

## CACHE VALLEY NOTES.

DECEIT PRACTICED TO ARREST N.  
PORTER—CROP PROSPECTS, ETC.

MENDON, Cache Co.,  
July 14, 1885.

Editor Deseret News:

On the night of the 12th or early on the morning of the 13th Deputy Turner of Oxford, made a raid on the residence of N. Porter, of Preston. Arousing the family from their sleep the limb of the law stated that he had a letter from Brother Nash, of Franklin, telling that the officers were after Brother Porter, and that he wished to give it to him. At this the family who were half asleep, opened the door, telling him that Brother Porter was not at home, but at one of the neighbor's. The dishonorable wretch then read the warrant of arrest he had, and went to where Brother Porter was and arrested him.

They proceeded to Oxford, where the prisoner had a hearing, waived an examination and was bound over, T. Heller, I. A. Canfield and C. C. West becoming his sureties.

Cache County presents a very pleasing appearance, and there will be a bounteous harvest. The agriculturalists are all very busy in the harvest fields.

There is a noticeable absence of improvement this season; very few buildings are being erected; markets are very quiet; prices low for all the products of the country, and though the farmers will realize fruitful returns from the soil, yet they fear hard times. The unsettled state of affairs stagnates trade, and the most substantial men and those who have shown the most public spirit are being annoyed and having their family relation disrupted, so that their efforts are nullified. How long this state of affairs will last, we do not know; but until there is a change business will not improve, but become worse, until we will from force of circumstances have to depend more on ourselves and on what we can produce. ## JOTTINGS FROM RICH COUNTY.

LAKE TOWN, Rich Co.,  
Utah, July 14, 1885.

Editor Deseret News:

Spots of snow remain on the hills west of our little burg, as a testimony that it is not always sunshine with the Saints of Lake Town.

The weather has been exceptionally warm and propitious during the past thirty days.

Those who planted potatoes earliest in this region are not the most fortunate, as the heavy frosts in the latter part of May and the early part of June cut down all the tubers that had found their way into the fresh air. All the tender kinds of vegetables suffered likewise. The potatoes that were planted later appear much better now.

The copious rains with which this region was favored in the early part of the season have had a very beneficial effect upon our hay and grain crops. Considerable haying has been done already, and there never were more favorable prospects for good grain crops since the settlement has been established. So say our oldest inhabitants.

In nearly every former year in the history of our burg, our watermaster has been literally besieged by persons anxious to ascertain the time their water turns came around. This year that functionary has almost had to beseech people to take it, so abundant has been our supply for irrigation. I was recently led to remark to a friend that since we had ceased quarreling over our water turns, rights, etc., we

have had a continued increase of that all-essential fluid.

There is nothing very exciting to report from this region. We are so far removed from "Christian" (?) influences that we live in peace, and almost all are trying to honor God and love mankind. "So mote it continue."

Everybody is very busy and will be till the crops are gathered, etc.

It seems to me that there would be an opening here for a good shoemaker—Latter-day Saint; one who would live righteously, and could take a side of sole leather and a calf skin, kip skin or cow hide, and make boots and shoes throughout. We have not a shoemaker in either of the three settlements in this county north of the "divide." Consequently our people buy shoes and wear them till they are done, and are always buying; all for want of some one to repair, etc. So if there is a man such as I have described, and who would work for reasonable pay, and do right generally, I think he could make it profitable to come and settle somewhere in this region.

I think also that a good tailor, who wants to make for himself a home and of general good character as a Latter-day Saint, may also find a reasonable chance hereabouts on the same terms.

Our primary caucus and our annual school meeting have been the only public occurrences of any moment lately.

The health of the people generally is very good, considering the hot weather, with but few exceptions.

At the county convention held at Randolph to-day, Messrs. Ira Nebeker, Edwin Spencer, A. W. Nebeker and Joshua Eldredge were chosen as delegates to the convention to be held at Logan on the 18th inst. Joseph Kimball, Esq., our probate judge, was nominated (subject to the endorsement of the district convention) as representative from this county to the Legislature, and Wesley K. Walton, Esq., was nominated as selectman in this county.

This about exhausts the news to be extracted from this village and vicinity, and if you and your host of readers are not also exhausted, it will supremely delight

Yours truly,  
JOSEPH IRWIN.
