

capital stock of such corporation shall be necessary; but each owner of such property shall be deemed to have subscribed such an amount to the capital stock of such corporation as under the by laws will represent the fair estimated cash value of so much of said property, the title to which he may, by deed of trust, convey, or may have conveyed or vested in such corporation; such subscription to be deemed to have been paid in upon the execution and delivery to such corporation of such conveyance or deed of trust; *Provided further*, That this Section shall not be so construed as to prohibit the stockholders of any corporation from regulating the mode of making subscriptions to its capital stock, and calling in the same by by-laws or express contract; *And provided further*, That where subscriptions to the capital stock of any company are paid in other than money, the fact shall be so stated, and the kind of property, with a description thereof, specified in the articles of agreement."

SEC. 3. That Section one of "An Act to amend An Act entitled An Act providing for Incorporating Associations for Mining, Manufacturing, Commercial and other Industrial Pursuits," approved February eighteenth, one thousand eight hundred and seventy; approved February sixteenth, one thousand eight hundred and seventy-two, be, and is hereby amended, by striking out the words: "The stock subscribed under this Section shall be taken by persons two-thirds of whom shall be residents of the Territory."

SEC. 4. That Section twenty-one of said Act be so amended as to read as follows:

"SEC. 21. The Governor and Legislative Assembly may hereafter modify or repeal this Act; but if it be repealed, or if the franchise of any corporation organized under this Act, shall be forfeited, the corporation may continue for the purposes specified in Section nine of the Act to which this is an amendment."

SEC. 5. This Act to take effect from and after its passage.

LOCAL AND OTHER MATTERS.

FROM FRIDAY'S DAILY, AUG. 14.

Looking Up.—Things don't look very dull in the lower part of the City. About half a dozen excellent brick houses are in progress of construction in the lower part of the Fifth Ward.

Injured People.—Bowen is an injured man. So is Mr. Beecher. So is Mr. Tilton; and Mrs. Tilton, Mrs. Beecher, Mrs. Woodhull, and a crowd of deputy marshals are all very much injured people. It is very, very sad.

Montana Election.—In the Montana election Maginnis was elected by a considerably heavier majority than two years ago, and the vote appears to be 300 to 400 in the majority in favor of the removal of the capital from Virginia to Helena.

From Fillmore.—To-day we had the pleasure of a visit from Bishop Edward Partridge of Fillmore, Millard County. He reports everything prosperous. The crops are not extra heavy, but stock is doing splendidly. The United Order is working to the general satisfaction of the people.

More Stealing.—Night before last Brother Thomas E. Jeremy, of the 16th Ward, was robbed of a set of harness.

Our citizens should look out for sneak thieves about this time, as a new gang of that class of scoundrels has made its appearance in this City lately.

They Prefer Chinese.—We understand that, since the election, in more than one instance high-minded and magnanimous "Gentile" gentlemen and families have withdrawn their washing from "Mormon" widows and bestowed it upon the Chinese, showing that said "Gentiles" prefer taking their soiled linen to Confucian Mongolians to letting Christian Caucasians have anything to do with it.

Passed Examination.—The following are the names of persons who made application to the County Board of educational examination who acquitted themselves satisfactorily and received their qualification certificates as teachers—Louisa Mills, Milcent Creighton, Robert B. Tripp, Clifford J. O. Irwin, F. Kesler, Jr., Carle B. Swift, of Salt Lake City; David O'Ride-

out, Edward Orgill and J. Z. Stewart, of Draper.

The Dog-Slayer.—The City dog-slayer was around the north-eastern part of town this morning and somewhat diminished the census of the canine population. They need considerably more thinning out in that direction yet. The lives of children are endangered by some of the vicious curs. Several owners of dogs, thereabout walked up this morning, paid their tax and bought a collar.

Sentenced.—Simmons and White, the parties who stole the trunk from the Colorado House, last night, mentioned in another paragraph, had a trial to-day before Justice Pyper and were each sentenced to a fine of \$50 and three months, at hard labor. They had a portion of the stolen clothing on their persons, but, according to their account, they were innocent doves.

