

MITCHELL SAYS THAT DOLAN LIED.

Statement He Said Would be Satisfied With Present Agreement Malicious Falsehood.

HIS ELECTION NOT APPROVED

Not Certain Whether Another Convention Will be Called or Ultimatum Sent.

Pittsburg, Feb. 14.—The Pittsburg district miners' convention reassembled here today, with President Patrick Dolan presiding. National Vice-President Lewis read a letter from President Mitchell to the delegates. In this letter Mr. Mitchell deals with existing controversies and says:

"The question involved is, 'Has the regular district convention of the mine workers authority to impeach and remove any official of a district organization who has been charged with malfeasance in office?'"

"The president of the district alleges that inasmuch as he was elected by a popular vote of the miners of the district he cannot be removed from office except by the same power."

"I hold that a regular district convention has full power to impeach and remove from office any official who may be charged with neglect of duty, disobedience in office or violation of instructions."

"Entertaining these views as to the power of the district convention, I have no other choice than to decide in accordance with my intention at this time to make reply to the statement issued—although not written—by Mr. Dolan, which appeared in the various papers, more than to say that his allegation that I said to him during the Pittsburg convention of the American Federation of Labor that I should be well satisfied with a renewal of the present agreement is a deliberate, malicious and premeditated falsehood. No statement was made by me to him at Pittsburg."

"If I had ever entertained a sentiment in favor of the renewal of the present agreement I should have communicated that fact to my colleagues in the international office, or to the members of the international executive board. I certainly would not have gone to Pittsburg and divulged my feelings to one who has for years been unfriendly to my administration. Since the adjournment of the international convention I have refrained studiously from discussing publicly the affairs of the organization, and have allowed to pass unchallenged many aspersions and reflections upon myself. It is my intention, however, at the proper time and in the proper place to reply to all of these."

(Signed.) JOHN MITCHELL.

At the close of the letter a motion was made requesting the reading of the minutes of last Saturday's session. After the minutes had been read a resolution was unanimously passed not approving the portion containing the report of the tellers, which showed President Dolan and Vice President Bellingham's election by the miners.

The hearing upon the temporary injunction secured by President Dolan against the delegates attending the Pittsburg district miners' convention was postponed indefinitely this afternoon, following a conference between counsel for the litigants. It was agreed before the court that either side may go into court any time in the future and request a hearing and that during the remaining sessions of the convention parliamentary rules were to be observed. The temporary injunction is still effective.

It was stated here tonight that John Mitchell, president of the United Mine Workers, has called a special session of the national executive board, to take place in Indianapolis early in March. Developments in the coal fields since the adjournment of the interstate conference will be reviewed.

The board will decide whether to call another convention of the miners or to issue this ultimatum:

"An advance in wages or strike."

NEW IMMIGRATION BILL.

Excludes Those Who Believe in the Practice of Polygamy.

Washington, Feb. 14.—Senator Dillingham, chairman of the senate committee on immigration, today introduced a bill making a number of changes in the immigration laws. It proposes to exclude all alien imbeciles and feeble-minded persons and persons not comprehended within any of the classes now excluded by law, "who are certified by the examining surgeon as being mentally or physically defective, such mental or physical defect being of a nature which may affect the ability of such alien to earn a living."

Aliens who admit having committed a felony or other crime, or who admit their belief in the practice of polygamy, women or girls coming into the United States for any immoral purpose, children under 17 years of age who are accompanied by parents, unless coming to join parents, brothers or sisters already in the United States.

An attempt to land an alien not duly admitted is made a misdemeanor, instead of an unlawful act as at present. The provision of the present law which imposes a fine of \$100 on steamship companies for bringing persons afflicted with a loathsome or a dangerous contagious disease is extended to include idiots, imbeciles, feeble-minded persons, insane persons and epileptics. It is also provided that masters of vessels carrying aliens from ports of the

LET YOUR STOMACH HAVE ITS OWN WAY.

Do Not Try to Drive and Force it to Work When it is Not Able or You Will Suffer All the More.

