BATTLING NELSON PURCHASES HOME

Famous Pugilist to Be Resident | University of Utah and B. Y. U. Of Livermore Valley, California.

IS GOING TO SETTLE DOWN. CLOSE FINISHES EXPECTED

Battler Secures Possession of Sixty-Five Acres of Young Vineyard And Will Build Residence.

Battling Nelson has purchased n home in the Livermore valley, says the Livermore Herald.

The famous pugilist first came to this valley about a month ago in company with his friend, P. F. Dana, the well known photographer, who had purchased a home here and was so pleased with the valley that be prevailupon Mr. Nelson to accompany

F. D. Burr of the Livermore Valley and company took Nelson through the alley and showed him a number of holce pieces of property, and while e determined to locate here it took ome time to make up his mind just that he wanted. the negotiations which closed on

what he wanted.

By the negotiations which closed on Tuesday Mr. Nelson secures possession of 65 acres of young vineyard on vineyard avenue which was formerly the property of Sherman Clay & Co.

Mr. Nelson will build a residence upon the property and will spend most or his time here between matches.

Mr. Nelson has always had many admirers in this valley and the number has greatly increased since our people have had a chance to see what a quiet, unassuming and gentlemanly chap the famous pugilist is and they welcome him to the valley.

Mr. Nelson kindly consented to give the Herald his impressions of the valley which he has done in the following signed article:

Having been asked by Mr. Henry, editor of the Livermore Herald, my opinion of Livermore and its surroundings, wish to say that about two weeks ago I was invited to take a trip to Liverore with Mr. P. F. Dana to look over a ranch which he recently purchased, and while here was taken all over the valley by F. D. Burr of the Livermore valley by B. D. Burr of the Livermore valley tand Co., and was so impressed with what I saw that I immediately got busy and made a thorough investigation of the climate, water, productive outsities of the land, etc., and after making this investigation I became convinced that the Livermore valley was a good place to make an investment in and selected a piece of land which I have purchased and will, as soon as I get possession of same, either build a home for myself and settle down, or have my brother, who is a man of family, come out from Illinois and look after it for me.

out from Illinois and look after it for me.

I consider that Livermore has the healthiest climate in California, if not the world, and from what I can see and learn the valley stands second to none in the world on wine, grapes and hay, and you have plenty of room for the poor man or the rich, for the homeseeker or the investor. I have for the past three days been the guest of F. D. Burr, and I want to say to the people of this valley that you should be proud of him, as every moment of his time seems to be spent in boosting the Livermore valley. More boomers like Mr. Burr would within a few years increase your population one hundred per cent. Good hustlers and good boosters is what a small town needs to improve rapidly.

I intend to make this my head. rapidly.

I intend to make this my head-quarters from now on.

BATTLING NELSON.

LITTLE ABE ATTELL KNOCKED OUT SULLIVAN

San Francisco, April 30.—Hopelessly outclassed, "Brooklyn Tommy" Sulli-van of St. Louis made a sorry showing tonight against the American feathervan of St. Louis made a sorry showing tonight against the American feather-weight champion. Abe Atteil.

In the fourth round, after about a minute's fighting, Atteil biuffed Sullivan into close quarters and promptly toppled him over with a short arm right to the chin. Sullivan struggled to his feet in a dazed condition. Atteil went after him hammer and tongs. Twice more the St. Louis man hit the mat and as he rolled over on his back, completley knocked out, Police Captain Anderson stepped into the ring and ordered the contest discontinued. Atteil left the ring without a mark.

Just as the fight commenced, Luke Marisch, the club manager, instructed Referce Alva King to call all bets off. This was done on account of the changed articles of agreement which permitted Sullivan to weigh in at 126 pounds at 5 o'clock this afternoon, instead of 122, as per the original articles.

TWENTY ROUND DRAW.

Vallejo, Cal., April 30.—Billy Roach last night declared the glove contest between Al Nell of San Francisco and Joe Willis of Vallejo a draw, at the end of 20 rounds of hard fighting. The fans expected Nell to put Willis away in the early rounds of the game, but the new man proved too hard a nut to crack. It was a gruelling contest, the men mixing it well throughout.

ANNUAL CONTEST **COMES TOMORROW**

Of Provo Meet on Cummings Field.

