This Sutton did about 1 o'clock when he walked into the police station. He said he ran away because he thought he had killed Hancock. He told the officers that Hancock had some kind of weapon in his hand and that he fired in self-defense. Mrs. Sutton corroborated her husband's statements. At the station

this morning Sutton made the following statement to the "News:" "My wife and me were in the kitchen. was sitting by the range. Hancock ame down the backstairs and said something to my wife about moving of changing his room. I spoke up and told him it was his move and that he had all day to move. He said I was not running the house, that someone else had some the house, that someone else had some say. I replied that I guessed not as iong as I was paying the bills. I told him that if anybody else had any say there, that I was from Missouri and he would have to show me. He walked over to where I was then, and I saw something in his hand. I would not swear it was a knife but I think it was, or a gup. He then put it in his pocket er a gun. He then put it in his pocket and said he would like to pay a fine to give me a licking. I told him he hadn't

better start anything he could not stop because it meant dangerous business to start anything with me in my own house. Then he slapped me in the ace and the business began. "The story that he had been too fam lliar with my wife is not true, so far as I know. He offered her no insult

I did not like him; he was too fresh and important about the house. I am glad I did not kill him. I acted quick because I had to, and that's all there is YOUNG MAN WANTS WORK FOR board. Apply Moler, 62 E. 1st South. There were blotches of blood on Sut-
