

Today's Ogden News

ELKS JUBILEE AND VAUDEVILLE.

Best People Hold Forth Tonight And Saturday in Opera House.

REFORM MOVEMENT HITS CITY

Demand Made for the Control of Immorality and Vice—Hidious Bill Boards Also Under Ban.

Ogden, Utah, Feb. 9.—Tonight and Saturday night the Elks held their monster minstrel jubilee and vaudeville at the Grand Opera House. The program in part for the performance follows:

FIRST PART.

Opening chorus, "Ginger Lou," Company
"On To Way," Brother W. O. Kay
"Everybody Works But Father,"
"That's What the Daisy Said,"
"Mr. Earl West"
"Mr. Lawson of Boston,"
"Only a Picture of Her Boy,"
"Mr. F. H. Keddington"
"Central Give Me Back My Dime,"
"Where the Morning Glories Twine,"
"Brother R. A. Moyes"
"Every Little Bit Helps,"
"Brother Otto Meckes"
"Down in Mexico," Mr. Ben Critchlow
"What You Goin' to Do When the Rent Comes Round?"
"Brother J. A. Howell"
"Good Bye, Sweet Marie,"
"Mr. Charles Farr"
Finale, Company

SECOND PART—POLITE VAUDEVILLE.

"De Bugaboo Man," Miss Grace Hayman, assisted by a large chorus of Ogden warblers.
"A Lovely Day for a Walk," six young ladies and six young gentlemen.
"Little Eddie Miller, Ogden's neglected child," in his famous "High Diving Act,"
"Watermelon Girls," by twelve young ladies.
"Orpheus' quartet, Earl West, Willard Lund, Ben Critchlow, and Charles Farr."
"I'll Be Dere," by four young ladies and four young gentlemen.
"In Dear Old Georgia," Gus Saunders
"Hell of Japan," W. D. Zetter
"Singing Like That in Our Family," George S. Best
Poney drill, by sixteen young ladies
Finale, "A Son of Uncle Sam," and "Auld Lang Syne."

STRONG MOVE FOR REFORM.

Suppression of Vice the Talk of the Town.

Ogden, Feb. 9.—The reform movement is spreading in Ogden with considerable rapidity. Two weeks ago Rev. Father Cushman preached a strong sermon on the evils that exist here, and already steps have been taken looking to the improvement of the moral standing of the city. Rev. Alfred Brown of the Episcopal church has stated that at his Sunday service he will speak on the "Social Evil in Ogden," and will issue a challenge to the "Mormon" church to take the initiative steps, it being in the majority, to start a great reformation in the city, looking to the cleaning out of many of the places of

sin and vice now existing here, and if the Latter-day Saints take the initiative, the ministers of the other churches will join hands with them in the work. The situation has been discussed so frequently both from the pulpit and on the streets, that the agitation is now growing, and is becoming the talk in almost every home. District Attorney Halverson states that he is determined in the demands he has made for more restrictions on evil resorts and their inmates, and will insist in the officers doing their duty in these matters. The gambling houses of the city have been closed, and other matters have been given some attention by the officers, who are desirous of doing their duty in these important affairs, looking to the welfare of Ogden and especially the youth of the city.

OFFENSIVE BILL BOARDS.

A Sign of Offense to the Stranger Within the Gates.

Ogden, Feb. 9.—The billboard reform that has been agitated in Salt Lake City a great deal of late and has been the source of much discussion with the Manufacturers & Merchants' association of that city, has struck Ogden already, and a number of people have commenced to discuss the best methods to pursue in order to relieve the city of this method of advertising. The question has been thoroughly discussed in Salt Lake City, and the determination reached that the bill boards must go. On Washington avenue and Twenty-fifth street the two most important thoroughfares of the city are to be found a majority of the bill boards, and to say the least, their presence and appearance does not give a favorable impression to strangers within the gates.

PREDICAMENT OF CATTLEMEN.

Beetpulp Exhausted and Other Feed Must be Purchased.

