

WHAT CONSTITUTES A DIPLOMAT

Jules Cambon Says He is Not a Man Bowing and Scraping.

HE IS AN APOSTLE OF TRUTH

Baron d'Estournelles de Constant Says Final Success of The Hague Conference is Certain.

New York, March 6.—Baron d'Estournelles de Constant, of the French embassy in London, and a delegate to the peace conference at The Hague, has addressed Columbia students on the results of the 1899 peace conference. Many prominent persons were in the audience.

"The final success of the conference," said Baron de Constant, in conclusion, "is ours, for just as pioneers in all great movements are attacked, so is the conference panned-pooled now. The United States and France have won their liberty and it is now their duty to take another step and win universal peace."

M. Jules Cambon, the French ambassador, followed Baron de Constant with a short address. "A diplomat," he said, "is not a man bowing and scraping, and constantly making compliments in the drawing room. Nor is he a man of straw, but rather an apostle of truth. The countries of Europe tried to avert the Spanish war and since they could not do that they tried to shorten it. I consider it one of the greatest misdeeds of my career that I was instrumental in helping to do so."

WILL NOT INTERFERE.

Boer Delegates Call on Secretary Hay and Then on President Roosevelt.

Later Informants Them That United States Cannot and Will Not Meddle in Struggle.

Washington, March 5.—Messrs. Wolmarans and Vessels, the Boer representatives who came to the United States from Europe for the purpose of conferring with the secretary of state, have achieved their purpose. They were received by Mr. Hay at 11 o'clock in the morning. It was distinctly understood that the Boers were to be received as private citizens and not in an official capacity.

Say, Hay talked to them freely with this understanding. The principal object of the delegates was to induce the United States government to do something to terminate the bloody struggle in South Africa.

They were not very specific as to what they wanted, and apparently could be satisfied with interference directed to a simple tender of the good offices on the part of the United States.

The secretary of state heard them attentively and promised to consider their representations and to do whatever he could to ameliorate the conditions in South Africa. But he pointed out that the president was the prime authority in such matters, and he recommended that the Boers see Mr. Roosevelt and ascertain his views.

This they agreed to do, and later in the day they were received at the White House in the same unofficial capacity. They were accompanied by Dr. Frederick Mueller of the Orange Free State and were received by President Roosevelt in about 15 minutes.

They called as citizens and not in their official capacity as Boer representatives. Mr. Roosevelt listened attentively to what they had to say and then informed them that this government cannot and will not interfere in the struggle.

A matter of complaint of the dele-

gates was the shipment of horses, mules and provisions from the United States for the British forces in South Africa.

Say, Hay went over this subject very carefully with them, citing authorities and precedents which he pointed out, concludingly established the lack of authority on the part of the general government to stop the American farmer from shipping his provisions and the stock raiser from selling his produce anywhere in the world, where they could get the best price. He also pointed out that the government's attitude in this, as in other matters connected with the South African war, had been strictly neutral, and that the government had done nothing to prevent shipment of commodities to the Boer forces.

DENVER COUPLE ELOPE.

Come to Salt Lake—Married by Mormon Elder.

The following appears in the Denver Post:

"The most romantic elopement which has stirred Denver society since Miss Maybelle Myers became Mrs. C. D. Carey is the runaway match of Miss Cora Louise Canfield and Thompson Gregg Walton. These young socialites slipped away quietly Friday night, and went to Salt Lake City, where, according to the report, they were married by an Elder of the Mormon church, C. Frank Emery of the Church of Jesus Christ of Latter-day Saints."

"Neither Miss Canfield nor Mr. Walton have up to this time professed any adherence to the Mormon faith, and their marriage puzzles their friends. Miss Cora Louise Canfield has lived with her widowed mother, Mrs. Eliza Canfield, a wealthy widow, at 338 South Grant avenue, until she left to be married. She is a beautiful girl of the blonde type, only 21 years old, but she does not look more than 16. Her mother has a large number of admirers here, was a great favorite in her set, and her mother has lately been preparing to send her to a conservatory of music at Boston to complete her musical education. Miss Canfield is a graduate of the North Denver High school and has great musical talents."

Thompson Gregg Walton, 27 years of age, is a clerk in the office of the superintendent of terminals of the D. & R. G. railroad. From 20 years old he has inherited a large fortune from his father's estate. The young man is a native of New York, prominent in Capitol hall's swag, and was himself quite a beau until he placed himself in the ranks of bachelors yesterday.

