

## SALT LAKE CITY SCHOOLS.

The exercises in all the schools this week have been reported to be excellent.

The program at the Union school was rendered last Thursday. Supt. Christensen addressed the graduates on the necessity of taking an introspective view to determine of what material they were made mentally, and to study their own inclinations. By this course, the speaker said, more success would attend the efforts of the boys and girls. Prof. Eaton of the High school then spoke on matters relative to the higher education. Principal Wallace remarked that our national lights of today are college-bred; he expressed the hope that the stage reached by the product would prove to be but a preparatory one for further progress along educational lines.

Principal Eaton addressed the graduating class of the Grant school Thursday last.

General handshaking between teachers and students was the order of the day yesterday.

Miss Rita Kahn of the High school has gone to California.

Several graduates from the High school are preparing for matriculation in colleges, in different parts of the United States.

Mr. Gillman visited the Ogden school this week and attended the High school commencement exercises.

Supt. Christensen was a visitor at the High school Thursday.

Examinations will be held this week for city teachers in the city and county buildings.

No effort was spared to make the commencement exercises of the High school a success. A delightful time was enjoyed.

No exercises were held in the Assembly hall last Wednesday evening, as the building could not be secured. For this reason, separate exercises were held by the respective schools.

According to plans the new Eighteenth ward school will be provided with an auditorium, which will have a seating capacity of 600.

Principal W. S. Wallace entertained his corps of teachers to a delightful luncheon Thursday afternoon.

Mrs. Jennings of the High school left Friday for Paris.

Miss Armstrong leaves Wednesday for the coast.

German courses are offered by Mr. Rees of the High school at that building during the summer.

Teachers occupied the stalls at the High school commencement exercises.

Miss Goddard of the High school has secured leave of absence till beginning of the second semester of the coming school year. The lady will travel in Germany.

## L. D. S. UNIVERSITY.

The new catalogue is in press and will be issued in a very short time. It will be larger and more complete than any heretofore published by the university, being commensurate with the growth of the institution.

Daily faculty meetings were held the latter part of this week in order to settle all the odds and ends of business before the members of the faculty leave the city for their summer vacations.

Instructor J. Percy Goddard has resigned and will attend the U. of U. next year, taking such work as will enable him to enter an eastern university the next year.

Miss Susie Heath, for several years instructor in shorthand in the L. D. S. business college, and on account of her genial, merry disposition, very popular, both with the students and teachers, has resigned her position to accept that of book-keeper for the Dayner Music Co. She held this position for some time before coming to the L. D. S. U.

Professor Porter will spend his summer vacation rusticating in Heber canyon, where he will have unbounded opportunities for the practical study of zoology and botany.

Instructor C. Larsen will spend his summer out on the farm near Logan, preparing for Harvard. He intends to study especially English, and modern languages. He leaves for Harvard in September.

Last Monday evening the second year students and other members of Prof. Peterson's theology class, gave him a social at the home of Miss Vera South. The evening was very pleasant, spent in playing games, and in doing full justice to a very dainty and delicious luncheon. Presents were made and several students as well as Bro. Peterson responded happily to sentiments by making short speeches.

The chorus to the original school song, "The White Rose," contained these appropriate words:

"When to these scenes our thoughts will return,  
Silent in sorrow will dreaming hearts yearn;  
Place of dear friends, each tongue and each pen  
Is voicing the wish, we shall meet here again."

The last stanza of Prof. Kent's solo to the air of "Violeta," was as follows:

"Yet man we, within some future fair,  
Meet again, the Lord our light!  
When we pass in all our lessons here,  
In higher schools to reunite;  
And recall what hath been spoken  
By the Prophet of our days,  
Ah! This great truth cannot be broken—  
What we learn is ours always."

In the L. D. S. business college, the following instructors will be employed during the summer term: D. J. McKee and Francis Mortensen, short-hand, Pitman system; R. Leo Bird, Le Roi C. Snow and Wm. J. Flowers, book-keeping, cabinet system; Philip S. Maycock, law; Willard F. Funk, typewriting and telegraphy.

Professor Whitson who will enter Harvard in the fall, will be employed during the summer by the state experiment station. He will visit the various experimental farms throughout the state, especially in southern Utah, conduct experiments, collect samples, make tests and analyses and report progress of the work to the head station.

