Operations of the Ku Klux in Tennessee!

Further Investigation Regarding the Premature Publication of the Treaty!

A Ravisher is Tried by Citizens and Summarily Disposed of!

The Situation at Paris!

WASHINGTON.

Opposition to woman suffrage.—Trial for Bigamy.—Nominations.—Committee on Southern outrages.—The Premature publication investigation.

WASHINGTON, 17.—At ten minutes past one, Messrs. White and Ramsdell were brought into the Senate, under arrest.

Carpenter, from the select committee, offered a resolution that required the Vice President to propound a question to them as to what excuse they have for not answering certain interrogations relative to the premature publication of the treaty, and whether they were now prepared to answer all proper questions asked by the committee. Carpenter made a statement, showing the undoubted right of the Senate to make the interrogation and the impropriety of making public, matters of such vast importance. He said there were two courses, either of which they must pursue. First, the Senate must go forward and compel obedience to the rules, or confess, in the face of the world, its want of nerve, and weakness.

Fenton offered a substitute for the pending resolution, putting the question to be propounded as follows: Did you receive a copy of the treaty either from a Senator, or clerk, or secretary of a Senator, or any officer or employee of the Senate, or any member of his family? This, Mr. Fenton said, was as far as they ought to go.

Wilson supported the motion, speaking in favor of a free press, and saying this proposition would vindicate the Senate, and then they might stop.

Morton took similar ground. Thurman said if anybody was responsible for the publication of what purported to be the treaty, it was the managing editor of the paper in which it appeared. He should vote for Mr. Fenton's substitute, though he did not believe it logically correct.

Carpenter opposed the substitute.

Sixteen of the twenty-one members of the select committee on Ku Klux outrages, met this morning, Senator Scott in the chair. The absent were two senators and three Representatives. The sub-committee appointed, in compliance with the resolution of the joint committee, to inquire into the condition of the late insurrectionary Southern States, as far as regards the execution of the laws and the safety of the lives and property of citizens of the United States, and to prepare a plan of proceedings for the discharge of the duties imposed upon said high committee, presented the following resolution and recommended its adoption: Resolved, that for the present, a sub-committee of seven members be appointed to proceed at once with the investigation, and until otherwise ordered to continue the same in Washington, with power to dissolve the committee when in their management it might be expedient to do so. A meeting will take place to-morrow, when the proposed resolution will be acted upon.

Mrs. Sherman, wife of General Sherman, Mrs. Dahlgren, Mrs. Cathrine E. Beecher, and other ladies of prominence, are industriously engaged, through the proper channel, in procuring signatures to a petition to Congress, protesting against an extension of the suffrage to women. In furtherance of their object, a monthly periodical sustained by these women, is published at Baltimore under their auspices.

The trial of the second bigamy case of Hon. A. C. Bowen, contestant in Congress from South Carolina, is set for Tuesday next.

A bill has been introduced in the House of Delegates of the Territory of Columbia, to extend to females the right to vote and hold offices.

The President has nominated Robt. Milroy, U. S. Marshal for Wyoming Territory; C. S. Stanton, son of the late Edward M. Stanton, Secretary of the Territory of Columbia. Col. Thos. G. Pitchers is detailed Governor of the Soldiers' Home, Col. Lee returning to his former position of deputy Governor, vice Col. Rodenbagh, relieved at his own request.

NEW YORK.

Captain Hall's expedition—Mace and Coburn.

BINGHAMTON, 17.—Ruloff rose at three o'clock this morning in apparently good spirits, and has not shown the least signs of breaking down. He has not paid the least attention to religious matters, but occasionally indulges in violent and profane language, abusive of Governor Hoffman and others, for cutting him off before the completion of his work. He has by this conduct forfeited what little public sympathy and respect he yet retained, and not a word is now heard in his favor. The gallows will be put in place this afternoon, and the execution will take place in the yard of the jail at noon to-morrow. As the enclosure is small the place will not admit more than seventy spectators.

NEW YORK.—The statements about the sales of the Erie road are contradicted to-day, by the managers and company. They pronounce the whole report as entirely without foundation, and add that not only have no offers for the purchase of the road been made, but none would be for a moment entertained.

Captain Hall's arctic expedition is expected to sail in two weeks.

Government has withdrawn from the prosecution of Major Alfred A. Belknap, indicted with Judge Fullerton, under Collector Bailey's regime for conspiracy to defraud the revenue, Belknap is either dead or dying of an incurable disease in a foreign country.

Judge Ledwith concluded the Blood-Claflin examination this p.m., reserving decision.

Jay Gould testified in the Erie investigation, before Commissioner White, to-day, that he owned the second of the three convertible bonds of a million dollars, recently issued. He also said he had advanced the company money almost every day, and that it was largely in his debt. The case was adjourned to Thursday week.

