Fifteen hundred Prussians
 Routed by the
French!

ANOTHER ATLANTIC
 CABLE COMPANY!

Prussia said to be Negotiating
 to purchase a West India
 Island!

NEW YORK.
 News from South America—Arms for
 France—Another Atlantic cable.

NEW YORK, 26.—The *Arizona* arrived to-day from Aspinwall on the 18th. The news is generally meagre. She brings Peru dates to the 27th of October. The budget had been presented, and for the first time in the history of Peru there was a surplus in the treasury. Business was looking up, and the condition of affairs was everywhere satisfactory. There was some yellow fever at Lima. Owing to the presence of German ships at the ports of Peru, and the expected arrival of French cruisers, President Bolta had issued a neutrality proclamation. A new Italian line of steamers has been established between Buenos Ayres, Valparaiso and Callao. The cattle disease was prevalent in Chili and Peru. French cruisers had captured some German vessels near Valparaiso. Troubles with the Indians had ceased in Chili. The new mines at Caracazo are asserted to be fabulously rich and preparations were being made to work them. Bolivia was quiet. The Congress had adjourned.

The new steamship *Eric*, lying at pier No. 3, North River, for six days past, has received a large invoice of small arms and other munitions of war, intended for France. She has now on board 10,000 Enfield muzzle loading muskets; part of these were obtained from the United States Government at a public sale. She is to receive 15,000 more, and will probably clear from this port either to-day or Monday. Her crew, numbering about a hundred men, are all on board; and though they have not yet signed articles and are not sure as to their destination, they expect to reach some part of France by way of Cowes, England. The *Eric* is evidently ready for sea; her fires are banked and her supplies on board. The vessel is owned in Boston, but chartered in New York, through Vernon S. Brown, agent, at the price, for two months service, of \$120,000 in gold. The North German Consul General stated last evening that he had not heard of the *Eric's* loading with arms, and that if he had he would not have informed his government. He said he had officially reported the sailing of other vessels with arms for France, and had received instructions not to concern himself in the matter, because there was no law among the nations to prevent such sales.

The *Tribune* learns that the American Atlantic Telegraph Cable company, chartered by our State in 1866, and by Act of Congress in 1867, has been reorganized by the choice of A. F. Wilmarth, of the Atlantic and Pacific Telegraph Company, for president; and having procured from Holland and Russia the necessary concessions, which they were disappointed in not obtaining from France, they now possess all the privileges they require in either hemisphere, and expect to lay their first cable across the Atlantic during the ensuing summer, making New York its American landing. They purpose to remain wholly independent of all other Atlantic telegraph companies; but they mean to extend their line to Russia at an early day, and to be intimately connected with the telegraphic system of that country, and through that with China.

The *Tribune's* Washington special says, diplomatic circles are excited just now by a curious rumor relating to the reported efforts of the Prussian government to secure a foothold in the West Indies. It is stated that a Prussian agent visited President Bez and San Domingo some months ago, and informally offered to take the revision of our annexation scheme, purchase the territory of San Domingo, and transfer all to German control. Such a rumor reached here from Havana at the time, but was generally discredited. It is now reported that Biemarck has made a proposition through Bancroft to this government, that Prussia shall be allowed to negotiate for a coaling and naval station, either in San Domingo or some other of the West India Islands, without opposition from the United States; this government to receive the support of North Germany in the Mediterranean. The foregoing statement is given as rumor, but it is positively declared that its truth will be established. Another phase of the report is that the Germans intend attacking the French West Indian colonies, if they find our government at all inclined to listen to their acquiring such territory by transfer or conquest.

WASHINGTON.
 Incorrecit comes.
 WASHINGTON, 28.—Owing to the defects in the law for taking the census, and neglect or fraud on the part of some of the assistant marshals, returns from some States are still incomplete. Gen. Walker has long doubted the accuracy of former enumerations, especially in the South; and he is now convinced that very little dependence can be placed on the returns of 1850 and 1860, from those parts of the country. There is

great need of traveling agents to oversee the work, and by their watchfulness incite marshals and their assistants to do their work faithfully. Many valuable statistics might also have been gathered by such agents, which are now lost. The law, however, made no provision for their appointment. Whenever frauds are discovered, new enumerations have been made, and in several cases those guilty of making false returns have been arrested.