Another Burglary.—The other night the store of Mr. Charles Cooper, South Temple Street, was entered by "lock-pickers," who walked off with a quantity of packages of tea, some money, all there was in the till, and several articles of clothing. The robbers were evidently provided with keys, as the door was found locked in the morning, showing that they had opened it, and then locked it after them, after taking the spoil. The City appears to be fairly infested with thieves, who have come from a distance.

Riches of the Iron Region.—To-day we saw a number of specimens, at the office of Mr. John W. Young, from the Great Western Iron Manufacturing and Mining Company's claims in Iron County. Among them are the radiated or fibrous hematite, brown hematite, black oxide iron, and two kinds of white iron; also an excellent material used for fluxing purposes, calcine, two kinds of fire stone, one quartzite sandstone and the other ferruginous quartzite; there is a specimen of very excellent fire clay, also bituminous and anthracite coal. These specimens have been submitted to the critical scrutiny of Prof. Barfoot, who pronounces them of splendid quality.

Work on the Temple.—Work on the Temple is progressing very favorably, under the able supervision of Brother Truman O. Angel. Two additional courses are being laid on the walls, and have been already taken at least half around the building. One of the first stair landings in the east end is completed, and is a beautiful piece of work. The two courses now being laid raise the walls about two feet. The rock now being laid is set in from the outer level of the wall, to make room for the water table, which will be laid there. The rock for this water table or string course will, we understand, be procured from Emigration canyon, where an excellent article, of a suitable kind, has been found.

Montana.—The Helena Herald of Aug. 8 has the following—

The Montana brewery, on Main street, was consumed by fire Aug. 6, the roof having been ignited by the chimney of the malt-drying furnace. Loss \$1,000.

Black Eagle, one of the head Piegan chiefs, was killed at Badger Creek, July 28, by a Blackfoot Indian. Mutual indulgence in "tarantula juice" was the superinducing cause. One of Black Eagle's brothers killed the Blackfoot and another Indian who interfered. Black Eagle murdered Quail, in the fall of 1870, near Silver city, and in former years was much of a raider.

The Helena Post Office has been changed from a second to a first class money order office, and the postmasters of all the money order offices in Montana have been instructed to deposit their surplus money order funds with the postmaster of Helena.

Was he So and So?—The Governor testified yesterday that the U. S. Marshal was sober on the day of election. Now our reporter likes to endorse what the Governor swears to, when he can do it consistently with the truth. He also saw the Marshal on that day and if he was not "how came you so," then that marshal was a very sick man. There must have been something dreadful the matter with him. He had symptoms that were plainly observed by hundreds. His utterance was somewhat thick and he needed a leaning post a good

deal of the time. He was not alone, however, as some of his deputies had similar symptoms, in a more or less powerful form. But then the Governor says, under oath, that the marshal was sober, and therefore who shall say that those symptoms were the result of alcoholic potations?

A Couple of Importations.—Last night a zinc trunk, containing various articles of wearing apparel, &c., was stolen from the Colorado House. This morning a couple of policemen marched two worthies to the city jail on a charge of having committed the robbery. One gave the name of Henry Simmons and the other Andy White. These two were observed this morning, on the 8th Ward Square, by Samuel Rogers, going through the trunk, after which they struck out and wandered over a large portion of town, followed by the indefatigable Rogers, who at last found a couple of policemen whose attention he directed to the supposed thieves.

Both Simmons and White are peculiar looking "chickens," and have a remarkable "professional" air about them. They are unknown to the police, but if they remain hereabouts we should judge from their general style that an acquaintance between them and the guardians of the peace will soon be formed. They are evidently a couple of importations.

Placed Under Bonds.—Yesterday afternoon, Mr. N. V. Jones, who had been out of town for a few days, came into the city, and, learning that a warrant was out for his arrest, he voluntarily went before Commissioner Toohy and gave bonds for his appearance for examination on three different charges, the first two being the same as preferred against Chief of Police A. Burt, and Mr. Stephen W. Taylor. The first is under a Territorial statute, for alleged assaulting and beating one Belding, on election day, 3rd of August, and the second, under a United States law, for assaulting and beating with intent to kill the said Belding. He gave \$2,500 bonds in each case for his appearance tomorrow. The other charge was for alleged assaulting, on the same day, of one Whittemore, a saloon keeper. In this latter case the bonds were placed at \$3,000, to appear for examination before Commissioner Kimball.