The Associated Press of the State of New York to-day adopted a resolution that the detention of the messages of the New York Associated Press in the London cable office, whereby important commercial and general dispatches were delayed from one to seventeen hours, after dispatches filed at a later hour than those addressed to the New York Associated Press were received, is not only a violation of law and equity, but deserves the forfeiture of the charter of the company.

The *Tribune* has a long account from Columbus, S. C., giving details of an attempt of the Ku Klux to kill the Republican county officers, all of whom, however, saved themselves by flight or secreting themselves. The sheriff subsequently arrested the supposed leader of the gang, and he will be tried under the recent Ku Klux law of Congress.

The *Herald's* special dispatch from Shelby, North Carolina, says the arrested Ku Klux appeared before Commissioner Moore, yesterday, together with eighteen others, whose names were included in the warrant, and who voluntarily appeared, not having been arrested. The complaining witnesses were not present, alleging fear of their lives if they attended. The story is discredited and the commissioner has ordered the witnesses to be arrested and brought to Shelby to-day. The prisoners seem anxious to have the trial.

A special from Elmira, N. Y., says the country is in a frenzy of excitement over the approaching fate of Ruloff. Over a thousand applications have been made to the sheriff to witness the execution, while, under the law, only twelve persons are permitted to be present. All the attempts of the counsel to secure a commutation or respite have failed. Governor Hoffman telegraphed them last evening that he had decided not to interfere. That seals Ruloff's fate. Preparations for the execution are progressing rapidly.

Coburn and friends met at the *Clipper* office to-day with a view to arranging an early meeting with Mace at some other place than Kansas City. Neither Mace nor any of his friends were present, except Harry Hill, who showed a letter from some Virginia officials, guaranteeing an uninterrupted fight there. Coburn put in a claim for the stakes.

OHIO.

Robbery.

COLUMBUS.—The office of Adams' Express here was entered at 2 a. m. Two men sleeping in the office were drugged, and the safes robbed of forty or fifty thousand dollars in currency. There is no clue to the thieves.

MAINE.

Drowned.

ROCKLAND, 17.—A boat containing Captain Reilly Brown, his brother and two children, crossing from South Thomaston to Sheep Island, on Monday was capsized and Captain Brown was drowned. His brother swam ashore with the two children.

TENNESSEE.

The Ku Klux.

MEMPHIS, 17.—Forty masked men entered Pontotoc last Friday night, for the purpose of driving off Col. Moorhead, editor of the radical paper, who had been warned to leave. They fired on a party of citizens who met them and inquired their purpose, when the citizens returned the fire, dropping one of the masked, and the others fled. The wounded man proved to be a young man who lived near. He persistently refused to divulge the names of his comrades and soon died. Next morning a number of persons were found to have left the country.

The crop reports are still more gloomy: Owing to the continued rains and cool weather, the caterpillars and vermin the young cotton is destroyed and many planters are without means to replant.

ILLINOIS.

Severe storm.

CHICAGO, 17.—A severe storm of wind and rain passed over the southern suburbs of the city yesterday evening. Several buildings were blown down. One woman was killed by the falling timbers, and several men were injured.

The exercise of the graduating class of the Baptist Theological Seminary took place in the First Baptist Church last night. Among the graduates to E. K. Chandler, of McMinnville, Oregon.

Mrs. Lincoln and Tad arrived here last night.

PENNSYLVANIA.

Struck with paralysis.

HARRISBURG, 17.—Mrs. Burnside, one of the daughters of Senator Cameron, was struck with paralysis this morning, and is not expected to live.

CALIFORNIA.

Summary justice dealt out to a ravisher.

SAN FRANCISCO, 17.—Passengers by the steamer *Pelican*, from Eureka and Umpqua, report a frightful affair, occurring at that port on the trip up to Eureka. There was on board a family from Indiana, consisting of a father, mother and four children, the youngest a girl of eleven, was sick. On the night before the arrival of the steamer at Umpqua, the steward, a Malay, who is married to a white woman of this city, entered the sick girl's room, drugged and ravished her. On the child's recovery it seems she identified Smith as the perpetrator of the outrage, but he denied, saying he had only entered her room to close the windows. He was tied, and on the arrival at Umpqua, the citizens assembled, tried him and sentenced him to death. He was then placed in a boat, and a man, selected by lot, rowed him up the river out of sight. A pistol shot was then heard, and the citizen returned alone. Smith had been a very quiet man, and generally bore a good character, but there is no doubt of his guilt.

The weather is cool and clear, with the wind fresh from the north-west.

The first regiment, Colonel Barnes, went over to Alameda this morning, presenting a fine appearance. They will be reviewed by the Governor at 4 p.m.

FOREIGN NEWS.

GREAT BRITAIN.

Parliamentary—Papers suppressed.

