Indian Chiefs under sentence—Decision.

WASHINGTON, D. C., July 22.—The Secretary of the Interior has decided, in effect, that a patent has never been issued to McCarahan for the Panoche Grande quicksilver mine.

General Latham, in a letter dated July 22, from the Kiowa Agency, Indian Territory, says: "I have been informed by the Judge of Jackson, that Santana and Big Tree have been sentenced to be hanged on the 1st of September. He wrote to me who would write to the Governor and request to have the sentence commuted to imprisonment, which he thought would be done. The Kiowa Indians have not come in yet, nor made any demonstrations, that I have heard of. They are camped on the North Fork of Red River, near the mouth of McClelland creek in Kansas."

HUDSON, N. Y., July 22.—Edward Chase, a prominent shaker, who for many years has been charged with the business of the branch of the New Lebanon Shakers known as the Brick Yard family, absconded last Saturday night, and is supposed to be a defaulter to the amount of \$10,000 or \$20,000. It is believed he is now in Springfield, Mass.

SARATOGA, N. Y.—A bet of \$10,000 between the owners of Longfellow and King Fisher was made to-day, on a four-mile race, which takes place on August, the meeting commencing on the 10th. Both horses are training here, and doing well.

NEW YORK, July 22.—The official inquiry under the direction of Addison Lowe, Supervising Steamboat Inspector of New York, into the condition of the boiler of the Westfield, as filed at the last inspection, commenced this forenoon, at the office of the United States Inspector of Steamboats. The board consists of Leonard A. Boone, local inspector of the district, and Hill of Boston. The latter was summoned to appear before the board, and was accompanied by the engineer, Captain Belknap, Inspector General, was also present.

Mr. Mallow, one of the Government inspectors, was the first witness. He said he gave a certificate to the Westfield freely, and would have traveled on her last Sunday. He did not try to lift the valve, because the engine was without steam, and he was not testing.

At the beginning of the late war Germany had over 300,000 life and endowment policies in force. France had less than 100,000.

The Vermont census shows that the rural districts have lost 14,000 of their population within the last ten years, and that the towns and villages have gained 10,000.

According to a Philadelphia physician, the chances of a sober man's life being prolonged as against that of an immoderate man are, at the age of 30, 1 to 15; at the age of 40, 1 to 10; at the age of 50, 1 to 5; and at the age of 60, 1 to 1.

The excess of women in Great Britain, as revealed by the recent census, is striking much attention. The disproportion between the sexes is 915,162.

An English writer speaks of China as a country where the women have no fragrance, and the women no perfume; where the laborer has no Sabbath, and the magistrate no sense of honor; where the child bears no yoke, and the shipwrecked sailor is not rescued; where the needle points to the south, and the sign of being puzzled is to scratch the temples of the head; where the place of honor is on the left hand, and the seat of intellect is in the stomach; where to take off your hat is an insolent gesture, and to wear white garments is to put yourself in mourning; where there is a literature without an alphabet, and a language without a grammar.

Brother Smith, what does this mean?"

"What does that mean?"

"Bringing a nigger to this church."

"He is my own."

"Your own? Is that any reason why you should insult the congregation?"

"But he is intelligent and well educated."

"Who cares for that? He is a nigger."

"What of that? Must you therefore insult the whole congregation?"

"But he is a Christian, and belongs to the same denomination."

"What of that? Let him go and worship with his fellow-slaves."

"But he is worth five million of dollars," said the merchant.

"Worth what?"

"Five million dollars."

"Five million dollars? Brother Smith, introduce me."
