NEW YORK, 29.—The *Herald*, commenting on the *Pall Mall Gazette* article on the China trade, says: While this feeling of alarm has been aroused in England lest inroads should be made upon her trade by her "most formidable competitor" in the East, our own Congressmen perceive no possibilities in a new Chinese treaty beyond a settlement of the petty question of Chinese labor, which agitates one of our Pacific States. But the paramount question with China is the question of commerce. If the compact for protecting Chinamen in the United States goes for naught, all the commercial stipulations will fall with it. This would be a fatal blow to our trade with Eastern Asia. Its greatest severity would fall on California itself, which by its proximity of position should be the grand entrepot of American trade with China. If instead of destroying, we can extend our already large commerce with that quarter of the world San Francisco will become the great mart of Asiatic trade and its chief distributing point, not only for the United States but for all the countries of South America. The future of San Francisco as a great emporium of commerce, depends on its availing itself of its incomparable local position for getting the greater share of a trade which has enriched every community which has been able to command it. The miserable petty question which has been raised by low California demagogues, respecting Chinese labor, seriously threatens not only the commercial future of San Francisco, but of America in the east.

The cost of ice to the consumer in this city will be one cent per pound hereafter, or \$22.40 per ton, although the crop in Maine has been large and shippers are delivering ice from there at \$4.50 to \$5 per ton.

The *Times* Washington special says: Representative White, of Pennsylvania, will to-morrow introduce a bill to purchase 2,000,000 stands of arms for the purpose of arming the militia of several States. The bill constitutes a board, to consist of the Secretary of War, the General of the army, two senators and three representatives, who are directed to purchase one two or three kinds of magazine guns, one of the same calibre and using the same kind of ammunition, the cost of each gun not to exceed \$18.50. If a single breach-loading gun should be selected, the maximum price is fixed at \$15. The bill provides that 500,000 stand of arms thus selected shall be made at the national armories and that the remaining 1,500,000 shall be purchased by contract from three manufacturers of firearms in the United States. It also provides that 1,000,000 of the arms shall be distributed among the militia of the several States, and that the other 1,000,000 shall be kept at the government arsenals. One half of the arms awarded to the State militia are to be distributed within the next four years. The board is also directed by the bill to purchase 1,000,000 trenching tools, the cost of which is not to exceed \$2 each. The passage of the bill would involve an expenditure of \$39,000,000, and it bears evidence of being a scheme in the interest of the manufacturers of firearms.

A member of the House committee, having the matter in charge, is authority for the statement that the resolution referred to, "providing for an investigation of the contract between the Union and Central Pacific railroads and the Pacific Mail Company," will be reported favorably to the House.

A London dispatch says: A Russian commissioner named Klavsky, who left Odessa on March 9th, is expected soon at San Francisco on the cruiser *Moscow*. The ostensible object of the journey is to arrange a line of steamers from California to the mouth of the Amoor River. The Russian fleet on the Pacific is greater numerically than the Pacific fleets of all other nations combined. It is said that Russia and America are negotiating concerning Klavsky's mission.

Judge Blatchford, in the United States Circuit Court, in the case of Philip W. Holmes, in behalf of the holders of the income coupons of the Kansas Pacific Railway Co., against the Kansas Pacific Railway Co., Union Pacific Railway Co., Benjamin W. Lewis, of St. Louis, Mo., and Jay Gould, has denied the application to restrain the payment of

the dividend declared April 1, 1880, under the late consolidation of the companies named.

NEW ORLEANS, 29.—A committee of citizens called on Governor Wiltz, Saturday, informing him of the riotous proceedings on the part of the colored laborers in St. Johns parish, and asking executive interference. The governor informed them he would dispatch Major W. A. Prong to the scene of disturbance on Sunday morning, who would read the governor's proclamation, and in case the strikers did not then cease from further unlawful demonstrations, he would send a military force immediately.