L. D. S. U. Field day at Saltair Wednesday, June 3, was a signal success. Hundreds of people spent part of the afternoon and evening enjoying the pure, cool breezes and watching various sports. The feature of the afternoon was a game of basketball in which the Commercial played against the other departments. The final score being 15 to 14 in favor of the Commercial team, which, by the way, includes four of the champions.

Professor Peterson will leave for Chicago within a few days to attend the university summer school. He will remain all summer and will take special work along educational lines, the

history and philosophy of education, pedagogy, methods, etc.

Last Thursday Mrs. Kelly was very agreeably surprised by her students. When she came to her class room in the Lion house, she found everything in readiness for a pleasant social hour. Strawberries and cream and ice cream and cake were served by the young ladies and an enjoyable time was spent. The class adjourned for the summer.

It has not been generally known that Miss Ardelia Litterer, our teacher of elocution and physical culture, has conducted an evening class in physical culture for ladies. The club has met in the L. D. S. U. gymnasium every Wednesday evening, during the winter and spring months. All the class of 15, including Miss Litterer, entertained course Miss Litterer and the class at her home on April East. Dainty refreshments were served and the evening was spent in playing games. The members of the class presented the teachers with a very beautiful ring, two opals set with pearls.

Professor J. H. Evans will be hard at work all summer composing and arranging the material for his new book, "A History of the Church of Jesus Christ of Latter-day Saints." Bro. Evans, who has been very successful as a teacher of this broad subject, hopes to have this work adopted as a text book in the Church schools. It comprises his original lectures on the subject, supplemented by much additional matter, hence will meet with even greater commendation than his course given in the L. D. S. U. for several years.

## AGRICULTURAL COLLEGE.

Learn—Mrs. Goodwin, the librarian, was in Salt Lake spending Sunday as the guest of Mrs. Richards.

On Tuesday, the cadets presented Commandant Beers with a beautiful sword, as a mark of esteem.

Hon. D. H. Morris, one of the prominent Utah legislators, visited Prof. Merrill last Wednesday.

Dr. Engle starts next Wednesday for Chicago where he will be in attendance at the university for the summer, giving special research work in commercial sciences.

In the domestic arts department, about 50 commencement gowns have been finished under the supervision of Mrs. Cook.

The faculty of the agricultural department entertained the students in their various classes at Prof. Merrill's yesterday evening.

Prof. Hill left yesterday for the University of Chicago where he will study during the summer quarter with Prof. Merrill. In October he will go on to Ann Arbor for a year's post graduate work for his master's degree. He goes with the best wishes of both faculty and students, and his host of friends in the city.

The practice classes in cooking closed their work last week.

The state board of horticulture visited the college last Sunday and in company with President Kerr and Director Whitson took lunch at Prof. Merrill's.

The prospects for the summer school are excellent. Great interest is being manifested throughout the state in the courses offered and especially in those pertaining to domestic sciences and manual training. Nearly all the members of the faculty are to be retained for work in the summer session. All the work is to be done by resident members of the faculty, thereby rendering tuition charges unnecessary. The summer school lecture course is an attractive feature and will be especially helpful to teachers. The term opens June 15.

The annual commencement exercises of the college will be held from tomorrow to Tuesday. A cordial invitation is extended to all to be present at any or all of the exercises. The largest class in the history of the college will graduate. The following is the class roll: With degrees, Grace Fisher, May Maughan, Lydia Holmgren, Josephine Farnes Maughan, John Thomas Calne III, Ambrose Pond Merrill, Fred Dale Pyle, Charles Franklin Brown, Aquila Chancy Nebeker, Thomas Clark Culbert, with certificates (in shorter courses), Myrtle May Barber, Louise Thomas, Mary Selma Morrell, Melissa Jean Simons, Theresa Albina Nielsen, Lydia Stephens, Mildred Foregone, John Zacharia, Coburn, Raymond, Ralph Carlo, William Young, Dora Quayle.

The following is the program of exercises for the week:

Tuesday evening at 6:30 the alumni banquet will be served; this will be followed by a ball in the gymnasium.

The trustees will meet at 10 a. m. on Monday to open bids and award contracts for the new buildings.

The work of various students in the mechanic arts, domestic science and arts, and engineering departments will be on exhibition in the various rooms during commencement week. The ladies in the domestic arts department will be dressed in garments made by themselves.

Dr. Allen, first assistant in the office of experiment stations, Washington, visited the college last Friday and inspected the work and records of the station. At chapel, he gave a very interesting address on the work of the department and in encouragement of scientific agriculture. His wife accompanied him and spoke in especially high praise of the work in domestic science and arts.

