IMPORTANT DECISION.
In the case of Gillet's Double Extracts and Cream Tartar Baking Powder vs. the six samples flavoring extracts and five samples baking powder tested, verdict for the former, viz: Gillet's Double Extracts three to five times stronger, Gillet's Baking Powder gave off 30 per cent. more carbonic acid gas than any of the others. Then why buy the cheap adulterated trash? 22

For all the better opposition of salacious rivals, no better illustration could be had of this fact than the immense sale already attained by the great Throat and Lung Remedy, Dr. Ang. Kalsers German Elixir. For the cure of Coughs and Bronchial Affections, it is truly wonderful, even those suffering from Consumption in advanced stages find great relief, and numbers of patients have found, to their delight, not only relief but cure. It being perfectly harmless, makes it at once popular with mothers, who of all others have felt the necessity of such a medicine. The genuine bears the Prussian Coat of Arms, the fac-simile signature of Dr. Ang. Kalsers, and has his name blown on every 75 cent bottle. A trial size may be had for 25 cents.

In the Whole History of Medicine No preparation has ever performed such marvelous cures, or maintained so wide a reputation as *ATYR'S CHERRY PECTORAL*, which is recognized as the world's remedy for all diseases of the throat and lungs. Its long-continued series of wonderful cures in all climates has made it universally known as a safe and reliable agent to employ. Against malignant colds, which are the forerunners of more serious disorders, it acts speedily and surely, always relieving suffering, and often saving life. The protection it affords, by its timely use in the throat and lung disorders of children, makes it an invaluable remedy to be kept always on hand in every home. No person can afford to be without it, and those who have once used it, never will. From their knowledge of its composition and effects, Physicians use the *CHERRY PECTORAL* extensively in their practice, and Clergymen recommend it. It is absolutely certain in its remedial effects, and will always cure where cures are possible.

Money! Money! Money!

MR. CAMERON of the New York House buys and sells for cash, and is therefore head and shoulders above others for cheapness. His stock is choice and elegant, and offers immense bargains in Dry Goods, Fancy Goods, Jewelry, Notions, Ladies and Gents' underwear, Hosiery, Gloves, etc., etc.

When we reflect that a power of endurance can be imparted to the brain, and that weak minds have been restored to strength by *Fellow's Compound Syrup of Hypophosphites*, we cannot but conclude that the subtle power is really a ponderable matter. Persons who study hard should preserve their balance of power by using the Syrup.

BLEMISHES upon the feminine countenance, if of a complexional nature, speedily vanish when *GLEN'S SULPHUR BATH* is used to obliterate them. Pimples, blotches, moths patches, roughness, redness, tan and freckles are invariably banished by this incomparable clarifying agent. Eruptive ailments, sores, cuts, bruises, scalds, and other affections and injuries of the skin are likewise removed by Sulphur Baths have long been renowned as the best remedy for skin diseases, rheumatism, and gout. *GLEN'S SULPHUR BATH* is in every respect as efficacious, and far cheaper. By opening the pores, and promoting a vigorous superficial circulation, this excellent article contributes to the health of the entire system as well as to that of the cuticle. Since its introduction to public notice it has repeatedly been commended by the medical profession and press, and few external specifics have won such "golden opinions" among all classes. It prevents obnoxious diseases as well as remedies them, and disinfects clothing and linen impregnated with disease. Dandruff is entirely eradicated by it, and its use, in that respect, greatly to be desired by persons whose hair is thinning out in consequence of dryness of the scalp. Those who have used ointments and liquids without avail for the cure of eruptions of an obstinate character, will find, if they try it, that *GLEN'S SULPHUR BATH* removes the complaints irremediably by less efficacious means, and prevents the recurrence of such disorders. For bleaching fine articles of needlework and all kinds of white woolen, cotton and linen fabrics this soap is superior to any article that can be used for the purpose.

Sold by Druggists. Price 25c. per cake. 1 Box (3 cakes) 75c. sent by mail, prepaid, on receipt of price. C. N. Crittenton, Prop'r, 7 Sixth Avenue, New York.

UNIVERSITY OF DESERTS.—The first term of the Academic Year 1879-80, will begin Monday, August 18th inst.
JOHN R. PARK,
President.

EVENING NEWS.

Monday, August 11, 1879.

LOCAL AND OTHER MATTERS.
Thermometer.—Up to 96 deg. F. in the shade to-day at 2 p. m.

