundred feet deep have been sunk on this particular claim, and even at that distance from the surface of the ground the precious stones have been found.

Gold fields have also been opened in the interior of South Africa, and crushing machinery is being imported there from England. Brother Wiggill thinks the next great excitement will be concerning those gold fields, and the tide of emigration will be likely soon to flow strongly in that direction. Near these gold fields, which are about 800 miles further into the interior than the diamond fields, vast ruins of cities, indicating a past advanced civilization, have been found. On the field many old shafts have been discovered, which apparently have not been worked for many centuries. The climate in that portion of Africa is tropical, and is very favorable to the cultivation and growth of fruit and vegetation generally.

**BEAVER, June 10.**—On Saturday, the 7th, Pat Rolly, of "North Star," without provocation, shot and killed W. G. Robinson, at Beaver Lake, twelve miles from "North Star." Rolly suspected Robinson of being connected with some horse thieves, who had stolen his horses, and accused him of being so allied. Robinson denied the charge and a few words passed, when Rolly fired. Robinson ran twenty-five feet and then fell dead. Rolly followed and fired twice, but the first shot only took effect. Rolly returned to "North Star" and gave himself up. The same night he took morphine and died at 3 p.m., yesterday.

At 10 a.m. the District Court opened session, Judge Boreman presiding. The following officers were present: S. Snow, Attorney-General; J. D. T. McAllister, Territorial Marshal, with deputies R. W. McAllister, Isaac Bullock and John Hunt, on the part of the Territory. On the part of the United States, deputy B. L. Duncan. The court was opened for United States business by deputy Duncan. Judge Boreman addressed the members of the bar, in his remarks declaring that the Supreme Court of Utah, setting aside jurisdiction of the Territorial Marshal, by ouster, having not been annulled and the office having been declared vacant he would proceed to appoint two clerks one from each side. The court then appointed L. C. Duncan and John Hunt. John Hunt stated to the court that he served several times under the U. S. Marshal and received no pay, and he would not accept office unless some provision were made for his pay. Judge Snow stated to the court he had no doubt the legislature of the Territory would make provisions for persons so appointed, whereupon the clerks were sworn in. The Territorial Marshal being ignored, he and his deputies started for home. The jury were called and a challenge to the array interposed, which is set for hearing to-morrow, at 10 a.m.

In the afternoon seven aliens were naturalized.

**FATAL ACCIDENT.**—A man named Mulkey was accidentally killed about twelve o'clock to-day, in a corral, at the rear of Shovel's stables, by being dashed against a post, while endeavoring to hold a wild mare by a rope. An inquest was held over the remains of the deceased by Coroner George J. Taylor, at which the following evidence was elicited—

**T. TAYLOR.**—Being duly sworn, deposed to seeing deceased at City Liquor Store last evening. Saw him once previous between this City and Bingham. Deceased told witness last night that he wanted to get a couple of horses to go west. After showing him some animals he stated that he would give \$30 for one of them if witness would ride for him, which he declined doing. He bought the mare notwithstanding, and received a bill of sale for it. Deceased gave witness three \$10 bills for the mare, which he (witness) handed to his father. After the purchase was made, witness came to the stable to fix a saddle, deceased commenced "fooling" with the mare, which was wild. The mare had a rope around its neck by which witness had caught it in the corral. The mare started while deceased had hold of the rope, and he was dashed violently against a post while endeavoring to hold the animal. The blow was received on the right side of the breast bone, at the pit of the stomach. In answer to inquiries, by the jury, witness said he believed Mulkey had a pocket book prior to the sale being made, as he had a slight recollection of seeing it at a liquor saloon.

**FREDERICK BIRD** was the next witness. He simply confirmed the testimony of the previous witness.

**MARK MCKIMMINS** was next sworn and deposed to having known deceased several years. He believed he had a brother in town. Knew nothing of the cause of his death.

**DR. TIBBITTS** was then sworn, and stated that death was caused by concussion of the heart, stopping ventricular action.

The jury returned a verdict in accordance with the facts: George Mulkey, Geo. Romney and William Groesbeck were the jurors.