"Gone From Our Gaze."—The leading question on the street to-day has been, "Where is Pardee?" meaning Pardee who wore spectacles and kept a boarding house at Sandy. He has flown away to other parts, but a "bird" is flying after him. Major Bird, a deputy marshal, for the friends, we mean creditors, of Pardee—their name is legion—are anxious to have him come back and stay with them a while.

Pardee and his wife left Sandy by train yesterday, after telling some of his creditors what great things he was going to do during the long years he intended to remain at his boarding house. On reaching this city he started out northward, by team and wagon, but was overhauled at Wood's Cross, by Major Bird. He met the claims of the Major, \$4,000, and was then permitted to go. On the return of the deputy marshal to the city, however, other claims against the flying Pardee were placed in his hands and he started again in pursuit of him. The duped creditors of Pardee extend over a wide area of the Territory, besides the city.

University Library.—A library in connection with the University of Deseret is being arranged, preparatory to opening, in the first floor, east room of the University building. Most of the books are already numbered and on the shelves. It will comprise something over 2,100 vols., 1,600 of which are the personal property of the Principal, Dr. J. R. Park, under whose immediate direction, and at whose suggestion the library is being got up. We believe it is under consideration by the chancellor and Board of Regents not only to have the library open for the use of students, but also to have it open free to the public. Should this conclusion be decided upon it will afford a fine opportunity to the studiously inclined who are unable to procure suitable reading with their individual means, to read upon any scientific, historical or other subject within the broad scope of the library. Besides the large number of works already alluded to on the

tables, there will be all the most suitable and latest periodical publications of the day.

Such an institution, especially if it should include an occasional lecture, by able expounders, on appropriate subjects, would probably tend to much good to some of the young men of the community.

FROM SATURDAY'S, DAILY AUG. 15.

Commissioned.—Mr. Stephen W. Taylor has received his commission as Sheriff of Salt Lake County, from the Governor, and has commenced business. His office is at the Court House, and these who would find it more convenient to do so can leave papers for him at the City Hall, with the Chief of Police.

Playing With Fire.—This morning some children were playing with matches under a wagon, which stood on the State Road, near Emigration Street. The straw was set on fire and the flames communicated to another straw pile, which was on the wagon-box, making a splendid blaze. By the exertions of some persons near by the fire was extinguished, but the wagon-box was so burned as to be rendered useless.

Evidences of Flood.—A gentleman just in from the south states that in the lower end of Tintic Valley there are strong evidences of recent floods, the sides of the mountains are torn and rutted, the ravines have an appearance as if each of them had had a river running down them, the roads are torn up in various places and rendered absolutely impassable to teams. The indications favor the conclusion that that locality has been recently visited by cloud bursts and water spouts of considerable magnitude.

The Second Excursion.—The second excursion party to Franklin, under the management of Messrs. Pike and Conrad, will leave this City on Wednesday morning, will reach the northern terminus about noon, and will leave Franklin about noon on Friday, giving two full days and nights in Cache. Olsen's band and Mr. James Currie will be along, as there will be two parties, one at Franklin and the other at Logan. Any of the excursionists desiring to do so can extend their stay in Cache to any time within two weeks on payment of one-half the ordinary single fare. Tickets can be had of Mr. Pike, at Mr. John W. Young's office.

Tickets must be secured not later than Monday.

Nearly a Fire.—Shortly after seven o'clock this morning fire was discovered in a sleeping room on the upper floor of Mr. Colebrook's building, East Temple Street, at the rear of Stout and Burmaster's office. It appears that, early this morning, the occupant of the room, Mr. Burmaster, before going out, struck a match, which he threw down, and struck another, lighted a cigar and left. The piece of match broken off the first one struck must have been on fire, and caught some bedding, for, some time afterwards, the bedding, bedstead, a chair and some other articles were discovered in a blaze. Some of the burning articles were carried out and a copious supply of water thrown on the remainder, extinguishing the flames. The fire steamer and Wasatch hand engines were both brought promptly out by the firemen, but luckily their services were not needed.