PITTSBURG, 29.—About 10 o'clock Saturday night an affray occurred in a saloon at Greensburg, Penn., which resulted in the death of a man named Chiselm. It appears that Chiselm's wife ordered Dixon, proprietor of the saloon, not to sell any liquor to her husband. Chiselm, who was somewhat intoxicated, called at the saloon and ordered drinks which were refused. He then quarreled with Dixon who knocked him down. He fell on his head, breaking his neck. His body was then taken outside and placed against the house where it was found by the sheriff. Dixon was arrested and lodged in jail this morning. He bears a bad reputation, having already served a term in prison.

SAN FRANCISCO, 29.—A Santa Rosa dispatch says: Geo. W. Roney was shot and killed by G. H. Hayes on Saturday night while attempting to enter the house of the latter. Letters purporting to come from Mrs. Hayes induced Roney to make the attempt. Roney was a leading member of the workingmen's party in Sonoma County, and was a delegate to the workingmen's State convention last summer.

A Tucson dispatch says: A number of commands have been sent from Arizona to report to General Hatch with a view to the pursuit of the Indians under Victoria. He is reported to have 200 warriors and is now east of the Rio Grande. The entire command of Gen. Hatch in the field will not exceed 700.

DES MOINES, 28.—The republican primaries to the county convention, Saturday, resulted in the election of Blaine delegates. In the city the vote was nearly four to one, the Blaine men receiving 570, the Grant men 152, Sherman two, Edmunds and Hayes one each. Blaine's support is a foregone conclusion.

NEW YORK, 30.—The *Herald*'s Washington special says: That the English should be ready to help us out of China is natural but that we should shut ourselves out at the bidding of Dennis Kearney is preposterous. It begins to be seen here by congressmen that the Chinese question cannot be settled on the San Francisco sand lots, but that the industrious farmers and miners of California and the cotton spinners of the east will have something to say about it before they suffer themselves to be shut out from the important and growing markets.

The House committee on Pacific railroads, at its meeting to-day, heard a report of the sub-committee in favor of investigating the contracts between the Union Pacific railroad and the Pacific Mail Company, and referred the report back to the sub-committee, with instructions to begin the inquiry by inviting the representatives of the leading interests involved to appear and explain those contracts. The following will be asked to appear: Jay Gould, James Keene, Mr. Hart and Messrs. Dillon and Huntington.

The *Times* Syracuse special says: Much excitement was created in local democratic circles to-day, by an attempt by Alfred Wilkenson, a prominent banker, and guardian of Tilden's interests in this part of the State, to secure all the hotels in the city and thus shut out Jno. Kelly and Tammany Hall from Syracuse on the day of the democratic State convention. Wilkenson secured all the hotels except the Vanderbilt House, whose proprietor refused to accede to Wilkenson's terms. Wilkenson declared that unless the State committee failed to secure the hotels of the city, it would call the convention for Utica.

CHARLOTTEVILLE, N. C., 30.—The holiday yesterday brought many colored people to town, and riotous fighting between them and students resulted in a number of arrests.

WASHINGTON, 30.—The Senate has ratified the French claims treaty. The exports exceed the imports for the year ending February 29th by \$212,298,963. The excess of the preceding year was \$293,762,187.

Secretary Evarts' report on the Venezuelan claims, submitted to

Congress to-day, opposes the abrogation of the Venezuelan awards and the substitution of a commission to re-examine them, because justice to Venezuela does not demand it, and justice to the injured Americans demands that we hold Venezuela to the present agreement and compel the payment as fast as the financial resources of Venezuela will permit. Congress should determine whether to undertake coercive steps or decide which award it will insist upon and which give up.

The Senate has confirmed Bret Harte as Consul at Glasgow, Henry Collarston, of Illinois, at Malaga, W. P. Mangum, of N. C., at Tien Tsin, Paul Lange, of Iowa, at Larochelle, H. A. Conant, of Michigan, at Naples; and supervisor census, A. L. Thomas, of Utah Territory. The census supervisors in the Eighth Illinois and Third Iowa districts were rejected.

The House coinage committee will report Claflin's substitute for Jones' coin and coinage bill. It provides for the recoinage of all half dollars of a weight of 192.9 grains into half dollars of 206½ grains, receivable for all dues public and private.