Ogden, Feb. 9.—The sugar beet pulp, which is largely used by the cattle raisers of Weber county in feeding their stock, has given out at the Ogden sugar factory, and unless the owners of the stock can get plenty of hay at reasonable prices the cattle will suffer for the want of food. Ever since the Ogden sugar factory was started, hundreds of head of cattle and sheep have been brought to Ogden by the stockmen and fed on the pulp, which they have found to be an excellent feed for fattening the animals and much cheaper than hay.

The shortage in the sugar beet crop last year worked a hardship on the beet raisers, and now that the beet pulp has given out so early in the season, it leaves the stock in a bad condition, and hay is not plentiful, hence the stockmen are facing a serious problem. The beet raisers have the first privilege of buying the pulp to feed their stock on, and this year they have bought a great deal more than heretofore, having learned that the stock are fond of the pulp and thrive well on it, and this has also helped to make the shortage.

SUIT AGAINST STATE JOURNAL.

It is not often the case that an employer is sued by an employee for money loaned, but such are the facts as set forth in an action filed in Judge Murphy's court yesterday afternoon by A. L. Brackett against the Utah State Journal. The suit was prepared by Davis & Devine, attorneys for plaintiff. The complaint alleges that Jan. 14, 1904, the plaintiff loaned the defendant com-

pany \$100 and that later another employee, R. E. L. Wendell, loaned the company \$150, that no part of said \$250 has been paid back to the two men, and that Mr. Wendell has turned over his interest in the claim to Mr. Brackett, who asks judgment against the company for \$250 and costs of suit. Both Mr. Brackett and Mr. Wendell worked on the newspaper at the time the alleged amounts were loaned, but have since accepted other employment.

RAILROAD MAN INJURED.

Joseph Watson, a well known brakeman on the Oregon Short Line, who resides at Wilson Lane, met with very painful injuries yesterday at a small station out on the line some distance from Ogden. He was in the performance of his duty filling the engine with water at the station and was standing on the tender when suddenly his feet slipped from beneath him and he fell into the engine cab striking his head on a piece of iron which cut a deep and ugly gash across the top of his scalp and down into his face, knocking him unconscious. He was brought to Ogden and later taken to a Salt Lake hospital where the wound was dressed. It required over 40 stitches to close up the terrible gash which will take some time to heal up. His wife accompanied him to Salt Lake.

FRED MOODY INJURED BY FALL.

Fred Moody employed on the Southern Pacific at Carlin, Nevada, received serious injuries Saturday when he fell from a falling with considerable force to the ground from the top of a car causing paralysis of his right side. He has been brought to Ogden for medical attention and is lying in the hospital of his step-father on Twenty-sixth street. The young man was engaged in unloading a dynamite from a car when he lost his balance and fell to the frozen ground, a distance of about 40 feet. He was rendered unconscious for a time and while his injury is serious it is not believed it will be permanent. The attending physician is of the opinion that the paralysis will gradually leave his body and he will then speedily recover.

MISSIONARIES FOR ENGLAND.

Elder William E. Eccles, son of Mrs. Nettie Eccles, left Ogden Sunday morning for Ann Arbor where he will visit for a few days with his cousin, Royal Eccles, and will then continue east to Boston, where he will take steamer for England, where he goes to do missionary work. He will be joined at Boston by Edward H. Chambers, son of County Treasurer Alma D. Chambers, who leaves here Saturday evening for the same mission field.

BRIEFS AND PERSONALS.

A meeting of the state industrial school board was held yesterday afternoon, at which the monthly payroll and bills were allowed and a small amount of routine business transacted. Toy Smith, the colored pugilist, who is serving a term in the city jail, refused to work on the rock pile yesterday and showed fight, but was soon given to understand that he is not the whole thing and was locked up in the dungeon.

The new Salt Lake Republican paper has opened up an office in the Utahna Drug Store block on Twenty-fifth street, with Walter D. Bratz, who was formerly on the Journal, in charge.

