STOCKS WERE ACTIVE TODAY.

Grand Central Puts on a Spurt, but Weakens at the Close.

Lower Mammoth and May Day Soltening-Swansea Traded In-Joe Bowers Lower.

TODAY'S METALS:

SILVER 61% LEAD, \$3.87% CASTING COPPER 1514

Th enumber of stocks traded in on the Exchange today is greater than for several days past, though the volume of business is not high. Grand Central was quite active today at much stiffer prices than bave ruled for some time past. The stock sold up to \$6.13, but weakened to \$6.05 before the close of

Lower Mammoth was also & very active at prices ranging from 54% to 53. Altogether about 1,000; shares were transferred today.

Mammoth sold at \$2,12%, while Swan-

sen let go 100 at \$3.95. Sunbeam was brought out on a bid of 12 and May Day responded at 92½. Valeo sold at 25½, while Joe Bowers continues to grow softer with sales go-

Golden Eagle dropped 11,000 at 1, Galena sold at 2 and Northern Light was traded in up to 1%.

Centennial is much weaker in spite of the great strike reported on the 800 level.

Dexter is a little weaker as isDalton .

CONDITIONS IN TINTIC DISTRICT

David Evans Returns Much Pleased With His Visit to the Bonanzas.

THE STOCK SOLD UP TO \$6.13 AT THE EUREKA HILL MILL

Fortune Shipments Lower Mammoth

-Nevada Copper Company

Mining Notes: David Evans returned to town today after an extensive visit among the bonanzas of Thitle for several days past, While away Mr. Evans looked over the

Grand Central, Mammoth, Gemini, May Day and other big properties and is emphatic in saying that the outlook for the district is excellent. In spice of the fact that a number of prospects have been worked without encountering pay ore, conditions in the district are bright-ening all the time. All of the big prop-erties are said to be looking well, in-cluding the Bullon Beck.

The new compressor is now in use at the Black Jack, in which Mr. Evans is largely interested. The management will continue sinking and at the same time push prospect work in the upper

LOWER MAMMOTH.

Accident Causes Work to Cease for Day or Two-The East Drift.

An accident has happened to the com-An accident has happened to the compressor of the Mammoth mine which will delay work at the Lower Mammoth, as that mine depnds on the former for air until the new electric motor arrives. At last report from the Lower Mammoth, Judge Ellis says an apraise was being extended from the 700 level to the winze from the 600 level. About nine mine cars of ore have been taken out, but the marketing of ore will not out, but the marketing of ore will not begin until connection has been made Ith the winze. At the same time irift is being run east from the 790 leve to get under the cave found on the 600 evel, where some good ore was found

EUREKA HILL MILL.

Sixty Stamps Are Now Giving a Good Account of Themselves.

Secretary George W. Riter of the Eureka Hill Mining company came in from the mill fals morning, where he has been superintending operations for the past two weeks. Mr. Etter was rejuctant about talking about the prop-erty further than saying that 60 stamps are now droping on ore, which means a daily treatment of about 1 cons. All of the adjustment secessary after a shut down, have no been made, and the mill has fairly er A very successful run is anticl-

LITTLE MARION INCORPORATES Salt Lake and American Fork Parties Form New Mining Company.

Articles of incorporation fo the Little Marion Mining company were filed with the county clerk today. The parties to the agreement are L. E. Boukofsky and the agreement are L. E. Boukofsky and Morris Sommer of this city, and Squire Chipman, John E. Campbell, F. A. Henriod, Stephen Woods, E. J. McCleery of American Fork. The capitalization is placed at \$40,000, with shares at 10 cents each. L. E. Boukofsky is president; Squire Chipman, vice president; and Morris Sommer, secretary and treasuer. The company's property is situated near the head of Middle canyon, about half a mile from Hansen's Cabin in Toocle county, and consists of the Little Duff and six other claims.

WASHINGTON COUNTY ITEMS Rich Strike in the Savanac - Silver Reef Mines Looking Better.

Alexander Macdonald, the superin-tendent of the Savanac mine, came in last Sunday to engage teams to take out provisions and haul in ere. Mr. Mac-donald reported a very rich strike in the Savanac on the 12th inst. of a very large body of 52 per cent copper ere. large body of 52 per cent copper ore. The strike was made while putting in a station at a depth of 75 feet in the shaft. Mr. Macdonald is feeting good over the showing the mine is making.

J. S. Hantsman of Logan. Nevada, pased through here en route to his minning property in Bull Vailey Monday, Mr. Huntsman and associates are prosecuting work on one of the claims, the Coper Queen, and Mr. Huntsman reports an excellent body of ore at a depth of thirty feet. Messrs. Huntsman and Dotson have sold three of their claims to Homer Mills of St. Joseph and William Liston of Upper Muddy. Muddy. W. D. Newton of Silver Reef was in

this city Wednesday, Mr. Newton says that the mines of Silver Reef are looking betetr than at any time during the past nine years, and that the Bar-bee mill is running nicely, the new Liefelle wheel working to perfection.-Washington County News.