The only objection to the marriage of the young folks was the youth of the bride. Mrs. Canfield wanted her daughter to wait a year or so, and in that time to cultivate her musical talents in Boston. When Miss Canfield reported this information to her fiancé he vowed he could not survive two years with her away from him. Then he began to plead with her, and the elopement to Salt

BOXERS FAILED TO SIGN ARTICLES

Burns Insisted That Peter's Manager Should Put Up \$500 Now.

MATCH IS NOW CALLED OFF

Championship Basketball Game This Evening—Rifle Club Shoot—Outside and Local Sporting News.

The proposed 20-round contest between Mexican Pete and Jimmy Burns will not take place, at least not in the near future. They wrangled again yesterday and last evening but could come to no satisfactory agreement.

Burns talked again. He insisted on Billy Bauer putting up \$500 now, but Billy wisely refused to accede to such unheard-of demands. As Bauer figures it out, Burns knew full well that he would not consent to put up so much money in advance and it furnished a good loop hole for Burns to avoid meeting the Mexican again. Supposing \$500 was posted and something should happen to Peter, Billy would lose the \$500. A sprained ankle, an injured hand in training or slight illness would cost him \$500 and he would not have a chance for his money. As he says it is the custom all over the country for the side bet to be posted just before the fight, and not three or four weeks in advance. Bauer would undoubtedly put the money if he felt disposed to run the chances and believed that the Burns people were acting in good faith. He was first to put up \$100 to bind the match but nothing came of it as the other side declined to come to terms. A number of the sporting fraternity were invited to see the match and they all declared that the demands of Burns were unreasonable and it looked as though he was really afraid to meet Pete again.

NOT ENOUGH SNOW.

Precipitation Is Deficient—Depth in Mountains Much Below Normal.

The report of Director Murdoch of the weather bureau, of the precipitation for the month of February is as follows:

The precipitation for February was generally deficient. The month was one of the warmest Februaries on record. As a result of the high temperature, a large part of the precipitation in the valleys was in the form of rain and the snow which fell in the mountains was generally deficient, but not decidedly so. Over the Great Salt Lake watershed the depth in the mountains at the close of the month was generally less than a year ago and much below normal. Over the Sevier lake watershed the depth was about the same as a year ago, and not much below normal. Over the Green and Colorado rivers watershed the depth was slightly below both that of a year ago and the normal. The snow is well packed. In the southern portion of the state it was below normal. The snow in the northern portion. The frost had generally disappeared from the ground by the middle of the month, which permitted nearly all of the snow to melt. The melting snow was taken up by the soil. The prospective water supply for the Great Salt Lake watershed has slightly improved, but is still much below normal. The water supply for the Sevier lake watershed now promises to be practically up to the average, and that for the Green and Colorado rivers watershed to be only slightly deficient.

Working Night and Day.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. These pills change a weak, nervous, and indigestible system into energy, brain-fog into mental power. They're wonderful in building up the health. Only 25c. per box. Sold by Z. C. M. I. Drug Dept.

MUNICIPAL MATTERS.

The council joint committees on streets and municipal affairs met in the office of Chairman Thomas yesterday afternoon, and after considering the petition, decided by a vote of five to two, to recommend the granting of a franchise to the Utah Home Telephone company. The Rocky Mountain Telephone company has made a strong fight against granting the new franchise, but the majority of the committee has decided that a rival telephone system would be very beneficial to the people throughout the city and state.

It was suggested that perhaps Mr. Jones, the promoter of the new company, might sell out to the old company, thus getting the franchise, as it was reported he did a year ago, but when it became known that the \$250 he received from the Rocky Mountain company was for attorney's fees only, the matter was dropped. Sharp and Virus opposed the franchise until it could be shown that the promoters were acting in good faith. They thought the company should incorporate before they were given a franchise. Fernstrom said that he was told that no steps would be taken to incorporate until the franchise was granted, but he was assured that \$250,000 of eastern capital was ready to be invested in the rival system and that the capital stock of the new corporation would be \$500,000.

It was remarked by Chairman Thomas that the people of Boise were greatly pleased with their rival telephone system. Since then, however, he was of the opinion that, if the company had the necessary funds, they should be given a franchise. E. H. Davis was in favor of the franchise because of the promise of the company to improve upon the present service and to cut the present rates in half.

The committee will meet with City Atty. Nye, Friday afternoon, 2 o'clock at his office to revise the proposed franchise before reporting it to the next council meeting.

OBITUARY.