LONDON.—In the Commons, this morning, O'Connor, member from Roscommon, submitted a motion that it is expedient to continue in force the act for the preservation of peace in Ireland, after the date originally fixed as limitation. Hander, member for Oxford University, and Forteaque, member for Louth, in consideration of continual lawlessness in Ireland, opposed the motion. John Martin, member for Meath, spoke in denunciation of English tyranny in Ireland, and claimed the right of self government for the people of Ireland.

In the House of Lords a bill making drafts and notes maturing on holidays and Sunday payable on the following day, was read twice.

LONDON, 17.—The Parisians hold Montrouge. Vanvres is unoccupied.

There has been a cold snow storm in Scotland and the north of England. It is thought the crops are hurt.

Cluseret advises barricades in the Place Etoile, Place Rome, and Place Eglau, with a second line of defensive works from the Passy gate and Grenelle bridge, and a third line from Porte Concord to the Sevres gate.

The *Standard's* special says the Versaillists will carry the city to-night. The Communists are fleeing.

An American bark sunk a French fisherman in the Channel. Twelve of the latter's crew are lost.

LONDON, 17.—The *Siecle, National Avenir, National Journal of Paris, Courier* and *Discussion* have been suppressed.

The *Daily News'* special says an important minority of the Commune, protest against the existing committee of safety.

The *Standard* special says it is reported Montrouge is taken. The Republicans presented to the Assembly, on Wednesday, a motion, appointing Thiers President for two years. Disturbance is expected.

FRANCE.

The Column Vendome destroyed.

PARIS.—The Commune announces the repulse of several attacks of the Versailles forces on Monday night at Chatillon, Mankin, Picel and Loudin Sacquet. There was a vigorous engagement in the evening extending from Porte Dauphine to the Maillot Gate, in which the Versailles troops were repulsed with great loss. The Commune holds a well armed reserve of 20,000 men in reserve, for a case of emergency. Immense crowds gathered to-day in the vicinity to witness the expected fall of the column in the place Vendome. Great efforts have been made by the Communists engineers to tear the column from its base, but it has withstood their utmost exertions. The engineers have not, however, given up hope of success, and are renewing attempts. The members of the Commune and a battalion of national guards are on the ground.

The Versailles Assembly, to-day, voted an urgency motion for rebuilding a residence for Thiers in Paris, at the public expense. A motion declaring the republic permanent was referred to a committee. Prayers are ordered in all the churches for the cessation of the civil war. Grevy was re-elected President of the Assembly.

VERSAILLES, 17.—The parallels are a hundred metres from the ramparts. The insurgents' fire greatly disturbs the troops. As many as thirty were killed in one night.

PARIS, 17.—The Place Vendome, three miles square, is henceforth known as the Place International. The Safety Committee and associates, civil commissioners and the generals have agreed to prevent a dictatorship by Dombrowski.

Trains leaving Paris are examined. Petroleum owners are ordered to report to the Communes.

PARIS, Tuesday eve.—The column in the Place Vendome was levelled at 6 o'clock this evening. It fell lengthwise into the Rue de la Paix.

SPAIN.

Louis Blanc coming to America.

MADRID, 16.—Moret has presented the budget, which is favorably received. Louis Blanc goes to America after the Assembly closes.

FOUND.—A Carriage Cushion. Owner can get it at this office. d151 2

First Premium Awarded by American Institute, Nov. 5th, 1870.

The Great Improvement in

ROOFING

ASBESTOS ROOFING

This Improved Roofing Material is entirely different from any other, and is THE TIMES in Roofing. It is a combination of Asbestos and Gum Elastic, and can be readily applied by any one. It is the only Roofing that received a Medal at the American Institute, Exhibition of 1870.

This Improved Roofing "is strong and flexible, unaffected by the sun's heat, practically fire-proof and water-proof, and is really an article of the first order of merit."

HORACE GREELEY, President,
Kasi GEO. PETTON, Recording Sec.,
SAM'L D. TILLMAN, Corresponding Sec.
From Report of American Institute Farmers' Club, Dec. 6, 1870.

"This material constitutes one of unusual merit, much superior to any of the class previously brought to their notice, and worthy of trial by those who desire a durable, easily applied, comparatively inexpensive and safe roofing. The Committee having, in addition to the above, used it themselves for it, (that of being proof against fire)."

GEO. B. DURAN, Agricultural Editor
Signed, JAMES A. WHITNEY, Editor American Artisan.

And Manufacturer of

ASBESTOS ROOF COATING!

A fibrous water-proof material, which forms an elastic felt-like covering of any desired thickness. It can be applied with a brush, and is invaluable for restoring and preserving old shingle, tin and felt roofs.

ASBESTOS CEMENT, for repairing leaks of all kinds on roofs.

Roofing and Sheathing Felt, Building and Lining Paper, etc.
