REVIEWS.

Just him little who praises all; him who censures all; and him least who is indifferent about all.

Ireland's potato crop is the best that has been known for very many years. The potato crop is reported a comparative failure.

It is Napoleon has drawn ten millions from his balance in the Bank of England, to defray the expenses of his wife's pilgrimage.

A letter addressed "E. S. Lowell, Boston, United States, Merryweather & Co., Inc." has reached its destination.

An Illinois householder safely received a polecat from his pantry by first chloroforming the dangerous animal.

The largest tannery in the world is at Lyons, Pa. It already has 600 vats in operation, and consumes 45,000 tons of hemlock per year.

A sweet young lady says that males are not so much from the time the ladies stop kissing them as infants, until they commence kissing them as lovers.

The cheap London Daily Telegraph employs in printing its immense edition five ten cylinder Hoe presses, which make off, when all are in full play, about 120,000 copies per hour.

The appearance of a brilliant Aurora Borealis at Norfolk, Virginia, caused the bells to ring, emptied the theatre, and brought out the fire engines.

The Irish Chasmodon informs its readers that five Irish Roman Catholic priests have, during the last month, renounced their errors of their faith, and have been received into the Episcopal Church in Dublin.

As a lady in Franklin county, Indiana, eighty-five years old, was attempting to remove a box of honey from a hive recently, she was stung near the temple by a bee and died in less than ten minutes.

Franklin Pierce was the fourteenth President of the United States. There are fourteen letters in his name, and the first letters of the Christian and surname being F and P, stand for fourteenth President.

A cautious itemizer tells what is the matter with a noted lady in the following terms: "The Princess de Metternich is to retire from society for a little while, and is buying lots of edgings, insertions, muslins and so on, which she is making up into garments too large for a doll and too small for herself."

While the Rev. John Jackson, Rector of St. Mary in Herefordshire, was preaching on Sunday, Oct. 3, a young woman, formerly cook in his family, walked to the top of the middle aisle, and, holding up a child, informed the congregation that, "It was Mr Jackson's."

The exports of grain from San Francisco to Great Britain, for the quarter ending September 30, were valued at \$33,000,000. From New York for same months ending same date the exports were \$15,515,916 bushels, at a valuation of \$23,000,000.

Capital punishment was long ago abolished in Wisconsin. This was on the score of humanity. They take murderers out of Wisconsin jails and lynch them now. This is on the score of justice.

The whole of Eastern Kentucky is reported to be overrun with horse-thieves, whose operations are on such a bold and extensive scale that hardly any citizen dares attempt to own or keep a horse.

The Prussian executioner will soon have to behead at Gorlitz a young girl of eighteen, who murdered her parents because they would not allow her to marry the man of her heart.

Dr. Lillenthal, a prominent Jewish rabbi, of Cincinnati, has been especially prominent in opposing the efforts of the Roman Catholics to exclude the Bible from the public schools of that city.

The Newburyport Herald thinks it is time for a strike in the feature business, and adds: One or two hundred dollars for an hour's talk about reform, woman's rights, female suffrage and the like, is what "Poor Richard" terms "paying dear for the whistle."

Monogram veils are now the latest wrinkle among New York fashionable young ladies. Those of fawn color and gray are most in vogue—this monogram being embroidered in colors in the center.

The annual cost of the armies of Europe at this time, as acknowledged in the financial budgets of the various governments, is \$536,000,000, in gold. The annual interest on the various war debts is \$383,000,000 more.

A few days ago a party of fishermen in the Yuba river, Cal., failing to procure trout as rapidly with the hook and line as they desired, exploded a small quantity of giant powder in the water. The result was astonishing—all the fish in the immediate vicinity of the explosion, large and small, being killed.

Dissolve a teaspoonful of alum in a quart of warm water. When cold, stir in as much flour as will give the consistency of thick cream, being particular to beat up all the lumps; stir in as much powdered rosin as will lay on a dime, and throw in half a dozen cloves to give a pleasant odor. Have on the fire a teacup of boiling water, pour the flour mixture in, stirring well all the time. In a very few minutes it will be the consistency of mush; let it cool; lay a cover on, and put in a cool place. When needed for use, take out a portion and soften it with water. Paste thus made will last twelve months. It is better than gum, as it does not gloss the paper and can be written on.—E.
