bill the progresista wing of the mino-rity withdrew from the assembly to-day. Later the sergeant of arms brought Minority Leader Singson be-fore the bar of the house on a call of the assembly.

The minority had presented a report

ed. The point at issue was the question of adopting the report of the conference committee to patch up the difference between the assembly and the commis-sion relative to the Payne bill.

Washington, April 9 .- After three weeks of consideration, the Payne bill was passed by the house of representatives tonight amid great excitement, by a vote of 217 to 161. One Republican, Austin of Tennessee, voted against the measure, and four Democrats, all from Louisiana, Messrs, Broussard, Estopinal, Pujo and Wickliffe, voted for it. An attempt by Champ Clark, the minority leader, to recommit the bill with instructions signally failed,

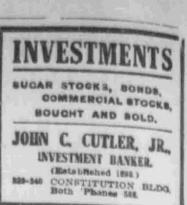

Instructions signally failed. The day was filled with excilement from the moment the social began at neon until adjournment. The members were keyed up to the highest pitch, and a practically full membership remained on daty throughout. The final vote demonstrated the capitelity of the Re-publican organization to get together. The situation with respect to lumbor The situation with respect to lumber publican originization to get together. The situation with respect to lumber was greatly relieved to the Republican leaders when it became manifest that the advocates of the proposition plaz-ing it on the free list were in the mi-nority. Because of that fact, Mr. Fitz-geraid of New York charged that a midnight deal had been made last night whereby free lumber was to be voted down and the rates on barley and harley mult increased, and this, not-withstanding the centals of Mesars. Mann of Illinois and Cushman of Wash-ington, who offered the barley amend-ments.

The general public was greatly inter-ested in the proceedings and the gal-leries were packed. Both the diploma-tic and executive reservations likewise were fully occupied. Mrs. Taft being mong those present.

New York, April 9.-R. G. Dun & Co.'s reakly review of trade tomorrow will

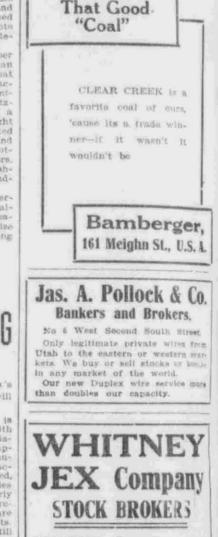

say: Although confidence in the future is more noticeable than satiafactory with present conditions, yel one by one dis-turbing elements are gradually disap-pearing. While the tariff is still un-der discussion and is checking full ac-tivity in industries most concerned, yet the reports from most of the diles show their trade to be in a fairly satisfactory state, centers farthest re-moved from the industrial activity are naturally making the best exhibits. While the iron and stoel trade is still in the unastiled process of readjust-ment, yet it makes the best show-ing in exactly that line—the structural —which is a sign of building activity. In the primary cotton goods market the most interesting feature of the week has been the activity in wide convertibles of print sloth, ysin, con-verters and cutters now showing for the first time a disposition to operate treely, while manufacturers as a rule are reluctant to make contracts ex-cept at a material advance. Buyers of men's weal woolen fabrics are now poing on the road and fewer cancel-lations than usual as a result of failure to deliver sample pleces in time are re-ported. There appears to be a decided ahortage of spring goods, stock on hand having been sold at full prices Although confidence in the future h

cal self-government," said Mr. Borsh but the great central and cor-principle of civilization-that in trated and harmonious action separate states or commularge scale without destroying felling self-government-was inknown. The representative that system by which independ or states, retaining full and ontrol over domestic affair, control over domestic affairs, with central and supremie authority for matters of common interest, was jundiscovered. So, amid petry rivals and constant jealousies; amid at and conflict and perpetual was, this splendent political system peries There was a fatal defect—a day which another people was to discu-and remedy." and remedy."

and remedy." As the antithesis of this wondering example of pute democracy, be traced the development of the Roman empire and the coincident loss of all local gov-ernment by communities brought under the set of Roma. the sway of Rome Tracing Anglo-Saxon civilization, M.