The Provo Basketball team arrived in Ogden this morning to play a match game this afternoon with the Weber State Academy team.

Deputy Sheriff Sebring went to Salt Lake City last evening on special business.

ARE YOU WILLING TO HAVE A MAJORITY OF THE PEOPLE LOOK UPON AND THINK OF YOUR STORE EXACTLY AS IT IS PICTURED IN YOUR ADVERTISING—AS BEING AS BIG COMPATIVELY AS THE SPACE YOU USE, COMPARED TO THE SPACE USED BY YOUR COMPETITORS; AS BEING AS ENTERPRISING AS YOUR ADVERTISING IS ENTERPRISING—AS BEING DULL ON THE DAY THAT YOUR ADVERTISING IS DULL—AS NOT ADVISING FOR BUSINESS AT ALL ON THE DAYS THAT YOUR ADVERTISING DOES NOT APPEAR? THAT'S HOW THE MATTER WILL IMPRESS THEM.

PROVO DEPARTMENT.

The "News" is delivered by carrier in Provo at 15 cents per month. R. J. Dugdale, Agent.

IMPORTANT NEW INDUSTRY.

Manufacture of Beet Molasses Under Consideration by Local Capitalists.

Special Correspondence.

Provo, Utah Co., Feb. 9.—George Haverkamp of this city and others associated with him have been working in a quiet, but it seems very effective, way on an industrial project which promises to be profitable and of considerable importance. The first intimation the public had of the matter was a notice in a local paper, yesterday, inviting the beet growers to meet in the Commercial club rooms Saturday at 2 o'clock to consider the raising of beets for the production of molasses. Inquiry of Mr. Haverkamp brought out the information that he had been experimenting in the production of molasses from sugar beets and had been successful beyond others who have so far been heard from. It is generally known that the manufacture of molasses from beets has not been a success, because of the rank flavor and disagreeable odor of the product. Mr. Haverkamp has produced a very good article of molasses not unlike the cane molasses in flavor and free from any offensive odor. The sample produced in 1905 shows a great improvement over that of 1904, and who knows but what further advance may be made? The article made in 1905 is good enough, however, to receive praise from the department of agriculture. Mr. Haverkamp has been in the department of recent date, which designates the sample sent and analyzed by the government chemists, as "a very fair article of molasses." He also had a letter from the molasses sent them is far superior to any beet molasses they have ever seen, and as an evidence of good faith, ask Mr. Haverkamp to produce the molasses delivered in Chicago and other large eastern cities. Investigations made by Mr. Haverkamp along the financial line of the project makes him confident that the molasses can be produced at a price to compete with cane molasses, and he is a very thorough and conservative business man. He states that he and his associates are prepared to build a plant to produce the molasses, but he wants the farmers to take some of the stock and will give them the opportunity to pay for the same in beets, paying for them the same price received for the sugar factory, \$4.75 a ton. The thing Saturday is for the purpose of presenting the matter before the farmers, and to learn how many acres of beets they will agree to raise.

If the project is looked upon with favor by the beet growers the factory will be built in time to work up this season's crop, and by next fall Mr. Haverkamp hopes to have another beet molasses industry established, and to be able to quote syrup jobbers carload lot prices.

AMERICAN FARM COMMERCIAL CLUB.

Articles of incorporation of the American Farm Commercial club have been filed with the county clerk. The object is such as is general with similar organizations. The board of governors are, John H. Wootton, president; S. L. Chipman, vice president; C. M. Beck, Wm. Chipman, S. W. Chipman, James H. Clark, Thos. E. Steele, M. O. Randolph and James T. Gardner; J. W. Storrs is secretary, W. D. Stewart, assistant secretary, and A. K. Thornton, treasurer.

STATE BOARD OF INSANITY.

The state board of insanity met yesterday in the regular monthly meeting, all the members being present. In addition to hearing the annual report of Medical Superintendent Calder the following business was transacted. Treasurer Farrer submitted his report, showing the following disbursements for January: General fund, \$9,426.33; improvements and repairs, \$482.16; building, \$642.80, and a balance on hand of \$775.01.