French Opera House.—Almeida and her operatic company make their opening appearance at the Theatre Friday evening.

From the Mines.—Professor J. B. Toronto has just returned from his visit to Little Cottonwood, loaded down with specimens and brim full of health and good nature.

New Show Window.—Our friend Connelly, of the Deseret Bakery, is having a large plate glass show window put in the front of his establishment.

Gone on a Visit.—Justice Pyper has gone into the country for a short time. While he is away Alderman Raleigh will hold the sword and balance in the temple of justice.

Self-Denial.—According to the *Dispatch*, some of Ogden's wags are possessed largely of this attribute. A number of them, by feeding themselves the other day by feeding some pigs upon lager beer, just to see how they would act. It seems entirely unnecessary to have done this. Why didn't they drink the beer themselves?

The Best Half.—We are informed that half of the new brick building on Main Street, which we have hitherto denominated the Dinwoodie Building is the property of our old friend and fellow-citizen who Alfred Best, Esq., has been considerably amused of late at our persistent error in relation thereto. We cheerfully make the correction, and hope Mr. Dinwoodie will take no exceptions if we add that the Best half of the building is the north part.

Tabernacle Meeting.—At the meeting yesterday afternoon the first speaker was Elder Moses Thabaker, who began by reading the latter part of the second chapter of Daniel, which referred to the image the king had seen in his dream, and the establishment of the kingdom of God upon the earth in the latter days. To show that the image of the image represented the kingdoms of to-day, and that the stone cut from the mountain without hands, referred to the advent of the gospel in this age rather than the age in which the Savior lived, as was claimed by some, he read from the 17th chapter of Revelations, where the setting up of these same kingdoms of the world was again predicted long after Christ had come and gone. He then enlarged upon his subject, and closed by referring to the persecutions endured by the Saints in building up the kingdom in these latter times.

Elder Joseph F. Smith addressed the other arguments to sustain the position of the previous speaker, the principal one being that the kingdom set up by the Savior had been taken from the earth, while the one predicted by Daniel's prophecy referred to something later than the first advent of the Messiah. The speaker then took up the subject of the Saints' persecutions and dwelt upon it to some length. They had borne much in patience, had "turned the other cheek" for 50 years, and he thought the time was near at hand when patience would cease to be a virtue.

Kicked by a Horse.—Our correspondent "Arctic" writing from Charleston, Wasatch County, under date of the 6th inst., gives an account of a severe mishap sustained by Brother Edward Buys, of that place, on the 30th ult. He and a young man named Tohnan were hitching up a team, the latter putting up the back yoke while the former went behind to hitch the traces. While there, one of the animals threw up his heels and kicked him twice, once on the thigh and again in the breast, knocking him back against the end gate of the wagon. Fortunately the second blow was delivered upon the strong part of the chest, and being a stout, muscular man, the injuries sustained were slight to what they might have been. His situation was considered very critical at first, but he is now out of danger, though the effects of the accident may be lasting. The general health of the settlement was good. Harvesting was going ahead busily. Heber City had four cases of diphtheria, but none had appeared in Charleston, as yet.

Further Particulars.—We are indebted to Justice Isaac Harrison, of Sandy, for the following particulars of the fatal accident which occurred at West Jordan on the 7th inst., by which a young boy met his death while leading a horse to water. The lad's name was John Worthington, aged nine years, a son of Samuel Worthington, of Payson. He was living with his grandparents at Sandy, and on the day of the accident had gone with his uncle to the farm on Jordan, near the mouth of Dry Creek. While leading a colt to water, it became frightened and ran away. The boy's arm getting entangled in the rope, he was dragged about 15 rods, when the colt jumped a fence, and the unfortunate little fellow's neck was broken by the collision. He lived about half an hour after being picked up by his uncle. An inquest held on the body resulted in a verdict according to the facts given.

Museum.—Some fine crystals of oxide of lead (litharge), from the Germania works have been presented by F. M. Bishop, Esq., of the firm of Bishop & Crimmon, assayers of this city. Specimens of marble have been presented by the Wasatch Marble Company; also a specimen of brass made by Mr. James, of Tooele City, from minerals of Utah. The original documents relating to charges preferred against two of our missionaries for preaching the gospel in Sweden, with the judgment thereon, dated May 5th, 1879, have been presented by Brother John A. Quist of Big Cottonwood. These documents will be translated by the editor of the *Biblical*, and deposited with the official documents in the Deseret Museum.