**IMPORTED POULTRY.**—A few days ago Mr. Brown, of the firm of Liddell & Brown, of this City, brought a car load of live poultry from Iowa. There is something strange in the fact that poultry should have to be imported from a distance to a part of the country probably as favorable to the raising of fowls as any other part. Not only is this peculiar, but the imported fowls are sold at prices that would be "sneezed at" by parties having the home article to dispose of. How this can be reconciled with consistency would be difficult to explain. There can be no valid reason advanced to show why the poultry needed in this market are not raised at home. So long as exorbitant prices are asked for fowls that are raised here, however, dealers will generally continue to derive their supplies from markets where they can be obtained at cheaper rates. When home raised poultry can be purchased by them at cheap rates it is not likely they will take the trouble of sending for supplies to distant markets. The same rule will apply to several other matters of the same sort.

**CO-OPERATION.**—In view of the increasing demand for a good article of brick, the stockholders of the Bountiful co-operative store are about to start, in connection with the latter institution, a co-operative brick yard. This is taking time by the forelock and is a wise move, showing the foresight of Bishop Stoker and others, who have been advocating a further extension of the principle of co-operation. Let us have co-operative brick yards and co-operative everything else that benefits the people, and that has a self-sustaining and independent tendency.

**THE FLORENCE SEWING MACHINE** is said to have no superior in the market. For full particulars we refer our readers to the advertisement of Phillips & Lord, General Agents, 19 and 21 First South street, near Commercial street. There is no mistake about this being a first-class machine.

**ADDRESS OF CHURCH EMIGRATION AGENT.**—Mr. William C. Staines, Box 3967, P. O., New York City.

## DIED.

In the 12th Ward of this city, on Monday, June 9th, of acute pleurisy, **JOHN DALLY**, son of Robert and Mary Campbell, aged 17 years, 11 months and 23 days.

At Lehi, May 17, **THOMAS R.**, son of Rees and Ann Davis.

Deceased was born May, 1815, in the parish of New Church, Carmarthenshire; baptized by William Henshaw, of Merthyr Tydvil, April 18, 1843; confirmed the same day by William Henshaw; ordained a deacon by William R. Davis, April 22, 1847; ordained an Elder by Thomas Pough, at the Drim, Glamorganshire, Feb. 1, 1849; ordained a high priest at Lehi, October 30th, 1859, by John Young. He lived and died in full faith of a glorious resurrection.—*Com. Millennial Star*, please copy.

At Homansville, Utah, June 1st, from the effects of poison, taken accidentally, **WILLIAM, JR.**, eldest son of William and Ann Bramall, of Springville, Utah county, aged 21 years, 4 months and 17 days.

*Millennial Star*, please copy.

June 9th, 1873, in this city, at the residence of his daughter, Sarah Jane Coulam, 11th ward, after a severe and protracted illness, of liver complaint, **JOHN ORTON**, of North Ogden, aged 58 years and 2 months. Deceased was born April 12th, 1815, at Blayby, Leicestershire, England. Was baptized into the Church of Jesus Christ of Latter-day Saints, April 1844, in Leicester. Emigrated to Salt Lake in 1851. He leaves a wife, children and grandchildren. It could truly be said by him, "Oh Death, where is thy sting?" for it had none. He died as he had constantly lived—in full faith of the Gospel. *Com. Millennial Star*, please copy.

## Chapped Hands and Face,

**SORE LIPS**, Dryness of the Skin, etc., etc., cured at once by *Hegeman's Camphor Ice, with Glycerine*. It keeps the hands soft in all weather. See that you get Hegeman's. Sold by all Druggists. Only 25 cents. Manufactured only by Hegeman & Co., Chemists and Druggists, NEW YORK.

**THOS. WRIGHT, Sen.**, District Poundkeeper. Nephi, June 9, 1873.

## CRAS. W. STAYNER,

WHOLESALE & RETAIL DEALER IN

MUSICAL INSTRUMENTS!

General Agency for Utah of the

SUPERB

ESTEY ORGANS!

What Prof. CHARLES J. THOMAS says:

S. L. CITY, U. T., April 5, '73.

Mr. C. W. Stayner:—Having an experience of 31 years as a musician, a great share of which time I have been leader of Orchestras and Choirs in Europe and America, and being solicited by you to pass my judgment on the "Estey Organs" for which you are agent, and having tried and examined them thoroughly, I confidently recommend them to the citizens of this Territory for their superior tone, the Vox Jubilate being a fine imitation of the pipe organ—their nice smooth action and delicate touch, excellence of workmanship in their construction and their general reliability, making them all that can be desired in organs either for church or parlor.

Yours respectfully,  
C. J. THOMAS,  
Conductor of Theatrical Orchestra.

By far the Largest Organ Factory in the World!

No. 5 Main Street, Salt Lake City, next to SAVAGE'S GALLERY. w5s

## ESTRAY NOTICE.
