HEAVY SNOWFALL AT PARK CITY.

"The Beautiful" Was Three Feet Deep in Town.

MUCH MORE IN GULCHES.

Storm Was Heaviest in Years at This Season-Outlook Good for the Winter.

The results of the recent storm as seen in Park City augurs well for the water supply next summer. It is many years since such a prolonged storm and such a heavy deposit of the "beautiful white" occurred at this time of the year. The storm may be said to have lasted one week. On the evening of the 16th inst. rain began falling, which turned to snow a little later. On the morning of Wednesday nearly three feet of snow was seen in Park City, and was much deeper in the gulches. Up to that time there had been little or no wind, but just before noon on Wednesday the wind blew with terrific Wednesday the guiches. The snow be-gan piling up in drifts to such an ex-tent that traffic with the mines was very much delayed. This big storm seems to indicate a very heavy fail during the present winter. As the ground was not frozen when the storm began, there may be some absorption of mois-ture by the soil, and a little danger of snowslides, but with colder weather. this danger is likely to pass quickly, and the snow will pack and freeze to be keit throughout the winter.

President Cannon Leaves for Hawaii to Attend Celebration.

President George Q. Cannon will leave for Hawaii on Thursday next, to attend the fiftleth anniversary of the introduction of the Gospel into the Hawailan Jslands. Prest. Cannon's reason for going is twofold, that of being one of the First Presidency, and of being one of the band of the ten Elders who first took the Gospel to Hawaii. Prest. Can-non was a young man at that time, and manifested that dauntless perseverance and determination which has placed him among the greatest forces in the Church. Nearly all his early compan-ions in the islands become discouraged ions in the islands become insconaged and returned but he remained there for five years during which time he trans-lated the Book of Mormon into the na-tive language. His industry was at once recognized by the authorities of the Church, and he grew rapidly into cominence after returning home. He expects to be gone about two months. The celebration of the event to be compolling places two miles apart.

Mrs. Aaron Medron of Savannah, Ga., writes: "Ever since the birth of my first child, six years ago, I have suffered greatly from piles and rectal troubles, I could not bring myself to bear the thoughts of a surgical operation and had always been prejudiced against patent medicines.

But it was simply a case of try something or give up entirely, and so having often seen the Pyramid Pile Cure advertised I determined to try it, and for two years have never ceased to congratulate myself that I did so, for I have been entirely cured of rectal troubles and two packages of the Pyramid removed every trace of the piles. Smoot, the late president of Utah Stake, to President Joseph F. Smith, and which the author has been per-mitted to copy. Details of miracles performed through his administrations to the sick, appear in every chapter: in fact, "the book is full of testimony concerning healing, revelation and spir-itual manifestations, as interwooven in itual manifestations, as interwooven in the short but devoted life of the maryred Apostle." The author, Elder L. A. Wilson, of

the Salt Lake Temple, who has now in the press of the Deseret News an-other work, "The Preston Genealogy," has handled his subject well, having succeeded in giving within a brief com pass a very distinct and faithful pic ture of one of the early leaders of the Church, and the time and surroundings

> INDUSTRIAL ARBITRATION. National Conference to be Held in

Chicago, December 17 and 18. The National Conference of Industrial Arbitration is to meet in Chicago,

December 17 and 18, and a large attendance of delegates from the various States is expected. The theme of the conference is of deep interest both to employers and employes, as affecting the settlement of all labor disputes. Some of the questions to be discussed at the Chicago meeting are these:

Is compulsory arbitration practicable or desirable in this country? If not desirable in general industrial enterprises, would it be desirable in quasi-public service such as steam or street railways and, if so, how can it

be made effective? Are state boards of arbitration or state interference of any kind pre-ferable to voluntary arbitration? If voluntary arbitration will tend to solve the industrial problems along the lines of the least resistance, how can t best be attained in this country? The promoters of the conference hope o see taken some practical steps to-ard reducing industrial disturbances o a minimum. No delegates to the onference from Utah have been se-ected thus far.

FUN FOR ALL.

The newsboys are preparing to have their annual bath at the sanitarium, 52 west Third South street. Mr. Schenck has donated the large pool on Thanksgiving day from 10 a. m. till 1 p. m. There will be in the neighborhood of 200 boys take a bath. The boys are hoping that all their customers and friends will come and bring plenty of nickels and pennies, and watch the youngsters dive in six or seven feet of water to get them. From the sanitar-ium the boys will go to Bond's restaurant, and have spring turkey to fill up on. Each city newspaper gives fifty meal tickets, Albert Scott, president of the union, and James Holder chair-

man of the newsboys' committee, are managing the affair.

LIFE OF DAVID W. PATTEN. A Work Lately Issued Illustrative of

a Remarkable Career.

The indelible trace of some characters upon the lives and memories of others is wonderful, as is illustrated in the recent phenomenal sales of the littie work lately published by the "News" on the life of Apostle David W, Patten. This idea is further confirmed by the opening remark of President Lorenzo Snow in an introductory letter to this little work. He says:

All the circumstances of my first and last meeting with Apostle David W. Patten are as clear to my mind as if it were an occurrence of but yesterday, and yet it took place some sixtyfour years ago.

He appeared to me then to be a remarkable man, and that impression has remained with me ever since." After detailing the incidents of this

meeting in a most interesting manner, President Snow concludes:

"I helieve I cannot do better than to commend a careful study of his life to the honest in heart everywhere." This letter is signed in autograph.

Or, it may be that the vitality of the influence of this martyred Apostie is in some measure due to the prophetic utterance of President Heber C. Kimball on the occasion of his tragic death. Of that time President Kimball

writes: "This was the death of one who was an honor to the Church, and a blessing to the Saints: and whose faith, virtue and diligence in the cause of truth will be had in remembrance by the Church Emma Jorgensen, Miss Pursell, Dot. Naisbitt, Miss Kempling, Vera Parkin-son, Miss Sprunt, Ida Flygare, Mille Flygare, Florence Wil-liams, Mille Adkins, Florence Scoles, Tille Barton, Carol Shoebridge, Miss The cause of truth will and the cause of truth will the cause of truth will

in which he labored. Through this work the influence of

Apostle Patten will continue to grow, even as has been prophesied, "from generation to generation." The book is printed in large, clear type, handsomely bound and leath-erette covers, and may be had of the "News" or any of our agents for 20 cents a copy. It is a work that any-one can afford and that everyone should read.

of the subjects that will probably be discussed at the coming convention of the National Live Stock association in Sait Lake City will be the question of how to secure better service for live stock trains from the railroads, says the Denver Stockman. This is not a new subject, but every year the necessity for some kind of national legislation on the matter be-comes more apparent. As a rule, live stock trains are given prompt service, by railroads, and it is the exceptions

that make the trouble. When condi-tions are ordinary, there is little complaint from the stock shippers, but when the roads are crowded with busiiess it seems to be the rule that the ive stock shipments have to do the

walting. It is also noticeable that where there is competition the complaints are less numerous than where the stockman is compelled to patronize one line. It is just as important to get live stock over the road in the shortest possible time as passengers. Not only do the cattle suffer more or

less while in transit, but the shrinkage in weight incident to a long journey is well known to stockmen who go to market, and for this reason, it is customary in all markets to allow the cat-tle to eat and drink before being weighed, so as to make up partially for the shrinkage in weight incident to

the journey. An effort will be made to find some way to force more rapid service in the transportation of live