Wells introduced a bill in the House to-day for steamship lines between New Orleans, Havana, Jamaica, Trinidad, Para, Pernambuco and Rio Janeiro semi-monthly, for ten years, under a contract of \$25 per nautical mile, the compensation, however, not to exceed \$135,000 per annum.

Dibrell's bill shuts off the per diem of members absent, except for sickness, during the session of the House. Thurman expects to be in the Senate to-morrow. His attack of sickness was not serious.

CHICAGO, 30.—The *Inter Ocean's* Washington correspondent has interviewed Secretary Sherman respecting the published story that Hon. Joseph Medill, editor of the *Chicago Tribune*, had an interview with him in '78, and attempted to exact a promise that he would nullify the resumption act, giving that as a reason that otherwise he (Medill) would go to the wall on account of financial troubles. The secretary made to the *Inter-Ocean* correspondent a positive statement that such an interview did occur, that Medill left in a lowering passion, because the secretary refused to accede to his wishes, and immediately began a series of attacks on him (Secretary Sherman) in the *Chicago Tribune*, which have continued to the present time. This morning, Mr. Medill's paper, the *Tribune*, published an editorial denying the story in toto, suggesting that Secretary Sherman might have been mistaken in the identity of the conversation, and showing that there were many reasons why the story was false, the chief of which is the fact that the *Tribune* has been a strong consistent resumption paper throughout this administration.

Last night, the *Inter-Ocean* had another Washington special, which says Secretary Sherman laughs at the logic and reasoning of the *Tribune* editor. It is understood, says the special, that Sherman proposes to carry the war into Africa, if the *Tribune's* assaults upon him continue by bringing forward some witnesses to the interview. Some of Mr. Medill's friends claim that the topic of the interview between him and Sherman was remonetization of silver and not resumption. SAN FRANCISCO, 30.—The election is proceeding with more than usual quietness, and at this hour it looks as though the vote would be light.

At 10.30 a. m. the total vote of the city was 14,685 against 19,614 the same hour of the State election last September. This indicates a light vote, which is generally to be considered favorable to the workingmen. On the other hand it is noticeable that as compared with the same hour of the last election, heavy citizens' wards, such as the 6th, 8th and 12th, have cast a larger relative vote than the 7th, 9th, 10th and 11th, which are workingmen's strongholds. The workingmen claim that between 12 and 1 o'clock they will swell their record materially.

Astronomy vs. Gastronomy.—"Julius," said a Brooklyn gentleman to his colored servant, "Don't you enjoy the astronomical phenomena these fine evenings?" "Dunno, sah," responded the dorky; "mush melons are my favorite fruit."

The clergyman in a certain town, as the custom is, having published the banns of matrimony between two persons, was followed by the clerk's reading the hymn beginning with these words: "Deluded souls, that dream of heaven!"

The ways of railroad management are peculiar. The unjust discrimination on long roads against traffic either in freights or fares on short distances, is too well known to need comment. But we clip the following from an eastern paper to show that the system is not confined to the great western railroads: The distance between Albany and New York is 150 miles; between New York and London 3,000 miles; yet an Albany merchant recently had to pay \$20.90 on freight sent as far as New York, and for shipping the same freight to London only \$27.

Important to Wool Growers!

I take pleasure in announcing that I am making a pure "TOBACCO SHEEP DIP" from the best Kentucky Leaf, which makes an article of uniform strength and purity, without the addition of poisonous substances, and should be diluted 100 parts to one (although safe to use at any degree of strength) for dipping sheep.

This dip is convenient for use, as it only requires water to dilute it. As tobacco is so well known to wool growers who have used the same, I can only add that I have it in this convenient form for them—put up in one and five gallon tin packages, sealed tightly.

Order either of my Sheep Dips, viz: Concentrated Extract of Tobacco. Also Non-Poisonous Sheep Dip. Price per Gallon:

Tobacco Dip, \$2.75
Non-Poisonous Dip, 2.25
