## Schenck's Sea Weed Tonic.

In the atmosphere experienced here during the summer months, the lethargy produced by the heat takes away the desire for wholesome food, and frequent perspiration reduces bodily energy, particularly those suffering from the effects of debilitating diseases. In order to keep a natural healthy activity of the system we must resort to artificial means. For this purpose Schenck's Sea Weed Tonic is very effective. A few doses will create an appetite and give vigor to the enervated body. For dyspepsia, it is invaluable. Many eminent physicians have doubted whether dyspepsia can be permanently cured by drugs which are generally employed for that purpose. The Sea Weed Tonic in its nature is totally different from such drugs. It contains no corrosive minerals or acids; in fact it assists the regular operations of nature, and supplies her deficiencies. The tonic in its nature so much resembles the gastric juice that it is almost identical with that fluid. The gastric juice is the natural solvent which, in a healthy condition of the body, causes the food to be digested; and when this juice is not exerted in sufficient quantities, indigestion, with all its distressing symptoms, follows. The Sea Weed Tonic performs the duty of the gastric juice when the latter is deficient. Schenck's Sea Weed Tonic sold by all Druggists.

## PRICE OF GOLD.

Corrected daily by Deseret National Bank.

SALT LAKE CITY, July 18, 1877.

Buying at \$1.04; Selling at \$1.05 1/2.

## LOCAL AND OTHER MATTERS.

Thermometer 91 degrees F. in the shade at 1 p.m. to-day. Clear.

Lightning Freak.—The other night lightning struck and ignited a haystack, belonging to Mr. John Carver, of Eden, Weber County, consuming it. So the Junction says.

Monstrous.—Report has it that "Monsters" are becoming fashionable. It was stated in Lehi recently that a huge creature of the reptilian order had been seen in Utah Lake.

Base Ball.—Arrangements have been completed for the playing of match games, on Washington square, between the Red Stocking Club of Cheyenne and the Deseret Club of this City, on the 23rd, 24th and 25th of the present month.

Alarm.—Shortly after midnight this morning, the fire bells rang an alarm. A small shed, on Franklin Avenue, had caught fire from carelessly deposited stove ashes. The flames were extinguished with small damage.

Severe Accident.—We learn, from the *Provo Enquirer*, that an eight-year-old son of Mr. Jeremiah Reese, of Payson, was, last Saturday, thrown from a horse, trampled upon by the animal, and very badly injured.

Oration.—The cremation of the remains of the late Dr. C. F. Winslow has been delayed, and may perhaps be altogether abandoned. A son of the deceased is expected to arrive from St. Louis on Monday night, when it will be decided whether it is "to be or not to be."

Starting Up.—The Deseret Woolen Mills, of which President B. Young is proprietor, have started running again, after a cessation of about two months. They turn out cloth of most excellent quality. The mills are under the management of Mr. M. M. Young, son of the President.

"Musical Times."—We have this periodical for July. Its contents are varied and interesting as usual. It opens with a poetical gem, "Kind Words," followed by "Haydn," musical, dramatic, miscellaneous and humorous "Notes," "Opera from the Back," "Humbug in selling Organs," "English Opera," "Seek useful Pursuits," "Editorial Notes," Local Entertainments, "Answers to Correspondents," &c.

Of Bad Repute.—If we are correctly informed, and we think we are, there is a place situated on the State Road, about three miles south of the City, that is far from being conducive to the preservation of good morals in the community. It is frequented by considerable numbers of both sexes and various ages, of the residents of this city, and we have reasons for believing that some of the doings there are of a shameful character.

Perhaps the county officials will, for the sake of the public well, give the institution alluded to a little attention.

Salt Lake.—Yesterday Territorial Surveyor General Jesse W. Fox, and A. K. Gilbert, Esq., the latter of Major Powell's exploring expedition, were out west, on the shores of the Great Salt Lake. They took with them a quantity of granite, from the Temple Block, and established a monument to indicate the rise or fall of the waters of the Lake. It is situated on the brow of the mountain immediately south of the Utah Western Railroad track, opposite Black Rock, and is 35 and 51-100 feet above the present level of the water.

It will be remembered that the Deseret University placed a monument in the waters of the Lake, probably about a couple of years ago, for a similar purpose, but it is broken down.

General Fox informs us that he intends establishing another indicator, besides that placed in position yesterday, at another point.

Since the first settlement of Utah the waters of the Lake have risen about fourteen feet.

Utilizing Gypsum.—At the head of Salt Creek Cañon, in close proximity to the City of Nephi, there is a mountain of pure gypsum. Messrs. William Jennings & Co. are the owners of the claim. In view of the existence of this immense deposit of the material named, it has always, since the Utah Southern Railroad was built to York especially, appeared an absurdity to us that the people of this part of Utah should be importing Plaster of Paris, the consumption of which is necessarily large.