Ida Virginia, daughter of Rodney H. and Lucy Fryer, departed this life Feb. 23, 1902. She suffered from pneumonia, spinal meningitis and erysipelas. The funeral was held Feb. 25, 1902. Choir sang, O My Father, Prayer by O. C. Loveland. Choir sang "Your sweet little rose bud has left you." The speaker was Jno. Forsgren, Dr. C. L. Olsen, Frost, Oleen Stohl, all from Brigham City, and Bishop Dewey, from this ward. Midway choir sang "Just as I am." Closing choir sang "Wanted on the other side." Ben C. Hansen. All took a last look at her. She was dressed in coronation silk. Inside the casket were coronation and white roses. At the cemetery the choir sang "Now we lay thee softly down to sleep." Virginia was loved by all. We all sympathize with the bereaved parents. Another little lamb has gone, to dwell with him who gave. Another little darling babe, is sheltered in the grave. God needed one more angel child amidst his shining band. And so he bent with loving smile and clasped our darling's hand.

A CAUSE OF HEADACHE.

One Very Common Cause Generally Overlooked.

Headache is a symptom, an indication of derangement or disease in some organ, and the cause of the headache is difficult to locate because so many diseases have headache as a prominent symptom: derangement of the stomach and liver, heart trouble, kidney disease, lung trouble, eye strain or ill fitting glasses, all produce headaches, and if we could always locate the organ which is at fault the cure of obstinate headaches would be a much simpler matter.

However, for that form of headache called frontal headache, pain back of the eyes and in forehead, the cause is now known to be catarrh of the head and throat, when the headache is located in back of head and neck it is often caused from catarrh of the stomach or liver.

It is a fact that catarrh is the most common cause of such headaches and the cure of the catarrh causes a prompt disappearance of the headaches. There is at present no treatment for catarrh so convenient and effective as Stuart's Catarrh Tablets, a new internal remedy in tablet form, composed of antiseptics like eucalyptol, guaiacol and iodoform, which act upon the blood and cause the elimination of the catarrhal poison from the system through the natural channels.

There is a picture of a woman's face, looking slightly to the side, with a serious expression.

Miss Cora Ainsley, a prominent school teacher in one of our normal schools, speaks of her experience with catarrhal headaches and eulogizes Stuart's Catarrh Tablets as a cure for them. She says: "I suffered daily from severe frontal headache and pain in and back of the eyes, at times so intensely as to incapacitate me in my daily duties. I had suffered from catarrh, more or less for years, but never thought it was the cause of my headaches, but finally became convinced that such was the case because the headaches were always worse whenever I had a cold or fresh attack of catarrh."

"Stuart's Catarrh Tablets were highly recommended to me as a safe and reliable catarrh cure, and after using a few of these boxes which I procured from my druggists I was surprised and delighted to find that both the catarrh and headaches had gone for good."

Stuart's Catarrh Tablets are sold by druggists at fifty cents per package, under the guarantee of the proprietors, that they contain absolutely no cocaine (found in so many catarrh cures), no opium (so common in cheap cough cures), nor any harmful drugs. They contain simply the wholesome antiseptics necessary to destroy and drive from the system the germs of catarrhal disease.

questioners as to how it happened. But they must not forget that I was beaten, and that is all there is to it. But, say, I think I can beat Terry yet, and I would welcome a return match with him. When Terry says so I'll clinch the match."

Basketball This Evening.

At the L. D. S. gymnasium this evening the weekly game in the city league will be played between the Y. M. C. A. and Company C taken from New York.

L. D. S. U. team has captured the championship, the question of second best is to be settled.

OUTSIDE EVENTS.

PUGILIST IS DYING.

Falls on Unpadded Floor and is Injured Fatally.

Chicago, March 6.—Samuel Upphouse, known in pugilistic circles as the "Brighton Slasher," is dying at his home, 317 West Twenty-second street, as a result of a knock out blow he received in a fight at Bricklayers' hall Saturday night. The police are searching for his opponent in the battle, but can only learn that he is known as "Young Chomsky," and no one knows where he can be found. It was in the fourth round of the fight that Upphouse received injuries. He was badly hurt, and after a terrible punishment in the second and third, and in the fourth was sent to the floor. His head struck the floor sharply and he was carried from the ring unconscious and later taken to his home. Since then his condition has been serious and this morning he was reported to be dying.

TOMMY RYAN MATCHED.

Will Box Twenty Rounds with Jack O'Brien, English Champion.

Kansas City, March 6.—Tommy Ryan today received a proposition from J. C. Gray, manager of the Southern Athletic club at Louisville, to box 20 rounds with Jack O'Brien, the middleweight champion of England, for the world's championship of 147 lbs. The world, the contest to take place before the Southern Athletic club Derby night, the first week in May.