You cannot treat your stomach as some men treat a balky horse; force, drive or even starve it into doing work at which it rebels. The stomach is a patient and faithful servant and will stand much abuse—ill-treatment before it "balks," but when it does you had better go slow with it and not attempt to make it work. Some people have the mistaken idea that they can make their stomachs work by starving themselves. They might cure the stomach that way, but it would take so long that they would have no use for a stomach when they got through. The sensible way out of the difficulty is to let the stomach rest if it wants to and employ a substitute to do its work. Stuart's Dyspepsia Tablets will do the work of your stomach for you and digest your food just as your stomach would when it was well. You can prove this by putting your food in a glass jar with one of the tablets and sufficient water and you will find the food digested in just the same time as the digestive fluids of the stomach would do it. That will satisfy your mind and body, and you will feel better. Now, to satisfy both your mind and body, take Stuart's Dyspepsia Tablets after eating—eat all and what you want—and you will feel in your mind that your food is being digested because you will feel better. In fact, you will forget all about having a stomach, just as you did when you were a healthy boy or girl.

Stuart's Dyspepsia Tablets act in a natural way, because they contain only the natural elements of the gastric juices and other stomachic fluids. It makes no difference what condition the stomach is in, they go ahead of their own accord and do their work. They know their business and surrounding conditions do not influence them in the least. They thus relieve the weak stomach of all its burdens and give it its much needed rest and permit it to become strong and healthy.

Stuart's Dyspepsia Tablets are for sale by all druggists at 50 cents a box. They are so well known and their popularity is so great that a druggist would as soon think of being out of alcohol or quinine as of them. In fact, physicians are prescribing them all over the land, and if your own doctor is real honest with you, he will tell you that Stuart's Dyspepsia Tablets are as good for dyspepsia as Stuart's Dyspepsia Tablets.

United States to foreign ports shall furnish complete descriptive lists of manifests of all outgoing aliens.

J. A. McCALL SAYS HE NEVER INJURED ANYONE.

New York, Feb. 14.—John A. McCall, ex-president of the New York Life Insurance company, sent from what may be his death-bed tonight a defense of his own work in the company and of his relations with Andrew Hamilton. The statement was made to his son, John C. McCall, and others gathered in the death chamber.

"If it's God will, I am ready to go," Mr. McCall told his son. "I've lived a clean life. I've lived my life as I saw it. No man, woman or child can say that I ever wronged them."

When asked whether his father made any reference to Hamilton, Young Mr. McCall said:

"My father has the greatest love and confidence for Mr. Hamilton. There was nothing wrong in Mr. Hamilton's relations with my father or the company. So great is his trust in Mr. Hamilton that if he were to make his will today he would name him as one of the executors."

N. Y. LIFE CONTRIBUTIONS TO REPUBLICANS, \$148,702.

New York, Feb. 14.—Recommendations that legal proceedings be instituted to recover contributions made by the New York Life Insurance company were submitted to the trustees of that company today by the special investigating committee headed by Thos. P. Fowler. It is recommended that the money be recovered from such officers and trustees of the company as is the judgment of counsel be liable therefor.

The report states that there is no record upon the books of the company to show that campaign contributions were given, but that information was obtained from the testimony of President McCall and Vice President George W. Perkins upon the stand before the Armstrong committee.

Your committee therefore recommends that special counsel be retained forthwith to institute such legal proceedings as may be necessary to recover the sums so contributed, from such officers and trustees of the company as is the judgment of counsel be liable therefor.

The campaign contributions referred to were made for Republican campaign purposes and aggregated \$148,702, divided as follows: Fifty thousand in 1896; \$50,999 in 1900 and \$48,702 in 1904.

No other campaign contributions, the committee declared, had been disclosed by the investigations.

Whether any of the sums charged to the policy fee account on the books of the Paris office were used for such purpose, the report continues "cannot be known until it is ascertained, through legal proceedings or otherwise, what disposition was made of them."

GOVERNOR OF ALASKA.

Brady Tenders His Resignation and It Is Accepted.

Washington, Feb. 14.—President Roosevelt this afternoon received and accepted the resignation of John G. Brady as governor of Alaska. The resignation was handed to the president on behalf of Gov. Brady by Judge Pease of New York.