Requisitions were made on the state treasurer for warrants to cover the following expenses for January: Salaries, \$1,923.55; current expenses, \$2,317.99.

The following table shows the movement of patients for January:

	Men.	Women.	Total.
Patients in hospital Dec. 31, 1905	191	156	347
Patients admitted during January	3	4	7
Patients under care			

COUNTY SCHOOL MEETING.

Supt. Eggertsen has called a meeting of the trustees of the county schools to meet at the Parker school in this city Saturday, Feb. 24, at 10 o'clock. The following questions will be considered at the meeting: (1) New school law. (2) Pupils in one district, schools in another. (3) Relation of principal to trustees. (4) Trustees recommendation of teachers. (5) Tax levies. (6) The county institute for teachers. (7) Salaries of teachers. (8) Census enumerators. (9) Text books. (10) Libraries. (11) Trustees' reports. (12) Eighth grade graduation expenses.

GARDEN CITY NOTES.

John Johnson, a patient in the state mental hospital, committed suicide Sunday night in 1893, died Wednesday. The remains were buried here today.

Dr. John A. Whittee will speak Sunday forenoon in the meeting of Scandinavian Saints held in the vestry of the tabernacle.

The Sixth and Third wards dramatic club, which comprises in its membership some of Provo's most talented young people, gave a splendid presentation of "A Strange Marriage," Wednesday night in the Second ward meetinghouse.

Raymond Knight, of Raymond, Canada, has returned from England, where he took a shipload of cattle from Canada. While he was away Mrs. Knight visited relatives in Provo. They will soon return to their home in the north.

The Farmers of Provo and vicinity will meet in the court house at 2 o'clock Saturday to perfect the organization of the Farmers' union.

On Tuesday evening, the 13th, the B. Y. U. basketball team and the Y. M. C. A. team of Chicago will play a game in the B. Y. U. gymnasium.

RUSSIAN MUSICAL PRODIGY.

Mischa Elman, now in his fourteenth year, is one of the most remarkable musical prodigies of the present generation. He is a Russian, and he has been studying in Berlin for several years. He played recently at the Gewandhaus concert at Leipzig, that most

critical of German musical centers, and aroused immense enthusiasm. He has been engaged to play at the Birmingham (England) festival next fall. Frank Gardner, a well known operatic promoter, has offered the lad's father \$150,000 for Mischa's services until he comes of age.

Zurich has its streets paved with paper.

IN NATURE'S LABORATORY

Buried deep in our American forests, many years ago, Dr. Pierce found a beautiful, blooming plant the root of which possesses wonderfully efficacious properties as a stomach and general tonic, also as an alternative or blood purifier and liver invigorator, having an especial affinity for all mucous surfaces upon which it exerts a most salutary, soothing and healing influence.

This sturdy little plant is known to botanists as Hydrastis Canadensis, but has several local English names, being generally known as Golden Seal. Dr. Pierce found the root of this common forest plant to possess medicinal principles of great potency, especially when combined, in just the right proportions, with Queen's root, Black Cherrybark, Stone root, Mandrake root and Blood-root, the properties of each being extracted and preserved in chemically pure glycerine of proper strength.

This compound Dr. Pierce named his "Golden Medical Discovery," in honor of the sturdy little Golden Seal plant. So little used was the root of this plant by the medical profession at that time, that it could be purchased in the open markets for from fifteen cents to twenty cents a pound. The use of many tons of this root every year in Dr. Pierce's two leading medicines—for it enters into both "Golden Medical Discovery" and also into Dr. Pierce's Favorite Prescription as one of their most important ingredients—has caused the price of the root to advance until to-day it commands upwards of a dollar and a half a pound.

DR. PIERCE'S FAITH.