Ryan tonight declined his acceptance of all terms of the proposition, except that he insists that O'Brien must weigh in at the middleweight limit at the ring-side. O'Brien wants to weigh 150 to 2 o'clock in the morning, and there is a side bet of \$250.

THE OAKLAND RACES.

Cambaceres and Duke of York 11 Were the Winners.

San Francisco, Cal., March 5.—The victories of Cambaceres and Duke of York 11, two 50 to 1 shots, were among the features of the racing at Oakland today. Bosman and Frawley, who have not figured conspicuously this season, had the mounts on them. Cambaceres won by four lengths from Golden Light, who did not get away well. Dean Swift was a 5 to 1 favorite for the second race, but Duke of York took command at the start and won easily.

The Gunst handicap at a mile and a sixteenth was won easily by Janice, while The Fretter beat Redwald for the place.

Formerly, the odds-on favorite for the fourth race, made a magnificent showing. Gray, matched the odds-on favorite, Malapina displayed a sudden reversal of form in the third race, but the Judges took no action in either instance. Murena, favorite for the last race, got away badly and stopped after being rushed to the front.

John Peters regained his speed and at odds of 12 to 1 beat Dr. Kelly and Philbrook. William Cahill bid up John Peters from \$400 to \$700, but John Schorr retained. Rain fell before the

CRESCENT CITY SUMMARY.

New Orleans, March 5.—Crescent City summary:

First race, five furlongs—Lady Buckle won, time 1:02. Second race, one mile and one-half furlongs—Malapina won, time 1:14. Third race, one mile—Hunt won, time 1:14. Fourth race, one mile—Hunt won, time 1:14. Fifth race, one mile and a sixteenth—The Fretter second, Redwald third, time 1:17.

Sixth race, steeplechase, handicap, short course—Bristol finished first, but was disqualified. Pallela won, time 3:28. Seventh race, handicap, one mile—Felix Bird won, time 1:04. Eighth race, one mile—Pharaoh won, time 1:04. Ninth race, one mile—Pharaoh won, time 1:04.

Tenth race, one mile—Pharaoh won, time 1:04. Eleventh race, one mile—Pharaoh won, time 1:04. Twelfth race, one mile—Pharaoh won, time 1:04.

Spontaneous combustion continues to endanger coal-storing vessels in spite of all attempts that have been made to prevent it. Successful protection is claimed at last by Mr. Clayton, of London, whose plan consists in injecting sulphur dioxide gas into the hold after loading and then battering down the hatches. Explosion and combustion are thus made impossible. In a recent test of this invention, torches were extinguished in a chamber containing six per cent of sulphur dioxide and a red-hot iron bar failed to ignite naphthalene-soaked straw and was quenched in a bucket of naphtha as in water.

A Night of Terror.

"Awful anxiety was felt for the widow of the brave General Burnham, of Machine, Mo., when the doctors said she would die from pneumonia before morning," writes Mrs. S. H. Lincoln, who attended her that fearful night, but she begged for Dr. King's New Discovery, which had more than once saved her life, and cured her of Consumption. After taking, she slept all night. Pure and entirely safe. This marvelous medicine is guaranteed to cure all Throat, Chest and Lung Disease. Only 50c. and \$1.00. Trial bottles free at Z. C. M. I. Drug Dept.

For all pulmonary troubles, HALLARD'S HOREHOUND SYRUP, taken in the early stages, proves a certain and sure specific. It is equally effective in croup and whooping cough, and if used in season prevents the further development of consumption. Price 50 cents. Z. C. M. I. Drug Dept.

Messner Gets Dan Patch.

Indianapolis, Ind., March 5.—Dan Patch (2:04 1/2), who made such a phe-

nominal record last season, has been sold by Daniel A. Messner, Jr., to M. B. Storgess of New York City for \$25,000.

There will be no change in the American league circuit this year. Of that I am certain. The matter will not be considered at the meeting as far as I know, more than informally.

By unanimous vote the American league adopted resolutions fixing the admission to the grounds in all cities except Philadelphia at 25c. 50c. and 75c. for bleacher, pavilion and grand stand respectively, and increasing President Ban Johnson's salary from \$5,000 per annum to \$7,500.

They also adopted the schedule for the season.

Before the meeting President Johnson said he thought last year's playing rules would be re-adopted.

When the subject of expansion of the American league was brought up President Johnson said:

"There will be no change in the American league circuit this year. Of that I am certain. The matter will not be considered at the meeting as far as I know, more than informally."