No announcement of the successor to Gov. Brady has yet been made, but it is known that the president has in mind the name of the late appointment when made, will go to Lieut. D. H. Jarvis, formerly an officer of the revenue cutter service, who conducted a relief expedition several years ago to a party of whalers, Point Barrow, and who now is the general manager of a large salmon cannery company upon the North Pacific coast.

TO TEST RESERVED COIN.

Philadelphia, Feb. 14.—The commission recently appointed by Secy. of the Treasury Shaw to test and examine the weights and fineness of certain coins reserved at the several mints during the year 1905, met at the United States mint here today.

The commission includes Gen. Francis S. Dodge, U. S. A.; Prof. W. B. Risting, University of California, and John L. McNeal, Durango, Colo.

POSTMASTERS NAMED.

Washington, Feb. 14.—The president sent to the senate today the following nominations:

Idaho—J. H. Newberry, Mullan, Mont.—E. H. Ford, B. H. Risting, Washington—A. M. Blackman, Snohomish.

SENATE VOTES FOR SHIP SUBSIDY.

All the Votes Cast For the Bill Were by Republicans.

FIVE VOTED WITH DEMOCRATS

Aggregate Compensation for Mail is About Three Million Dollars Annually.

Washington, Feb. 14.—At a few minutes after 6 o'clock today the senate cast its first ballot on the subsidy shipping bill, which was passed by a vote of 35 to 27. All the votes for the bill were by Republican senators, and five Republican senators voted with the Democrats in opposition. They were Messrs. Burkett, Dooliver, LaFollette, Spooner and Warner.

The vote on the bill was preceded by action on a number of amendments, and this by an entire day of debate. Many important amendments were accepted, but only in one case was a modification agreed to that was not in accordance with the wishes of the managers of the bill. The exception was on an amendment offered by Mr. Spooner eliminating the provision giving half pay to members of the naval reserve who have served less than six months. As passed the bill establishes 13 new contract mail lines and increases the subvention to the oceanic line running from the Pacific coast to Australasia.

Of the 13 new lines three leave Atlantic coast ports, one running to Brazil, one to Uruguay and Argentina, and one to South Africa; six from ports on the Gulf of Mexico, embracing one to Brazil, one to Cuba, one to Mexico and the Isthmus of Panama; four from Pacific coast ports, embracing two to Japan, China and the Philippines direct, one to Japan, China and the Philippines via Hawaii, and one to Mexico, Central America and the Isthmus of Panama.

The bill also grants a subvention at the rate of \$5 per gross ton per year to cargo vessels engaged in the foreign trade of the United States, and at the rate of \$10 per ton to vessels engaged in the Philippine trade, the Philippine coastwise law being postponed until 1919.

Another feature of the bill is that creating a naval reserve force of 10,000 officers and men, who are to receive retainers, after the British practice.

Vessels receiving subsidies are required to carry a certain proportion of naval reserve men among their crews. The aggregate compensation for mail lines is about \$3,000,000 annually. No steam vessel of less than 1,000 tons is to receive aid under the bill.

Mr. Spooner moved to strike out the provision giving half pay to members of the naval reserve who have served for less than six months, and the motion prevailed, 34 to 30. This was the only amendment made to the bill in opposition to the wishes of its supporters.

Mr. Frye made a general speech in support of the bill, saying that the \$200,000,000 paid annually to foreign shipping should be used in developing an American merchant marine. He said the cost of operating American vessels was almost double that of foreign vessels and that the United States should give enough in bounty to equalize the conditions.

Speeches also were made by Messrs. Newlands, Patterson, Clay, Fulton, Bacon, Scott and Perkins, and Mr. Gallinger closed the debate with a brief reply to the criticisms made by other speakers.

Promptly at 5 o'clock the senate began voting on the various amendments. Many important amendments were accepted by the senate without division, and these included most of those suggested yesterday by Mr. Allison. The important changes made were the following:

Including seamen engaged in the trade of the great lakes and the coast in the naval reserve; limiting the reserve to 10,000 men; requiring annual instead of gross appropriations; confirming the subsidy to cargo vessels to steam vessels of more than 1,000 tons; sailing vessels of more than 200 tons, and fishing vessels of more than 20 tons.