Dr. Pierce believes that in our native forests are to be found an abundance of most valuable medicinal plants for the cure of many distressing and most fatal maladies, if we would only seek them out, test them and learn how and for what diseases to use them. Furthermore, he believes that the vegetable kingdom is the one to resort to for the most harmless remedial agents. They act most kindly upon the human system and are eliminated or carried out of the body by the natural functions without injury, even in cases where it is necessary to make protracted use of them in order to experience permanent cures. Dr. Pierce's medicines being purely vegetable, are perfectly harmless. In other words, while they are potent to cure, being purely vegetable in composition and containing no alcohol, they leave no bad effects behind. This is not generally true when mineral medicines and those containing large percentages of alcohol are taken into the system and their use protracted over considerable periods of time.

Many years ago, Dr. Pierce discovered that chemically pure glycerine, of proper strength, is a better solvent and preservative of the medicinal principles residing in our indigenous, or native, medicinal plants than is alcohol; and, furthermore, that it possesses intrinsic medicinal properties of its own, being demulcent, nutritive, antiseptic and a most efficient anti-ferruginous.

THEY STAND ALONE.

The fact that neither Dr. Pierce's Golden Medical Discovery, the great stomach tonic, liver invigorator, heart regulator and blood purifier, use his "Favorite Prescription" for weak, nerv-

ous, over-worked and broken down women contains any alcohol, entitles them to a place *all by themselves*. They are neither patent medicines nor secret ones either, for every bottle of Dr. Pierce's world-famed medicines leaving the great laboratory at Buffalo, N. Y., has printed upon its wrapper all the ingredients entering into its composition. This is why so many unprejudiced physicians now prescribe them and recommend them to their patients when they would not think of advising the use of a secret nostrum. They know what they are composed of, and that the ingredients are these endorsed by the most eminent medical authorities of all schools of practice.

ALL RIGHTS PROTECTED.

The exact working formula for making Dr. Pierce's medicines without the use of a drop of alcohol and preserving them unimpaired in any climate for any length of time, cost Dr. Pierce and his assistant chemists and pharmacists a tedious course of study and experiments, extending over several years. With the use of chemically pure glycerine, of just the right strength, and with laboratory apparatus and appliances specially invented and designed to carry on the delicate processes employed, Dr. Pierce finally found that all the medicinal principles residing in the several native medicinal roots could be more perfectly extracted and better preserved from fermentation than if alcohol was employed.

Besides the glycerine, of itself, possesses the property of greatly enhancing the efficacy of the several medicinal agents employed, whereas alcohol is well known to be objectionable in any medicine to be employed in chronic or lingering diseases, where, at best, treatment must be continued over a considerable period of time in order to make the cure complete and permanent.

The exact proportion of the several ingredients used in these medicines as well as the working formula and peculiar process, apparatus and appliances employed in their manufacture, are withheld from publicity that Dr. Pierce's proprietary rights may not be infringed and trespassed upon by unprincipled imitators and those who may be piratically inclined.

In favor of Dr. Pierce's medicines is the frank, confiding, open, honest statement of their full composition, giving every ingredient in plain English, without fear of successful criticism and with confidence that the good sense of the afflicted will lead them to appreciate this honorable manner of confiding to them what they are taking into their stomachs when making use of these medicines.

A little book of extracts from many standard medical works of all the different schools of practice, indorsing, in the strongest terms, all the several ingredients entering into Dr. Pierce's medicines and telling what diseases these most valuable medicinal agents will cure, will be mailed free to any address by Dr. R. V. Pierce, of Buffalo, N. Y., on receipt of request for same by letter or postal card.

Dr. Pierce's Pleasant Pellets are largely composed of Podophyllin, the concentrated extract of Mandrake root, and they regulate and invigorate stomach, liver and bowels.

VICTOR 8' EDISON RECORDS FRESH EVERY DAY
10 in. Victor 60c Edison 35c
DAYNES & ROMNEY PIANO CO., 23-27 E 1st So.

Saturday at Keith-O'Brien's