SHOT UP THE TOWN.

Band of Sheepmen Warn Prospectors Against Making Locations.

A dispatch from Grand Encampment Wyo, last evening says: A band of sheep men visited Coppertown, a mining town, twentymiles west of here, and "shot up the town," riddling the saloons and other buildings with but-It was done as a warning prospectors to leave the locality, which used as a range by the she The miners are making preparation to resist further raids.

SNAKE RIVER GOLD.

C. S. Crossman Believes His Ma-

chine Has Solved the Difficulty. C. S. Crossman, the dredge man of Snake river, was in town Monday on business connected with his big gold saving machine that is now located at Bridge Island and about two miles west Parma, says the Caldwell (Ida.) Rec

Mr. Crossman said he had eight mon at work and was running two shifts at a cost of \$1.50 per hour that they were handling about 1,500 cubic feet every 24 hours. The [st-land where they are now located consists of about 1,000 acres, it is all gold bearing but a portion is not sufficiently rich to justify working it. Mr. Crossman believes that he has

Mr. Crossman begaves that he has a loy cache county eapital. A reduction solved the Snake river gold-saving proposition. He uses what is called the gravity system, that saves 80 per cent of the values before the gold gets to the burlaps. He has a liquid pre paration that he has parented, through which the remaining 20 per cent to- even to the unexperienced.

gather with the black sand that passes over a burlap table 60 inches wide, with about two inches of water to another mable 1,200 luches in width. All the black sand and the small particles of gold that is coated with silica is treated to a meredry bath that is kept constantly in motion until it will amal-

Mr. Crossman is very enthusiastic Mf. Crossian is very over his machine and that it is a success is proved by the handsome returns that he is receiving for his work, which is netting the company during each working hour \$10. In 70 days they moved \$15.000 cubic yards of

NEVADA COPPER CO.

Assays from a New Shaft-Tunnel to Tap Vein at Depth of 600 Feet.

Assays have been received from the levada Copper Mining company's roperty at Duck Creek, White Pine ounty. Nevada, that show 10 per cent opper. 6.4 per cent. load and 2.5 ounces silver per ton. The samples were taken from a new shaft at a depth of 36 feet. from a new shart at a depth of so feet. Some very high grade copper has been found on the property and four men are at present engaged in running a funnel towards the vein, which will be tapped at the depth of about 690 feet. Owing to the steepness of the incurit is said that the turnel will not have to be run over 100 feet.

FORTUFE SHIPMENT.

A Five-Car Lot of Concentrates Show 21 Per Cent Lead.

A 5-car lot of concentrates from the Fortune Mining company of Bingham was settled for today which are said to have netted the company \$12 per ton. The assay returns showed 21.5 per cent lead, Il ounces silver and an excessor of 22.6 per cent iron per ton. The mill is putting through about 40 tons per day, and has without doubt entered upon a successful run. Later on it is expected that the copper ores in the mine will be treated and the space for the neces-sary machinery is ready for the time when it shall be installed. A shipment of crude ore will be on the market

JESSE EWING TUNNEL. Very Important Copper Strike Re-

corded at Depth 400 Feet.

The Vernal Express says that perhaps the most important strike that has ever been made in that section of the country was made a little over a week ago in the Old Jesse Ewing tunnel about 1,000 feet into and 400 feet from the top of the hill. This makes it the deepest mine in Uin-tah county. Some time ago an account of the discovery in the Jesse Ewing unnel of a vein of quartz containing syrites of iron was published in the clumns of the Express. A test of the naterial uncarthed at that time proved contain no values. The work or the trinnel was abandoned for a time, but Just before leaving the district Henry A. Woodruff having been directed by Mr. Hacking put in a few days work in the various drifts in the old workings. As it happened the last shot broke through the pyrites and uncarthed a fourteen inch vein of what appears to be red oxide of copper and besides it a large body of copper glance, the size of which is not yet known. The discovery was followed no further than lean up the ore that was loosened

The copper glance has the same appearance as the bigh grade ore that was discovered at the top of the hill by Jesse Ewing and by him followed tween fifty and sixty feet where a It was to find the lead below the that a tunnel costing over \$30,ood was run years ago, and an abandon-ment of the work was caused by the death of Jesse Ewing. For that rea-son the finding of this high grade ore in such deep working is almost an assurance that a permanent mine has been opened, which fact is proved by the new vein cutting the formation squarely and being found in place between well defined walls.