American vessels engaged exclusively in foreign trade were to share in the benefits of the bill; giving authority to the United States to take immediate possession of a subsidized vessel for its own use in case of emergency; increasing to one-fourth, after 1912, the number of American citizens required in the crews of subsidized ships; increasing the subsidized gulf coast lines from four to six and the Pacific coast lines from three to four, and providing that they shall depart from Puget sound and the Columbia river.

The first vote and no vote was taken on a motion by Mr. Bacon to strike out the provision for a naval reserve. It was lost—25 to 38.

Mr. Patterson then submitted his amendment providing that no part of the subsidy should be paid to ships employing Chinese as a part of the deck crews. The amendment was lost—17 to 47.

An amendment by Mr. McLaughlin providing that no part of the subsidies provided for should be paid to senators, members of the house or other federal officials was voted down without division, as was a motion by Mr. Newlands to recommit. The vote was then taken on the passage of the bill, resulting in 35 ayes and 27 noes.

FAILED.

All efforts have failed to find a better remedy for coughs, colds and lung troubles than Foley's Honey and Tar. It stops the cough, loosens the chest, prevents serious results from a cold. J. N. Patterson, Nashua, Iowa, writes: "Last winter I had a bad cold on my lungs and tried at least half a dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two-thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." For sale by F. J. Hill Drug Co.

The Doctor Always Asks

FINANCES OF GUAM ARE MORE FLOURISHING.

Agaña, Guam, Jan. 5.—(Correspondence of the Associated Press.)—The finances of the island are in a more flourishing condition than for some time past, trade having received a considerable impetus from the formation of the new concerns and the increased trade of the Japanese. The island is also gradually recovering from the severe loss sustained in the typhoon and earthquake of four years ago. Property is advancing in value and larger crops are being raised.

The American schooner Dolores (Herero), arrived Dec. 13 from Shanghai and reported the wreck of the American schooner North Star, Capt. Frazer, on the east coast of the island of Rota three days before, in an easterly gale. The Dolores escaped unhurt after losing all her anchors. The naval collier Naahon was sent to Rota to render assistance and upon her return she reported that the North Star was a total loss with all her cargo save a few cases consigned to Guam. Capt. Frazer and the crew and five passengers for Guam from the North Star were saved, and brought to this place by the Japanese schooner Chomei.

The weather has been extraordinary for Guam the past few weeks. Many deaths have occurred and severe colds have been epidemic.

Christmas was celebrated in as true American style as the possibilities of the situation would permit. Great interest was taken by the Americans in celebrations for the native children. A number of entertainments were provided. A feature was a floating Christmas tree, magnificently decorated, which was paraded through the streets of Agaña, drawn by six plumed gauds with costumed outriders and preceded by a native band, and from which Santa Claus distributed abundant good cheer and good things.

A large number of children was added to the schools at the beginning of the year. Compulsory education has been in operation but two years and to three and four years of age. American occupation were such as to cause considerable difficulty in enrolling all children of school age, from 7 to 14 years, up to the present time. The desire to learn English and the improvement in the schools has assisted in the work and it is believed that within the next term every child of school age will be brought within the operation of the laws.

Guess When 10,000 Will Be Reached!

THE Rocky Mountain Bell Telephone Company offers two prizes in a guessing contest, based on the following terms, and conditions:

"To the person who shall guess nearest the day, hour, minute and second when the subscriber numbering 10,000 signs a contract for Bell telephone service in Salt Lake City, \$25.00.

"To the next nearest guess, one 25-dollar book of toll coupons, good in payment for toll line service.

One guess allowed to each individual.

For the general information of the public it is stated that on February 1, 1906, we had 9721 subscribers in Salt Lake City, and we expect to reach the 10,000 mark during March.

This contest, which is now in force, and shall last until March 10, or such later date as the 10,000 may be reached, is open to everybody, excepting employees of this company.