Fracing angle-Saxon civilization, Mr. Borah declared that the principle of the New England town meeting he seamed our whole civilization with strength and durability. Without it active presence, its living, percading force, there could be no such using as a truly republican government or fal-oral system. ral system

tonight of the provision of the Payne bill for the free admission of 300,000 gross tons annually of Filipino sugar. This decision was reached after the subcommittee considering the sugar schedule had taken to the White House Charles B. Warren, president of the Michigan Sugar company, and had 12.8 confirmed an agreement between Mr. Tart and Mr. Warren made in this 5.4 city last fall.

After the agreement between Mr. Taft and the beet sugar valsers had been announced, the right of Mr. Warrea to speak for the beet sugar interests was brought into discussion.

The house committee on ways and means on Jan. 18, adopted a section in the Payne bill relating to free importation of products from the Philippines, with a limitation of 200,000 tons annually, on sugar. Within the last week this section had been attacked severally by representatives from beet sugar states, and it was charged in the house that in muking an agree-ment Mr. Warren had assumed author-ity he did not possess. As a result the question was referred to a sub-committee of the senate committee on france consisting of Senator. Bur-

the question was referred to a sub-committee of the senate committee on finance, consisting of Senators Bur-rows, Smoot and Flint. The subcommittee learned that Mr. Taft had entered into the agreement in good failh, and that it had gone un-challenged for many weeks until the senate committee began consideration of the tariff. Not willing that Presi-dent Taft should be placed a take light, the senate subcommittee agre-moned Mr. Warren from Michigan, and he arrived at 6:20 tought. Accoun-panied by the three members of the subcommittee. Mr. Warren was authorized to apeak for the beet sugar from was not taken into account. It was suffi-cient for the members of the committee that from the English allow and taken into account. It was suffi-cient for the members of the committee that from the English allows and taken into account. It was suffi-cient for the members of the committee that from the English allows that from the English allows the for the members of the committee that from the English allows and the questions may be fought out between Mr. Warren and his fellow level sugar producers.

etween hir. Warren and his fellow est sugar producors. An amendment to the Philippine sec-on, prepared by Henators Lodge and most, was adopted by the committee n mance, however, which is designed i prevent the substitution of Java to prevent the substitution of Java sugar or sugar from other jshunds in the far east and the importation of such products into the United States free of duty. This has been accom-plished by requiring the collection of a duty equal to the amount due on all sugar imported by the Policyches, ex-cept from the United States. The Philippine sustance service will be ex-oured to kee- strict account of all ex-nortations of succer from the islands, and it is believed this will afford simple safeguard for the American succes producers.

ins producers. It is said that it will be some time before the Philippine sugar industry ni-tratos a position that would enable the islands to take advantage of the right to send 500,000 tons annually to this country, as the yearly production is now about 100,000

A FILIPINO PROTEST.

Manila, April 19 .-- As a protest against what is claimed was arbitrary action in the matter of the Payna tariff

ported, There appears to be a decided abortage of spring goods, stock on hand having been sold at full prices and in some instances commanding premiums. The dress goods division continues to be quiet. More business is reported in yarns, but prices remain unsatisfactory. The network the feature of factment

The noteworthy feature of footwear is the buying of sole leather by sev-eral large manufacturers, indicating that some contracts are being placed. New England salesmen on the road re-port an improvement in fail orders, and as both retail and wholesale strekes are es both retail and wholesale sizeks are much below normal, renewed activity cannot be long delayed. Sales of do-meatic packer hides for the week have aggregated between 55,000 and 55,000, prices remaining stead; with a firmer tendence.

tendency. The market on country hides is weaker, while foreign hides are firm, prices advancing slightly all around at the monthly auction sales in Paris. In the leather market interest centers in heavy sales of sole leather, made chief-ly to domestic buyers, but partly to British operators. Buyers of upper, harness and beling stocks operate mong freely. nore freely.