Maddock's Men Will Have No Easy Time in Match With Warriors From Garden City.

The annual dual track and field meet between the athletes of the U. of U. and the B. V. U. of Provo, takes place tomorrow afternoon on Cummings field. The meet promises to be a most interesting one, and it is expected that the Provo boys will give Maddock's men a close rub. At 1 o'clock the rival baseball teams will line up for a game and following this event will come the track and field contests.

ENTRIES.

ENTRIES.

The events and entries for track and field contests follow: 220 hurdles—U. of U., Neilson, Ferguson; B. Y. U., Love and Allred. 100 yard dash—U. of U., Brinton and Richardson; B. Y. U., Henline, Riddle and Hanson. 880 yard run—U. of U., Daly, Parsons and Anderson; B. Y. U., Christensen, Chamberlain and Crosby. 120 yard hurdles—U. of U., Hunt and Nellson; B. Y. U., Love and Allred. 440 yard run—U. of U., Ferguson, Karrick and Carmichael; B. Y. U., Chamberlain, Christensen and Jones. 20 yard dash—U. of U., Brinton and Richardson; B. Y. U., Henline and Riddle.

DE ARMOND DECLARES MISSOURI IS FOR BRYAN

Washington, May 1.-Representative David De Armond of Missouri, in an address before the District of Columbla Democratic association declared that the people of Missouri look upon W. J. Bryan as the logical candidate for the presidency, and that Missouri's delegates will support him unanimous ly at the Denver convention.

Mr. De Armond said in part: "Some people criticize Mr. Bryan and say 'He ran in 1896, he ran in 1900, he is the perpetual candidate; he is the man al-

perpetual candidate; he is the man always to the front.'

"Whoever got there with less self-seeking and is in more thorough accord with the wishes of those who follow him than Mr. Bryan?

'Is there anything wrong in his being willing to stand again as the candidate of his party, if his party wants him? What is he doing now, or what has he done to put himself in the way of the nomination at Denver, that any man can criticize? He stands as an honor to our America citizenship; he stands as one of the highest and noblest types of man—a Christian, patriotic gentleman."

man."
Representative Hughes of New Jersey also spoke. He declared that there are probably 1,000 Democratic voters in his state who would oppose Mr. Bryan if nominated. The uninstructed delegation he said, may support the Nebraskan in the convention.

Representative Hughes spoke in part as follows:

Representative Hughes spoke in part as follows:

"I am for Mr. Fryan because f think he is right. Let us look at it from the sterdpoint of the politician I am for Bryan for another reason. While he may not carry the state of New Jersey or the state of New York—and I do not say that he could not carry those states—it is my firm belief that he is going to get more votes in those states that any other candidate that can be named by the Democratic party."

PRESIDENT'S PLAN IS NEGATIVED

Senate Committee Against Authorizing Government to Make Charge for Use of Streams.

ONLY BARE QUORUM PRESENT

Result Cannot be Regarded as Final Announcement of Policy on The Matter.

Washington, April 30.-The president's suggestion looking to legislation authorizing the government to make a charge for the use of the water of streams for power purposes was today negatived by the senate committee on commerce. The matter received consideration before the committee in connection with a bill introduced by Senator Stone, authorizing the construction of a dam across the James river in Missouri, and received thorough discussion at the hands of the committee. The vote was three in favor of the proposition to five against it. There was only a bare quorum of the committee present, and the result can scarcely be accepted as a final announcement of the committee's policy on the subject. Among those who took a position antagonistic to the president was Senator Nelson, who submitted an elaborate brief in opposition to the president's views. He took the position that such a provision as that desired by the president would deprive the states and riparian land owners of all rights to the use of waters which are now guaranteed by law, and concentrate their disposal and control in the federal government, an innovation which, he contended, neither the states nor the riparian owners could afford to permit. The committee also gave some consideration to Senator Newland's bill for the improvement of the inland waterways, and decided to take up that subject at a meeting to be held next Saturday. The bill provides for the creation of an inland waterways commission and proposes an appropriation of \$50,000,000 a year for the improvement of inland water courses. The subcommittee which has had the matter under consideration has reduced the appropriation it will recommend for the first year to \$10,000,000. Originally it was calculated that much of the money would be derived from the sale of water power, but if the action taken by the commerce commission today proves to be decisive that source of revenue, will be cut off, and if the Newlands bill becomes a law it will become necessary to find some other means of carrying it into effect. charge for the use of the water of streams for power purposes was today

FAVORS FEDERAL BOARD

Traffic Depts. of All Railroads Described as Being in "Kaleidoscopic" Form Because of Interference.

