LOCAL AND OTHER MATTERS.

(SPECIAL TO DESERET NEWS.)
LADY FRANKLIN at OGDEN.—The following dispatch was received per Deseret Telegraph Line, just before going to press:

Ogden.
Lady Franklin, the widow of the late Sir John Franklin, the Arctic explorer, arrived here this morning from the West. She remains here to-day and then resumes her journey eastward. She considers her health too feeble to admit of her visiting Salt Lake.

CO-OPERATIVE EXCURSION.—By a card in to-day's paper it will be seen that the 3rd, 8th, 10th and 11th Wards have united to have a day's pleasure at Ogden and Lake Side. From present appearances, we are informed that the excursion will be a huge affair, as quite an interest is already taken in the matter. In conjunction with the attraction of the trip, the Tenth Ward brass band and Olsen's quadrille band will accompany the party. This is a splendid opportunity for all to take a pleasant trip, and they will be in good company, too.

QUORUMS AT THAT MEETING.—The owners of land in the Seventh Ward pasture met on the evening of Saturday last, according to appointment, at the 14th Ward School House, when a report was made of what had been done by the way of fencing out stock, &c. Wm. Thorne, Elias Morris and John Swenson were appointed a committee to look after the interests of the pasture and take measures to guard against any further trespass of stock. No person will hereafter be allowed to turn cattle into the pasture without the consent of the committee, to whom authority is given to decide when the field shall be opened for pasturing purposes, and persons who are found turning their cattle into the pasture or in other ways trespassing upon the rights of the land owners will be prosecuted.

GOOD FOR THE POLICE!—The police officers of this city are as watchful as men can well be, and to their vigilance in preventing the infraction of municipal laws is the unequalled morality of the town to be in a great measure ascribed. They spoiled some sport last night, for which they are deserving of credit. The town is at present infested with the presence of a *nymphe du pays*, who has been residing in Montana for several years past, but who was formerly known here. She owns a dwelling in the Twelfth Ward of this city, in which her former husband rents a room when the lady is "to hum," and probably takes care of the premises when she is away, which is most of the time.

Last night she had a male visitor, a transient, and, as luck would have it, they were disturbed just after retiring for the night, by the police, and were hauled to the station house. The gentleman stated that he had paid his entertainer \$20 for his night's lodging, and he did not think it quite a fair thing to be served so badly. Notwithstanding his representations, he was politely requested by the "Doctor" to deposit \$200 for his appearance at trial this morning. If he preferred liberty to criminal accommodation in the City prison. He chose the former, deposited the money and left. The lady was tried there and then, by her own request, was fined \$100 and her house declared by the Court a nuisance and ordered abated; a writ of abatement was issued and was acted upon immediately. The gentleman did not put in an appearance at the time set for his trial, probably preferring to part with his money to doing so. The lady admitted to the police that she has carried on her present calling for five years. (She will not be likely to attempt it five days in this city. She is known, and her present venture having proved so advantageous to the last debit side of her profit and loss account, she will not be very likely to try it again.) The vigilance of the police and the justice of the Court are highly commendable, and the best of it is that they never sleep.

The lady's sense of justice has not been blunted by her disreputable course, for on reaching the station last night, she returned her male friend his \$20.

EXCURSIONS TO OMAHA.—Families wishing to visit the East on business or pleasure can now do so at greatly reduced rates. Mr. T. W. Cook, general agent of the U. P. R. R. at Ogden, is prepared to make arrangements with parties of ten or more to take them the round trip from Ogden to Omaha and return at \$108 a head. This is a considerable reduction, as the full fare would be \$154.80. Reduced fares will also be received from Omaha to Chicago. The tickets issued by Mr. Cook will be good for thirty days. It is probable that connecting lines east of Omaha will make similar reductions. We are pleased to learn that the U. P. Company have taken this step. It will doubtless enable many to visit the east whose circumstances would not admit of their doing so at ordinary rates of passage.

GEOLOGICAL REPORT.—We have received from the Interior Department at Washington, the report of the survey of Colorado and New Mexico, conducted by F. V. Hayden, Esq., United States Geologist. The report includes a full account of the various geological formations of those Territories, with accompanying reports on their mining and mineral, and agricultural resources, the former by Mr. Persifer Frazer, Jr., the latter, by Mr. Cyrus Thomas. The book cannot be otherwise than valuable to all interested in the subjects upon which it treats.

WELCOME!—We are glad to welcome among our exchanges once again, that excellent literary paper the San Francisco Golden Era. It has not come to hand for several months, but this morning we received Sunday's number. We hope to see it regularly henceforth.

BORN WITH TWO HEADS.—A California exchange, of the 9th inst., says:

"A day or two ago a child was born in the suburbs of San Francisco with two heads. One of the heads was so attached to the body that, in the opinion of the attending physician, it was neither useful nor ornamental. He therefore determined to amputate it, and did so successfully. The child is still living and is doing well, better than to all interested in the subjects upon which it treats."

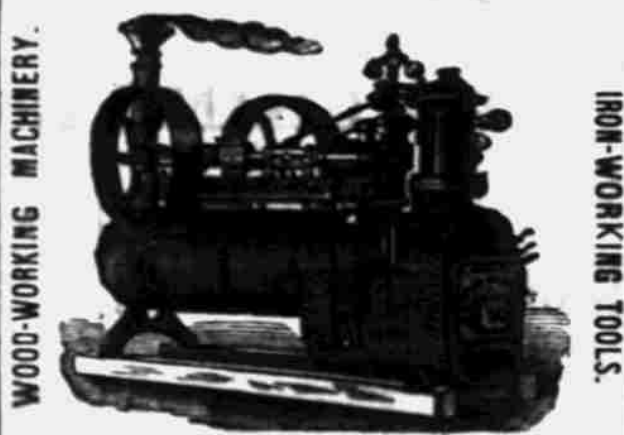

This sounds very like a conard, but the paper furnishing the item is reliable.