Miss Elizabeth Church Smith, a graduate of the University of Wisconsin, an expert cataloguer has been engaged by the college and will arrive in time to begin her work July 1st, in cataloguing and classifying the books in the library.

THE BRIGHAM YOUNG MEMORIAL BUILDING.

The Brigham Young Memorial building, which was dedicated this week, to its use as a department building of the Latter-day Saints' University of this city. The first floor contains the physical and biological laboratories; the second, the memorial room, offices, and class rooms; the third, the art rooms, small lecture hall, and class rooms. The laboratories are very conveniently placed and are being suitably equipped for class work, which will be commenced this fall. The memorial room is rendered beautiful with immense colored windows and skylight of art glass, specially designed for this building. The art rooms on the third floor have north windows, and are provided with skylights. There is a stone porch on the west and an entrance on the south. The building is furnished throughout with electric chandeliers and lamps. It is composed of brick and stone in about equal proportions, is located on Main street, east of the Temple, and is one of the chief ornaments of this part of the city.

## TRICK THAT FAILED.

"Once upon a time," said an old soldier, "after a weary, dusty forenoon march, we halted to rest for an hour or two. A snug-looking farmhouse being invitingly near, a couple of my comrades went over and called for dinner. Their names were Theodore and Levi, and their united finances a 3-cent stamp and a pewter dime. Theodore said he knew a dodge that never failed, and that they would get dinner. You see, Theodore was raised in Philadelphia, and just took as naturally to cuteness as a baby does to measles. Well, the dinner was in due season cooked and

and was pronounced good.

"Now, landlord," said Theodore, pulling out his purse with the air of a millionaire, "what's the bill?" "One dollar for both of you," said the man of the house. "Very reasonable—very," remarked Theodore in a patronizing way. "I say, landlord, you couldn't change a \$20 bill?" "Well, yes, I reckon—let's see what bank it's on" was the answer. For an instant Theodore stood as though death struck, and then broke away as though the whole Southern Confederacy was after them, exclaiming: "Well, who'd suppose that a rebel could change a \$20 bill?"—Washington Star.

## INTERNATIONAL CONGRESS.

Two hundred thousand dollars has been appropriated by the Louisiana Purchase Exposition to cover the expenses of the International Congresses that will assemble in St. Louis, Sept. 19-25, 1904.

The congress of arts and sciences will have one definite task; to demonstrate the unity of knowledge, and thus bring harmony and inter-relation into the scattered scientific work of the present day. Leading scholars from all over the world will deliver lectures before the congress.

We display a variety in both Straw and Panama Hats, that is unequalled in Salt Lake, our prices are in every instance the very lowest, you can get just what you desire, a broad range of prices to select from—

50c to \$8.00.

## Brightens Lonely Homes

I am to-day enjoying perfect health, thanks to Wine of Cardui. For nearly four years I suffered from ovarian troubles. The doctor insisted on an operation as the only way to get well. I, with a sick woman is a disconcerted place at best. A friendly druggist advised him to get a bottle of Wine of Cardui for me to try, and he did so. I am indeed thankful that he did so, for I began to improve in a few days, and my recovery was very rapid. It really seems nothing short of miraculous, but within eighteen weeks I was another being and in splendid health. It seems I can never praise your medicine enough.

Orator Entre-Nous Club.

How can a home be bright and happy when the mother or wife is enduring the pangs of menstrual disorders, bearing-down pains or ovarian troubles?

Mrs. Stowe's letter shows every woman how a home is saddened by female weakness and how completely Wine of Cardui cures that weakness. She let four years go by when she could have lived them in health. She suffered the terrible agonies of ovarian troubles when Wine of Cardui would have cured her just as completely four years ago as now.

Do not go on suffering. There is nothing to gain by putting off treatment. Go to your druggist to-day and secure a \$1.00 bottle of Wine of Cardui and the health Mrs. Stowe secured will soon be yours.

In cases requiring special directions, address giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

A Serious Mistake.

E. C. DeWitt & Co. is the name of the firm who make the genuine Witch Hazel Salve. DeWitt's is the Witch Hazel Salve that heals without leaving a scar. It is a serious mistake to use any other. DeWitt's Witch Hazel Salve cures blind, bleeding, itching and protruding piles, burns, eczema, and all skin diseases. Sold by all druggists.
