

NEWS FROM PIOCHE.

Some of the Improvements Being Made at the Day Mine,

33.25 down to \$3. Iron Blosson seemed to be a favorite and sold up to 57 cents. Black Jack was also stronger. Uintah Treasure Hull was bought at 22½ and Mountain Lake Extension at 7½ cents. The closing quotations and sales were: Special Correspondence. Pioche, Nev., May 14.—The recent strike of ore in the Nevada-Pioche promises to be not only one of the rich-est but also one of the largest in the camp. This property was the one re-cently involved in litigation between Church and Greenwood et al., resulting in a decision in favor of the latter. At that time no ore had been found but the defendants were sinking a shaft which had reached the 40 level. At this time, however, a drift had been started to the west and it was in it that the recent strike was made—at about 300 feet from the shaft. After driving 14 feet in a fine body of ore the work was stopped on account of poor ventilation. The shaft will be sunk to the 600-foot level and another drift driven to the camp. This property 121/ 24 66 $25 \\ 13 \\ 14^{1}/_{2}$ level and another drift driven to the ledge Mining operations have been tempo-rarily suspended at the Day mine, and a few miners laid off, but about 40 men are now at work making prepara-tions to install a new power plant, which will be capable of developing 600 horse power, and will consist of a bat-tery of four 150-horse power bollers. A new hoist is to be installed and other improvements made before any more mining is done, but when in position to begin operations again there will be Mining operations have been tempo-2215 02 10 75 25 85 15 10 mining is done, but when in position to begin operations again there will, be greater activity in this old mine than has ever been known. A tunnel 500 or 600 feet in length will be driven from the present loading bins to the shaft, thus obviating the necessity of raising to the surface some height above the loading bins and lowering to them by means of an aerial tram. The ground has been graded for the 60 22 10 03 11 58 02 10 58 means of an aerial tram. The ground has been graded for the new engine house, at the Boston-Ploche, Yuba east shaft, and concrets foundations laid for the new 100-horse power gasoline engine and for the com-pressor. The new engine will be used or dusively for compressing site while 12 10 53 00 46 59 07 20 59 07 20 59 07 20 59 07 20 59 14 59 08 pressor. The new engine will be used exclusively for compressing air, while the present 40-horse power will do the holsitug. Drifting has been started to the east and west from the 300-foot level and a considerable quantity of the same high grade silver-lead ore has been encountered in the east drift, which was found on the 200 level and 100 level. The shaft is being continued

Beck 1, May Day 6, and Yankee 2

contract will be let to sink 100 A contract will be let to sink 100 feet of an incline shaft at the McKin-ley. The sinking will start from the 400 foot level of the main working shaft, and bids for the work will be received up till June 1. Manager Henry Matsch states that everything is look-ing exceedingly underground ing exceedingly underground. The sult brought against the Victor Consolidated Mining company several years ago, by the heirs of the Joseph Harriman estate, to recover stock held by the late Joseph Harriman in the old Boss Tweed property near Mammoth, has been settled by compromise, so says G. A. Udall of this city, who says G. A. Udall of this city, who with Powers and Martoneaux were the attorneys for the plaintiffs. Suit was brought and a jury first awarded the heirs \$35,250 and costs, but Judge Ritch-ie cut this amount down considerably. Wednesday an agreement was reached whereby the Harriman heirs receive the sum of \$3,500. The Grand Central is employing 60 men at present. This force will be trebbled when the mine commences shipping its ore to the Tintic smelter. The shipments of ore from the dis-The shipments of ore from the dis-The shipments of ore from the dis-trict for the week just closed amounted to 52 carloads, the shippers being as follows: Centennial Eureka, 43, Bullion

campaign later on. The shaft will be relined, and there are some repairs that are necessary to the compressor and machinery. As soon as the smeiter is ready to receive ore from the mine, the force will be enlarged. At the rate the work to the finishing touches of the machinery at the Ray-mond is going on, it will not be but a short time until work will be resumed in the mine. It is almost certain that a new cable will be necessary and the cage was procured from the Grand Central at Mammoth and brought over this week. Another week ought to place the mine in shape for resuming development work. A contract will be let to sink 100

CONSOLIDATED MERCUR.

3414 Notices Being Sent Out for the Annual Shareholders' Meeting.

Notices are being sent out to share-holders of the Consolidated Gold Mines company today, calling atten-tion to the annual meeting which is to be held in Jersey City, N. J., on

The past year has been a prosper-is one for the Consolidated Mercur, le total earnings being approximatethe total earnings being approximate-ly \$720,000, or an average of \$60,-000 per month. There are employ-ed in the mine and mill 550 men among whom are expended \$40,000 monthly. The mill is now treating an average of \$00 tons of ore daily, the average of which is about \$4 per ton.

ton. The installation of the new slimes plant within the year has been the means of greatly increasing the ores reserve of the mine. That is to say, so much better extraction can now he obtained that ores which were not considered to be commercially valu-able, can not be treated profitably. The Consolidated Mercur mine is strictly a gold producer, no other metal of any consequence being con-tained in the ore.

London, May 15.—At the wool sales today 8.596 bales of superior quality were offered. Competition was active at hardening rates. Merinos were in active demand and sold 5 per cent above the opening. A large supply of crossbreds sold freely and good grades were in strong demand for home consumption. There was a better demand from Conti-nental and American buyers, and the lat-ter secured several parcels of finest greasy, comeback combings and fine, halfbred greasy hoggets at 1s.

PRODUCE. CHICAGO.

CHICAGO. Chicago, May 15.—Moderate sales by a leading long caused weakness today in the local wheat market. The selling was due to some extent to lower prices at Liverpool andt othe continued rav-orable weather in fhis country for the new crop. July opened ½ to ½ lower at \$9 to \$94, and sold off to \$8%. Corn opened weak owing to 1 pence decline at Liverpool, but soon became firmer on fair demand by a leading cash interest. Wet weather was again a bull-ish influence. July opened ½ @ ½ to ish influence. July opened 4 @ 4 to % lower at one to yoys, and sold at

There was only a small trade in oats and the market was inclined to follow the course of corn. July opened $\frac{3}{2}$ low-er at 46% and sold up to 47. Provisions were quiet and steady. A feature of trade was the selling of ribs by a local packer, July pork was a shade lower at 13.40. Lard was un-changed at 8.40 and ribs were also un-changed at 7.25. The wheat market was easy for the greater part of the day. The close was weak with July $\frac{1}{2}$ $\frac{6}{2}$ lower at 85% $\frac{6}{2}$ 89.

Corn-Prices held well throughout the session. The close was strong with July % higher at 65.
