The House of Commons has passed the Westmeath bill enlarging the powers of government for the repression of violence in Ireland.

PARIS.—A decree, ordering supplementary elections to fill the vacant seats in the Assembly is expected tomorrow. The *Gazette de France* says the Princes have promised not to take their seats as deputies during the present Assembly. Laroquette will stand for the Assembly in the department of the Loire et Garonne, and his election will probably not be contested. Rouhe Gueronier and Hausmann are also spoken of as candidates. It is almost certain that Prince Napoleon will run for the Assembly from Corsica.

Many rifles are found daily, concealed in cellars, churches and in the catacombs.

The *Opinion Nationale* in commenting on the action of the Assembly, warns the country of its sliding down an incline plane into monarchy. Other journals approve of yesterday's proceedings. *La France* compares the speech of Thiers to the proclamations of Washington.

The seat of government will shortly be removed to Paris.

The arrival of Chambord at Boulogne is contradicted.

Joinville and Aumale, at their interview with Thiers, resigned their seats in the Assembly and disclaimed intrigues.

The *Official Journal* announces elections in 113 districts to be held on the 2nd of July. The *Journal* assures the people that the deposits in the bank of France are uninjured.

The Princes' resignation was communicated to the Assembly today.

TORONTO.—A long discussion took place last evening in the Synod of the Church of Scotland, in Canada, on the proposed Presbyterian union. The result was the unanimous adoption of a resolution embodying three articles forming the basis of the union.

PARIS, 11.—The press expect a strong effort to be made by the Bonapartists for the success of their party in the coming supplementary elections. The *Journal of Paris* says the Prince Imperial and not Prince Napoleon will be put forward as a candidate for the Assembly.

The *Cloche* thinks the result of the election in the cities will check the tendency to a monarchical government.

HOME NEWS.

ST. GEORGE, June 8.

The wheat harvest has commenced. There are better prospects for good crops than ever before. Some plums are ripe and apricots are beginning to turn. The warm weather is increasing. The thermometer was at 110°, at 3 p.m. yesterday in the shade, and now stands at 105.

CENTRAL CITY, 9.

New discoveries are being made, and new claims located.

There is but little snow on the flats. Central and Alta will, no doubt, soon be one city.

The canyon looks beautiful. The melting snows make fine cascades which, with the verdure and the castellated appearance of the rocky mountains on either side, add greatly to the beauty of the scenery.

The "Emma" is working seventy odd hands, aiming to forward 100 tons of ore daily. Many men are on the road improving it.

The following is an incident in the life of our man Cox, of the telegraph service; A cinnamon bear, something smaller than a horse, treed the hero of the adventure, who had nought but some telegraph wire with him. Bruin followed cautiously, but Cox shook him down. Bruin again ascended to hug an acquaintance and again he was repulsed by the pursued, and buried in the snow beneath the tree. The Elder then made fast a piece of wire to the main line and threw it about bruin's neck and legs. Bruin and the wet snow made a good ground connection, and he could not possibly understand the tickling and exhilarating sensation. A man with a gun, behind a tree, watched all this with, no doubt, unusual delight, but could not hold any longer, so he aimed and fired and the bear and Cox fell simultaneously. His heart soon returned to its place under the watch pocket.

The Deseret Telegraph Company will move their office to Alta, a much more central place.

Pardee and Jones, at Tannersville, will commence smelting ores in a day or two. A great deal of charcoal is being burned, which costs twenty-five cents per bushel.

BEAVER, June 9th.

The *Ely Record* of the 8th inst. states that Wells, Fargo & Co. shipped, June 4th and 6th, through their agent, B. F. Sides, by way of Salt Lake, bullion valued at \$27,364.61; also on the 8th, bullion valued at \$15,279.77. Total, \$44,644.38.

Michael Cassey, who was recently wounded in a shooting scrape in Pioche, died from the effects of his injuries on Tuesday morning last at 8 a.m. Deceased was twenty-eight years of age, and leaves a mother and sister who reside in Rochester, N. Y.

Nine hundred feet of pipe is being bored, by which water is to be conveyed to Pioche. The boring is expected to be completed in twenty days. The citizens of Pioche were to meet in the District Court Room last night, for the purpose of organizing a hook and ladder company.

FAIRVIEW, 12.

The crops look well in this section, and everything is promising for the future. The hoppers are not doing much harm, though we had a severe frost on the night of the 3rd that destroyed much garden stuff, wheat, young apples and plums and other fruits. Miners continue passing through to prospect the hills around. One party of four men have started to prospect around the White and Green rivers till fall; they said they would find gold or silver, or bust. The Co-operative cattle herd for northern Sanpete is doing well; it numbers several hundred animals, which are getting fat, and a large increase of young stock by next Spring is expected. A ranch is being established in Thistle Valley for the herd.

FOUNTAIN GREEN, 12.

There is considerable mining excitement in this place: two discoveries of silver and coal, said to be rich, have lately been made here. Prospectors are coming in daily. The best prospects, however, are indications of an abundant harvest.

SPRING CITY, 12.

Prospects for crops are fine. Hoppers are very few.
