AMERICAN.

WASHINGTON, 16.—Payta is the only portremsining in the possession of the Peruvian postal authorities, and all mails from the United States to Feru have been sent to by Professors Moore and Pike, and that fown. that town.

Pallero. The United States declined on the ground that a compliance would have been efficially recog-nizing the right of Chili to take possession of the Peruvian postal Railread Grants.

The committee on judiciary to day almost unanimously decided to report adverse y that section of Cobo's bill declaring the land grant of the North Pacific had been forfeited. The law governing Pacific roads, namely the Northern Pacific, Southern Pacific and Atlantic & Pacific, is d fferent from the statutes governing grants to other roads, The Northern Pacific act does not provide for the forfeit-ure of lands, but in the event of non-compliance with the provisions by the company, allows the Govern ment to take the road and further its construction in any way feasible. The committee has concluded that inasmuch as out 600 miles of the Northern Parific road remain to be Northern Pacific road remain to be completed, and as construction has been pushed vigorously and in good faith in spite of numerous obstacles, notably the failure of Jay Cook & Co., that it would be not only inequitable, but beyond the spirit of the law to forfeit the grant made to the road. Whether the same spirit will govern the committee in role will govern the committee in rela-tion to the other Pacific roads is not absolutely certain, but it is the gen-eral impression among members of the committee that the other two roads have done the best that could be accomplished under the circumstances, and that there is not good cause for forfeiture of their lands. It is expected that they will therefore recommend that the grants to all Pacific roads be allowed

to stand. Pursuing the President.

The President has never witnessed more unusual proceedings then oc-curred at the White House this morning. Senator Mitchell, of Penn-sylvania, who recently declared his intention to bolt the regularly nomi-nated republican state ticket and has been earnest the past week in denouncing the two nominations for the collectors of internal revenue in the Keystore S ate, made by the President before the convention de-President before the convention declared itself against the use of patronage for political purposes. Jackson and Hariffman are the nominees and the independents have clamored night and day for their withdrawal. This forenoon Benator Mitchell with an armful of clippings of independent newspapers called spon the President and directed his attention to the editorial and other remons trances he had received against the removal of Suilivan and Wiley the old officials, he did not advise the President what to do, but directed his attention to the row brewing in Pennsylvania and handed him the clippings. The President received them with considerable astonishment and political purposes. Jackson and Hariffman are the independent of suilivan and without the president what to do, but directed his attention to the row brewing in Pennsylvania and handed him the clippings. The President received them with considerable astonishment and political purposes. Jackson and batterior to have a sentenced to the State prison for three years. Schwab said that he could prove a ment and politely informed the Senator that he would take the matter into consideration and bowed him out. Mitchell has hoisted a black flag in earnest and he will at-tend the independent convention The Five Per Cont. Bill.

The Five Fer Cent. Bill.

The Senate to-day began consideration of the bill known as the five per cent. bill, authorizing the Secretary of the Interior to certify the amount of land located with military warrants in the different States whose acts of admission provide for the payment of five per cent. due the State under the act referred to. California was not included in the list of States embraced in the bill but an amendment will be offered and accepted giving her the benefit of the proposed law. The land located in all the States under milited. The London officials at once communicated with the Washington authorities asking an arrest and extradition of the fugitives immediately upon landing and that in compliance with that request the marshal has been sent to meet the Scythia.

Another Party Smak contracts acres. In California 811,431 acres are located, with warrants on which the five per cent. due her would smount to \$5,671,444. In Oregon, 78,182 acres were thus located, and the amount due her is \$494,331. Senator Plumb, who has charge of the birl, tays it will pass by a large majority.

Collection Districts. Sepator Farley secured the pas-age in the idenate to day of the douse bill creating two additional collection districts in California. This bill creates a new district with fumboldt as port of entry. The cill will become a law as soon as it is rigned by the President.

Three Indians from the Indian Certifory complained to Secretary feller, to-day, that Indian Commissioner Price had refused them audiance, and further, 6that Price had

the bill introduced in Congress taking away their lands and giving them to Arapahoes and Cheyennes and the only reason for this is because the son of Mr. Price was connected with the Texas Pacific Railroad Company, and that the road favors the latter Indians, having lands. Both charges are denied by

The Postmaster General is prepar ing a schedule for fast mail under the new appropriation. The plan is to have a fast train from New York to San Francisco, and another from Bosten to New Orleans.

Bonks, Revenue, Etc. Mr. Crapo expects to get a vote on the bill extending bank charters, to-morrow. It will probably be amended in one or two particulars, notably to prevent the retirement of circulation by banks and the contraction of currency without giving due notice to the government. As soon as the The bill finally went over till tomorrow.