MINING NOTES.

The Conklin sampler reported 14 cars of ore from Tintic today.

Three cars were marketed today by the Bultion Beek of Tintie

The Mammoth of Tintic was on the market today with 12 cars of ore.

The Grand Central of Tintic was on the market today with a cars of ore,

The Taylor-Brunton sampler reported 8 cars of ore from Tintic and I from Nevada today. It was reported today that a man was

killed at the Mammoth mine, through an accident to the air compressor, A car of copper matte reached the market today from Glasgow & Western

Exploration company's plant at Golcon-da, Nevada. A special meting of the Orient Min-ing company is called for August 4th at which time the proposition to resume work will be considered.

A. Van Patten of Ogden was visiting the metropolis today. Mr. Van Patten is largely interested in the Carbonate Gem mine in Morgan county. Glen R. Bothwell went ont to the

Sacramento Ioday. The reasting ma-chinery was shipped on the lith inst. and is expected to arrive any day,

M. W. Taylor, who lately returned from Mexico, reports that a great deal of machinery is being installed at a number of promising mining properties In the State of Chihuahua.

F. R. Ball, J. A. Brown and Surveyor Rigney went out to the West Argent mine at Stockton today. It is presumed their visit has something to do with the proposed mill, the contract for which will be let in the near future.

The Tuscarara Times-Review says of the superintendency of R. G. Legg at the Dexter: "During his incumbency Mr. Legg has made many friends in Tuscarora, who will regret his departure from the district and who will wish him success in whatever field he may locate."

Laramie Boomerang: W. S. Stratton, the millionaire mine own-er of Colorado, and a number of associates have interested themselves in mining properties in Wyoming, and have incorporated the Stratton Cripple Creek Mining and Development com-pany, with a capital stock of \$10,000. 000. The fee paid the State was over \$500. The incorporators were W. S. Stratton, D. H. Rice, William A. Ram sey. Walter A. Baldwin and Jonas H.

Logan Journal: A number of prominet Logan parties will visit the Niel-sen mine in Blacksmith Fork today Mr. Nielsen has uncovered a vein of ore, the shipment of which will pay ore, the shipment of which will pay from the start. We should like to see it owned, incorporated and developed by Cache county capital. A reduction works or a complete smelting plant built as close as possible to the works, would greatly enhance the value of the property, and would soon pay for itself. The vein has been, uncovered and that it is a true feature is evident.

PRICES GENERALLY LOWER

Wall Street Market Was Active But Soon Became Dull,

Day's Work Shows Fractional Net Losses - Live Stock Stendy -Produce Finetuating.

New York, July 25 .- With one or two exceptions, prices of stocks were lower in the opening dealings, the dealings. ranging from a fraction up to about a point in Brooklyn transit, sugar and Tennessee coal, Lower prices from London and a continuance of yesterday's selling movement were the causes of the decline. The market was quite active. After the opening American tobacco was marked up 24, and sugar and Brooklyn transit a point when realzation commenced in the leaders. This cancelled the rise in sugar and Brooklyn transit. Railroad stocks drifted downwards and there was prenounced heaviness to the steel group. The market relaxed and there was a slow re-covery. The rally, however, did not reach large proportions outside of su-gar, Brooklyn transit and the tobaccos, which rose a point.

Honds were inactive and lacked decisive tone. The stock market remained sluggish

and dull with the exception of Metro-politan and some of the steel stocks, during the last hour. The closing was about steady with fractional net losses.

Reaching the famous Hot Springs, Ark, "the Carlsbad of America;" also direct route to KANSAS CITY,

THE DENVER & RIO GRANDE R.R.

"Scenic Line

of the World." The only line having three dally Fast Express Trains and Dining Cars between Grand

Junction and Denver This is the popular route to Leadville, Cripple Creek, Pueblo Denv r and all points East. S. K. HOOPER,
G. P. & F. A., Denver, Colo.
B. F. NEVINS, H. M. CUSHING,
Gen'l Agent, Trav. Pass. Agt.

Salt Lake City, Utah.

Our cars are no better—in themselves—than the cars of other lines. It is what is INSIDE them that makes them more comfortable. For instance: The seats in our reclining-chair cars are provided with lines head pieces—clean and cool. Our dining-cars have electric fans, and are gorgeously decorated with flowers. In every car is a thermometer, which the porter constantly consults in order to keep the temperature of his car be bear

ly uniform as possible.

By themselves, there mines are trifles, but the sum total of them goes a long way toward making a trip over the Burlington a mighty enjoyable experi-Burlington trains leave Denver 4.00 and 10.00 p. m. for Omaha, Kansas City, St. Louis, and Chicago.

lickets at all R. G. W. Ticket Off.