We are pleased to note that the necessity for such importation no longer exists. Messrs. Morris & Evans have commenced to manufacture Plaster of Paris from the crude materials obtained from the claim of Messrs. Jennings & Co. The machinery at their brick yard, with which they have pulverized their fire clay, is admirably adapted for the purpose, making 1,000 revolutions a minute. This work they have already turned out ten tons of Plaster of Paris of splendid quality. Not only is the article at least equal to that produced anywhere else, but the firm will be able to place it upon the market at rates considerably below those at which the imported article is sold. With a railroad road tariff they would not only supply the demands of the Utah market, but also the markets of the adjacent country.

## Quite "Fishy."—The Corinne Record of the 11th inst. comes to hand with a communication from the small town of Kelton, on the C. P. R., that a Salt Lake monster has been seen, at Monument Point, near Barnes & Co's Salt Works. The letter incorporates an affidavit from J. H. McNeil, who says he saw the huge creature. According to his description it had a body similar to that of a crocodile, with a head resembling that of a horse, and as it approached the shore, it uttered an immense bellow. The man retreated in good order up the side of the mountain, and remained there all night.

This is rather a "fishy" story, but those who have a predilection for sensations of the pickled-aligator with-a-horse-head sort can believe it if they wish. However, "Saxey's" Bear Lake monster has the precedence, having made its debut ahead of this Monument Point visitor. One would suppose the waters of the Lake were plenty salt enough, without his crocodile-skin applying to Barnes & Co. for "a little more salt." The fact is we prefer to take the whole story with a few grains of salt.

To Bishops, Parents and Superintendents.—There will be a general rehearsal of Sunday School children, from all the wards of the city, on Sunday morning, July 15, at 10 o'clock.

It is very desirable to have a prompt and full attendance of all the Sabbath School children that are old enough to take part in the rehearsal. It will be necessary for arrangements to be made in every ward, for the children to meet at an earlier hour, so as to be at the Tabernacle punctually at 10 o'clock.

Bishops, parents, and superintendents will please govern themselves accordingly, and encourage all the children to come.

GEORGE G. CANNON,

Gen'l Supt. S.S. Union.

## Drinking Fountains.—Mr. David

James has put in, for the city, a temporary drinking fountain, a few yards west of the south gate of the Temple Block, near the outer edge of the sidewalk. It will, in a few weeks, be replaced by a neat iron one, which has been ordered from the east. Similar fountains to that which is to take the place of the temporary one mentioned, will be placed at different points of the city; one near Walker Brothers' corner, another near a block east of the City Hall, and another in the vicinity of the Z. C. M. I. building.

Missionary.—This morning we received a call from Elder James E. Hall, of Springville, Utah Co., who returned from a mission to the east last evening. He left here last December, and has labored nearly the whole of the time of his absence in Iowa, under the direction of Elder James A. Little. He enjoyed his ministry greatly, and assisted in baptizing eight persons.

Brother Joseph Reese, a young man baptized by Elder Hall, at Des Moines, will arrive this evening.

## Monte Sharps.—O'Brien, Bridges

and Hackett, three monte sharps who have been around this city for a couple of months past, were arrested this morning, by the police, on a charge of keeping a gambling house and plying their unlawful vocation.

The Emigration.—A telegram, from Elder John Bowberry to President B. Young, from Carbon, states that the emigrants have arrived there all well. They will reach Ogden at 4 p.m. to-morrow.

They will probably arrive in this city to-morrow night. Look after them!

## Terminated Fatally.—Court—

The Beaver Square Dealer states that Carson, who recently fell down a shaft, in San Francisco District, died from his injuries on Sunday morning.

The Second District court will convene at Beaver, next Monday.

## Reported Sunstroke Cases.—It

was reported to-day that two cases of sunstroke had occurred, both children, one in the First and another in the Third Ward. We cannot vouch for the truth of the rumor.

## Comic Opera.—The Soldene English

Comic Opera Company will appear at the Theatre on the evenings of the 19th and 20th instant. This talented troupe have achieved fame in both hemispheres, and will doubtless attract large audiences here. In addition to the operatic company of thirty-two performers, including such stars as Miss Emily Soldene, Miss Rose Stella, and Mr. Knight Aston, the celebrated danceress Madlle. Sara will astonish the audience with her remarkable steps, and graceful poses, and terpsichorean flights. Two nights only, next Thursday and Friday.

## CORRESPONDENCE.

Happen in the North-Crop Press.

OGDEN CITY, Utah,

July 15, 1877.

Editor Deseret News.

I have just returned from a flying visit through Box Elder, Cache and part of Nevada counties. The latter is in Idaho. After hearing so much this season of grasshopper raids in the north, I confess I was greatly surprised to see the crops nearly all destroyed so farward, looking so healthy, and giving promise of very good, if not prolific yields.

In Box Elder County the grasshopper look exceedingly well, and the gardens and orchards have a very cheering appearance, while on a number of farms much of the golden grain has matured, yielding to the harvesters' sickles. In fact, in such times other good stands of wheat and other small grain will be ready for the sickle. The hay harvest appears to have fully set in, and the crops look good. Corn, potatoes, beans and other vines look exceedingly well.

## A CARD.

I HAVE this day disposed of my dental office and business, at Dr. S. H. Chavon's, who will carry on the business in the old office.

Dr. Chavon has been associated with me for nearly two years, and I have fully recommended him to all my patients, and the public as a fully competent Dentist.
