shows How Operators Tried to Hold President Parily Accountable for Situation He Was Trying to Mend.

Washington, Oct. 17 .- Following is the text of President Mitchell's com-

munication: "Wilkesbarre, Pa., Oct. 16, 1902 .- Hon. Theodore Roosevelt, President of the United States, Washington, D. C .---Dear Siri-I am in receipt of your telegram of Oct. 16, which reads as fol-

"I have appointed as commissioners lows: Brig.-Gen. John M. Wilson, E. W. Farker, Judge George Gray, E.E. Clark, Thomas H. Watkins and Bishop John L. Spalding, with Hon. Carroll D. Wright as recorder. These names are accepted by the operators and I now most earnestly ask and urge that the miners likewise accept this commission. It is a matter of vital concern to all our people and especially to those in our great cities, who are least well off, that the mining of coal should be resumed without a day's unnecessary delay?

CONVENTION CALLED.

"Replying thereto, I beg to inform you that your recommendations were submitted to the executive boards of districts 1, 7 and 9, United Mine-Workers of America, and they have unanimously agreed to call a delegate convention to be held next Monday and cut recommend to the convention that will recommend to the convention that all men now on strike return to the positions and working places formerly occupied by them, and submit to the commission appointed by you all ques-tions at issue between the operators and mine-workers of the anthracite coal fields. In connection with this subject we are glad to know that the man-agers of the coal companies have declied to recede from the untenable po-sition which they so long occupied and tion which they so long occupied and to accept a modified proposition for the arbitration of the coal strike and to give you full latitude in the selection of a commission. It will be remembered that we proposed, on Oct. 3, to place the whole matter in your hands and to accept a verdict of a tribunal of your own selection. It will also be remem-bered that the company managers at that time refused to accept the arbitra-ment of the president of the United Siates and preferred that of the local commmon pleas judges. We proposed to leave everything to you without con-dition or reservation, having the utmost faith in your impartiality and good faith in your impartiality and good judgment.

Judgment. "In their refusal to accept your arbi-trament, the operators sought to hold you in part accountable for the very conditions which you were trying to duttes concerning them. Eight days later they again appeared before you. dropping the common pleas judge and proposing to abide by the verdict of a tribunal appointed by you, but attempting to prescribe within fixed and narlimits the character and vocation of the men you were to name.

Tell Me Who Needs Help

Just a Postal-That is all.

No money is wanted-not from you nor from him. I ask only a postal card, and I ask it as an act of humanity.

Then I will do this :- I will send the sick one an order -good at any drug store--for six bottles Dr. Shoop's Restorative. He may take it a month at my risk. If it succeeds, the cost is \$5.50. If it fails, I will pay the druggist myself. And the stok one's mere word shall decide it.

Could I meet you-for even ten minutes-I would forever convince you that I have what these sick ones need. More than that, they must have it, for most of them can never get well without it.

But I can meet only a few, so I take this means to convince you. I let you take it a month to prove what it can do: and you can pay, or I will pay, just as you decide,

I have found the cured ones fair. In the past 12 years I have furnished my Restorative to hundreds of thousands on those terms, and 39 out of each 40 have paid-and paid gladly-because they were cured. I will pay just as willingly if you say I have failed.

My Restorative is the result of my lifetime's work in learning how to strengthen the inside nerves.

I don't doctor the organs, but I bring back the nerve power which alone operates every vital organ. 1 give the weak organ power to do its duty, as you would give a weak engine more steam.

My way never fails, save when a cause-like cancermakes a cure impossible. No case is too difficult, for I have watched the remedy succeed in the most desperate cases that physicians ever met.

You know some sick one who would be well with my help. Won't you let me furnish that help?

DID OPPOSE PROPOSAL.

"To this proposition, as the operators made it, we were unalterably opposed First, because our respect for you as a man and our ideas as to what is du to the dignity of your office demanded that we should not be a party to a re quest of you to accept this great re sponsibility acompanied by detailed and impertinent restrictions as to the manner in which you should meet it second, because careful analysis their proposition disclosed to us, as it did to you and the public, that the restrictions were too narrow to enable you to secure under them a well-balanced and thoroughly impartial tri-bunal. But now that you have yourfelf removed these objections by broadeting and strengthening the commisfion, we feel confident that our conention will declare its willingness to have all questions between the employ ing companies and the 95 per cent of their employes who are members of our organization determined by the board eminent and impartial men chosen you. We feel grateful to you, Mr esident, for the patriotic efforts which you have made to bring about a honorable settlement of the strike- efforts which you continued despite the remarkable spirit and conduct which you at first found in the company monagers.

We were in a position to sympathize you, inasmuch as we had long been forced to endure arrogance, insult and false witness from the same source. GRATEFUL TO THE AMERICAN PEOPLE.

Our gratitude is due to you and to the American people and the press who have supported you and us in the long truggle which we hope is now about to close. During all these long months, In which our motives have been imjugned, and our characters maliciously ascalled, we have refrained from say-ing any word or taking any action which would tend to render reconcilia-tion more difficult, but it now becomes a duty to defend ourselves from the sinders which have been heaped upon is and to proclaim that we have from the first favored practically the method which is now employed to break the deallock. If our proffer of arbitra-tion or impartial investigation had best accepted six months ago instead of how, there need have been no strife. We have been so eager, Mr. President, to respond to the people's demand for coal that during the progress of the strike, we have more than once ofred arbitration, but we have invaria by been met with the reply: We will rei permit outsiders to dictate to us in the management of our own affairs. We have nothing to arbitrate.

Now that the managers of the comfanies have been compelled by you and a thoroughly aroused public conscience to receda to recede from this position, we are proud that the firmness and the heroid endurance of our men and women in in port of their rights of a vital Ameririnciple, have won the victory.