Form Because of Interference.

Chicago, Ill., May 1.—A federal board of control which shall take over the work of the various state railroad commissions and obviate much litigation and legal jurisdiction dispute between federal and state courts was advocated by C. W. Mott, genral immigration agent of the Northern Pacific railroad in an address yesterday before the Traffic club. "The traffic departments of all railroads during the last year and a half have been in kaleidoscopic form," said Mr. Mott. "And I think that if one central body could advise and govern, many changes would be made which would be beneficial both to the railroads and to the people.

ern, many changes would be made which would be beneficial both to the railroads and to the people.

"In the case of a road which traverses seven or eight different states and is subject to the dictation of as many different railroad commissions, a traffic manager has to be governed largely by the gentlemen, some of whom have not had much training in or knowledge of the district they are endeavoring to direct. The recent decision of the Minnesota rate case by the U. S. supreme court is a help in the right direction.

"Our commercial life and trade relations have become so broad and extensive and the railroad and steamship lines have developed interstate trade to such an extent that we virtually have outlived the doctrine of

trade to such an extent that we virtually have outlived the doctrine of state rights or state control as far as interstate railroads and interstate trade are concerned, and it would be far better to do business as with one central body, under federal laws which will be absolutely fair and equitable between the people living in the different states and not glying any one state an opportunity to have radone state an opportunity to have rad-ical laws detrimental to the interests of the people in other states."

Headache?

If it does, you should try Dr. Miles' Anti-Pain Pills. Why not do so. They will relieve the pain in just a few minutes. Ask your druggist There are 45,000 druggists in the U.S. Ask any of them. A package of 25 doses costs 25 cents. One tablet usually stops a headache. They relieve pain without leaving any disagreeable after-effects -isn't that what you want?

'My son Frank Snyder has used Dr. Miles' Anti-Pain Pills for a long time. He never had anything to help him so much for headache. year ago he came home, and I was down sick with such a dreadful nerv-ous headache. He gave me one of the Anti-Pain Pills, and after while I took another and was entirely re-lieved. I always keep them in the house now, and gave many away to others suffering with headache." MRS. LOUISE LEWELLIAN, Powell, South Dakata

Your druggist sells Dr. Miles' Anti-Pain Pills, and we authorize him to return the price of first package (only) if it falls to benefit you.

Poor Economy

It is easy to make flaked food for 10 cents. We could use a cheaper wheat-or use corn. And leave out the pure maple syrup.

We could leave in the broken flakes that we now sift out-about 10% of the product.

We could use the process that some others use-from 18 to 20 hours. The process we do use requires 96 hours. But that is what makes Mapl-Flake what it is.

Our wheat is steam-cooked for six hours. Then thoroughly cured. Then flaked so thin that the full heat of our ovens gets to each atom. Then it is toasted, for 30 minutes, in a heat of 400 degrees.

The object is to make the starch all digestible. For wheat is largely starch.

Starch, to be digestible, must be made soluble. The particles must be separated so the digestive juices can get to them. When wheat is halfcooked only half will digest.

That is why we spend the 96 hours. And why Mapl-Flake costs 15 cents.

It is to create a food that's all food. To supply your children as good a food as we insist on for ours. To give you a food that's really cheap because it all digests.

And the real difference in cost is a triffe. Add the cost of the cream, and see how little you save by getting a secondary food.

Then consider the flavor-the flavor of pure maple syrup. For we cook our wheat in the pure Vermont product. Think how that entices the children-how it leads them to eat the food that is best for them.

You lose more than you realize-you who go without the food that you like best, thinking you save five cents.

"It's All Food"

Watson of Indiana, the Republican | fortably in vestibule cars, and stopwatson or limitana, the reputorican "whip" in the house, that the speaker is not averse to action at this session of Congress on an anti-injunction law and a law to amend the Sherman anti-trust act and that bills for the purpose will be reported within a few days to the house from the judiciary committee.