CALIFORNIA.
 SAN FRANCISCO, 26.—A vessel showing signals of distress and firing guns was observed off the point of San Pedro, fifteen miles south of the Golden Gate yesterday. It was blowing a gale at the time, and no assistance could be rendered. She is supposed to have been a French bark. A tug has gone in pursuit.
 The *Royal Arthur*, from Leith, reports a fire on September 20th. They were compelled to break cargo and throw overboard their coal to extinguish the flames.

MAINE.
 Schooner Seized.
 EASTPORT, 26.—The schooner *White Star*, of Gloucester, was seized yesterday by the Dominion government cutter, *Water Lily*, and taken to St. Johns, N. B. The crew arrived here this morning.

MISSOURI.
 Captured.
 John Armstrong and Charles Jolly, the murderers of the Lapine family, near Potosi recently, have been captured and confined in jail.

FOREIGN NEWS.

ITALY.
 Shocks of earthquake.
 FLORENCE, 26.—King Victor Emanuel has already received the congratulations of the Austrian and Prussian governments on the election of Aosta. The soldiers of the call of 1873 are to be dismissed on furlough on the first of next month.
 Sharp shocks of earthquake recently occurred at Romagsa.

GREAT BRITAIN.
 Paris said to be still confident—Prussians routed—Gortschakoff's reply.
 LONDON, 26.—A telegram varying from all other authorities, has just been given to the public here, announcing that there is subsistence in the city for two months and a half, bread for eight months, and wine and brandy for a year. The telegram says further that the French are erecting additional defenses on all sides.
 Advice from Berlin confirm the reports that the regular troops of the Paris garrison, in addition to bodies of people, came to the outposts offering to surrender, but they are always turned back.

Balloon advices from Paris, to Thursday noon, represent the situation good, the public morale satisfactory, and the besiegers silent.
 A volunteer deputation of notables, goes from Florence to meet the Spanish deputation on Monday.
 Advice from Tours state that Gambetta returned to that city on Friday. Two French battalions routed fifteen hundred Prussians, entrenched with three guns, at Demuin, pursuing them to Queneil.
 The Germans, after their repulse at Wenz and Pillasin, concentrated on Dijon. Twenty thousand Prussians occupied Bellevue on the night of the 22d, but retired on the 24th toward Nogent.
 Count Gortschakoff's reply to Earl Granville's note, was read in the Cabinet session last evening. It does not withdraw Russia's claim on the modification of the treaty of Paris; and speaks with reference to the violations of the treaty by other European powers. He meets Granville's complaint that Russia desired to repudiate without first appealing to other powers, by expressing a doubt whether such appeal would have been successful.
 The *Army and Navy Gazette*, in its issue to-day, understands that Russia has now a weapon superior to any rifle in existence.
 There was a dreadful railroad accident to the Holyhead express, on the London & North-Western railroad; no details.

CANADA.
 New Railroad.
 QUEBEC, 26.—The government of Quebec has decided to grant 3,000,000 acres of land, to aid in the construction of a railroad, along the north shore of the St. Lawrence, connecting Quebec with Montreal.

 d326 1m

RICHARD V. MORRIS,
 U.S. ASSISTANT ASSESSOR, HAS been appointed Special Agent of the Globe Mutual Life Insurance Company of New York for Utah Territory. This Company commenced business, June 1st, 1864, with a cash capital of \$100,000. All kinds of life and endowment business done, it has been surpassed by no other company of the same name on the globe. It has issued more than 25,000 policies, and its cash assets, January 1st, 1870, amounted to more than two and a quarter millions of dollars; it has already paid some representatives of deceased policy holders, \$50,000 and its Cash Dividends to Policy-holders, for 1870, amount to the sum of \$100,000. All kinds of Life and Endowment Policies are issued, and all nonforfeitable (see rate book, page 3)—Registered Policies issued, if desired, secured by the State of New York (see rate book, page 5). After two years from date of policy, an increasing annual cash dividend will be paid to each policy-holder. This dividend may be used in reduction of premium, or in the purchase of additions to the original policy, and securing a decreasing premium, or an increasing policy.