Deseret Paper Mill.—The work of putting in the new steam engine and boiler is progressing rapidly. The mill will be running the latter part of this week. Heretofore the machinery has been run by water power, and drouth in summer and freezing in winter have operated alternately to much disadvantage. The introduction of steam will obviate all this trouble, and greatly increase the working facilities of the establishment.

Haverly's Minstrel's.—Lovers of fun, novelty and music will not fail to attend the Theatre to-morrow evening, to see the biggest minstrel show now travelling. Haverly always gives us a first rate entertainment; but this time he proposes to surprise us with something entirely new and unprecedented. Read the advertisement and see for yourself, and then secure tickets at once, as there will no doubt be a rush for seats.

The Best Half.—We are informed that half of the new brick building on Main Street, which we have hitherto denominated the Dinwoodie Building is the property of our old friend and fellow-citizen who Alfred Best, Esq., has been considerably amused of late at our persistent error in relation thereto. We cheerfully make the correction, and hope Mr. Dinwoodie will take no exceptions if we add that the Best half of the building is the north part.

Zion's Musical Society.—A full attendance of the directors is desired this evening. The members of the Union Glee Club are also requested to meet at the Social Hall at 9 p. m.

Police Court.—The hearing on a water dispute came up this morning, and was continued until tomorrow. We were not aware that there was enough water left to quarrel over.

New Academic Year.—A special in another place informs the public that the Deseret University will begin the first term of the academic year 1879-80, on Monday, August 18th.

Our Latest Grievance.—We wish winter were here, if for no other reason than to quell the vicious practice our athletic "comps" indulge in, of assembling under our window during dinner hour, while we are endeavoring to hook up local levitations, and battering away at the big wooden gate with a base ball. If short stop is not put to this furious cannonading, we shall be sorely tempted to strike out and make a home run.

Base Ball.—Haverly's minstrels, who perform here to-morrow night, have a crack base ball nine with them, and last Saturday evening telegraphed the Deserets for a game here. The offer was promptly accepted, and at the usual hour to-morrow afternoon, the game will be played. This will indeed be a novelty in base ball here, as the eight and men, said to be the finest in the world, will entertain the crowd with something besides fous, strikes, runs and outs.

A San Francisco dispatch to-day states that on Saturday last the Knickerbockers of California defeated the Omahas, who recently played here, the score being 3 to 0.

"Dispatch" Items.—On Friday, an Ogden tramp stole a \$14 pair of pants out of a tailor shop, while the knight of the shears had his back turned, and made away with them.

Governor Brayman, of Idaho, and Gen. McNell, of St. Louis, were in Ogden Saturday.

Charles Webster, a nine year old boy, son of a stage driver of Selmon Falls, on Sunday the 2d inst., ran away from the Catholic school in Ogden, and reached home safe on Friday last, having walked from Ogden to Bonneville, boarded an emigrant train to Kelton, and taken stage from there home.

Cassia County, Idaho, is all aglow over her new coal discoveries.

Ogden is agitated over the water question. To secure a larger supply, pipes will be laid from the spring in Taylor's Cañon down to the city.

Preaching in Prison.—Yesterday afternoon, divine service was held in the Utah Penitentiary. The inmates of the place having expressed an earnest desire to hear from Elder George Q. Cannon, it was communicated to the latter by the warden, General Butler, and the request cheerfully acceded to, the hour of 3 p. m. being set for the opening of the meeting. The prisoners went to work, sprinkled the ground well, and arranged rows of seats under the shadow of the high wall on the west for the accommodation of those who should assemble. The Warden kindly consented, not only to the choir of the Sugar House Ward being invited to furnish the music, but also admitted others who came with them to attend the services, and quite a good sized congregation listened with much attention to the discourse of Elder Cannon. Numbers of the prisoners, afterwards, expressed their delight and satisfaction with the instructions given.

TWO OR MORE SURGEONS.
From the National Surgical Institute will be at the Townsman House, Salt Lake City, on the 12th and 13th of August, 1879. Persons afflicted with spinal curvature, hip disease, crooked limbs, club-foot, diseased joints, piles, fistula, or any other bodily deformity should not fail to consult these surgeons while here. The institution which they represent stands unrivaled in the treatment of these diseases.