Had the fire not been discovered in its incipency a serious conflagration would have been the result. The damage done was only slight.

Another Fatal Accident.—We regret to learn of another deplorable accident, which occurred in Emigration Canyon this morning, the victim being James Allen, Jr., a young man about 17 years of age, who resided in the 20th Ward. When the accident occurred deceased was engaged in getting out rock, a huge block of which was about to roll over, and in running to get out of the way, he tripped, fell and went rolling down the mountain. After being picked up he soon recovered his senses and when being brought to town in a wagon did not, for the first few miles, appear as if his injuries were anything like fatal. When within about four or five miles of the city he asked for water and said "Oh, I believe I'm dying." He could not swallow the water, and, in a few moments he expired.

The body was taken to the house

of his parents, where an inquest was to be held on it this afternoon, by Coroner G. J. Taylor.

Deceased was a young man of industrious habits and previous to going to the canyon was employed on the Temple Block. He is son of Brother and Sister James Allen, and nephew to Bishop John Sharp.

Coroner's Verdict.—The following verdict in the suicide case, mentioned in Thursday's NEWS, was crowded out yesterday—

"Territory of Utah, }
Mill Creek Precinct, }
Salt Lake County."

"An inquisition holden at a house of John L. Blythe, in Mill Creek precinct, Salt Lake County, on the 18th day of August, A. D., 1874, before J. F. Snedaker, a Justice of the Peace, in said precinct and county, upon the body of Soren Larsen, there lying dead, by the jurors whose names are hereunto subscribed.

"The said jurors, upon their oaths do say, that the deceased came to his death by strangulation, caused by a rope being placed around his neck, and one end fastened to a beam in the house, by his own hands.

"In testimony whereof the said jurors have hereunto set their hands, the day and year aforesaid.

"SAMUEL WELLS,
"A. J. RYNEARSON,
"O. D. HENDRICKSON.

"JOHN F. SNEDAKER, Justice of the Peace."

Castor Oil.—Castor oil is one of the most general medicines in use, and it enters largely into the importations to this Territory from abroad. It has been manufactured, however to a limited extent in Southern Utah, where the bean can be raised as easily probably as in any other part of the world. Not only can the castor shrub be cultivated in the south, however, but it can be raised with probably equal facility hereabout. In fact it seems to spring up like magic.

About the beginning of last May Mr. Reed, who lives on the west part of the 20th Ward north bench, planted a few beans in his lot, in front of his residence, from which shrubs over five feet high, with finely developed beans on them, have already been produced. They are a beautiful shrub, the leaves being large and of exquisite formation. There is one very great and important drawback, however, to the general cultivation of the castor bean on ordinary lots, that being that they are poisonous, and therefore should not be grown where they would be accessible to children. It would be a good thing though if some enterprising person would enter upon the systematic cultivation, in a suitable place, of the castor, that from this product the castor oil used in the Territory might be manufactured, instead of having to send abroad for it.

In former years the castor bean was raised to some extent in this city.

Give Us A Rest.—The residents of the Fourteenth Ward were awakened this morning about 3 o'clock, by the most outrageous howling, squealing and yelling which it has fallen to the lot of most mortals to listen to. It seems that something less than forty dogs had broken into a hog pen.

"And then arose so fierce a yell
As all the fiends from heaven that fell
Had peeled the banner cry of hell."

We have not learned how many on each side were left *hors du combat*, but in the opinion of the neighbors, it is the imperative duty of the deputy county marshal to finish up the job. "Give us a rest."

More Thieving.—If John Finn is deficient in honesty he is by no means so in the matter of impudence. This morning he ordered and demolished a meal in the restaurant of H. Wagner, and when the latter asked payment for it he offered to fight him. He struck out and Mr. Wagner followed him and saw him deliberately walk into a house on Second South Street and off with a pair of blankets. He was arrested and fined \$15 for the blanket stealing and \$5 for the affair of the meal. Finn is evidently a "dead-beat."

SUSTAIN HOME MANUFACTURE by purchasing Boots and Shoes at the Workingmen's Co-op., 90 Main St., and send there for Leather, Shoe Findings and Kit.
